Aug., 4th	14	8vo ...	1st ...	1,000	ditto ...	0 4 0	Syed Mokaddas Ali, Atia.	This is a humorous work directed against the innovations introduced in the manners and customs of Muhammadans by the Wahabis. The Wahabis forbid the use of tobacco, and so the writer says that tobacco was	508
first produced from the tomb of Bakul and Tan, man and wife, who were buried in the same grave, and that it is a sort of pledge for love and friendship among men. The Wahabis forbid the use of tobacco because it has a bad smell, but they do not scruple to deal in hides the bad smell of which is absolutely intolerable.

„ 20th	122	12mo dy	1st ...	1,000	ditto	G. C. Raya, Chaudhuri, Ahiritola, Calcutta.	This is a treatise relating to a <i>shastra</i> which is technically called <i>swarodaya</i> "rising of the voice." It concerns itself with foretelling good or evil by the nature of our respiration.	1031
Breath may be long or short warm or cold, it may be restricted to the right nostril or to the left, and each breath by its characteristics is made to foretell good fortune or otherwise to the man. The normal length of respiration is twelve <i>anguli</i> , if a man can reduce it by one <i>anguli</i> , he becomes a <i>jogi</i> fit for receiving <i>Nishkāmdharma</i> , if he can reduce it by two he becomes always happy, if by three he becomes a poet and so on.

CALCUTTA AND SUBURBAN MUNICIPALITIES AMALGAMATION BILL.

THE HON. SIR HENRY HARRISON presented the final Report of the Select Committee on the Bill to consolidate and amend the law relating to the municipal affairs of the Town and Suburbs of Calcutta. He said:—In presenting this report, I owe it to the Committee to state that they have devoted much care and time to the consideration of the many suggestions with which they have been favoured by the several Associations and other Public Bodies who reported on the Bill. We wished we could have presented this report at an earlier period, in order that the public might have had a longer time to consider it before it must be taken up again by the Council. But the time which we have taken to give adequate consideration to all the material points laid before us has been such that, though we have made every speed consistent with due care, we have not been able to complete our work at an earlier date. As regards the report itself and the Bill which accompanies it, I may perhaps be permitted to let them speak for themselves. It will suffice to say that the main alterations we have made are connected with the system of levying the rates with the water-supply, and above all with the building regulations. I may observe that the whole of these come, if not in the latter part of the Bill, at least towards the middle of it, and therefore if the Bill is taken into consideration, say three weeks from the present time, it should not be inferred that only three weeks are therefore allowed for the consideration of the most important changes in the Bill. The earlier chapters of the Bill have been very little altered indeed, and substantially these have been before the public for the whole space of a year. Consequently, before we reach in Council those portions of the Bill in which material changes have been made, a considerably longer period will have elapsed. With these remarks I ask the Council to accept the Report.

The HON. SIR HENRY HARRISON then moved that the Bill as further amended, with the final Report of the Select Committee thereon, be published in the *Calcutta Gazette*.

The HON. BABOO KALLY NATH MITTER moved that the words "for at least six weeks" be added to the motion.

The HON. THE PRESIDENT said:—The motion before the Council is to publish the Report of the Select Committee and the Amended Bill. No time is fixed. The Hon. Member can bring forward his proposal as a separate motion if he thinks fit.

The HON. SIR HENRY HARRISON's motion was put and agreed to.

The HON. BABOO KALLY NATH MITTER then moved that the Bill be published for at least six weeks. He said the changes which have been made in the Bill are so numerous and so important that it is absolutely necessary that the public should be afforded a reasonable time to consider them before the Bill is taken into consideration by the Council, and I think six weeks is a reasonable time to give for the purpose. Anything short of that would be too little. Not having been furnished with a copy of the Bill as altered by the Select Committee, it is impossible for me to point out the various and numerous changes made in the Bill. Besides, as far as I am concerned, the Bill has now been presented in a form which is far more objectionable than what it was when last reported upon. Many of the alterations which have been made are such that I am entirely opposed to them, and knowing, as has been hinted, that the people of Calcutta intend to hold a public meeting to consider the provisions of the Bill, I think it is better that they should be afforded an opportunity of submitting their representations, so that, before the Bill is taken into consideration by the Committee, we should have the views of the public put before us in an intelligent and proper manner.

The HON. MR. MACAULAY said:—I submit it is quite unnecessary to give such a long period for the consideration of this Report and Bill. The Select

the *Calcutta Gazette* for the information and guidance of the Magistrates within the Presidency of Bengal, as follows:—

AT THE COURT AT OSBORNE HOUSE,
ISLE OF WIGHT.

The 29th day of December 1887.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY.

LORD PRESIDENT.
SIR AUGUSTUS PAGET.
MR. RITCHIE.

WHEREAS by the "Foreign Deserters Act," 1852, it is provided that whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any foreign power, Her Majesty may, by Order in Council stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such Power when within Her Majesty's dominions shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such Order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen who desert from British merchant ships in the territories of the Republic of Paraguay will be given under a Treaty between the Governments of Great Britain and Paraguay signed at Assumption on the 16th October 1854:

NOW, THEREFORE, Her Majesty, by virtue of the powers vested in Her by the said "Foreign Deserters Act," 1852, and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that, from and after the publication hereof in the *London Gazette*, seamen, not being slaves (and not being British subjects), who desert from merchant ships belonging to the Republic of Paraguay within Her Majesty's dominions shall be liable to be apprehended and carried on board their respective ships; provided always that if any such deserter has committed any crime in Her Majesty's dominions he may be detained until he has been tried by a competent Court, and until his sentence (if any) has been fully carried into effect.

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council are to give the necessary directions herein accordingly.

EDUCATION DEPARTMENT, BENGAL.

The following is published for general information.

A. CROFT,

Director of Public Instruction.

Dated Agra, the 3rd February 1888.

From—The Secretary, Khatri Hitkari Committee,
To—The Director of Public Instruction of Bengal.

With a view to encourage high education among the Khatri, it was resolved at a meeting of the Managing Committee of the Khatri Hitkari (a monthly national journal published at Agra)—

- (1). That the following medals and prizes be awarded to such Khatri and Saraswat Brahmin lads as pass most successfully the next B.A., F.A., and Entrance Examination of the Calcutta University and the Middle Class Anglo-Vernacular Examination of the North-Western Provinces and Oudh:—

B. A. Examination—One medal or watch worth Rs. 40.

F. A. Examination—Two prizes of Rs. 30 and Rs. 25 respectively.

Entrance Examination—Two prizes of Rs. 25 and Rs. 10 respectively.

Middle Class Anglo-Vernacular Examination—One medal or watch of Rs. 15.

- (2). That the Director of Public Instruction of Bengal be requested to give publicity to the above Resolution in Bengal.

For this favour the Committee will feel highly obliged to you.

The following candidates have passed the examination for the admission of females to the Certificate Class of the Medical College, Calcutta, held on the 14th February 1888 and two following days:—

Mrs. M. Scott.

| Miss A. M. Solomon.*
Miss Grace Woods.

* Passed in dictation, in which subject alone she was liable to examination.

A. CROFT, *Director of Public Instruction.*

The 21st February 1888. :

NOTIFICATION.

IN accordance with the Government of Bengal Notification of the 23rd July 1887, notice is hereby given that the next half-yearly examination of Compounders will be held at 11 A.M. on Monday, the 2nd April 1888, and subsequent days, at the Campbell Medical School.

2. Every candidate must produce one of the following certificates:—

- (a) From the Superintendent of a vernacular medical school that he has attended regularly for one year the compounder class of the school.
- (b) From the legally qualified medical manager of a chemists' and druggists' establishment recognized by the Inspector-General of Civil Hospitals, Bengal, that he has been apprenticed for a period of three years in his establishment.
- (c) From a Civil Surgeon that he has assisted in the dispensing of drugs at the sudder dispensary of a civil station for a period of five years.

3. Applicants must register their names and submit their certificates, together with a fee of Rs. 3, at least one week before the 2nd April 1888, at the office of the undersigned.

Note.—The students belonging to the compounder class of a vernacular medical school will be exempted from paying this fee on producing a certificate from the Superintendent that they have already paid the school entrance fee.

4. Should any candidate fail to pass the required examination, he will forfeit his fee.

N.B.—The attention of candidates is drawn to rule 5, section (b) of the Government Notification of the 23rd July 1887, from which they will observe that the chemists' and druggists' establishments, from the legally qualified medical managers of which they obtain their certificates, will have to be recognized by the Inspector-General of Civil Hospitals, Bengal, prior to the candidates applying to the Superintendent to register their names to appear at the examination.

S. C. MACKENZIE, M.D., *Superintendent, Campbell Medical School.*

CAMPBELL MEDICAL SCHOOL, CALCUTTA, the 17th February 1888.

Educational Prospectus.

The Calcutta Medical College Session, 1900-01, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, i.e., Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following:—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the first and second years' Test and Honour Examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results on the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Churan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

Goodeve scholarship of Rs. 12 per mensem is annually awarded to students of the 5th year on the result of the Midwifery Test Examination of the 4th year.

F. C. Chatterjee scholarship of Rs. 17 per mensem is annually awarded to the best students in Histology at the end of the 4th year.

Abdool Gunny scholarship of Rs. 26 per mensem is annually awarded to the best student at the General Examinations of the 1st to 4th year.

Duke of Edinburgh's prize is awarded to the best in Surgery at the end of the 5th year.

Bhola Nath Bose's prize of Rs. 40 is awarded to the best clinical clerk in Surgery and Medicine in alternate years.

A gold medal and certificates of honour are awarded to the best students in each subject.

Goodeve and Macnamara silver medals are given to the 1st year students in Anatomy and Chemistry, respectively.

11. College scholars, who receive less than Rs. 20 per mensem, are not required to pay Rs. 30 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence.

13. This College classes are acknowledged by all the Medical Schools in the United Kingdom.

14. The class assistantships of Pathology, Physiology, and Comparative Anatomy can be held only by matriculated students of the College :—

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comer till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 28th February 1888.—It is hereby notified that, under section 14 of Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to appoint the following gentlemen to be Commissioners of the Bankoora Municipality:—

Dr. J. Wilson.
Baboo Harihar Mookerjee.

Munshi Alizamin.
Baboo Nobogopal Banerjee.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 2nd March 1888.—It is hereby notified for general information that, in exercise of the power vested in the Local Government by section 351 of Act III (B.C.) of 1884, and on the recommendation of the Commissioners of the South Dum-Dum Municipality, made at a meeting, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Commissioners of the said Municipality under section 350 of the said Act.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

1. The ordinary meetings prescribed by section 38 of the Act shall be held on a fixed day of each month to be previously decided upon.

2. A notice of the business to be brought forward at every meeting shall be circulated, by hand or post, to each Commissioner, and shall be hung up at the office of the Commissioners not less than three days before the date of the meeting.

3. Any Commissioner desirous of submitting any motion to the meeting must forward a copy of such motion to the Chairman not less than seven days before the date of such meeting for incorporation in the notice of business. A notice-book shall be kept in the office of the Commissioners in which all notices of motions shall be entered. All such notices shall be dated and numbered as received.

4. At ordinary meetings the business shall be transacted in the following order, unless the President, with the consent of the majority of the members present, determine otherwise:—

- (a). The minutes of the last ordinary meeting, and of any special meeting since held, shall be laid before the meeting and confirmed if approved as correctly entered.
- (b). Any business postponed from the last ordinary meeting.
- (c). The business contained in the notice of the meeting prescribed by rule 2 above in the order in which it appears in the notice paper, unless the President, with the consent of the majority of the members present, determine otherwise.
- (d). Additional business brought forward by the President with the consent of the majority of the members present, provided that any decision recorded or resolution adopted in regard to such business shall be subject to confirmation at the next ordinary meeting or at a special meeting.

5. At an adjourned meeting no business, save that which the original meeting left unfinished, shall be transacted, except as provided in rule 7 below.

6. At a special meeting no business, save that for which the meeting was called, shall be transacted, except as provided in the following rule.

7. Provided, however, that any additional business may be brought forward at an adjourned or special meeting subject to the conditions of rule 4 (d) above, and also subject (in the case of an adjourned meeting) to the full quorum required by section 42 of the Act being present.

8. Every motion or amendment shall be reduced to writing and seconded before being put to the meeting or debated. The mover of any motion or amendment may withdraw the same at any period of the debate.

9. Every amendment shall be so worded as to form an intelligible sentence, either alone or in its proper place, in an original motion, as the case may be; provided that no amendment can merely negative the original motion.

10. The President may, for the reasons to be entered in the Minutes of the Proceedings—

(a) rule that a motion or amendment is illegal or out of order; and

(b) make such alterations in a motion or amendment as shall, in his opinion, render it legal and in order: and may in case (a) refuse to put the motion or amendment to the meeting, and in case (b) refuse to put the motion or amendment to the meeting unless and until the proposer and seconder accept the alterations so made: and the decision of the Chairman shall be final. Provided that any three Commissioners may ask the decision of the Magistrate of the district on any ruling of the President under this rule, and it will then be open to the Magistrate if he thinks fit to set aside such ruling for reasons to be recorded by him.

11. In discussing questions coming before the meeting, a Commissioner shall speak from his place and address the President. A Commissioner shall not be allowed to read his speech, but he may refresh his memory by referring to notes, and he may read, as part of his speech, passages from books or papers cited in support of his argument. No Commissioner shall be heard except upon business then regularly before the meeting, or by permission of the President specially obtained in explanation of what he had said in a previous debate. No Commissioner, other than the mover, shall speak more than once upon a question except by way of interpellation or by permission of the President, but the mover shall be allowed, if he have spoken to the question when making his motion, to close the debate with a reply. A Commissioner who has spoken upon a motion may speak once again upon any amendment thereof afterwards moved: and a Commissioner may explain by permission of the President what he has before spoken if it has been misunderstood. No Commissioner in debate shall name another Commissioner.

12. Votes shall be taken either by show of hands, or by poll, or by both. The votes of the Commissioners at a poll shall be taken by the President. Any three Commissioners present may demand a poll. When the show of hands has been taken, the President shall declare whether the resolution has been carried or not, and every matter shall be held to be decided and concluded on such declaration being made unless a poll be at once demanded.

13. Voting by proxy is prohibited, and no member may vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

14. When an amendment upon any motion is moved, or when two or more such amendments are moved, the President, when taking the sense of the meeting thereon, shall read the terms of the original motion and of the amendment or amendments proposed. If there be but one amendment proposed, the question shall be put as proposed to be amended; if the amendment be carried in the affirmative, the original motion falls; but if the amendment be negatived, the original question shall be put to the meeting. If more than one amendment be proposed, the President shall put that amendment first which he thinks may most conveniently be first disposed of: and so, if necessary, of all the others. If any motion, as made, involves several points, the President at his discretion may divide it, so that each point may be determined separately.

15. When any Commissioner shall have occasion to ask a question of another Commissioner relating to the business of the meeting, he shall ask the question through the President.

16. Subject to the foregoing rules, the President shall regulate the course of all business brought before any meeting of the Commissioners. He shall preserve order, and all points of order shall be decided by him. No discussion on any point of order shall be allowed, unless the President shall think fit to take the opinion of the Commissioners thereon. Any Commissioner may at any time submit a point of order for the decision of the President.

17. No subject once finally disposed of can be reconsidered within four months, except on a requisition signed by not less than two-thirds of the Commissioners.

18. For the purpose of taking into consideration any particular business, a meeting may resolve itself into a Committee of the whole of the Commissioners present; when this has been determined, the rule prohibiting any person from speaking more than once on the same question shall be deemed suspended until the meeting resumes.

19. The Commissioners in meeting may from time to time appoint such and so many Committees, either of a general or special nature, and consisting of such Commissioners as they think fit, for any purposes which, in the opinion of the meeting, can be conveniently regulated and managed by such Committees; but the business transacted by any such Committee shall be subject to the approval of the Commissioners in meeting.

20. The members of no such Committee shall hold office for more than one year, but they shall be eligible for re-appointment.

21. Any member of a Committee who, without the previous permission of the Chairman of the Commissioners, shall fail to attend three consecutive meetings of such Committee, shall thereby cease to be a member thereof, and the Committee shall apply to the Commissioners to appoint another member in his place.

22. A Committee may meet and adjourn as it thinks proper. The quorum shall consist of not less than three of its members. The President shall be the Chairman of the Commissioners, or, in his absence, the Vice-Chairman, or, in their absence, any member present elected by the meeting. The rule prohibiting any person from speaking more than once on the same question shall not apply to meetings of a Committee.

23. Except as otherwise provided by the preceding two rules, the provisions of the law and of these rules, so far as they relate to the conduct of business at meetings of the Commissioners, shall apply generally to Committee meetings.

Furrceepore Collectorate, the 16th February 1888.

C. W. BOLTON, Offg. Collector.

NOTICE is hereby given that (under Government orders No. 1250—500LR, dated the 13th April 1886) the proprietary right of Government, as specified in the conditions of sale below, to the under-mentioned estates, situate in the district of Furrceepore, will be put up to sale at the Furrceepore Collectorate on Monday, the 26th March 1888, corresponding with 14th Chaitra 1294 B.S., subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements, as in the case of original sales.

Rajshahye Collectorate, the 23rd February 1888.

E. H. BUNDER, Collector.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Raja Sir Showrindra Mohan Tagore Bahadur, and will be sold at 12 o'clock noon on the 4th June 1888, Monday, the 23rd Joista 1295 B.S., at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the sale of leases of waste lands, dated 12th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports.

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

And whereas the provisos to section 37 of the VIII of 1878. Sea Customs Act, 1878, do not apply to goods to which a rate of duty is not already applicable; It is further enacted as follows :—

2. The rate of duty applicable to petroleum Commencement of of which the bill-of-entry effect of the addition to is delivered, within the the schedule. meaning of section 37 of the Sea Customs Act, 1878, to the Customs-collector under section 86 of that Act after the passing of this Act, shall be the rate of duty specified in the second schedule to the Indian XI of 1882. Tariff Act, 1882, as amended by this Act.

S. HARVEY JAMES,
Secretary to the Government of India.

The following Report of the Select Committee on the Bill to provide for the levy of a Customs-duty on Petroleum was presented to the Council of the Governor General of India for the purpose of making Laws and Regulations on the 10th February, 1888.

LEGISLATIVE DEPARTMENT.

We, the undersigned, Members of the Select Committee to which the Bill to provide for the levy of a Customs-duty on Petroleum was referred, have considered the Bill and have the honour to submit this our Report with the Bill as amended by us annexed thereto.

2. We have proposed the imposition of a duty of six pies per imperial gallon instead of an *ad valorem* duty of five per cent., and the exception from liability to the duty of petroleum which has its flashing point at or above two hundred degrees of Fahrenheit's thermometer and is proved to the satisfaction of the Customs-collector to be intended to be used exclusively for the batching of jute or other fibre, or for lubricating purposes.

Educational Prospectus.

THE Calcutta Medical College Session, 1888-89, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, i.e., Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the first and second years' Test and Honour Examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results on the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Churan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

Goodeve scholarship of Rs. 12 per mensem is annually awarded to students of the 5th year on the result of the Midwifery Test Examination of the 4th year.

F. C. Chatterjee scholarship of Rs. 17 per mensem is annually awarded to the best students in Histology at the end of the 4th year.

Abdool Gunny scholarship of Rs. 26 per mensem is annually awarded to the best student at the General Examinations of the 1st to 4th year.

Duke of Edinburgh's prize is awarded to the best in Surgery at the end of the 5th year.

Bhola Nath Bose's prize of Rs. 40 is awarded to the best clinical clerk in Surgery and Medicine in alternate years.

A gold medal and certificates of honour are awarded to the best students in each subject.

Goodeve and Macnamara silver medals are given to the 1st year students in Anatomy and Chemistry, respectively.

11. College scholars, who receive less than Rs. 20 per mensem, are not required to pay Rs. 30 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence.

13. This College-classes are acknowledged by all the Medical Schools in the United Kingdom.

14. The class assistantships of Pathology, Physiology, and Comparative Anatomy can be held only by unmatriculated students of the College:—

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 6th March 1888.—It is hereby notified for general information that, in exercise of the power vested in the Local Government by section 351 of Act III (B.O.) of 1884, and on the recommendation of the Commissioners of the Buxar Municipality, made at a meeting, the Lieutenant-Governor confirms the bye-laws set forth below, which have been framed by the Commissioners of the said Municipality under section 350 of the said Act.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

For regulating burning-ghâts, &c.

1. No person when burning, or causing to be burnt, any corpse or part of a corpse in any *burning-ground* shall permit the same or any part thereof, or the clothes and other articles appertaining thereto, to remain at the ghât without being completely reduced to ashes.

The penalty for infringement shall be a fine not exceeding Rs. 10.

2. No person shall remove or sell any clothes or other articles appertaining to a corpse which may have been left at any burial-ground or burning-ghât.

The penalty for infringement shall be a fine not exceeding Rs. 10.

For regulating the disposal of offensive matters, &c.

3. No person shall place or deposit, or cause to be placed or deposited, dirt, rubbish, or any kind of refuse on the sides of any road except between the hours of 5 and 7 A.M. The Commissioners may from time to time alter these hours.

The penalty for infringement shall be a fine not exceeding Rs. 5.

For regulating traffic.

4. No person shall leave any cart or carriage on any public road except for the time occupied in loading and unloading them.

The penalty for infringement shall be a fine not exceeding Rs. 10.

5. No person shall allow any moveable property to remain in any road for more than a reasonable time without the permission of the Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

6. (1) Every carriage plying between dusk and dawn shall carry two conspicuous lights, and (2) every cart, *ekka*, *pakki*, or other vehicle, elephant or camel shall carry one conspicuous light.

The penalty for infringement shall be a fine not exceeding Rs. 10.

7. No person shall in any way obstruct or allow to be obstructed any of the lanes, walks, *bye-ways* or other thoroughfares in any hazard by exposing for sale or accumulating anything on such lane, walk, *bye-ways*, or thoroughfare.

The penalty for infringement shall be a fine not exceeding Rs. 10.

8. No person shall, without the special permission of the Commissioners, take an elephant or camel along any public road within the limits of the municipality except by such route as shall be fixed for the purpose by the Municipal Commissioners.

The penalty for infringement shall be a fine not exceeding Rs. 10.

9. No person shall, without the special permission of the Commissioners, let off any fire-balloons, fireworks, or fire-arms on or near any public road.

The penalty for infringement shall be a fine not exceeding Rs. 10.

General.

10. No person shall perform any office of nature or commit any act of nuisance in the water or on the slope of any tank, river, canal, nullah, or water-course within the municipality, nor within sight of any public road.

The penalty for infringement shall be a fine not exceeding Rs. 10.

11. No person shall wash any clothes belonging to a person suffering from any contagious or infectious disease, such as cholera, small-pox, typhoid fever, &c., in any tank, river, canal, or water-course within the municipality.

The penalty for infringement shall be a fine not exceeding Rs. 20.

12. No person shall let any animal loose in any public road, unless properly attended, or tether any animal so that it can, while tethered, reach any public road.

The penalty for infringement shall be a fine not exceeding Rs. 10.

NOTIFICATION.

The 12th March 1888.—Whereas a notification dated the 14th October 1887, declaring the intention of the Lieutenant-Governor to vary the limits of the Ranchi Municipality, was published at page 237, Part IB of the *Calcutta Gazette* of the 19th idem, and whereas no valid objection has been raised to the proposed measure, it is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Ranchi Municipality, made at a meeting and in the exercise of the power conferred upon him by section 9 of Act III (B.C.) of 1884, the Lieutenant-Governor is pleased to vary the limits of the Municipality. The boundaries of the Municipality after revision, will be as follows:—

North—From the north-east corner of the compound of the late Colonel Hedayat Ali's house to the northern corner of the compound of the Maharajah's house now occupied by Mr. Slack, c.s.; thence a line running south-east passing south of Karam Tola and north of the bungalow known as Mr. Pickard's bungalow (excluding Hatma Tola) to where the Hazaribagh road crosses the Jamoonia Dharha, and then that Dharha to a point whence a line drawn to the Chutia temple would be parallel with the Hazaribagh road.

East—A line drawn from the above point parallel with the Hazaribagh road to the Chutia temple.

South—The road from the Chutia temple to the Hazaribagh road; then the Hazaribagh road to the Doranda river.

West—A line from the north-west corner of the compound of Colonel Hedayat Ali's bungalow to the Musalman burying-ground on the Lohardugga road; thence a line due south passing west of the Ranchi Hill and then to the Doranda river where it is crossed by the Argora road (including Kumar Tola); thence the Doranda river.

NOTIFICATION.

The 13th March 1888.—It is hereby notified for general information that, under section 138 of the Bengal Local Self-Government Act III (B.C.) of 1885, the Lieutenant-Governor is pleased to amend Rules 23, 24 and 48 of the Rules made under clauses (i) and (r) of the said section. The rules, as now amended, are as follows :—

Rule 23. All money paid into the treasury to the credit of the District Fund, whether by servants of the District Board or others, shall be accompanied by a challan. This challan shall be in triplicate, having the words "Original," "Duplicate" and "Triplicate" printed or written in red on the first, second and third parts respectively. The first part shall be retained by the Treasury Office, the second part shall be sent to the office of the District Board whenever the pass-book is returned, and the third part shall be delivered to the person paying in the money.

All moneys received by the servants of the District Board shall be remitted by them direct to the treasury at once, and shall not be paid in through the medium of the District Board's Office.

Rule 24. All moneys remitted to the treasury to credit of the District Board, and all payments made by the treasury on cheques or otherwise on account of the District Board, shall be entered in a pass-book; the pass-book shall remain in the custody of the Chairman, and it shall be sent to the treasury with every remittance, and also on the last working day of every month. On receipt of the pass-book by the treasury officials, the entry of the remittance made (if any) shall be initialled by the Treasury Officer, and then the charge side shall be written up to-date, and the book returned at once to the office of the District Board.

The pass-book will be supplied by the treasury. It is not a District Fund account book, but is simply a copy of the account kept in the treasury of the money paid into the credit of, and disbursed on account of, the District Board, and must therefore always be written up *only by the Government Treasury Department*, by whom the original account is kept.

Rule 48. The District Fund cash-book shall be kept in Form No. V. The receipt entries in this book shall be made direct from the pass-book in the case of amounts credited direct to the Fund by the Collector of the district. In the case of other receipts the cash-book shall be posted as soon as any money is received in the District Board's office by means of money-order irrespective of whether the money is immediately remitted to the treasury or not.

Expenditure shall be entered day by day as cheques are issued. (See also Rule 45.)

Rule 1.—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration :—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.
- (b). The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- (c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- (d). The periods or season during which the ferry is to be plied every year.

Rule 2.—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

Rule 3.—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

Rule 4.—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles, or weight or bulk of goods.

Rule 5.—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

Rule 6.—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided that if required by the District Magistrate each boat carries a light, which must be exhibited in a conspicuous part of the boat.

Rule 7.—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

Rule 8.—The Magistrate may direct that any boat used in private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

Rule 9.—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

Rule 10.—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

Rule 11.—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

NOTIFICATION.

The 12th March 1888.—The following rules, framed by the Commissioner of the Patna Division under section 22 of the Bengal Ferries Act I of 1885, for the management of private ferries in the district of Patna, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

Rules for the management of private ferries in the district of Patna.

1. All private ferries shall be registered in the office of the Magistrate of the district in which they are situated.

2. The following particulars shall be entered in the application for registration, and before a private ferry is registered the Magistrate shall satisfy himself of the correctness of the entries in the application for registration :—

- (a) Name of the applicant with his father's name and residence, and grounds of application.

- (b) Name of the ferry and of the river and other water on which it plies, together with the name of the village and the thana within which the ferry is situated.
- (c) The number and description of boats required to be kept, the strength of the crew to be employed on each, and the maximum number of passengers and of goods each is calculated to carry.
- (d) The portion of the year during which the ferry plies.
- (e) Scale of charges, if any, levied for crossing passengers and goods.

3. In the event of a ferry being discontinued, the proprietor of such ferry shall report the fact to the District Magistrate stating the cause of discontinuance.

4. The proprietor of every private ferry shall keep in proper order to the satisfaction of the Magistrate the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water.

5. If the proprietor of any private ferry shall not apply for registration of a ferry within two months from the date of the publication of these rules, the Magistrate of the district may call upon the party under a notice to furnish the particulars mentioned in Rule No. 2 within a stated period of one month. The proprietor duly served upon a notice in respect of any private ferry shall not maintain the same or allow it to be maintained after the expiry of the period fixed in such notice, unless he has furnished the particulars required.

6. The proprietor shall not make any alteration in a ferry except under a written order by the District Magistrate on a sufficient ground being shown.

7. The proprietor shall not ply when the state of the weather is such as to render the crossing unsafe to passengers.

8. The Magistrate may depute such officer as he may think proper to examine any private ferry boats, and may prohibit the use of any boat found unsafe or may require the proprietor to repair or replace the same.

9. The owner of a private ferry shall report to the Magistrate the name of any person to whom such ferry is leased, or who may be placed in charge of such ferry.

10. Every owner of private ferries shall report at once at the nearest police-station within whose jurisdiction the ferry is situated the occurrence of any accident at the ferry resulting in serious bodily injury or loss of life.

NOTIFICATION.

The 12th March 1888.—The following rules, framed by the Magistrate of Patna, and approved by the Commissioner of the Patna Division, under section 15 of the Bengal Ferries Act I of 1885, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF PATNA.

Rule 1.—In these rules the term “Magistrate” includes—

- (a) the District Magistrate of Patna and any Magistrate subordinate to him and appointed by him in that behalf;
- (b) the District Board of Patna in respect of any public ferry the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Patna when legally vested with powers in respect of any public ferry by the District Board of Patna.

Rule 2.—Every public ferry in the district of Patna shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

- (a) provide such boats, landing-stages, rest-houses, and other appliances as he shall think proper;
- (b) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;
- (c) fix, with the approval of the Commissioner, the tolls to be levied from persons using the ferry;
- (d) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;
- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry-boat shall carry, and cause a notice to this effect to be affixed to each boat;
- (f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;
- (g) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats, and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. of the amount of bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice-boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice-boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals and goods which may come to the ferry wharf to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail-carts, dāk-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers
- (d) Police and other public officers and process-serving peons } when travelling on duty with their *bonâ fide* baggage, horses, palkies or other conveyances.
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.
- (h) Members of District or Local Board when travelling on duty.

Rule 31.—A quarterly statement shall also be kept showing the demand, collection and arrears up to date on account of rents for public ferries.

Form of Agreement.

The Secretary of State for India in Council doth hereby lease to me
 , hereinafter called the lessee, son of
 resident of mouzah , pergunnah , thana
 District ; and I, the said lessee, do hereby take the lease of the public ferry
 across the river , and situated on the road from to
 at the rent of Rs. upon and under the following terms and
 conditions, viz.—

1. I, the lessee, have deposited with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due or penalties which may be awarded under sections 23, 24 and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the Rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the to the
 , and during this period I shall be bound to ply the ferry from the
 to the every year.

4. I hereby agree—

- (a) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair ;
- (b) to employ a crew of men on each boat ;
- (c) to make at least crossings every day ; and
- (d) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river.

5. I shall not charge or demand tolls for ferrying over—

- (a) Mails, mail-carts, dâk-runners and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers { when travelling on duty with
- (d) Police and other public officers and process- { their *bond fide* baggage, horses, serving peons { palkees or other conveyances.
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.
- (h) Members of District or Local Board when travelling on duty.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments:—

Date.

		Rs. A. P.
1st
2nd
3rd
4th

But if at any time, before the expiry of the period for which the ferry has been leased to me, I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on reletting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

PUBLIC WORKS DEPARTMENT,—BENGAL.

DISTRICT ROAD FUND.

NOTIFICATION—No. 98.

The 12th March 1888.

THE subjoined accounts and reports of the Road Cess Committees of the districts of Cuttack, Pooree, and Balasore, for the half-year ending the 31st March 1887, are published for general information.

W. B. BRISTOL,

Under-Secy. to the Govt. of Bengal, P. W. Dept.

No. 199, dated Cuttack, the 8th August 1887.

From—E. R. HENRY, Esq., Chairman, Road Cess Committee, Cuttack,
To—The Commissioner of the Orissa Division.

WITH reference to the Government Circular No. 2384, dated 21st May 1887, and your No. 454C, dated 26th ultimo, I have the honour to submit the accounts and report on the working of the District Road Committee for the half-year, from 1st October 1886 to 31st March 1887, as asked for therein.

The actual receipts brought to the credit of the fund during the six months under report were Rs. 49,952-3-3, including the outstanding balance of Rs. 15,106-11-7 on the 30th September 1886.

The total expenditure incurred during the half-year under notice amounted to Rs. 20,788-8-6, including the cost of establishment and minor charges, leaving a balance of Rs. 29,163-10-9 on the 31st day of March last, which was transferred to the District Board as directed.

The heavy decrease in the estimated receipts and expenditure is attributable to the fact that the figures shown under the head "Budget Estimate" were for 12 months, that is, from October 1886 to September 1887; but the expenditure shown in the present return was for six months only, exclusive of the total value of work partly executed or in an unfinished state, as payments in full could not be made for them before the close of the half-year under review.

Original works.—It was proposed to open one line of communication from Tanghi to Bhagatpur, but nothing has yet been done, as the land required for the purpose has not yet been made over by the zemindar who promised to give it to the department; however, he has been reminded of his promise and asked to give effect to it without any further delay.

As regards the other original works noted in the margin, provided for in the budget, I beg to state that the works in respect of Nos. 1 to 3 and 5 to 7 are in progress. In respect of work No. 4, 2,300 cubic feet of earthwork done and a large quantity of sandstone has been delivered in site. No. 8 has been completed except the thatch and out-offices. For No. 2, 40,000 bricks have been moulded and the woodwork got ready.

1. Bridging Mundakya nala.
2. For making bricks, &c., for the bridge on 26th mile, Madhub Road.
3. Culvert at 26th mile of ditto.
4. Road with water-way from Sonapur road to Pathpur hat.
5. Two culverts on 41 miles, Machgaon road.
6. Culverts on 39th mile.
7. Bridge over Hava nala.
8. Inspection huts and out-offices at Ahlas.
9. Completion of Machgan road to Deb river.

Fifty thousand cubic feet has been executed in respect of No. 9. No payments whatever have been made for the works mentioned in Nos. 8 and 9.

The District Engineer has been requested to see that these works are completed before 31st March next.

Repairs.—All the urgent and necessary repairs have been made to roads and bridges, &c., which are reported to be in fair order during the half-year under review. I think it desirable to give a short outline of the following petty damages caused by the storm of the 25th and 26th May last, though it does not itself refer to the half-year under report.

1. The approach to the Brahmini ferry (right bank) at Gopalpur, 50th mile, Chandbally road, has been washed away. This was an earthwork spur and has to be removed annually after the rains.

2. The earthwork on both sides of the Malpatna sluice, 50th mile, Chandbally road, has been eroded. The District Engineer has promised to report after enquiry whether stone-rubble can be delivered there, and to frame an estimate for pitching this portion of the road, as it suffers from each storm and costs much for repairs.

3. Shutters have also been blown away, but possibly may be recovered afterwards.

4. At the Chandbally ferry over Byturni, 32 feet length of the platform of the range has been carried away; the posts are standing and are reported to be very dangerous. The District Engineer has been directed to replace them at once.

Village roads.—The repairs of the village roads in Sudder sub-division are reported to have been in progress.

New village roads were started during the half-year. One was completed and the rest were in progress. It is satisfactory to note here, as it is the only instance as yet, that the villagers of Fakirparah have contributed Rs. 30 towards the cost of the Fakirparah village road.

Almost all the village roads in the Kendraparah sub-division were in progress during the half-year, and were passable, as reported by the Sub-divisional Officer of that sub-division.

As regards Jajpore, no work whatever appears to have been taken up during the half-year; a small sum was paid to the contractors for the works done prior to 1st October 1886, and not charged before the close of that year. The Sub-divisional Officer has been requested to push on the work vigorously.

Inspection Bungalows.—The annual repairs of all the inspection bungalows on the Chandbally road reported to have been completed, and of the rest to be in progress.

During the late storm of May last, the plastering of the Baruan bungalow and out-offices were damaged; trifling damages to plastering and thatching of the Kendraparah, Pattamundy and Aul bungalows were also reported.

In the Aul bungalow 23 young coconut palms have been destroyed; the District Engineer has been requested to replace them.

Tools and Plant.—The few tools required during the half-year were purchased from the local market.

Tree-planting.—The sanctioned establishment to look after the trees were entertained and mallee reported to have done fairly well. Gabions have been provided, where necessary, to protect the young plants.

Ten trees on the 2nd mile of Jajpur-Knakhya road, and 35 on the Jajpur to Kendraparah road, have been destroyed by the storm of the 25th and 26th May last, and 18 gabions blown away and many damaged. The District Engineer has been asked to replace them.

District and Branch Committees.—There were four meetings of District Committee held during the half-year under report, and one of which had to be adjourned for want of quorum. Four meetings of the Branch Committee at Jajpore were held during the half-year, and none at Kendraparah.

A separate report on the state of collections and arrears of cesses has already been submitted from the Collectorate side—vide No. 107, dated 29th July last.

Dated Pooree, the 5th June 1887.

From—H. SAVAGE, Esq., c.s., Chairman, District Board, Pooree,
To—The Commissioner of the Orissa Division.

IN submitting herewith the accounts of the District Road Fund for the half-year ending 31st March 1887, I have the honour to append a copy of a report submitted by the District Engineer, showing what work has been carried out on the roads during the half year, and to report that during the half-year special attention was paid to the execution of repairs in order to put the whole of the roads on the District Committee's list in a passable condition, and at the close of the half-year all the roads were in very fair order considering the funds available.

2. Besides looking after the repairs the District Engineer was engaged for a considerable time in measuring up and settling claims for work done in former years, and I am glad to say that he has now settled all the outstanding claims on terms very advantageous to the Road Fund, so that after they are all paid the District Board will find itself with a somewhat larger sum available for new works than was previously anticipated.

3. During the half-year the payments made were mostly on account of the old accounts outstanding. The work done during the half-year was not generally paid for before the close of that period, as in most instances it was not finally completed, and it has been always the custom to make the bulk of the payments in the latter half of the cess year which terminated in September 1886.

4. All the work done during the half-year and which was not paid for is covered by the District Board's budget for 1887-88.

5. Very little was done as regards village roads as no special application for such roads came in during the half-year and consequent on the impending change from District Road Committee to District Board. I think it best to leave the question of village road works to be decided by the District Board.

6. No new trees were planted along the road sides during the half-year, but those already planted were well looked after.

7. The District Engineer, Mr. Beale, has worked very energetically, and has given me complete satisfaction. The rest of the staff has also worked satisfactorily.

H. SAVAGE,
Chairman.

H. SAVAGE,

Chairman.

Report showing work done and general condition of roads in the Pooree District for the half-year ending 31st March 1887.

Patnaikia and Khordah road.—This road is 22 miles in length. It takes off from the Main Pilgrim road 14½ miles from Pooree. During the half-year earthwork repairs have been carried out, and metal has been collected which will be consolidated in the rainy season. The estimated expenditure up to date has been Rs. 1,800.

2. **Pipli-Khordah Road.**—This road is metalled throughout, and is 14 miles in length. The metal required for repair is entirely collected and will be consolidated early in the rainy season. After which the road will be in very fair order. The estimated amount for the road is Rs. 800.

3. **Khordah and Kallapather Road.**—This road is 18 miles in length, of which the first 10 miles are metalled. During the half-year metal for repairs to these miles has been collected. Besides this, metal has been collected for portions of the 11th, 12th, 14th and 16th miles, which were previously unmetalled and always in very bad order after heavy rain. Metalling at all causeways has also been collected. The road will now be in very fair order at all seasons, and if a small further expenditure is sanctioned later on for metal collection, it can be made as good as could be desired. The estimated cost up to date is Rs. 1,000, besides this the sum of Rs. 1,129, balance from the estimate for 1885-86, after payment of contractor's claims, was utilised on the road.

4. **Bagmari and Bolegur Road.**—This is an unmetalled road and takes off from Bagmari on the Kallapather road, and runs to Bolegur on the boundary of Nayagurh. The following portions of the road running through rice fields require metalling:—miles 16th, 18th, 19th and 23rd for a length of 3,000 feet in each mile, miles 20th, 21st and 22nd completely. When this is done and a few more culverts constructed, the road will be excellent. At present for an unmetalled road the condition of the road is very fair. A new bungalow is urgently required at Sunakhalla. Repairs to earthwork and metal collection at all causeways have been carried out during the half-year at an estimated cost of Rs. 400. Besides this the sum of Rs. 367, balance from the estimate for 1885-86, after payment of contractor's claims, was utilised on the road.

5. **Banpore and Baghura Road.**—This road is 15 miles in length extending from Banpore to Baghura in the Khordah Mals. and a considerable portion runs through dense jungle. During the half-year repairs to earthwork and jungle cutting, &c., has been carried out. The road is in very fair order.

6. **Balugāon and Banpore Road.**—This road is metalled and runs from the west bank of the Chilka Lake to Banpore where it is connected with the Khordah Māl road. Earthwork repairs have been executed and metal has been collected, which will be consolidated in the rains. After which the road will be in very fair order. The estimated cost of this and of the Māl road is Rs. 400.

7. **Chandka and Bhubaneswar Road.**—This road is 11 miles in length and runs mostly through jungle. During the half-year earthwork has been done and the jungle cut. The road is now in excellent order. The estimated cost of the road is Rs. 500.

8. **Bhubaneswar-Ballianta Road.**—This is an unmetalled road nearly 7 miles in length running from Bhubaneswar to Ballianta, opposite to 14th mile of the Jagannath road. Earthwork repairs have been carried out at an estimated cost of Rs. 200. The road is in very fair order.

9. **Balighai-Madhab Road.**—This is an unmetalled road. During the half-year breaches have been filled in, and earthwork repairs generally carried out at a cost of Rs. 1,000. The road will be in very good order during fair weather.

10. *Burrubcoody Road*.—This road takes off from the eastern bank of the Chilka at Burrubcoody, distant about 14 miles from Pooree. During the half-year earthwork repairs have been carried out at an estimated cost of Rs. 200. The road is in fair order.

11. *Armstrong road in the Civil Station of Pooree*.—This is a metalled road extending from the flag-staff on the sea beach to near the Atharnallah Bridge. Metal is being collected which will be consolidated during the rains.

The sum of money mentioned on the various roads represent the estimated amount, and were not all paid as contractors were not present.

J. A. BEALE,

District Engineer.

No. 105, dated Balasore, the 1st August 1887.

From—A. C. TUTE, Esq., Chairman, Balasore Road Cess Committee,
To—The Commissioner of the Orissa Division.

I HAVE the honour to submit the annexed accounts and the following report on the administration of the Road Fund of this district for the period from 1st October 1886 to 31st March 1887. The period from July to September 1886 was comprised in the report for the last year, submitted in this office No. 252, dated the 18th December 1886, and it is needless to repeat here the remarks made in that report.

1. *Original Works*.—Some works were executed on the Boloramgori road for which Rs. 142-2 was paid.

2. *Repairs*.—It was only in December last that the estimates for road work were sanctioned by the Committee on receipt of your sanction to the budget estimate No. 492C, dated 6th September 1886, and therefore in the three months from January to March much work could not be done on the fair-weather roads and on the metalled roads: no works, as a rule, are done in the dry season.

3. *Village Roads*.—The remarks in paragraph 2 in regard to district roads hold good in the case of village roads.

4. *Arboriculture*.—The three nursery gardens that are in existence in this district are in a satisfactory state, and mallies have been engaged to grow trees on roadsides. Some of the trees that were planted in previous year were partly damaged by the late cyclone.

Furreedpore Collectorate, the 16th February 1888.

C. W. BOLTON, Offg. Collector.

NOTICE is hereby given that (under Government orders No. 1250—500LR, dated the 13th April 1888) the proprietary right of Government, as specified in the conditions of sale below, to the under-mentioned estates, situate in the district of Furreedpore, will be put up to sale at the Furreedpore Collectorate on Monday, the 26th March 1888, corresponding with 14th Choitra 1294 B.S., subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements, as in the case of original sales.

Rajshahye Collectorate, the 23rd February 1888.

E. H. RUDDOCK, Collector.

NOTICE is hereby given that the lease of the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the office of the Commissioner of the Sundarbans, has been applied for by Raja Sir Showindra Mohan Tagore Bahadur, and will be sold at 12 o'clock noon on the 4th June 1888, Monday, the 23rd Joista 1295 B.S., at the Sundarbans Commissioner's office at Alipore, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands), or owing to any other cause.

2. The lease of the land will be granted subject to the conditions which are specified below, as well as to the general terms annexed to the Rules for the sale of leases of waste lands, dated 13th November 1879:—

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

Conditions.

That the land shall be subject to all existing rights of way and water and other easements.

That the right of using all streams and channels in any way navigable shall be reserved to the public, as also the use of a tow-path not less than 25 feet in width on each side of every such stream and channel.

That no charge will be made for wood and timber standing on the land at the time it is leased, nor for any wood which may be cut and burnt to effect clearances, or which may be used on the land. But for wood and timber exported for sale, a duty shall be levied at such rate and in such manner as may from time to time be prescribed by Government.

That the Government reserves to itself the right to all minerals on the land, together with such rights of way and other reasonable facilities as may be requisite for working, getting, and carrying away such minerals. It also retains its proprietary right in the land, and only confers on the lessee an occupancy right which shall be hereditary and transferable.

J. ELLISON, Deputy Collector in charge Sundarbans.

Sundarbans Commissioner's Office, Camp Fuljhuri, the 19th February 1888.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the district of Gya, will be put up for sale at the Gya Collectorate on the 12th April 1888, corresponding with the 16th Chait 2nd, 1295 Fasli.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estate situate in the district of Backergunge will be put up to sale at the Backergunge Collectorate on the 27th March 1888, corresponding with 15th Chyot 1294.

The purchasers will be subject to the following conditions of sale:—

Conditions of sale.

- 1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force; and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the 15th day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

General Post Office, the 13th March 1888.

THE following Reports of the Bengal Meteorological Department, issued by orders by the Government of Bengal, can be supplied to the public at the prices annexed:—

1st.—Bay of Bengal Daily Report giving observations taken at 20 stations on or near the coast of the Bay, with a chart and summary. This is published in connection with the Calcutta Storm Signal Service. The report giving 10 A.M. observations of the day is distributed by post in Calcutta after 4 P.M. Price to subscribers in Calcutta, Rs. 2 per mensem.

2nd.—Bengal Daily Report containing observations taken at 37 meteorological stations, and transmitted to Calcutta by weather telegrams, with a brief summary of the weather in Bengal during the preceding 24 hours. The report giving the 10 A.M. observations of each day is printed in time for the evening mail. This report for the present will only be published during the south-west monsoon, i.e., from May 15th to November 15th. Price Rs. 2-8 per mensem, including postage.

3rd.—A Weekly and Monthly Statement of Meteorological Observations taken at 44 observing stations, and of rainfall recorded at 245 sub-divisional stations together with summaries of the more important features of the meteorology of the past week or month of the province, and of the distribution of the rainfall and its variation from the normal. Price of the Weekly Report including postage, Rs. 6 per annum, payable in advance, and of the Monthly Summary Report, Rs. 2 per annum, payable in advance.

Subscriptions payable to the Meteorological Reporter to the Government of Bengal for the Bay of Bengal Daily Report, and to the Accountant and Treasurer, Bengal Secretariat, for the other reports.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the Calcutta Gazette of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

THE following Report of the Select Committee, together with the Bill as amended by them is, by order of the President, published for general information:—

FINAL REPORT OF THE SELECT COMMITTEE ON THE BILL TO AMEND THE MUNICIPAL ACT IV (B.C.) OF 1876.

IN submitting our final report we desire to explain that, in order to keep it within reasonable limits, we have abstained as a general rule from making any remarks where we have left the Bill unaltered. We have carefully considered the reports of the public bodies and associations which have been referred to us.

Chapter I.—Preliminary.—We have altered the preamble so as to make it clear that amalgamation of the Town and Suburbs is one of the objects of the Bill.

Section 1 we have altered so as to admit of an election being held under the Act before the rest of the Act comes into force. We have adopted the provision for this purpose in the Bengal Municipalities Act, III (B.C.) of 1884.

We have framed the definitions of “bustee lands,” “hut,” “house” and “bustee” so as to admit of the separate procedure we have introduced into the Bill for dealing with houses and huts as regards their valuation, the collection of rates, and building regulations.

We have made a slight change in the boundaries of Calcutta. We have introduced from the Bengal Municipalities Act the definitions of sewage and rubbish. We have omitted the definitions of immoveable property, land, and moveable property as being unnecessary.

Chapter II, Part II, contains the section about control. Section 37 enumerates the duties of the Corporation. This section has been enlarged to include all that should be included as the duties of the Commissioners, and section 38 confers ample powers on the Local Government to compel the Corporation to discharge any of these duties, should it neglect to do so. We could not recommend the re-enactment of the cumbrous and unworkable sections of the former law. On the other hand the discretion and forbearance of the Government constitute the best guarantee which can be given to the Corporation against a hasty and injudicious use of this power. We have introduced an appeal as of right to the Government of India.

In compliance with the views expressed by the Government of India, we have altered the position of the Chairman (Section 39). Under the present law he is practically irremovable unless he simultaneously loses the confidence both of the Local Government and of the Commissioners. Under the revised section he will be removable if he loses the confidence of either. This will obviously make his position much more insecure, and we have therefore introduced the change with some hesitation. We understand, however, that it is in conformity with the wishes of the Corporation.

In section 41 we have altered the words “shall in all things be under the immediate orders of the Chairman” into “shall be under the orders of the Chairman.” The former sentence, if it means anything more than the latter, means more than it ought. The sentence, as it stands, seems to make the relationship quite clear.

In section 45 we have introduced several minor changes, the most important of which is an extension of the power of the Commissioners in meeting in the selection of officers on Rs. 200 to Rs. 500 salary. This concession will, we learn, be much valued by the Commissioners as leaving them a power of choice: at the same time, as the choice is limited to one of three candidates nominated by the Chairman, it will be his own fault if any incompetent person is selected.

The other changes introduced by us, down to section 60 inclusive, are comparatively unimportant and explain themselves.

The old section 52, now section 60, has been divided into two sections, and the latter part of it recast. The important clause in the new section 61 is the last. The section as it stood gave only the Chairman and Vice-Chairman power to represent the Commissioners in their executive functions, and it therefore became necessary in every section in which it was intended that a subordinate officer might act without the formal sanction of the Chairman or Vice-Chairman to put in words to that effect. Eventually this was found cumbersome and unnecessary. The new clause seems to meet all that is wanted; the Chairman under his own responsibility distributes the work to the subordinate officers under section 41 or under his general powers, and each officer within the sphere of the work thus made over to him should be considered to be acting with the Chairman's authority, referring to him, when so ordered, or in all important cases, and acting with his implied sanction where authorized to act without reference.

The changes which we have made in the remaining sections of Chapter II and in Parts I, II and III of Chapter III do not call for any special remark.

Chapter III, Part IV.—The section authorising the imposition of a duty on petroleum has been recast to meet the objections of the Government of India to any duty being levied on petroleum stored in Calcutta for consumption elsewhere. We have been invited by one of our colleagues to omit the section altogether in consequence of the duty recently levied on petroleum by the Supreme Government; but a careful consideration of the circumstances which resulted in the insertion of this section has led us to conclude that it would not be fair to the enlarged municipality to omit it—at any rate until some equivalent has been proposed.

On the 4th August 1884 a Committee was appointed by the Government of Bengal, consisting of the Chairman of the Corporation, Mr. W. Craik, Raja (then Baboo) Doorga Churn Law, Mr. G. H. Morrison, Baboo Jodoo Lal Mullick, Baboo Kally Nath Mitter, Mr. A. H. Wallis, and Mr. C. E. Buckland, to consider whether the revenues of Calcutta could be augmented by an octroi or in any other similar manner. This Committee considered many proposals for new forms of taxation or for enhancing the revenue from existing forms, and eventually the only proposal they were able to recommend with any approach to unanimity was that for the taxation of petroleum. On this point the Committee were unanimous.

Partly, owing to the report of this Committee, the Government in June 1885 appointed a Committee to prepare a scheme for the union of the Town and Suburbs of Calcutta, consisting of Mr. Reynolds as President, the Chairman of the Corporation of Calcutta, the Chairman of the Suburban Corporation, Baboo Kally Nath Mitter, and Dr. Guru Das Banerjee.

The views of this Committee regarding the financial aspects of the amalgamation question were contained in paragraphs 13 to 18 of the report, and their character will fully appear in the orders of the Government of Bengal passed on the report in the letter to the Government of India, No. 448 of the 24th January 1886, paragraphs 4, 5, and 6.

"PARA. 4. In paragraphs 13—18 of the Report the Committee discuss the probable financial position of the new Corporation, and record their conclusion that any scheme of amalgamation should be accompanied, first, by a substantial increase in the municipal income which will not involve any alteration of the present legal limits of taxation in Calcutta, and also by an agreement on the part of Government to advance at a reasonable rate of interest such funds as the Corporation may require to raise by way of loan for permanent improvements. They calculate that the municipal income of the new Calcutta would be about 34 lakhs at the rate of taxation now obtaining in the town, and they hold, not without reason, that a considerably larger sum will be required. They do not state the amount, but it is understood to be not less than six lakhs. In order to provide this they suggest that the Government should relieve the new metropolis of all charges on account of police, which would be equivalent to an annual contribution of about three lakhs of rupees; that the system on which railways and canals are rated in the Town and Suburbs should be changed; and that some allotment might be made to municipal funds from canal receipts, from the profits of the Orphanage and Panchanogram estates, or from the excise revenue now realised from the town.

"4. In the calculations made by the Committee they have assumed 7½ per cent. as the rate of house-tax. But having regard to what has already passed upon the subject, and the definite expression of the Government of India's views upon it, in estimating the resources of the new Corporation, the full legal rate of the house-tax should have been taken as the basis of calculation, and this would give about four lakhs more than the amount estimated in the report. As, however, it will probably be thought necessary in future legislation to provide for the reduction of the weight of the house-tax in the case of the poorer classes of owners, the above sum should be reduced to three lakhs. The Committee appeal to the

proceedings of the Octroi Committee and the conclusions of the Municipal Commissioners upon that Committee's proposals in support of their opinion that the municipal income should be supplemented from without rather than from within. But both the Octroi Committee and the Municipal Commissioners unanimously recommended that a fee of two annas a case should be levied on all petroleum brought into the town, and it was estimated that such a tax would yield about Rs. 94,000 from Calcutta, the Suburbs and Howrah; out of which it may safely be assumed that at least Rs. 75,000 would be derived from Calcutta and the Suburbs. The Lieutenant-Governor considers that the feasibility of imposing this tax may unobjectionably be considered in the course of the legislation required to carry out the proposed amalgamation.

"5. Turning now to the suggestions made to aid the Corporation, the Lieutenant-Governor can only repeat the desire already more than once expressed by him to relieve the metropolis of all charge on account of police. But, as the Government of India is aware, this Government cannot undertake to defray the charge from the resources now at its disposal. The permanent burthen thrown upon the Bengal revenues by the transfer of the Municipal Police Force in the interior amounts to Rs. 5,11,000 a year, while the total improvement in the provincial receipts from all sources, except Public Works, during the last four years is barely seven and a half lakhs. It is only by rigorously cutting out almost every item of optional expenditure that Sir Rivers Thompson has been able in his forecast for the coming year to provide for a small excess on the receipt side of the Provincial estimate, and it would not be in his power by any practicable retrenchments in other departments to meet the charge for the Metropolitan Police. He ventures to hope therefore that the Government of India will be disposed to assist him in the matter by placing means at his disposal to relieve the new Corporation of the charge.

"In this case the Calcutta Municipality in its new constitution would probably start with the following approximate addition to the increase estimated by the Committee:—

				Rs.
Net increase of house-tax	3,00,000
Storage tax on petroleum	75,000
Amount set free by transfer of police charge	3,00,000
			Total	6,75,000

"The suggestion to change the system of rating railways and canals within the municipality practically amounts to a request for an additional contribution from Government; but the Lieutenant-Governor is distinctly of opinion that such aid, if given at all, should be given directly rather than indirectly, and that under present circumstances no more assistance should be given than that involved in the transfer to Government of the police charges. It is therefore unnecessary to dwell on the objections to making any allotments from any of the various branches of Government revenue suggested by the Committee.

"6. The questions connected with borrowing by municipal and other local bodies have been so fully discussed, and the definite decisions of the Government of India and Secretary of State on the subject are so recent, that the Lieutenant-Governor does not feel justified in asking to have the subject re-opened. It is possible that the difficulty now found by public bodies in raising loans in the local market may be merely temporary, and that it may disappear before the new municipality comes into existence. The Lieutenant-Governor is also inclined to hope that the improvements to be made in the constitution and organization of the Corporation may have the effect of bettering its credit. In any case Sir Rivers Thompson is of opinion that it is at present undesirable to attempt to settle finally the questions connected with the loan operations of the municipality, which it is proposed to re-constitute, and he has touched on the subject here, only because it forms a prominent part of the report of the amalgamation question."

The Government of India having approved in general terms of this letter, the Amalgamation Bill was introduced, and in the Statement of Objects and Reasons it was said:—

"In effecting the amalgamation, care has been taken to protect the rate-payers of the town against loss owing to the diversion of their rates and taxes for the benefit of the new area to be added to Calcutta. The rates and taxes levied throughout the enlarged area will be uniform, and it should obviously be the endeavour of the new Corporation to bestow on all parts of the municipality similar advantages, so far as time and circumstances permit. The natural effect of this would be that money would flow, as it does in all similar cases, from the centre to the extremities. To compensate for this the Government proposes to give up the contribution now paid by the Town and Suburbs to the police. This is estimated at about 3 lakhs of rupees per annum, nine-tenths of which is paid by the town. What the present rate-payers of the town will gain by this remission is estimated as approximately equivalent to what they will lose by amalgamation with a more sparsely populated and poorer tract.

"It is proposed to levy a conservancy rate with the same maximum as the police rate and from the same class of rate-payers. By this means the rate-payers of the town will be in a position to contribute annually about Rs. 2,80,000 towards the improvement of the area amalgamated with it, without being any worse off qua taxation than they are at present.

"It is also proposed to allow a storage fee, which may be raised with the consent of Government to a maximum of four annas a case (though two annas is the rate contemplated) on all petroleum brought within municipal limits for storage or consumption. Petroleum passing through Calcutta and not stored in it will not be liable to this tax."

From these proceedings it seems to the Committee that the rate-payers of the Town and Suburbs who are to be amalgamated have been justified in supposing that if it was found feasible to levy a duty on petroleum, at least so far as consumed in Calcutta, that duty would be sanctioned as one of the means of furnishing them with the revenue necessary to enable them to deal adequately with the new responsibilities which will devolve upon the governing body, and this source of income is much more urgently needed now than it was supposed to be at that time. It was found necessary to raise the house-rate to 8 per cent. two years ago to meet the increasing needs of sanitation, and we learn that since then the sanitary requirements of the town have rendered it necessary to estimate for the full 10 per cent. house-rate (the maximum) to meet them during the ensuing year, and to abandon the allotment usually made from revenue for minor town improvements.

The financial prospects of the new Corporation will therefore be seriously injured if this duty, which we believe it would be feasible to collect without hardship or appreciable inconvenience, is abandoned, because petroleum has been subsequently made the subject of imperial taxation. The Bombay Corporation is allowed to levy an import duty on wines and spirits, though equally subjected to imperial taxation, and the revenue they receive from this source amounts to Rs. 1,50,000 a year. The cases seem to be exactly parallel, and we are in hopes that a full exposition of the history of this section may induce the Government to show the same indulgence to one Corporation as has been shown to the other.

Chapter IV.—We have thought it expedient to recast Part I—'Of imposing the rates.'

In the report of the Select Committee of the House of Commons which was appointed in 1870 very great importance was attached to making owners and occupiers jointly liable for the rates. The report stated—1. (c) "that in any reform of the existing system of local taxation it is expedient to adjust the system of rating in such a manner that both owners and occupiers may be brought to feel an immediate interest in the increase or decrease of local expenditure and in the administration of local affairs." On this principle we adopted last year a suggestion of our colleague the Hon'ble Kally Nath Mitter to consolidate the various rates and levy half from the owners and half from the occupiers in lieu of levying the whole of one rate from owners and the whole of the other rates from occupiers. By this system owners were only interested in keeping down expenditure defrayed from the house-rate, while occupiers were interested in keeping down a different class of expenditure. It was believed that this had worked badly, and the proposal to make each class equally interested in each rate by dividing the consolidated rate had therefore our cordial support.

It has been pointed out, however, in paragraph 18 of the letter of the 'Trades' Association of the 25th November that this has the effect of transferring a portion of taxation from the owners to the occupiers, as under the existing law the rates are being levied at 9½ and 7½ per cent. respectively, and the Association say that the consolidated rate ought to be divided in the same proportions.

There is much force in this objection; but it is very desirable for obvious reasons to make the division equal; and in addition to the three rates payable by the occupiers, aggregating a maximum of 9½ per cent., they have also to pay fees for the establishment of *mehters* entertained under section 244 of the present Act. These fees are payable by occupiers, and are levied in accordance with a sliding scale, which is as high as 50 per cent. on houses and huts rented at Rs. 2 a month, about 5 per cent. on houses or huts rented at Rs. 20 a month, about 2 per cent. on houses rented at Rs. 200 a month, and ½ per cent. on houses rented at Rs. 2,000 a month. It is evident that if a uniform rate of 2 per cent. for this service could be equitably substituted for this sliding scale of fees, and consolidated with the other rates, it would exactly balance the shares payable by the owners and occupiers, who would each be liable to a maximum rate of 11½ per cent. The consolidated rate, including all these rates and fees, might then with perfect equity be equally divided between owners and occupiers. We have therefore considered the question from the financial point of view of the effect of a 2 per cent. rate, and from the equitable point of view of levying a uniform rate instead of a sliding scale of fees. The scale of fees imposed in the town produces at present a little less than two lacs annually. The scale of fees in the suburbs is perforce much higher than in the town, and produces rather more than one lac. The total present income is therefore somewhat in excess of three lacs. The present assessed annual value of the town and of the portion of the suburbs to be added to it, is about 160 lacs. A 2 per cent. rate on this will produce Rs. 3,20,000 annually, or allowing 5 per cent. for bad debts, about the same as the present fees.

As regards the equity of the change, it presents somewhat greater difficulty. The fees are at present collected only from houses whose privies are unconnected. Houses with connected privies pay nothing, as the establishment performs no service.

We are of opinion, however, that when fully considered the change will be found to be an improvement on the existing system. Occupiers are equally benefited by the Corporation, whether night-soil is removed by an establishment of *mehters* or by underground drains, and for many years past the connection of privies with the underground drains, has been refused in all the more crowded parts of the Town, in consequence of the danger of choking up the connections with faecal matter. Only the larger and better built houses have been allowed

to have connections. Practically, therefore, the poorer members of the community have had to pay very heavy fees indeed for an establishment forced upon them by the danger to the health of the Town, which would have resulted from their being allowed to connect, as the owners of many of the wealthier houses have been allowed.

This prohibition, though based hitherto on the non-completion of the water-supply extension, it will, in the opinion of Dr. Simpson and other eminent sanitary authorities, be necessary to retain in the future as well as in the past. In all but the best built houses, and especially in a climate such as that of Calcutta, the present system is far safer than the connected system, and should in the interests of the health of the Town be maintained. If so, it seems fair that the privileged few should pay as much as those to whom connections are refused. This is how the equity of the case has presented itself to the framers of the Bombay Bill, where the establishment has long been in existence for the whole Town, and the new sewers are recently affording an opportunity of making connections. The Halalkhor rate (section 141) is leviable in respect of premises—

“(a) Situated in any portion of the city in which public notice has been given by the Commissioners that the collection, removal and disposal of all excrementitious and polluted matter from privies, urinals and cess-pools will be undertaken by municipal agency; or

“(b) in which, wherever situate, there is a privy, water-closet, cess-pool, urinal, bathing-place, and cooking-place connected by a drain with a municipal drain.”

In Calcutta also this was the view taken by the Commissioners when the subject was first discussed, though the law (section 244) had been so framed that they could not give effect to their views.

In 1877, a special Committee of 13 Commissioners was appointed “to consider the best arrangements for the removal of night-soil from private houses.”

In paragraph 27 of their report, submitted on the 29th December 1877, they wrote—

“In the course of the discussions regarding the schedule of fees to be adopted, the Chairman expressed an opinion that the better plan for realising a sufficient sum to meet the expenditure for the removal of night-soil from private houses would be the imposition of a 8 per cent. drainage rate payable by occupiers of houses and lands in the entire town, and he proposed that the legislature be moved to sanction such a rate, estimating at the same time the gross proceeds of the rate, less remissions, at Rs. 3,55,000. The sense of the majority went with the Chairman (Dr. Rajendralal Mitra, Revd. Dr. K. M. Banerjee, and Hon'ble Kristo Das Pal dissenting), but it was agreed that no immediate action should be taken in the matter at present.”

It will thus be seen that if the proposal as now made is adopted, it will only be endorsing what would have been adopted from the outset had the law permitted it.

The practical benefit which this will confer on the poorer class of rate-payers will be very great. It may be taken as a general rule that the uniformity of rating is almost a first principle for the success of municipal administration. In the present case, the Commissioners supply sewers for the use of the larger and better built houses, a staff of *mehlters* for those which have unconnected privies, and free latrines, maintained at considerable expense, for those which have no privies. They therefore meet the wants of all persons residing in the city; and though no doubt some receive more than others in proportion to what they pay, there seems no more reason for making this payment differential than there is for making the lighting rate differential. In the Parliamentary Committee, already referred to, great stress was laid on this principle. They reported:—

“(5) That the great variety of rates levied by different authorities even in the same area on different assessments with different deductions, and by different Collectors, has produced great confusion and expense, and that in any change of the law as regards local taxation, uniformity, simplicity of assessment and collection, as well as of economy of management, ought to be secured as far as possible.

“(6) That the consolidation into one rate of all local rates collected within the same area is a matter of great importance, and that your Committee concur in the Resolution of the Select Committee on Poor Rates Assessment, 1865, which recommended one consolidated rate.”

The system of Calcutta has never been nearly as confusing as that in England, but nevertheless the present night-soil fees system has been productive of great expense, harassment and inconvenience. About 32,000 premises are served by the establishment of *mehlters*, 32,000 extra bills therefore have to be prepared every quarter, each forming the subject of a separate calculation at a scale different from the ordinary rate-bills. A large establishment has to report constantly the houses in respect to which service is discontinued or newly provided. In very many of these cases, amounting to about 10 per cent. of the whole number of the bills, the report is challenged, and, if adhered to after further enquiry, the amount has to be recovered by the coercive procedure. Thus the time of a large establishment is taken up in preparing the bills, of another establishment in making local enquiries, and of a third establishment in enforcing payment from the poorest rate-payers of the town, of what, even without costs, is a 5 to a 50 per cent. rate on their rent. If our proposals in this matter are approved of, we are satisfied that a very great boon will be conferred on the poorer classes in the town.

In section 117 we have made it obligatory on the Commissioners to levy the consolidated rate on bustees from the owners of the land, leaving the latter to recover half the rate of the land and the whole of the rate of the hut from the hut-owners.

allow one-eighth of the rate to the land-owners for the costs of collection. This also will lead to economy of management in the valuation of bustees, and therefore the rate assessed upon them will be fixed once a year for the year, instead of constantly fluctuating with every new hut built or removed, and one bill will be made out for each bustee property instead of a large number. We also cannot doubt that it will relieve the hut-owner from harassment, though this result is questioned. It is said that the little finger of the owner will be thicker than the loins of the municipal collecting establishment; but the hut-owner has already to settle with the owner of the land, who naturally asks as much as he can induce the hut-owner to pay. The hut-owner will have no difficulty whatsoever in ascertaining what he is bound to pay in addition as rates, and it is difficult to see why he should let himself be more fleeced for rates and rent combined than for rent only. On the other hand, the municipal collecting establishment with its warrant machinery will be altogether kept aloof from the hut owners, and this cannot but be to their benefit.

The principle is not new in Calcutta. Section 100 of the present Act gives the Commissioners the requisite authority to collect the occupiers rates from the landlord in the case of small holdings; but as the section does not refer to the house-rate (which the hut has to pay) or to the night-soil fees, nothing would have been gained under the existing law by using its provisions.

Chapter V.—The valuation section has again received our best consideration. Last year we estimated 6 per cent. on the ordinary cost price, as the fairest standard of the annual value of houses not built for letting purposes or ordinarily let. This has been challenged in the 'remarks' annexed to the letter of the British Indian Association of the 23rd December last, on two main grounds—first, as being "grossly unsound" in principle; secondly, because 6 per cent. "is notoriously more than owners on an average get from houses which are built for letting purposes." Each of these objections should be separately considered; and to enable the objection as to principle to be fairly estimated, the circumstances which led to the change in the section should be stated. Houses in Calcutta might be divided into three categories for assessment purposes—(1) houses built for letting purposes, whether as residences for Europeans, as tenanted houses for the large number of native gentlemen, students, and others who, leaving their families in the mofussil, reside in Calcutta in pursuance of their avocations, or as business premises for offices, godowns, shops, &c.; (2) houses built by the owners for their own use, either as residential houses for their families, or by Government and other large owners as offices and business premises; (3) tiled huts built by one man on another man's land, either for his own occupation, or to let out in rooms to poorer occupants.

Of these three classes, the first has as a rule been fully assessed; the rent *actually* paid has been usually taken as the best test of the rate at which the premises might *reasonably be expected to let* from year to year; and as no allowance or deduction has been made for the cost of repairs, these houses have been rated higher than they would have been according to the English system.

Similarly, the third class has been over-assessed; the rate at which such huts let is high, and the cost of repairs heavy; but the full rent without any deduction for repairs is taken as the annual value.

The second class must be divided into two sub-classes—(a) residential family houses; (b) Government or other large buildings.

The latter have been assessed very much on the system proposed in the section, checked by comparison with similar buildings that are constructed for letting purposes. In many cases, the cost price being known, a valuation of 6 per cent. on this price when the building is new has been taken as the annual rent.

But the numerous residential family houses which abound in the north and east of the town have been rated on a very different principle. Not being built for letting purposes, and being specially adapted to the family of the owner, it has been argued that the price at which they might reasonably be expected to let from year to year is very small. This principle having been accepted and habitually acted on as the right one by the assessment benches, these houses, amounting to a considerable portion of the assessable property of the town, have been assessed far below their proper value, and have paid far below their fair share of rates. The case quoted by the Association, which is a typical case, clearly illustrates the demoralisation which has resulted from this most inequitable system. In this case a new house with its grounds was known to have cost Rs. 1,80,000, and the assessor, in valuing it at Rs. 400 a month, remarked that this was less than 2½ per cent. on the cost. Evidence of experts was forthcoming that such a house would not command a letting value of more than Rs. 250 a month, or 1·66 per cent. on the cost! We need scarcely say that this is not the correct interpretation of the English law. In the case of such houses in England as are not built to let to tenants from year to year, the rule has been judicially declared to be that "a hypothetical tenant must be assumed, and the terms of such tenancy are not difficult to be conceived; the occupying tenant must be assumed to pay *adequate remuneration to a contractor for land and fixed capital vested therein*, and the local rateable value would be such a sum as would pay the rent of the land and profit on the fixed capital therein." (Decision of Mr. Justice Wightman quoted in the 7th edition of Lumley's Law of Parochial Assessments, page 19).

This is precisely the principle which we desire to see clearly expressed in the Bill.

It is worthy of remark, too, that it is in regard to residential houses such as these that a house-tax is selected by economists as one of the best and fairest of taxes, while "it is an admitted principle that buildings or portions of buildings occupied exclu-

sively for business, such as shops, warehouses or manufactories, ought to be exempted from house-tax" (Mill, Book V, clause III, section 6). In Calcutta, while some residential houses have borne but a nominal assessment, business premises have been rated at a rack rent.

So far as the general principle is concerned, we feel no manner of doubt that we are advocating a principle of justice and equity, and that the British Indian Association are endeavouring to defend an untenable abuse.

Whether 6 per cent. is or is not too high a rate is obviously a different question. We have made careful enquiries as to the return which investors in house property generally expect to get for their money. The "remarks" of the British Indian Association assert that it is notorious that house property in Calcutta does not fetch more than 4 per cent. on the outlay. The courts of law as a rule only award 16 years' purchase of the annual value, which would point to 6 per cent. as below the fair annual rental. On the other hand the Rating and House-tax Bill introduced into Parliament by Mr. Goschen in 1871, as the immediate result of the Report of the Committee of which he was Chairman, contained the following section :—

"The annual gross value of every hereditament shall be the annual rent which a tenant might reasonably be expected, taking one year with another, to pay for it if the tenant undertook to pay all usual tenants' rates and taxes and the tithe commutation rent charge, if any, and if the landlord undertook to bear the cost of the repairs and insurance and all other expenses necessary to maintain the hereditament in a state to command that rent.

"The annual rateable value shall be estimated by deducting from the gross annual value the probable annual average cost of the repairs, insurance, and other expenses above referred to.

"When it appears to the assessing authority that for special reasons a building cannot be fairly valued according to the annual rent which a tenant might reasonably be expected to pay for it, it shall be valued in the following manner :—

"The gross value of any such building shall be a sum equal to 4 per cent. on the capital sum which a purchaser might justly be expected to give for such a building in its actual state and existing mode of occupation. The rateable value shall be the gross value so calculated after making the same deductions as are made in the case of any building valued in the ordinary manner."

This would cut down the rateable value to about $3\frac{1}{2}$ per cent., and the question is whether 6 per cent. in India is a more liberal return for house property than $3\frac{1}{2}$ per cent. in England. We have received assurances that some house-owners do not receive a clear 6 per cent. on their house property after making all deductions; and, on the whole, we have come to the conclusion that, looking to the present under-assessment of these houses, it is best to err on the safe side and to take 5 per cent. as the fair net return on house property. This obviously involves the consequence that tenanted houses should be assessed on their net and not on their gross rental, and we have therefore allowed, as is done in similar laws elsewhere, a deduction of 10 per cent. on the actual rental for repairs. The 5 per cent. rate will similarly, we think, be a fairer rate on the expenditure incurred by Government in the construction of its buildings.

In accordance with the strong recommendations of the Port Commissioners, the Chamber of Commerce, and the Trades' Association, we have re-inserted the proviso exempting machinery. We observe that this proviso, which had similarly been omitted in the Bombay Bill, has been similarly restored there by the Select Committee.

We have as already indicated, introduced (section 124) a new system of rating bustees, by which the value of the bustee at the beginning of the year shall remain unaltered for assessment purposes throughout the year. The valuation may be continued for a similar period by mutual consent of the Commissioners and of the owner, but either of the two parties has the right to insist on a revaluation at the end of the year.

The register of owners is at present very badly kept up, many owners preferring to leave the names of their ancestors or predecessors in title on the register instead of inserting their own. As we have endeavoured to remedy this, we have thought it necessary (section 128) to facilitate the machinery of registration when a claimant's title, though undisputed, cannot be easily proved:

Chapter VI.—We have made no alterations of any consequence in Chapter VI of levying the rates.

Chapter VII deals with the water-supply. In section 150 we have thought it fair to make it obligatory on the Commissioners to treat the crews of vessels lying at the jetties or in the docks as residents of the jetties or docks, and, looking to the large amount of water-rate paid by the Port Commissioners, to supply them with water free of charge. We have maintained, however, the right to make a reasonable charge for water to be taken away from Calcutta for use on the voyage.

Section 153 indicates the pressure which is to be maintained; and as nearly every public body and association that has reported on the Bill, has referred to this section, and begged that the obligations of the Corporation may be clearly defined, it has received our most careful consideration.

We append to this report a note by the Chairman of the Corporation explaining the reasons why pressure cannot, under existing arrangements, be maintained. It seems to us that this note conclusively shows that the scale of ferrules which is at present in

force under the orders of the Commissioners, is so lavish that it is only possible to maintain an adequate pressure, if the supply of water and the engine-power is more than doubled, or if the size of the ferrules is reduced. The former alternative would be far the most satisfactory were not the cost altogether prohibitive. That being so, the only remedy which we regard as practicable is to reduce the size of the ferrules.

It must be borne in mind that the supply which the Commissioners are, under the existing law, bound to give to connected houses is only 1,500 gallons for every rupee of water-rate, and they are entitled to affix a meter and to charge for all water consumed in excess of this scale. It is true that this does not apply to houses assessed at less than Rs. 100 a month, but still the section indicates clearly what is the amount of water which is a fair return for the water-rate paid.

The supply has been increased so much since this scale was prescribed that there will now be no difficulty in guaranteeing 3,000 gallons of filtered water for every rupee of rate. We propose therefore to substitute 3,000 gallons for 1,500 gallons in section 155, and having thus secured the rate-payers double the supply which they are at present entitled to, only those who have consumed much more than this quantity can be aggrieved if the ferrules are reduced, and they are precisely the class who have no claim to have their complaint entertained.

The only question is whether we should leave the Commissioners to revise the scale of ferrules or should revise them by law. It seems to us better to insert the change in the law. The effect of this measure must infallibly be misunderstood at first by the rate-payers at large, and it would be imposing a very hard task on the Commissioners to leave it to them to pass so unpopular a proposal. We appear to have enough data before us to enable us, with the experience of the last 18 years, to fix a fair working schedule of ferrules, and we have left a power with the Local Government on the recommendation of the Commissioners in meeting to revise the scale.

As some houses are so disadvantageously situated that they will get an inferior pressure, we have provided that, whenever it is shown that the ferrule will not give the supply to which a householder is entitled, he shall have a right to such an enlarged ferrule as will give him this supply.

In section 160, by which the Commissioners are empowered to lay open and inspect gas-pipes or other works which are thought to be fouling the water-supply, we have adopted a suggestion of the Health Society to make it incumbent upon the Commissioners at once to purify the water if found to be contaminated.

Chapters VIII and IX.—The other alterations made in this Chapter, as well as those made in Chapters VIII and IX, are comparatively unimportant.

Chapter X.—‘Of Conservancy and Improvement,’ and *Chapter XI* ‘of Sanitation’ have, in conformity with suggestions made, been re-arranged and divided into Chapter X ‘of Streets and Building Regulations,’ Chapter XI ‘of Drainage Works, Drains and Privies,’ and Chapter XII ‘of Sanitation.’

In Part I of Chapter X “of the Streets” we have added a new section taken from the Bombay Act, in order to make it perfectly clear that the Commissioners, when making new streets, may acquire the land outside the line of the street and may re-sell such land. A comparison of sections 111 and 113 of Act VI of 1863 with sections 150, 327, and 329 of the existing law, has left no doubt on our minds that this had always been the intention of the legislature, and we consider it a perfectly fair and equitable proviso. We have, prescribed a limit of 100 feet on each side of the proposed line of the new street for the land to be acquired.

We have also made it clear (section 205) that when a public street is closed the site may be sold, any person injured thereby being compensated, unless he has got an equivalent by the new street which presumably will have been opened in its place.

In consequence of a difficulty experienced in working section 265 in a recent case, we have in the corresponding section (207) made it clear that in exercising the power to set back when a house is pulled down to be rebuilt, the Commissioners are only bound to pay the market value of the land taken, together with severance compensation, and we have given the same power where new streets have been formally projected, as a very important power to be exercised if new suburbs are likely to spring up in the added area.

Parts II and III ‘of Building Regulations,’ regarding houses and huts, have been almost entirely re-written with reference to the recommendations made from many quarters in favour of conferring more ample building powers on the Commissioners, so as to obviate the serious future evils which must ensue from allowing houses to be constructed on no regular lines, as has been done in Rajah Bagan and elsewhere. We are so satisfied that this was needed that we have framed these parts of the Act expressly to meet this difficulty. It will be best to describe the general object of these sections rather than to refer to them in detail.

We have retained the fundamental difference in these chapters as in the chapters on valuations and in the collection of rates, between houses usually built of masonry which are constructed on land belonging to the builders, and huts usually built of mud, where the hut-owner builds on another man’s land.

As regards the construction of houses, we have been invited to pay attention to two main points, (1) their being erected on such sites and in such a manner that they will admit of broad straight streets running through them; (2) their being so constructed as to guarantee proper ventilation, air spaces, open ground round them, and such other sanitary conditions as are found in the English model bye-laws, and are also introduced into the Bombay Act. We have not admitted the equal importance of each of these requirements.

Full and effective control over the site we have regarded as indispensable not only to regulate the new masonry buildings which are being erected in the town, but still more those which may spring up round the docks or elsewhere; but as regards ventilation and air spaces, we are of opinion that the circumstances of Indian and English life are so different, as well as the climatic conditions, that there is not sufficient experience to justify the legislature in imposing hard-and-fast rules such as are prescribed in the English model bye-laws. We have therefore generally indicated that the Commissioners have control over houses with reference to sufficient ventilation and air spaces, and have made it clear in the law that a person is not entitled, if he owns two or three cottahs of land, to cover it all with buildings, causing, if his neighbours choose to do the same with this land, an irremediably insanitary condition; but having laid down this general principle, we have left the application of it to the Health Officer working under the control of the Commissioners, who have power to make bye-laws on the subject.

As regards sites, the Commissioners have power to lay down lines of projected public streets, and private persons may construct streets approved of by the Commissioners; but unless the satisfactory position of the site can be shown with reference to either an existing or a projected public or private street, the Commissioners may refuse sanction to it. The effect of this will be that the lines of streets in building areas must as a general rule be laid down before the buildings can be constructed, being the reverse of what now takes place.

As regards bustees, we have preserved the present power of making improvements after inspection by two medical officers; but we have added a new power which will, we hope, work more widely and systematically. The Commissioners have power to define the limits of each bustee, and, having done so, to call for a standard plan showing how the huts are eventually to be arranged in it, so as to stand in regular lines. Powers are given to enforce the preparation of this plan, and, once prepared, no new hut can be constructed or existing hut reconstructed except in accordance with it.

If these provisions are enforced intelligently for a few years, all the bustees in the municipality will be brought into conformity with the law, and the huts will be so arranged as to afford all the necessary facilities for scavenging and cleansing.

Chapter XI.—The changes introduced into Chapter XI on Drainage are, with one exception, unimportant, though there has been some re-arrangement of sections. The exception is a new section taken from the Bombay Bill to enable the Commissioners in any new drainage works to provide separate sewers for sewage and drainage.

In *Chapter XII*, Part I, (on Scavenging and Cleansing), we have introduced a provision from the Bombay Bill making it obligatory on owners whose animals die, either to remove the carcass or to report to the Commissioners for its removal. At present this is almost invariably done, but there is no legal obligation.

As Part II of this Chapter we have introduced from the Bombay law sections authorising the inspection and sanitary regulation of premises, and we have made some changes in Part III for the prevention of infectious diseases. In these parts we have introduced a section from the Bombay Bill authorising under certain circumstances the demolition of a hut in order to prevent the spread of disease. In section 324 we have limited the right to force unwilling persons to go to hospital to the case of males. We are informed that the provisions of this section were regarded with dismay in many families, where the contingency was conceived of zenana ladies being forced to go to hospital by a zealous executive, as being 'without proper lodging or accommodation,' or as 'lodged in a manner which makes the spread of such infectious disease imminent.' We have left out the concluding words altogether as being too wide; but as the persons who it will be necessary to move will in nine cases out of ten in Calcutta be males, and it is desirable to allay apprehensions at a very small cost as regards loss of efficiency, we have by a small majority limited the provision to males.

The alterations which we have made in Part V of this Chapter, viz., 'of slaughter-houses and dangerous and offensive trades,' and Part VI 'of markets and the sale of food and drugs' are very slight, though we have re-arranged the sections.

Part VII of Weights and Measures is new, being taken from the Bombay Law. The Calcutta Police Act IV (B.C.) of 1866, sections 55 and 56, gives power to the Commissioner of Police to keep standard weights and measures and to seize false weights. The municipality, having the control of markets, ought, we think, also to keep standard weights and to offer facilities to vendors to have their weights examined and compared with the standards, and, if correct, stamped as such. The new sections provide for this.

In Part VIII of burial grounds and burning ghâts we have provided for requiring the owners of private burial grounds to submit plans of them, if called upon; while the municipality is charged with the same duty as regards public burial grounds. We have also introduced a section (377) from the Bengal Municipalities Act prohibiting new or disused burial grounds from being used without the consent either of the Government or of the Commissioners.

The changes in Part IX of nuisances and in Part I, Chapter XIII, of rights of entry, are only verbal.

Chapter XIII.—In Part II we have altered the heading to 'of the acquisition and disposal of land' and have made the wording more comprehensive.

In Part III 'of Railways' we have, as directed, placed the powers of the Corporation under the direct control of the Government of India.

In *Chapter XIV* 'of the Municipal Debt' we have also, as directed, transferred the control

In *Chapter XIX*, Miscellaneous, we have made several alterations. We have introduced a more definite procedure similar to that laid down in sections 175-185 of the Bengal Municipalities Act, defining the rights of persons called upon to execute any work to have their objections duly heard and determined. At present this branch of executive administration works badly, mainly because persons called upon to do any work rarely object till after the work is done and the bill sent in, when they raise every possible objection to payment. If, as is probable, the suggested procedure leads to more objections being made before execution of the work, it will be a much greater gain than the slight delay in execution will prove an inconvenience. These sections also give power to the Commissioners to divide the expenses among the owners or occupiers when more than one are equitably liable.

In section 452 we have introduced a provision from the same Act, protecting the city from strikes of *mehlers* and scavengers. Past experience has shown that this is very much needed in Calcutta.

❖ We have exempted public burial grounds and burning ghâts from being rated.

We have introduced (sections 456 to 459) provisions for enabling the Local Government to alter the boundaries of Calcutta from time to time as necessity for so doing may arise. These sections are taken from the India Act of 1884 (Act XVII), but we have thought it right to except from these provisions, the area under the original jurisdiction of the High Court.

NOTE ON THE WATER-SUPPLY.

1. DIVERGENT and often antagonistic as are the opinions expressed on other provisions of the new Municipal Bill by the public bodies and associations that have been consulted, there is one section in regard to which entire unanimity prevails—section 134.

This section runs thus—

“The Commissioners shall, between the hours of six in the forenoon and eight in the afternoon, *so far as may be reasonably practicable*, keep and maintain throughout their pipes and mains a sufficient supply of filtered water under a pressure of not less than 10 feet, for the domestic use of the rate-payers, and shall every day, for not less than two hours in the forenoon and one hour in the afternoon, maintain a pressure of water in the service pipes and mains sufficient to raise the water in all houses and places in which the same may be introduced within the area at present supplied to a height of not less than 30 feet.”

2. Commenting on this section, the British Indian Association strongly protest against the reduction of the pressure from 50 to 30 feet. The Indian Association close their letter with the hope that a minimum pressure of 30 feet may be fixed. The Health Society consider that the words “so far as may be reasonably practicable” render the section unworkable. The Port Commissioners also recommend by a majority the omission of these words. The Chamber of Commerce attach importance to this. They entirely support the contention of the Hon. G Irving, that as regards the water-supply “the maintenance of a sufficient pressure should be as definitely and as unmistakeably laid down in the Act as the provisions in regard to taxation;” and the Trades’ Association consider the proviso a very objectionable one, and “trust that the words to which exception is taken may be omitted from the Bill.”

3. These strongly-expressed opinions justify me in hoping that the time has come when the public will be prepared to support the only measure that can successfully effect the improvement in pressure which they all desire, viz., a wholesale reduction in the too liberal size of the ferrules already granted for house connections. It is incumbent on me to show that this is the only remedy short of such an expenditure as would double, if not treble, the cost of the water-supply. If I successfully do so, I am justified in hoping that the Select Committee and the public bodies and associations which attach so much importance to this reform will support me in the necessarily unpopular but very salutary measure which affords the only practicable means of maintaining a proper pressure.

4. In considering how far the Commissioners have hitherto discharged the obligations imposed upon them by the law in the matter of water-supply, it is right to bear in mind that the quantity of water which could be fairly taken for domestic consumption was indicated as clearly as the pressure at which it was to be supplied. Section 133 of the present Act contains a provision that “the occupier of every house connected with the water-supply shall be entitled to have free of further charge 1,500 gallons of filtered water for every rupee paid to the Commissioners as water-rate on account of such house.”

5. At the present moment 10½ million gallons are being supplied to the Town daily, and the amount being collected as water-rate is considerably less than 7 lakhs of rupees. This gives about 5,500 gallons of water instead of 1,500 supplied for every rupee; and

fully maintained. It is merely as regards the pressure at which the supply is delivered and by consequence as regards the distribution that they fail for the reasons which I proceed to indicate.

6. After a house is once connected with the water-supply, the size of the ferrule is the only check which can practically be exercised over the quantity of water which that house will consume at a given pressure, if the supply is continuous. In Calcutta, for reasons which were probably sufficient, it was arranged to deliver water under the continuous and not the intermittent supply system. The intermittent system requires the use of cisterns which are very liable to contamination, and also increases the probability of gas finding its way into the pipes. In Calcutta the supply was at first continuous both by day and night, but after a short time night supply was found impossible. Since, then, the supply has been a continuous day supply, and this the Act indicates that it should remain.

7. If continuous, there is nothing to prevent the ferrule working all day long if the inmates of the house choose to keep their taps running. Hence it must be clearly recognised that under our present system, as soon as we have sanctioned a certain size of ferrule, we have sanctioned implicitly as large a consumption of water as that ferrule will pass during the day. The water may be wasted, or it may be consumed legitimately though extravagantly, but the legal standard of 1,500 gallons for a rupee of water-rate obviously becomes a dead letter if we sanction a ferrule that will give 15,000 gallons for every rupee paid and if the inmates of the house choose to take 15,000 gallons. So far therefore as *command* over the water to the individual is involved, and *loss of command* to the Commissioners, this depends on the size of the ferrules, and it is the simple fact that the scale of ferrules sanctioned has been such that it has entailed entire loss of command over the water-supply, and if the Commissioners are to be responsible for the pressure of the future supply, they can only fulfil this duty if they recover their command by a wholesale reduction in the size of the ferrules. This I proceed to show.

8. The following scale of ferrules was sanctioned in the first year of the water-supply, 1870, and has remained in force ever since:—

Monthly assessment of house.				Size of ferrule.	
Under 5 rupees	$\frac{1}{8}$ inch.
" 10 "	$\frac{1}{4}$ "
" 50 "	$\frac{3}{8}$ "
" 100 "	$\frac{1}{2}$ "
" 200 "	$\frac{5}{8}$ "
" 300 "	$\frac{3}{4}$ "
Above 300 "	1 "

In a few special cases of very large buildings ferrules of $1\frac{1}{4}$ and $1\frac{1}{2}$ inches have been sanctioned.

9. An accepted formula for water-supply through a ferrule is $G = 13\sqrt{P \times d^5}$ where
 P represents the pressure in height of feet,
 d the diameter of the orifice of the ferrule in inches,
 G the number of gallons per minute:

thus if the pressure is represented by a column of water 25 feet in height, and the diameter of the ferrule is $\frac{1}{2}$ inch, the discharge per minute will be—

$$G = 13 \sqrt{25 \times (\frac{1}{2})^5} = 16\frac{1}{2} \text{ gallons}$$

and in an hour, with the same pressure maintained throughout, the ferrule, if working continuously, would deliver $16\frac{1}{2} \times 60 = 975$ gallons.

10. The number of connections sanctioned in the town up to the 31st December 1887, and the amount of water which they can consume per minute, according to this formula, is shown in the following table:—

11. This statement, when examined, conclusively explains the causes of the unsatisfactory pressure. The original water-supply of the town was 6 million gallons per diem. This was after a time raised to 7 and then to 8 millions. At the present moment it is 10½ millions, and before the amalgamation takes effect it will be 16 millions, which is the maximum supply intended for the town proper. The engines and mains were originally calculated for the delivery of a little over 6 million gallons. As the supply has been enlarged, the engine-power has been increased, larger mains have been put down, and the general outline of the extension scheme may be said to be that the filters will pass about 850,000 gallons an hour; that the mains from Pultah to Calcutta will send down about 850,000 gallons an hour; that of the aggregate of 20 million gallons for the town and suburbs, 4 million gallons will be reserved for distribution in the suburbs, and 16 million gallons stored each night in three Town reservoirs for distribution throughout the town during the day from three centres of distribution. The town engines will be capable of distributing 2,604,784 gallons in a single hour, in which case the whole supply would be exhausted in 6 hours; or if 3 hours' full supply is maintained, as the Bill supposes, there would remain nearly a million gallons per hour to be distributed at low pressure. But the figures of the statement given above show that, according to the recognized formula, *the houses valued at between Rs. 10 and Rs. 50 a month that are already connected are capable alone of consuming nearly double the maximum supply which the engines can deliver at 30 feet pressure.* So that if it is obligatory to maintain a pressure of 30 feet for three hours daily, those houses could take off the whole day's supply in those 3 hours! If all the houses in the town which are already connected were similarly to use their power of taking water, they could take off the whole day's supply in less than one and a-half hours!!

12. It need scarcely be said that with the engines and distributing pipes as they now are, this is not what can ever actually happen. All the houses in the town are not drawing water simultaneously, but so widespread is the habit of leaving taps open (and a single tap open in each house causes the ferrule to work at full discharge if a small one, with part of its full discharge if a large one) that it is calculated that at the hours when the water is most in request at least 60 per cent of the ferrules are working. Taking the capacity of the ferrules in round numbers at 12 million gallons an hour, at a pressure of 30 feet, it is easy to see what is the average pressure which each house will actually get if 60 per cent. of the ferrules are simultaneously working. If 2½ million gallons are being delivered to ferrules capable of taking 7½ million gallons at 30 feet pressure, the equation for determining the average pressure will be $3\sqrt{P} = \sqrt{30}$ or $P = \frac{30}{9} = 3.3$ feet! Of course what actually happens is that the houses which are a fair distance apart and well situated as regards mains get a moderate pressure of 10 to 15 feet, and before the demand begins, or after it falls off, sometimes 30 feet, and thus take the whole of the supply; while the houses which are crowded together and situated unfavourably as regards the mains will get no supply at all, unless they take it at ground level. But if this must happen even with existing connections, what will it be if still more houses are connected at the same scale of ferrules? The following figures show the number of houses in the town of the different valuations, corresponding with the different ferrules, as compared with the number already connected.

Valuation.		No. of pucca houses or lands.	No. of tiled huts.	Total.	Already connected.
Rs.	Rs.				
1 to	59	2,151	7,561	9,712	569
60 to	119	4,329	6,884	11,213	2,722
120 to	599	13,180	4,266	17,446	8,119
600 to	1,199	1,775	143	1,918	1,719
1,200 to	2,399	974	50	1,024	716
2,400 to	3,599	378	11	389	506*
Above	3,600	540	13	553	397
Total		23,327	18,928	42,255	14,750

13. It will be seen from these figures that while 3,840 out of 3,667 pucca houses, valued at above Rs. 50 a month, have been connected, nearly 9,000 pucca houses, mostly valued at less than Rs. 50 a month, remain to be connected. Many of these are impatient for connections as soon as permission can be obtained, and if this permission is given, the difficulty will be still greater than it already is.

14. If the assumption is made—which is not far from correct—that the several classes of houses which have command over water make approximately the same use of their command, we have the materials for comparing the relative consumption of water and payment made for it in each of these classes, as it is easy to determine the approximate average assessment of the houses in each class. This has been done in the statement below, and the further check applied of the known aggregate assessment of the entire town. Thus computed, the

percentage of payment and of consumption of water in each class is approximately as follows :—

					PERCENTAGE OF—	
					Water taken.	Payment made of water-rate.
Unconnected houses	...				5	26
Connected houses under Rs.	5 a month				3	2
"	"	10	"		6	1.8
"	"	50	"		40	14
"	"	100	"		15	8
"	"	200	"		9	7.5
"	"	300	"		10	8
"	"	above	"	300	13	24
Water sold	...				1.7	11
					100	100

15. The assumption made is if anything too favourable to the connected houses with low assessments; being relatively more thickly populated and having smaller ferrules, their inmates are probably more continuous in the use of them than are large buildings only inhabited for a part of the day; but allowing the assumption to stand, the result is still very instructive. Connected houses assessed at Rs. 100 to Rs. 300 a month get fully as much water as they pay for. The Port Commissioners and the large public buildings and other houses with high assessments pay for about twice as much water as they get. A large profit is made out of the water sold, especially that sold to the shipping, and the unconnected houses if they get their supply entirely from the standposts (an assumption which is only approximately correct) pay for five times as much as they consume. To make up for this, the connected houses, valued at less than Rs. 100 a month, consume from two to four times as much water as they pay for.

16. As the classes which occupy these houses are approximately the middle class of Calcutta, the figures given show that they have got enormously the best of the water-supply, not at the cost of the upper class who get a very fair supply also, but at the cost of the poorer classes who live in huts or unconnected houses, and at the cost of the offices, business houses, and public buildings. If this result did not lead to the ruin of the pressure, it would be comparatively a minor matter. Some class gets the best of all joint-arrangements in large towns, and indeed it has been claimed as a merit in the new Bill that in the removal of sewage the poor classes will benefit by the proposed uniform rate. In this instance unfortunately it is the poorest class which goes to the wall, and the class which has a very influential—probably the dominant—voice in the administration of Calcutta which derives the advantage, but even this would not be so intolerable if the arrangement would work; but as these figures conclusively show, it will not.

17. When the water-supply to the town was projected, the scheme was violently opposed by the Hindu community on the ground of religion. A distinguished member of this Council, the Hon'ble Kristo Das Pal wrote in 1865, a pamphlet strenuously opposing the project:—"I am willing to admit," he wrote, "that there may be a few educated and enlightened natives who may, without any objection, drink high pressure water, but how small is their number? and even they must continue to draw the usual supplies from the river for the females of their houses and for household purposes. But in taxing a community it is the duty of the authorities to look to the habits, wants, and wishes of the masses, and not to the convenience of a few; and in the interest of the mass of the native population of the town, I beg to declare that the imposition of a tax on them for a system of water-supply, of which they will not avail themselves, is the most intolerant measure that could be proposed by a civilised Government in Asia."

18. With such language before them, which was habitually re-echoed by the late Rajah Degumbar Mitter, and other distinguished leaders of Hindu society, it is natural that those who calculated the water-supply and fixed the size of the ferrules should not have foreseen the great run upon the water which subsequently set in. In the first year the connections were few, the draught of water accordingly was small, and a high pressure was easily maintained. By 1873 the connections had increased according to the annual report to 7,160,* and the impossibility of maintaining the pressure was admitted. From that year commenced the discussion which has continued up to the present time, of the relative merits of a continuous and of an intermittent supply, and of the feasibility of reducing the drain of water by the wholesale application of meters, or by close surveillance of the house consumption and rigorous prosecutions for waste. Briefly, it may be said that Dr. Macnamara and other experts condemned the intermittent system as unsuited to a tropical climate; that the expense no less than the harassment entailed by the wholesale use of meters has been regarded as fatal to that suggestion; while rigorous prosecutions for waste of water have been equally condemned. Moreover, it would be useless to prosecute for waste when the water which might be taken for use, though superabundant use, would equally ruin the pressure.

19. The history of the last 15 years is the history of an unavailing effort on the part of the Commissioners and their Engineers to overtake the increasing drain upon the supply by the increasing number of the connections through unduly liberal ferrules. The figures given convince me and will, I hope, convince the Committee and the intelligent public that with the ferrules we now have, all such efforts must be unavailing unless another hundred lakhs are to be spent on doubling the head works, the engine-power, and the size of the piping, and unless the maximum rate is raised from 6 to 12 per cent. The other remedy is to deprive the occupiers of connected houses of the command which they now have over the water, which they are shown to have exercised in such a manner as not only to take five or ten times as much water as they are paying for, but also to prevent others getting their legal supply. Many persons who know that they themselves get a very poor supply, will receive the statement with some scepticism, and will imagine that what is proposed is tantamount to still further reducing the dribble which they now get; but they should understand that the effect will be just the opposite. We are now delivering 25 gallons of filtered water per head every day to the people of Calcutta; many of them have the greatest difficulty in obtaining a quarter of that quantity, but the reason is that, say, 5,000 to 6,000 houses are in a position to take more than 100 gallons per head and do so, and the measures which will take away this power from them, will preserve the water for those who now get too little.

20. It seems to me that the new Act should contain two provisions if the water-supply is to be improved—first, as the best possible proof that the Commissioners are in no way resiling from the obligations which they have undertaken, to double the supply which they guarantee to give for every rupee of water-rate. We are only now obliged to give 1,500 gallons per rupee. If in future we undertake to give 3,000 gallons, it will effectually cut the ground from under the feet of all who claim to be aggrieved. They will be guaranteed double what they have hitherto been entitled to: if therefore they are losers it can only be because they have hitherto been taking more than double what was their due.

21. The second step needful is to insist on such a revision of the ferrules as will admit of the pressure being maintained. Mr. Kimber estimates the cost of changing the ferrules at Rs. 50,000. Even if it comes up to a lac, it will be nothing compared with the outlay necessary to meet the difficulty in any other way. I suggest the following scale of ferrules based on the existing system: it shows the maximum drain per hour as compared with the present maximum, and also the number of minutes at which the ferrule will have to be working at a 10 feet pressure in order to yield the supply which the occupiers of the house are entitled to:—

Annual valuation of premises.	Existing connections.	Size of ferrule now allowed.	Discharge in gallons per minute, all working simultaneously.		Proposed size of ferrules.	Discharge in gallons per minute, all working simultaneously.		Amount of gallons per diem which a house at the maximum valuation in column 1 will be entitled to.	Number of minutes at 10 feet pressure which it will take for the ferrule to deliver this.	Number of minutes which it will take to deliver the supply to which the average house of the class is entitled.

Total	15,279		117,365	203,643		43,309	75,930			

22. It will be seen that, omitting the houses valued at above Rs. 20,000, the most unfavourably valued house in the town, viz., one valued monthly at Rs. 99-12, will be able in less than four hours of low pressure to get the full supply to which it is entitled, and if it takes water at high pressure, in much less than that time. The maximum draught per minute at high pressure with the existing connections will be reduced from 203,643 gallons to 75,930 or by nearly two-thirds. With every ferrule working simultaneously, the draught per hour would be 4,555,000 against an engine-power of 2,604,784 gallons only, and nearly 20 per cent. increase must be allowed for new connections. Still it may reasonably be expected that with the improvement of the pressure the habit of keeping taps open will somewhat decline, and if so, there is a fair probability of maintaining the stipulated pressure, if this reduction is carried out.

23. It may be that some houses will still be so disadvantageously situated that their ferrules according to this scale will not give them the 3,000 gallons per rupee to which they are entitled, and I would therefore add a clause that any house which is so situated that a ferrule, according to the prescribed scale, will not give it the supply to which it is entitled in 1 1/4 hours of high and 5 1/4 hours of low pressure, shall be entitled to a ferrule of such size as will give it its supply within this period.

H. L. HARRISON.

The 6th March 1888.

Minute of Dissent by the HON. G. IRVING.

THE following are the main points on which I am, I regret, unable to concur with the majority of my colleagues:—

Section 38.—The right of appeal to the Government of India under this section against the Local Government appears to me to be unnecessary and ill-advised. The Local Government is, I think, the proper controlling authority of municipal administration. In the Select Committee's Report it is said that "the discretion and forbearance of the Government constitute the best guarantee which can be given to the Corporation against a hasty and injudicious use of this power." I fully agree with that view. But there will always remain the general power of appeal to the Imperial Government on any point of sufficient importance to warrant that extreme course.

Chapter IV, Section 106, Consolidated Rate.

I desire to enter my protest against the apportionment of the consolidated rate. Under the present Act, the maximum which the tenant can be called upon to pay is $9\frac{1}{2}$ per cent. as against $11\frac{1}{2}$ per cent. payable by the landlord, and I hold that that ratio should be maintained, the tenant always paying 2 per cent. less than the landlord. Rentals in Calcutta have been adjusted to that scale, and executive convenience is not a sufficient reason for destroying the proportion. The halalkhor rate at 2 per cent. imposed by section 141 payable by tenants makes no proper adjustment of the difference; for while admitting that the halalkhor service should be paid for whether it is rendered by a staff of municipal mehters or by the use of the city sewers, it should be borne in mind that connected houses pay a better rental than unconnected ones; therefore, the tenants of connected houses already pay the landlords for the convenience enjoyed by the use of the sewers. Hence the new rate, instead of adjusting the inequality in the division of the rate, enhances the evil and further burdens the tenants of connected houses.

While I do not oppose the halalkhor rate, I submit that the imposition of that rate is not a legitimate means of arriving at an equal apportionment of the consolidated rate. With the maximum rate at 23 per cent. the proper proportion would be—tenants $10\frac{1}{2}$ per cent. and landholders $12\frac{1}{2}$ per cent.

Chapter VII.—Water-supply—Section 153.

In regard to the pressure that should be kept up in the water-supply, I am constrained to adhere to the position I took up in my minute of dissent on the Bill when it was last published. The saving clause in the section "so far as may be reasonably practicable," when applied to the moderate pressure prescribed of 30 feet only, and that for the very limited period of two hours in the forenoon and one hour in the afternoon, seems to be unwarranted, and I think it should be struck out. Sir Henry Harrison's note on the water-supply, which accompanies the report of the Select Committee, demonstrates that the pressure can easily be maintained provided that the supply is properly controlled and distributed. It is, therefore, I think, imperative that the very moderate requirements as to pressure should be of an unmistakeably definite character.

Chapter X, Part 1—Of Streets.

It is, in my opinion, a grave omission in this chapter that a minimum width for new streets and lanes is not laid down. A provision of this vital character should surely not be relegated to a bye-law. With regard to the condition of some portions of the northern town, Mr. Cotton, late Officiating Chairman of the Corporation, says: "The superabundance of narrow lanes in the respectable inhabited portion of the city is an intolerable nuisance." With this state of things before the authorities, it is to be hoped that a similar condition will not be allowed to arise in the southern part of the town, though nothing is more likely, especially in the localities adjacent to the new docks, if immediate measures are not taken to prevent it.

Chapter XII, Section 324.

Confining the powers of the Commissioners to removing *male* persons only to hospital who may be suffering from a dangerous disease, and who are without proper lodging or accommodation, is, I think, a mistake. The removal of any but the poor and badly-housed is not contemplated, and it cannot for a moment be supposed that there is any danger of interference with zenana ladies in the action of a Corporation largely composed of native representatives. It should not, however, be forgotten that there is a large female labouring class in Calcutta, and for the welfare and comfort of these in dangerous sickness, as well as for the safety of the town, the section should apply irrespective of sex.

GEO. IRVING.

Note of Dissent by the HON. GOOROO DASS BANERJEE.

I HAVE signed the final report of the Select Committee on the Calcutta Municipal Consolidation Bill subject to reservations. I regret I cannot agree with my colleagues on many points. I shall here briefly note the most important of these with the reasons for my dissent.

Section 2. Definition of Calcutta.—My amendment to the effect that there be no amalgamation of the Town with the Suburbs of Calcutta, and that the present boundaries of Calcutta be retained, having been rejected by the Council, the only question now open to us for consideration is whether we should adopt the comprehensive boundary given in the Bill, or fix a more restricted one. I am strongly in favour of the latter alternative, and for

improvement of the area we take in. And I would recommend that out of the Suburban area proposed to be incorporated with the Town, at least a portion on the south-east be excluded, namely, the portion bounded on the north by the Tiljullah Road, the Ballygunj Circular Road, the Puddopukur Road, the Pakurtola Road, and the Chaulputty Road, and on the west by Tolly's Nullah. We may conveniently leave out this area, as the greater portion of it is scarcely of an urban character.

Section 38.—The provisions of this section are, I think, open to objection. There can be no question as to the necessity of the Government having control, but such control should, I submit, be exercised only in extreme cases, that is, only in cases of gross and serious neglect by the Corporation of their duties relating to public safety and public health. The scope of the section should, I think, be limited to cases of neglect of duties relating to public safety and health. There should also be express provision for giving the Corporation an opportunity of defending themselves. It is quite true, as the Select Committee observe, that "the discretion and forbearance of the Government constitute the best guarantee which can be given to the Corporation against a hasty and injudicious use of this power," but it is equally true, I venture to think, that for an important public body like the Calcutta Corporation, their own good sense and the control exercised by public opinion are ordinarily sufficient to keep them up to their duty. And if it is necessary to provide against neglect of duty by the Corporation in exceptional cases, I would respectfully submit that it is desirable also to provide against injudicious or hasty interference in any case.

It may not be out of place here to observe that with the enlarged scheme of duties prescribed by section 37 of the Bill, and with the heavy burden thrown upon the Corporation by the amalgamation of a large additional area, without any adequate funds being placed at their disposal, the Corporation would remain constantly and unavoidably liable to be proceeded against under this section, unless its provisions are qualified at least in the way indicated above.

Section 122.—The provisions of this section relating to the valuation of houses not built for letting purposes, and not ordinarily let, are objectionable on the following amongst other grounds:—

In the first place the difficulty of ascertaining the cost of building and the amount to be deducted on account of depreciation in the case of an old house will be much greater than that of ascertaining the rent at which it may be reasonably expected to let.

In the second place the proposed rule will be productive of great hardship, as it would lead to taxing owners of dwelling-houses according to an arbitrary standard which is very often greatly in excess of their expected possible income derivable from those houses, and which often gives an exaggerated idea of the extent of their means. A native dwelling-house, it is well known, would seldom let for anything like five per cent. on the cost price (see the case of *Nundloll Bose versus the Corporation of Calcutta*, reported in *Indian Law Reports*, XI, Calcutta Series, page 275). Nor is the cost price of a native dwelling-house (with deduction for depreciation) any criterion as to the extent of the owner's means. It may have come to him (as is often the case) by inheritance, and may be a burden rather than a benefit. And if he does not part with it readily, it is out of deference to a prevailing sentiment which we cannot ignore. Again, a Hindu may own a larger and more expensive house, not because he has greater means, but because he has a larger family. And though the great English economist cited in the report of the Select Committee may say that 'having a larger family is at a person's choice,' no one possessing the slightest knowledge of our society can say the same thing for a Hindu.

Section 204.—Clauses (b) and (c) of this section are open to grave objection. The Commissioners may, no doubt, acquire land for any public purpose. But it is more than doubtful whether they should be allowed to acquire land for the sole purpose of selling it at a profit. If the raising of their funds in this way be a public purpose, carried to its legitimate consequences, the doctrine would be subversive of the institution of private property.

It may be said that land in the immediate neighbourhood of a new road is greatly benefited by such road, and if the former owners are allowed to retain the same, they would derive benefit at the expense of the public, and without paying for it. But it should be borne in mind that they do pay for the improvement by contributing as rate-payers to the funds of the Corporation; and they are entitled to these incidental advantages as persons composing the public for whose benefit professedly new roads are opened.

Sections 208 and 235.—The provisions of these sections, so far as they relate to refusal of sanction to build on a site falling within the regular lines of a projected street, are, I think, open to objection. A projected street may not become a reality in fifty years, and it would be unjust to make the site useless to the owner for building purposes, it may be, for a long time before he gets compensation for it. I think there ought, at least, to be some provision entitling the owner of such site to some compensation if the projected street is not opened within a reasonable time (to be fixed by law) from the date of refusal of sanction to build.

Section 320.—This section will operate as a great hardship on the poor. I think its operation ought at least to be limited to the case of houses let out to tenants.

Section 324.—The provisions of this section may, I fear, lead to interference with the religious sentiments of the people. With every regard for health, I think the consent of the patient should, in all cases in which he is able to give it, be taken before his removal to a hospital.

There are many other provisions of the Bill which appear to me to be objectionable.

MINUTE OF DISSENT.

I REGRET that I cannot concur in the views of the majority of my colleagues in regard to—

- (1) The provision in section 38 of a right of appeal to the Government of India against the controlling action of the Local Government.
- (2) The provisions in sections 99 and 100 regarding the prohibition of the introduction of petroleum into Calcutta for the purpose of storage, if it is intended for consumption elsewhere, and the levy of a tax on petroleum introduced for local consumption.

I object to the first provision on the ground that it is unusual and unnecessary. I conceive that for the purpose of controlling and regulating Municipal administration the "Government" is the Local Government, and that it is not the province of the local Legislature to prescribe the method in which that Government shall be controlled by the Imperial Government in the discharge of its administrative functions. This is a matter of internal discipline on which, it seems to me, the Council cannot pronounce, and should not be called upon to pronounce. Nor is such a provision necessary to protect the Corporation, should it feel aggrieved at any action of the Local Government. The Local Government is just as much bound to obey an executive order of the Governor-General in Council as it would be bound to obey a legal order, or as the Imperial Government is bound to accept the decision of the Secretary of State. I can conceive no good purpose which this provision can serve, while I see many objections to it.

The provisions regarding petroleum involve the imposition of an Octroi duty on this article. I will briefly state my objections to them, leaving the wider discussion to the debate which will be held in Council.

In the various declarations on the subject of Octroi, which have been made by the Government of India, two points have always been insisted upon. The first is that no goods which have already paid sea customs duty shall be taxed. The second is that the general course of trade shall not be interfered with.

As regards the first point, I am aware that the orders of 1868 were subsequently modified so as to admit of the levy of a limited tax on piece-goods and metals. It will of course be in the power of the Government to exempt petroleum now as they exempted piece-goods then. But, as the case stands, we are asked, by the majority of my colleagues, to approve a provision which is opposed to the declared policy of Government, and which may lead to the Governor-General's sanction to the Act being withheld.

As regards the second point, the particular evil which was apprehended, and which Sir John Strachey's Bill of 1879 was designed to prevent, was that the Octroi tax would be so administered as to operate as a transit duty, and that important general interests would be sacrificed to local improvements. Now I admit that the proposed section 99 guards very effectually against interference with trade in this respect; but it guards against interference in one form only by necessitating interference in another form. Before the tax can be levied, the Local Government must prohibit the introduction into Calcutta, except in transit, of any petroleum not intended for local consumption. Petroleum intended for consumption elsewhere must not be stored in Calcutta. Here we have petroleum for the interior exempted from the Calcutta Octroi by being excluded from Calcutta altogether. I grant that the establishment of the Petroleum dépôt at Budge-Budge, and the construction of a line connecting it with the general railway system, will render it possible to send consignments into the interior direct from the wharf. But the trade in mineral oil is making very rapid strides, and it seems to me an unwarrantable interference with trade to prohibit the storage of petroleum anywhere within the large area which will now be included in Calcutta, and thus prevent Calcutta from becoming a distributing centre for this important article of commerce, in order that the Municipality may be able to claim that all oil breaking bulk within the limits of the town must be intended for local consumption, and therefore be liable to tax.

But my chief ground of dissent is to the levy of an Octroi duty in Calcutta at all. In the first place, even if the prohibition against storage before export were justifiable, I can see no argument that can be used in favour of an Octroi on petroleum that could not be used in favour of an Octroi on other articles. I am not here discussing the propriety of levying minute town dues on all articles introduced, for sale or storage, into large trading centres, on the principle on which dues are levied for the use of a market or a *hât*. The arguments for and against such a proposal are of a different nature from those which affect this question. I am dealing only with an Octroi on articles locally consumed. Take salt. It pays duty and is discharged under supervision. An Octroi could be levied as easily on it as on petroleum. It would be as easy and as convenient to enforce a prohibition against its storage, except for local consumption, as it would be to enforce such a prohibition in regard to petroleum. Take coal. It is bulky; it comes by rail or by sea; it could easily be made the subject of an Octroi tax. And so on with other articles.

My first objection, then, under this part of my argument, is that, if the levy of an Octroi on petroleum is allowed, a refusal to extend it to other articles could not well be justified. It cannot be restricted to one article. My second objection is that, if it is allowed in Calcutta, it cannot fairly be refused elsewhere. It cannot be restricted to one place.

If an Octroi is allowed in Calcutta, why should it not be allowed in Howrah? If in Howrah, why not in Patna, Dacca and Chittagong? If in these towns, why not in every Municipality in the Province? Now, when the question was discussed in 1868, every Commissioner in Bengal, with one single exception, reported strongly against the establishment of an Octroi system as entirely unsuited to the circumstances of Bengal. The introduction of such a system has been denounced by Sir Cecil Beadon, by Sir William Grey, by Sir Ashley Eden, by Mr. Mackenzie, and by others who have taken part in the government of this Province, and have been qualified to judge of its requirements. Even in the North-Western Provinces and in Bombay, where the towns are differently constructed from the congeries of villages which form our Bengal Municipalities, objections to the system were strongly urged by Sir John Strachey and the Bombay Chamber of Commerce. To admit an Octroi in the open straggling towns of Bengal would be a calamity to their inhabitants, and would, I am convinced, seriously discredit Municipal Self-Government. It could only be administered by an army of agents whose first thought would be to enrich themselves, and whose last thought would be the interests of their employers or the convenience of the people.

I regret to have to dissent from any proposal which has the object of increasing the resources of the new Corporation in dealing with the heavy task before it. But I cannot accept a provision which I believe to be opposed to one of the wisest principles of our administration.

COLMAN MACAULAY.

The 10th March 1888.

I EXPRESS my dissent as regards (1) the right of appeal to the Government of India and (2) the imposition of an Octroi duty on petroleum which I consider totally unsuitable in Calcutta.

(AS FURTHER AMENDED BY THE SELECT COMMITTEE.)

A Bill to consolidate and amend the law relating to the Municipal Affairs of the Town and Suburbs of Calcutta.

WHEREAS it is expedient to extend the municipal limits of Calcutta and to consolidate and amend the law relating to the municipal affairs of the Town and Suburbs of Calcutta: It is hereby enacted as follows:—

CHAPTER I.

PRELIMINARY.

1. This Act may be cited as "The Calcutta Municipal Consolidation Act, 1889."

And it shall come into force on the first day of April 1889:

But any election may be held under the provisions of this Act at any time after it shall have received the assent of the Governor-General, and such election thus held shall take effect from the first day of April 1889.

2. The enactments specified in the First Schedule are hereby repealed to the extent mentioned in the third column thereof.

This repeal shall not revive any office, authority, or thing abolished by any such enactment, or affect the validity of anything done or suffered, or any right, title, obligation, or liability which may have accrued before the commencement of this Act.

And all bye-laws or rules prescribed, budgets passed, assessments, valuations, measurements, divisions, and appointments made, powers conferred, salaries fixed, and notifications published under any such enactment, and all other rules (if any) now in force and relating to the matters hereinafter dealt with, shall (so far as they are consistent with this Act) be deemed to have been respectively prescribed, passed, made, conferred, fixed and published hereunder.

And all references made to any such enactment shall, as far as may be practicable, be deemed to be made to this Act.

And all proceedings now pending, which may have been commenced under any such enactment, shall be deemed to be commenced under this Act.

In respect to all the matters aforesaid, the "Commissioners of Calcutta" under this Act shall be substituted for the "Commissioners of the Town of Calcutta."

3. In this Act, unless there be something repugnant in the subject or context—

"Bazar" means any place of trade, where there is a collection of shops and warehouses, and any place where a market is held.

Whenever a separate procedure is prescribed for dealing with bustee lands and the huts standing on them, by the term "Bustee lands" is meant lands which the owners let out

for the building of huts, in such manner that the tenant of the land is the owner of the hut: And "Hut" includes any structure erected on such lands whether roofed with tiles or otherwise, and whether constructed with bricks, earth or other materials. "House" means any structure erected upon land the property of the owner of such structure, or for the use of which land the owner of the house holds a lease for not less than ten years. In the case of lands or buildings to which neither of these descriptions correctly applies, the Commissioners shall determine which of the two procedures can most equitably be applied, and shall classify the land and buildings accordingly.

When no separate procedure is prescribed, and when the contrary is not indicated by the context, "House" shall include a hut, shed or any other structure.

A "Bustee" means a plot of bustee land, not less than ten cottahs in area, bearing one number in the assessment book, or a collection of such plots adjacent to one another exceeding in the aggregate one bigha in area.

"Calcutta," subject to the inclusion or exclusion of any local area by the Local Government under section four hundred and fifty-eight, includes the area bounded as follows:—

By a line drawn along the southern and western bank of the Circular Canal from the river Hooghly to the south of Balliaghatta, till it meets the Pagladanga Road. Thence along the eastern edge of the Pagladanga Road to a point where it meets the Chingrahatta Road. Thence along the southern edge of the Chingrahatta Road to a point where it meets the South Tangor Road. Thence along the eastern edge of the South Tangor Road to a point where it meets the Topsea Road. Thence along the eastern edge of the Topsea Road to its junction with the Tiljulah Road. Thence westward to the South-Eastern Railway, then southward along the western edge of the line of the Railway, and westward along the south of the New Embankment to the Russapuglah Road, thence along the eastern edge of the Russapuglah Road to its junction with the Road leading to the Tollygunge Bridge, thence along the southern edge of this road and its continuations, the Sharpore Road, the Goragachee Road, and the Taratollah Road to Nimuck Mehal Ghât, where it joins the Hooghly. And thence along the left bank of the Hooghly to its junction with the Circular Canal.

But from this area there shall be excluded —

- (1) Fort William.
- (2) The Esplanade.
- (3) That part of Hastings north of the south edge of Clyde Row, which has hitherto been excluded from the Municipality of the Town of Calcutta.

"Carriage" means any wheeled vehicle with springs used for the conveyance of human beings and ordinarily drawn by an animal.

"Cart" means any cart, hackery, or wheeled vehicle with or without springs, not included in the definition of "carriage"

"Market" includes any place where persons periodically assemble for the sale of meat, fish, vegetables or live-stock.

"Owner" "Owner" includes—

(a) the person for the time being entitled to receive, or in receipt of, the rent of the land in respect of which the word is used;

(b) an agent of such person;

(c) a trustee for such person.

But no such agent or trustee shall be liable to do anything required by this Act to be done by the owner, nor shall he be subject to any fine for omitting to do such thing, unless he have sufficient funds in his hands as such agent or trustee to do such thing.

"Offensive matter" means dung, dirt, putrid or putrifying substances and filth of any kind not included in the term "sewage."

"Public Street" means any road, street, square, court, alley, or passage, whether a thoroughfare or not, over which the public have a right of way, and also the roadway over any public bridge or causeway, and also the footway and drains attached to any such street, public bridge (other than the Hooghly bridge), or causeway within the town.

"Rubbish" means broken bricks, mortar, broken glass, kitchen or stable refuse, and refuse of any kind not included in the term "offensive matter."

"Sewage" means night-soil and the contents of privies, drains and cess-pools.

"Street" means any road, street, square, court, alley, or passage, not included in the definition of

"public street."

"Railway" "Railway" includes a tramway.

"Schedule" means schedule annexed to this Act.

"Section" means section of this Act.

"Slaughter-house" means any place used for the slaughter of cattle, sheep, goats, pigs or kids, for the purpose of selling the same as meat.

"The Commissioners" means the Corporation of Calcutta.

"Year." April.

"Year" means a year beginning on the first day of

CHAPTER II.

PART I.—Of the constitution of the Corporation.

4. The Commissioners of Calcutta shall consist of a Chairman, Vice-Chairman, and seventy-five members to be appointed or elected as hereinafter provided, and shall by the name of the "Corporation of Calcutta" be a body corporate, and have perpetual succession and a common seal, and by such name shall sue and be sued.

The seventy-five members shall be male persons residing, carrying on business, or personally working for gain in Calcutta, who have attained the age of twenty-one years.

5. All property, moveable and immovable, and all interests of whatsoever nature and kind therein now vested in, or held in trust for, the Commissioners of the Town of Calcutta, with all rights of whatsoever description now used, enjoyed, or possessed by the said Commissioners, and all rights and interests in immovable property situated within the area by this Act added to the town of Calcutta which are now vested in, or held in trust for, the Commissioners of the Suburbs of Calcutta, shall become vested in the Commissioners of Calcutta.

6. All moveable property, and all interests of whatsoever kind therein now vested in the Commissioners of the Suburbs to be equitably divided. Commissioners of the Suburbs shall be divided by the Chairman of the Commissioners of Calcutta and the Magistrate of the 24-Pergunnahs between the Commissioners of Calcutta, the Commissioners of the North Suburban Municipality, the Commissioners of the South Suburban Municipality, and the Commissioners of such other municipality as may appear to be entitled, in such proportions as may to the Chairman and Magistrate seem fair and equitable.

If in making such division the Chairman and Magistrate disagree, or if the Commissioners of any of the Municipalities concerned are dissatisfied in any respect with the division, the point or points, in issue shall be referred to the Local Government, whose decision shall be final and binding.

7. Of the said seventy-five members, fifteen shall be appointed by the Local Government as soon as may be after the declaration of the result of the elections hereinafter provided shall have been published, and such appointment shall take effect from the date from which such election takes effect.

8. Of the remaining members, fifty shall be elected as hereinafter provided by male persons resident in Calcutta, who shall have attained the age of twenty-one years, and shall be qualified to elect in one of the following ways:—

(a) Being the owner and occupier of any land or house in Calcutta separately numbered and valued for assessment purposes at not less than Rs. 150 per annum.

- (b) Being the owner of any land or house in Calcutta separately numbered and valued for assessment purposes at not less than Rs. 300 per annum.

A person living in his own house is entitled to the votes assigned to him as owner as well as to those assigned to him as occupier.

12. A person qualified to vote under clause (d) of section eight may, if he holds a license under Class IV of the Second Schedule, give two votes, for the ward in which he may be entitled to vote under this qualification; or one vote if only one Commissioner is to be elected, if he holds a license under Class III, one additional vote; if under Class II, two additional votes; if under Class I, three additional votes.

A person may give as many votes as he is entitled to under clauses (b), (c), and (d) of section eight combined, up to a maximum of ten additional votes in any one ward, but under no circumstances shall any person give more than twelve votes in any one ward, or eleven votes when there is only one Commissioner to be elected.

13. In sections nine, ten, eleven and twelve the word "person" includes a Hindu joint family, a company, firm, or other association of persons who may be registered as the owners of any house or land, or as the occupiers of any house under clauses (b) and (c) of section eight or may be stated in any license to be the holders thereof. Votes under clauses (a) and (c) of section eight can only be claimed by a single individual paying the rates or taxes in his own name.

14. Any person qualified to vote under any of the preceding sections shall, subject to the provisions of section thirty-two be qualified to be elected a Commissioner for any ward in Calcutta:

Provided that his candidature is duly announced, and his name duly proposed, seconded and approved in the manner hereinafter provided:

Provided also that no officer of the Corporation while in office shall be eligible for election.

15. For the purpose of the election of Commissioners, the town shall be divided into twenty-five wards, the boundaries of which are defined in the Third Schedule. The electors of each of the twenty-five wards may elect two Commissioners.

Every person qualified to vote may give all the votes to which he is entitled in any ward.

amongst the candidates in such manner as he thinks fit.

16. If the electors of any ward shall elect but one Commissioner, or shall not elect any Commissioner, the Local Government shall appoint, in the former case, one Commissioner, and in the latter case, two Commissioners.

17. If any person is elected a Commissioner for more than one ward, he shall, within five days from the date of the election, declare for which ward he will serve; and if he fails to make such declaration, the Chairman shall forthwith declare the ward for which such person shall serve; and in either case such person shall be held to be elected in the ward in respect of which either of such declarations has been made; and thereupon the electors of the other ward or wards in which such person has been elected shall proceed to elect a Commissioner in the manner hereinafter provided.

18. Whenever an equal number of votes is given to two or more candidates at any election under this Act, the candidate for whom the greatest number of rate-payers have voted shall be held to be elected; and in case of an equality of votes in this respect, the Chairman shall give a casting vote, and the candidate to whom such vote is given shall be held to be elected.

19. The first election under this Act shall take place at the end of the year 1888-89, so that the result of the election may be declared on or before the 31st day of March, and the election shall take effect from the 1st day of April 1889.

All subsequent general elections shall be held at intervals of three years, and shall take effect from the 1st day of April in the calendar year in which they are so held.

The votes at all elections shall be given personally at the polling stations.

The Local Government may, from time to time, make rules not being inconsistent with this Act for the purpose of regulating all matters connected with elections, and may direct that voting at elections shall be by ballot, and may from time to time cancel or modify any rules so made.

The Local Government may declare the penalties which shall be incurred by the breach of any such rules:

Provided that no higher penalty than a fine of Rs. 200 shall be incurred by the breach of any such rules.

The expenses incurred in respect of all elections under this Act shall be paid out of the funds of the Corporation, and the result of all such elections shall be published in the *Calcutta Gazette*.

20. The Chairman shall cause to be prepared from the registers in his office a list of all the persons qualified to vote under clauses (b), (c), and (d) of section eight, and of the number of votes to which they are respectively entitled, and shall publish such list at the Municipal office and at such other places as he may think fit, or as the Commissioners in meeting may direct,

not less than sixty days before the date fixed for each general election, and such list shall be obtainable on payment of a fee not exceeding eight annas.

21. Any person qualified under clauses (a) or (e) of section eight may, within fifteen days after the publication of the list of voters, apply to the Chairman to have his name added thereto.

Any person whose name does not appear in the list, and who claims the right of voting under clauses (b), (c) or (d) of section eight may, within fifteen days of the publication thereof, apply to the Chairman to have his name added to the list or substituted for any name on the list.

Any person claiming more votes than are allotted to him in the list may, within fifteen days after the publication thereof, apply to have more votes allotted to him, or to have votes allotted to any other person transferred to him:

Provided that no claim to vote as an owner under clause (b) of section eight shall be entertained unless the name of the claimant is registered as such under section one hundred and twenty-eight, and no claim to vote as an occupier under clause (c) of section eight shall be entertained unless the name of the claimant is registered as such under section one hundred and twenty-eight or unless he can satisfy the Chairman that he has paid the rates as occupier for the quarter immediately preceding the quarter in which the claim is preferred.

No claim to vote under clause (d) of section eight shall be entertained unless the license is taken out in the name of the claimant.

Any person who considers that any name in the list of voters prepared under section twenty ought to be omitted, or that the votes allotted to any person ought to be reduced, may, within fifteen days after the publication of the list, apply to have such name omitted or the number of votes reduced as the case may be.

22. All applications for the revision of the list under the last preceding section shall be considered and decided by the Chairman with all reasonable despatch, and not less than fifteen days before the date of the election the Chairman shall publish a revised list in the same manner as the original list containing all the alterations or amendments made by his order or by order of the Magistrate under the next succeeding section in such original list.

23. Any person whose application under section twenty-one has been refused may, within eight days after such refusal, apply to a Presidency Magistrate for an order to have his name inserted in, or a name omitted from, or the number of votes allotted to any person altered in, the list of voters, and such Magistrate shall, after enquiry, make such order as to the insertion or omission of the name or as to the alteration of the number of votes allotted to any person as appears to him to be just; and the Chairman shall, upon receipt of a copy of such order, give effect to the same, and such order shall be final and binding.

The list thus prepared and amended shall remain valid for all bye-elections under section thirty-three during the interval of three years, and such list shall be obtainable on payment of a fee not exceeding eight annas.

Provided that at any time any person whose name is not in the list may apply to the Chairman to enter his name therein, and sections twenty-two and twenty-three shall be held applicable to such claim.

And if such application is made not less than fifteen days before an election under section thirty-three, it shall be decided in time for such election, but not otherwise.

24. The Chairman shall, not less than thirty days before the date of election, send a letter to every company, firm and association of persons entitled to votes requesting them to fill in a form, which shall accompany such letter, with the name of the person authorized to vote on behalf of such company, firm or association of persons, and to return the same within seven days. Upon receipt of the form, the Chairman shall cause the name stated therein to be entered in the revised list published under section twenty-two, and the person whose name is thus entered in the revised list shall be deemed to be duly authorized to vote on behalf of the company, firm or association of persons which caused his name to be entered in the form until the contrary is proved.

25. If the members of any company, firm or association of persons cannot agree amongst themselves as to who shall give the votes to which they are entitled, they may at any time, not less than five days before the date fixed for the publication of the revised list, apply to the Chairman to decide, and his decision shall be final and binding so far as regards the right of voting at the forthcoming election, but shall have no effect as regards the respective rights of the members of such company, firm or association of persons.

26. No vote shall be given by the Secretary of State for India in Council, the Government of India or the Local Government as owner or occupier of any house or land.

27. The Chairman may, with the sanction of the Commissioners in meeting, delegate to the Vice-Chairman or any officer of the Corporation appointed under section forty-one the duty of receiving and disposing of applications under section twenty-one or twenty-five, and the decisions of such officer in all cases made over to him by the Chairman shall have the same effect as if given by the Chairman.

28. The Commissioners in meeting may appoint a suitable person to perform all or any of the duties assigned to the Chairman under sections twenty-one and twenty-five, or may appoint such person to assist the Chairman in carrying out all or any of those duties, and the decision of such person shall have the same effect as if given by the Chairman. The Commissioners in meeting may assign to such person such remuneration as may seem to them reasonable.

All resolutions passed by the Commissioners in meeting under this section shall be subject to the confirmation of the Local Government.

29. No election shall be deemed to be invalid or shall be in any way affected by reason of the name of any person qualified to vote being omitted from the list of voters, or by reason of the name of any person not qualified to vote being inserted therein, and no election shall be deemed to be invalid by reason of any failure to observe the dates hereinbefore prescribed or to comply with any rule made under section nineteen.

30. The Commissioners shall be appointed or elected, as the case may be, for a term of three years; at the expiration of that time they shall cease to be Commissioners, but may be re-appointed or re-elected.

31. The general elections shall be held on some convenient day to be fixed by the Local Government not earlier than the first, nor later than the fifteenth day of March, unless the Local Government shall, for some especial reason, on the recommendation of the Commissioners in meeting, fix some other day.

Every person who is a candidate for election shall send in his name to the Chairman in writing not less than seven days before the day fixed for the election, together with the names of two electors who propose and second his candidature, and eight electors who approve his nomination, and shall state the ward or wards for which he proposes to stand. The Chairman shall publish a list of all candidates at the Municipal Office not less than three days before the day fixed for election. In the event of there being not more than two candidates for election in any ward, such candidate or candidates shall be deemed to be elected. In the event of there being more than two candidates, a poll shall take place in accordance with the rules prescribed by the Local Government under section nineteen.

32. No person shall be qualified for election or shall continue to be a Commissioner who

- (a) is an uncertificated bankrupt or an undischarged insolvent; or
- (b) has been sentenced to rigorous imprisonment, or to simple imprisonment for six months or upwards, such sentence not having been set aside on appeal; or
- (c) is directly or indirectly interested in any contract made with the Commissioners in accordance with the second clause of section sixty-two.

No Commissioner who shall be absent from Calcutta for six consecutive months shall continue in office as a Commissioner:

Provided that no candidate or Commissioner shall be disqualified by reason only of his having a share or interest in—

- (a) a contract entered into between the Commissioners and any incorporated or registered company of which such candidate or Commissioner is a member or shareholder;
- (b) any lease, sale or purchase of land or any agreement for the same;

(c) any agreement for the loan of money or any security for the payment of money; or

(d) any newspaper in which any advertisement relating to the affairs of the Corporation is inserted.

But no Commissioner shall vote or take any part in any proceedings relating to any matter in which he is interested.

33. In case of the death, resignation or disqualification of any Commissioner,

Bye-elections. a person shall forthwith be appointed or elected in his stead in the manner hereinbefore provided, and such person shall remain a Commissioner for the residue only of the term for which the Commissioner in whose stead he was appointed or elected was originally appointed or elected:

Provided that no act of the Commissioners, their officers, or of the Commissioners in meeting, shall be deemed to be invalid by reason only of the fact that the number of the Commissioners at the time did not amount to seventy-five;

or that a disqualified person has continued to act as a Commissioner;

or that any Commissioner has taken part in any proceedings in contravention of the provisions of section thirty-two.

34. Whoever, being qualified to vote or claiming to be qualified to vote

Penalty for taking a bribe. at any election under this Act, accepts or obtains, or

agrees to accept, or attempts to obtain for himself or for any other person, any gratification whatever as a motive or reward for giving or forbearing to give his vote in any such election, shall be liable to a fine not exceeding Rs. 100 for every such offence, and shall for seven years from the date of his conviction of such offence be disqualified from voting at any such election, and from being elected a Commissioner.

And whoever by any gift or reward, or by any

Penalty for giving a bribe. promise or agreement, or security for any gift or reward corrupts or procures,

or offers to corrupt or procure, any person to give or forbear to give his vote in any such election, shall be liable to a fine not exceeding Rs. 500 for every such offence, and shall for seven years be disqualified from voting at any such election and from being elected a Commissioner.

35. All property vested in the Commissioners and all funds received

Application of municipal property and funds. or raised by the Commissioners in accordance with the provisions of this Act shall be applicable to the purposes expressly authorized by this Act.

36. The purposes expressly authorized by this

Objects to which municipal property and funds are applicable. Act shall be held to include the objects connected with

the public safety, health, instruction and convenience hereinafter specified, that is to say:—

(1) Payment of the whole or any portion of the cost of the Fire-brigade for the extinction of fires in Calcutta.

(2) Provision for lighting the public streets, places, and buildings, and for the securing or removal of dangerous places, buildings, and trades.

(3) Defraying the cost of the construction and maintenance of hospitals and of charges of vaccination, registration of births, deaths and marriages, and taking a census.

(4) Construction and maintenance of public markets, slaughter-houses and places specified in section three hundred and forty-five latrines, privies, buildings for the deposit or discharge of night-soil, urinals, drains, sewers, drainage works, water-works, wash-houses, public bathing places, drinking fountains, tanks, wells, squares and gardens, reclamation of unhealthy localities, and the like.

(5) Watering the streets and cleansing the streets and sewers, scavenging, removal and disposal of offensive matter and noxious vegetation, and generally the abatement of all nuisances.

(6) Regulation of offensive trades, of burial and burning grounds, and the removal of, and providing sites for, the same.

(7) Construction, adornment, maintenance and alteration of streets, bridges, causeways, culverts and the like; regulation of buildings, naming streets and numbering houses, planting trees and removal of obstructions and projections.

(8) Construction, adornment and maintenance of public halls, offices and other buildings under the control of the Commissioners or required for municipal purposes.

(9) Maintenance of establishments and cost of printing and stationery.

(10) Survey of houses and land and preparation of plans.

(11) Contribution to the cost incurred on the occasion of any public ceremony or entertainment in Calcutta:

(12) Promotion of primary and technical education.

(13) Contribution to any neighbouring municipality for sanitary purposes.

(14) Provision of free libraries.

Provided that no expense shall be incurred under clause (11) without the previous sanction of the Local Government.

And generally all objects connected with the public safety, health, and convenience.

PART II.—Of the duties of the Corporation.

37. It shall be the duty of the Commissioners and they are hereby required to—

(1) provide for the payment of the interest on the municipal debt in the manner prescribed by sections four hundred and seven and four hundred and eight;

(2) provide for the establishment of a reserve fund in the manner prescribed by the said sections, or for the annual repayment required by section four hundred and eleven.

(3) complete and extend throughout Calcutta drainage works and open out and improve bustees, and for these purposes to expend annually a sum,

rupees, or, with the sanction of the Local Government, any sum less than the above amount to be raised as provided by section four hundred and four;

- (4) maintain a water-supply in the manner and to the extent mentioned in Chapter VII;
- (5) make adequate and suitable provision for each of the following matters:—
 - (a) the cleaning and the conservancy of Calcutta;
 - (b) the maintenance and cleaning of drains and drainage works;
 - (c) the construction and maintenance of public latrines, urinals and similar conveniences;
 - (d) the regulation of slaughter-houses and of offensive and dangerous trades;
 - (e) the regulation of markets;
 - (f) the lighting, watering and maintenance of the public streets;
 - (g) the registration of births and deaths;
 - (h) the preventing or checking the spread of dangerous diseases;
 - (i) the naming of streets and the numbering of premises;
 - (j) the regulation of new streets and buildings;
 - (k) the abatement of nuisances in the manner provided by Chapter XII;
- (6) exercise the control over tramways with which they are vested by Bengal Act I of 1880.

38. Upon complaint made to the Local Government that the Commissioners have made general default in the performance of any of the duties referred to in the last preceding section, the Local Government, if satisfied, after due enquiry, that general default has been made, and that it is of a serious character, may make an order intimating a time not less than thirty days from the date of the order for the performance of such duty by the Commissioners; and if such duty is not performed within the time limited in the order, the Local Government may appoint some person to perform the same, and may direct that a reasonable remuneration to the person so appointed, the amount whereof is to be specified, and also the expenses of performing such duty, shall be paid by the Commissioners out of the moneys levied by them under this Act. Any person appointed under this section to perform any duty of the Commissioners shall, in the performance and for the purposes of such duty, be invested with all the powers of the Commissioners:

Powers of the Local Government if the Commissioners fail in their duty.

Provided that the Commissioners in meeting may, within thirty days from the receipt of any order made under this section by the Local Government, transmit through the Local Government a petition of appeal to the Governor-General in Council praying that such order may be set aside, and upon the receipt of such petition of appeal by the Local Government no further action shall be taken by the Local Government without the orders of the Governor-General in Council.

PART III.—Of the Officers of the Corporation.

39. The Local Government shall from time to time appoint a proper person to be Chairman of the Commissioners, who shall reside within the limits of Calcutta.

Such Chairman may be removed from office by the Local Government, and shall be so removed if his removal be recommended by a resolution in favour of which not less than two-thirds of the Commissioners voting at a special meeting of the Commissioners shall have voted, but not otherwise.

40. The Commissioners, at a special meeting to be held for that purpose, may from time to time appoint, for such period as they may think fit, a proper person to be Vice-Chairman of the Commissioners.

Such appointment shall be subject to the approval of the Local Government.

41. The Commissioners may, at a special meeting from time to time, appoint proper persons for such period as they may think fit, to the several offices of Secretary, of Engineer, of Surveyor, of Health Officer, of Collector of Taxes, and of Assessor for the municipality, or may appoint a proper person to two or more of such appointments, or to one.

Every person so appointed, and also the Vice-Chairman, shall reside within the limits of Calcutta, and shall be under the orders of the Chairman, and shall perform such duties as shall be assigned by him, and may be removed by the Commissioners by a resolution in favour of which not less than two-thirds of the Commissioners voting at a special meeting shall have voted, and another person may be appointed in his place.

This section shall, except as regards residence, apply to any other officer, the initial salary of whose appointment shall be fixed at five hundred rupees or upwards.

All appointments and resolutions under this section shall be subject to the approval of the Local Government.

42. The Chairman and Vice-Chairman shall devote their whole time to the duties of their respective offices; and no Chairman or Vice-Chairman shall have, or engage in, any other profession, trade, or business whatsoever: Provided that—

Chairman and Vice-Chairman not to engage in any profession or trade.

- (a) Any Civil or Military Officer in the service of the Government may hold the office of Chairman or Vice-Chairman, so long as such officer shall fill no other appointment than one of those specified in this section.
- (b) The Chairman and Vice-Chairman respectively may hold the office of Commissioner as interpreted in section one of Bengal Act No. V of 1870 (*to appoint Commissioners for making Improvements in the Port of Calcutta*).
- (c) The Chairman and Vice-Chairman respectively may also be members of the Council of the Lieutenant.

Governor of Bengal for making Laws and Regulations.

- (d) The Vice-Chairman may, with the sanction of the Local Government, be appointed to, and may hold, any other office in the employ of the Commissioners to which he may be appointed at a special meeting.

43. The Chairman and the Vice-Chairman respectively may receive such allowances as shall be, from time to time, fixed by the Commissioners at a special meeting.

Such allowance shall be—

- (a) for the Chairman not more than three thousand or less than two thousand five hundred rupees a month (exclusive of house-rent, which may or may not, in the discretion of the Commissioners, be allowed);
- (b) for the Vice-Chairman not more than fifteen hundred rupees a month.

All resolutions passed by the Commissioners under this section shall be subject to the approval of the Local Government.

44. Every officer appointed under section forty-one may receive such allowance as shall be from time to time fixed by the Commissioners at a special meeting.

All resolutions passed by the Commissioners under this section shall be subject to the approval of the Local Government.

45. The Chairman may, from time to time, appoint all such Subordinate Officers and servants, other than those referred to in section forty-one, as he shall think necessary and proper to assist in carrying out this Act, and may from time to time remove any of such persons and appoint another in his place;

and may pay such allowances to such persons respectively, or in case of absence on leave, such portion thereof as he shall think reasonable:

Provided that the allowances in respect of the offices filled by such persons shall have been included in the budget as passed by the Commissioners in meeting, under section seventy-one, or shall have been subsequently sanctioned by them, and that the total amount paid to an absentee and the person appointed to act for him shall not exceed the allowance sanctioned by the Commissioners in meeting except upon a resolution passed by the Commissioners in meeting.

But no person shall be appointed to, or removed from, any office, the monthly salary of which exceeds Rs. 200, without the sanction of the Commissioners in meeting. And the Commissioners in meeting may authorise the Chairman to nominate not more than three of the candidates for any such appointment as is referred to in this section, and the Commissioners in meeting shall, upon such nomination being made, appoint one of the persons so nominated and no other.

46. Any person appointed to any office under section forty-one or section forty-five may be suspended or fined by the authority by which he may be removed subject to confirmation by the authority empowered to confirm such removal.

47. The Commissioners in meeting may, with the sanction of the Local Government, grant such leave of absence to the Chairman or any officer appointed under sections forty and forty-one, and may, if such officer be other than the Chairman, make such arrangements for carrying on the duties of his office during his absence on leave as shall to them seem proper.

In any case in which leave of absence shall be granted to the Chairman, the Local Government shall appoint one of the Commissioners to act as Chairman in his place, or shall make such other arrangements for carrying on the duties of the office as to it shall seem proper.

Any person appointed under this section to act for the Chairman or any other officer shall, while so acting, have all the powers and be liable to all the restrictions, limitations, and provisions, which the Chairman or other officer for whom he may be appointed to act would, under this Act, have or be liable to.

48. In any case in which leave of absence shall be granted under the last preceding section, such allowance shall be paid to the absentee, and such deputation allowance to the officer appointed to act for him as may be prescribed by rules passed by the Commissioners in meeting under the next succeeding section. In special cases in which a departure from the rules seems requisite, the allowances must be sanctioned by a resolution of the Commissioners in meeting in favour of which not less than two-thirds of the Commissioners voting at the meeting shall have voted.

49. The Commissioners in meeting may, by a resolution in favour of which not less than two-thirds of the Commissioners voting at such meeting shall have voted from time to time, make rules for absentee and deputation allowances, for granting pensions and gratuities to their officers and servants, and for establishing and maintaining a Provident or Annuity Fund, and for compelling all or any of the servants of the Corporation to contribute thereto, and may repeal, alter or add to such rules. No rule, and no repeal, or alteration of, or addition to, any rule, shall have effect until the same has been confirmed by the Local Government and published in the *Calcutta Gazette*.

The Commissioners in meeting may, from time to time, in accordance with such rules for the time being in force, grant such pensions or gratuities to any of their officers or servants as to the Commissioners may seem fit.

50. No Chairman or Vice-Chairman, or other officer or servant of the Commissioners, shall be interested directly, or indirectly, in any contract made with the Commissioners, and if any such person be so interested, he shall become incapable of continuing in office or in employment as such Chairman, Vice-Chairman, or other officer or servant, and shall forfeit and pay the sum of Rs. 500, which may be recovered by suit brought by or on behalf of the Commissioners.

Provided that no such officer or servant shall, by reason of being a shareholder in, or a member of, any incorporated or registered company, be deemed interested in any contract entered into between such company and the Commissioners, or shall be precluded from tendering for any municipal loan or from holding municipal debentures.

51. Every Commissioner and every municipal officer and servant appointed under this Act, and every contractor or agent for the collection of any municipal tax, and every servant or other person employed by any such contractor or agent, shall be deemed to be a public servant within the meaning of section twenty-one of the Indian Penal Code.

PART IV.—Of the mode of transacting business and entering into Contracts.

52. The Commissioners shall meet ordinarily not less than once a month for the transaction of business, and the Chairman or, in his absence, the Vice-Chairman, may, whenever he thinks fit, and shall, upon a requisition made in writing by any ten Commissioners, call a special meeting of the Commissioners.

53. Four days' notice shall be given by advertisement in one or more of the Calcutta daily newspapers of the date fixed for every ordinary or special meeting and of the business to be transacted at such meeting, and a list of the business to be transacted at any meeting shall be sent to the address of every Commissioner resident in Calcutta, so that it may be in his hands forty-eight hours before the time fixed for such meeting; and no business shall be brought before, or transacted at, any meeting other than the business of which notice has been given:

Provided that any Commissioner may submit to a meeting any resolution beyond the matters mentioned in the notice given of such meeting, if he shall have given not less than forty-eight hours previous notice of his intention so to do, by leaving a copy of the resolution at the office of the Commissioners.

54. All acts authorized or required to be done by the Commissioners, and all questions which may come before them for decision, shall, save as is herein otherwise provided, be done, and decided by, a majority of the Commissioners voting at the meeting before which the matter may be brought.

55. The Chairman and Vice-Chairman shall attend all meetings of the Commissioners held under this Act, unless prevented by sickness or other reasonable cause; and the Chairman or, in his absence, the Vice-Chairman, shall preside at every such meeting, and shall have a second or casting vote in all cases of equality of votes.

In the absence of both the Chairman and Vice-Chairman, the Commissioners present at any meeting shall choose some one of their number to preside, who shall, in case of equality of votes, have a second or casting vote.

The President of any meeting at which a quorum of the Commissioners shall be present may with the consent of the meeting, adjourn the meeting from time to time, and from place to place.

56. No business shall be transacted at any meeting unless a quorum of eighteen Commissioners be present at such meeting:

Provided that, if at any meeting there shall not be a sufficient number of Commissioners present to form a quorum as above mentioned, the President (whether he be the Chairman or not) shall adjourn the meeting to such convenient time and place as he shall think fit; and the business which should have been brought before the original meeting, had there been a quorum present, shall be brought before and disposed of by the adjourned meeting in the usual manner; at which a quorum of ten Commissioners shall suffice.

57. Minutes of the proceedings of all meetings shall be drawn up and fairly entered in a book to be kept for that purpose, and shall be signed by the President after each meeting; and the said minutes shall, at all reasonable times, be open at the office of the Commissioners to the inspection of any Commissioner without charge, and of any other person on payment of a fee of eight annas.

All meetings, the minutes of the proceedings of which have been duly signed by the President, shall be taken to have been duly convened and to be free from all defect and irregularity.

58. At any meeting, unless a poll be demanded by at least five Commissioners, a declaration by the President that a resolution has been carried, and an entry to that effect in the book of proceedings of the Commissioners shall, for the purposes of this Act, be sufficient evidence of the fact, without proof of the number or proportion of the votes recorded in favour of or against such resolution.

59. If a poll be demanded as in the last preceding section mentioned, the votes of all the Commissioners present who desire to vote shall be taken under the direction of the President, and the result of such poll shall be deemed to be the resolution of the Commissioners at such meeting:

Provided that the Commissioners in meeting may, subject to such rules as may be framed by them under section sixty-eight, resolve that any question or class of questions shall be decided by ballot.

60. The Chairman or Vice-Chairman shall, except upon such holidays as shall be allowed by the Government, and unless prevented by sickness or other reasonable cause, attend daily at the office of the Commissioners for the transaction of business connected with or arising under this Act.

61. (1) The Chairman may exercise all the powers vested by this Act in the Commissioners :

Provided that he shall not exercise any power which by this Act is directed to be exercised only by the Commissioners in meeting. Nor shall he act in opposition to, or in contravention of, any orders passed by the Commissioners at a meeting; and if any order passed by him under the authority vested in the Commissioners is brought before a meeting of the Commissioners and modified or disapproved of by them, the Chairman shall, as far as possible, modify or cancel such order so as to bring it into conformity with the order of the Commissioners in meeting.

The Vice-Chairman may exercise the same authority as the Chairman on behalf of the Commissioners subject to his general direction and control.

All powers which may lawfully be exercised by the Chairman shall be deemed to have been exercised by him if exercised by any subordinate officer acting in the execution of the duties assigned to him by the Chairman.

62. The Commissioners may enter into and perform all such contracts as may be necessary for carrying this Act into effect.

Every contract made by the Chairman or Vice-Chairman on behalf of the Commissioners the subject-matter of which exceeds Rs. 1,000 in value, shall be in writing, and signed by the Chairman or Vice-Chairman and two other Commissioners, and shall be sealed with the seal of the Commissioners, and no such contract, unless made in accordance with a vote of the Commissioners in meeting, shall be concluded without inviting tenders thereon and without the approval of a Committee of the Commissioners.

Unless so executed, it shall not be binding on the Commissioners.

The Commissioners in meeting, or any Committee of the Commissioners, may compound with any contractor or other person in respect of any penalty or damages incurred by reason of the non-performance of any contract entered into as aforesaid, whether such penalty be mentioned in any such contract or otherwise, for such sums of money or other recompense as to the Commissioners may seem proper.

Every contract involving an expenditure exceeding Rs. 1,00,000 shall require the sanction of the Local Government.

63. As soon as may be, and not later than the first day of June, in each year, the Commissioners in meeting shall proceed to appoint a General Committee for the year, the members of which shall, provided that they are Commissioners, hold office till the election and appointment of their successors.

The General Committee shall consist of eighteen Commissioners, of whom twelve shall be elected by the fifty elected Commissioners in such manner as the Commissioners in meeting may direct.

One shall be nominated by the Bengal Chamber of Commerce ;

one shall be nominated by the Calcutta Trades' Association ;

one shall be nominated by the Commissioners for making improvements in the Port of Calcutta ; and

three shall be nominated by the fifteen nominated Commissioners in accordance with such rules as the Local Government may prescribe.

64. The General Committee shall ordinarily meet once a week for the transaction of business. It shall be the Budget and Finance Committee of the Corporation, and shall also transact such other business as may be expressly referred to it by the Corporation, or as may not be referred to any other standing or special Committee.

The proceedings of the General Committee shall be submitted to the Commissioners in meeting, and the General Committee shall be bound by any resolution passed by the Commissioners in meeting :

Provided that when the Chairman and the majority of the General Committee are in accord, and inconvenience is likely to result from delay, it shall not be necessary before action is taken to wait for the confirmation of the Commissioners in meeting, but if the Commissioners in meeting do not confirm the action of the General Committee, such steps shall be taken to carry out the orders of the Commissioners as may still be practicable.

The Chairman and Vice-Chairman shall be *ex-officio* members of the General Committee, and the Chairman, or, in his absence, the Vice-Chairman shall preside at its meetings.

In the absence of the Chairman and Vice-Chairman, the members present shall choose one of their number to preside.

65. The Commissioners in meeting may, from time to time, appoint from among the Commissioners such other Committees, either standing or special, and consisting of so many members as they may think fit, for the purpose of enquiring into and reporting upon any matter connected with the conservancy or improvement of Calcutta not assigned by this Act, or by the vote of the Commissioners in meeting to the General Committee, or for the purpose of advising or aiding the Chairman or Vice-Chairman in the discharge of any portion of the duties exercisable by them under section sixty-one which, in the discretion of the Commissioners, would be better regulated or managed with the aid of such Committee:

Provided that the Chairman or Vice-Chairman shall be a member of every standing Committee.

66. The proceedings of every Committee, other than the General Committee, shall be submitted to the Commissioners in meeting,

Duties of Committee.

and the Committee shall be bound by such order as may be passed thereon, provided that when the Chairman and the majority of the Committee are in accord, and when inconvenience is likely to result from delay, it shall not be necessary before taking action to wait for the confirmation of the Commissioners in meeting; but if the Commissioners in meeting do not confirm the action of the Committee, such steps shall be taken to carry out the orders of the Commissioners as may still be practicable:

Provided that if the Commissioners in meeting when appointing a Committee expressly prohibit any action being taken until the decision of the Committee has been confirmed in general meeting, no action shall under any circumstances be taken prior to such confirmation.

67. The General Committee or any other

Power of Committee to appoint Sub-Committees.

Committee may, subject to the control of the Commissioners in meeting, appoint

such Sub-Committees as they may think fit, and make over to them such of their duties and functions as they may deem proper.

No defect in the constitution of, or the proceedings at any Committee meeting or Sub-Committee meeting, shall be held to invalidate such proceedings after they have been confirmed by the Commissioners in meeting.

68. The Commissioners in meeting may frame

Power to frame rules for conduct of business.

rules not inconsistent with this Act for the conduct of business at their meetings,

and also for the conduct of business at meetings of the General Committee and other Committees.

PART V.—Of the Estimates of Income, Expenditure, and Audit.

69. At a general meeting to be held in

A budget or estimate of income and expenditure to be submitted annually to the Commissioners.

the month of February in each year, the Chairman shall lay before the Commissioners a budget or

estimate, prepared by him, of the income and expenditure of the Commissioners for the year commencing on the first day of April then next succeeding, in such detail and form as the Commissioners in meeting shall from time to time direct.

Such budget shall be completed and printed, and a copy thereof, as far as may be practicable, sent by post or otherwise to each of the Commissioners resident within twenty miles of Government House, at least three days prior to the meeting before which the budget is to be laid.

70. The budget shall show what expenditure

Budget of expenditure.

it is proposed to incur during the period to which

it relates, and the manner in which it is proposed to meet such expenditure:

Provided that nothing contained in this section shall preclude the Commissioners in meeting from sanctioning expenditure not provided for in the budget.

Such budget shall be referred to the General Committee for consideration with such instructions as the Commissioners in meeting may think fit to pass when making such reference. The General Committee shall consider such

budget, modify it at its discretion, and report upon it in time for consideration at the meeting to be held for fixing the rates under the provisions of the next succeeding section.

71. The Commissioners in a meeting to be

held during the month of March shall consider the budget as modified by the

General Committee, and shall pass it subject to such further modifications or additions as may be thought fit. The Commissioners shall thereupon at the same meeting, or, if such meeting be adjourned, at such adjourned meeting, fix, with reference to the budget as passed, the rates at which the rates and taxes hereinafter mentioned shall be imposed for the year commencing on the first day of April next ensuing, and the rates so fixed shall not be altered before the special meeting held in the next succeeding month of March, except by a resolution of the Commissioners passed at a special meeting.

No new work or series of works, the entire estimated cost of which amounts to Rs. 1,00,000, shall be commenced (though included and passed in the budget) without the sanction of the Local Government.

72. The accounts of the receipts and expen-

Accounts to be audited and examined.

diture of the Commissioners shall be audited and examined at least once in every

year at such time and by such auditors as shall, from time to time, be appointed by the Local Government.

73. For the purposes of any audit and exam-

Powers of auditors.

ination of accounts under this Act, the auditors may,

by summons in writing, require the production before them of all books, deeds, contracts, accounts, vouchers, and all other documents and papers which they may deem necessary, and may require any person holding or accountable for any such books, deeds, contracts, accounts, vouchers, documents, or papers, to appear before them at any such audit and examination, or adjournment thereof, and to make and sign a declaration with respect to the same.

74. Any person who, when duly required so

to do by any auditor of accounts under the last

preceding section, shall neglect or refuse to appear before such auditor, or to produce any books, deeds, contracts, accounts, vouchers, documents, or papers, or to make or sign a declaration with respect to the same, or to answer any question or prepare and submit any statement, shall be liable, for every neglect or refusal, to a fine not exceeding Rs. 100, and to a further fine not exceeding Rs. 70 for each day during which the offence is continued after he has been convicted of such offence.

75. All auditors acting under this Act shall,

Remuneration of auditors.

in respect of each audit, be paid such reasonable remuneration as the Commis-

sioners in meeting shall from time to time determine.

76. Before each audit and examination of

Ten days' notice of audit to be given.

accounts, the Commissioners shall give ten days' notice

of the time and place at which the same will be made by advertisement in at least two of the daily newspapers published in

Calcutta; and a copy of the accounts to be audited and examined shall be deposited in the office of the Commissioners and be open during office hours thereat to the inspection of all persons interested for seven days before the audit and examination, and all such persons shall be at liberty to take copies of, or extracts from, the same, without the payment of any fee, and within fourteen days after the audit and examination shall have been completed, the auditors shall report upon the accounts audited and examined, and shall deliver such report to the Commissioners at a meeting, who shall cause the same to be deposited in the office of the Commissioners, and to be published in the *Calcutta Gazette*.

CHAPTER III.

OF TAXES.

PART I.—Of the Tax on Carriages and Animals.

77. A tax at a rate not exceeding the rates specified in the Fourth Schedule shall be imposed upon all carriages and draught animals or animals used for riding kept in Calcutta, and shall be payable in advance. But it shall not be imposed on—

- (a) any animal which any person exempted from the operation of any municipal tax by an order issued under the provision of section three of Act XI of 1881, is bound, by the regulation of the service to which he belongs, to keep;
- (b) animals exempt from any municipal tax under section twenty-five of Act XX of 1869;
- (c) carriages or animals belonging to the Government or to the Corporation;
- (d) carriages none of the wheels of which exceed twenty-four inches in diameter;
- (e) carriages kept for sale by *bonâ fide* dealers in such carriages and not used for any other purpose;
- (f) carriages or animals certified by the Chairman of the Corporation or by the Commissioner of Police respectively to be used by the owner thereof for municipal or police purposes.
- (g) tramcars and animals employed in working street tramways.

78. The owner or the person in charge of a carriage or animal liable to a tax under the last preceding section shall, before the first day of May and the first day of November in each year, forward to the office of the Commissioners a statement in writing signed by him, containing a description of the carriages and animals owned by him or in his charge liable to the tax.

Such person shall at the same time pay to the Commissioners such sum as shall be payable by him for the half-year commencing on the first day of April or October (as the case may be) for the carriages and animals specified in such statement, according to the rates given in the Fourth Schedule.

Any person owning or taking charge between the first day of April and the first day of October, or between the first day of October and

the first day of April, of any carriage or animal shall, within a week, send to the office of the Commissioners a similar statement, together with the amount payable for the whole of the then current half-year, according to the rates specified in the Fourth Schedule.

The Commissioners may, if they are satisfied that any such carriage has not been used within the half-year, or that any such carriage or animal has been kept for only a portion of the then current half-year,

refund, or remit, the whole, or such portion thereof as they may think fit, of the amount so payable.

For the purposes of this section, a livery stable-keeper shall be deemed to be the owner of every animal in his stables.

79. Whenever any person shall pay to the Commissioners the amount of the tax which shall be payable by him in respect of all carriages and animals kept in Calcutta, the Commissioners shall grant to such person a license to keep such carriages and animals during the current half-year ending upon the thirtieth day of September or the thirty-first day of March next after the grant of such license, and no longer.

A license may at any time be granted for any previous half-year for which no license has been taken out on payment of the amount due for that half-year.

80. Whoever owns, or is in charge of, any carriage or animal without the required license shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, and not being less than one and a half times such amount. And such fine shall, when levied, be taken in full satisfaction of the demand on account of such license.

81. The Commissioners, at their discretion, may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages for hire, or animals for sale or hire, for a certain sum to be paid for the carriages or animals so kept by such persons in lieu of the taxes specified in the Fourth Schedule.

82. The provisions of section eighty shall apply to any person who, having compounded for the payment of a certain sum under the last preceding section, refuses or neglects to pay such sum; the amount due for a license being taken as the amount thus compounded for.

83. The Commissioners may, by a notice in writing, require any person who shall carry on the trade or business of a livery stable-keeper to produce, for the inspection of the Commissioners, or of any officer authorized by them in that behalf, all books and accounts relating to such trade or business.

84. The Commissioners may, at any time between sunrise and sunset, enter and inspect any stable or coach-house, or any place wherein they may have

On payment of tax, Commissioners to grant license.

Commissioners may compound for carriages with livery stable-keepers and others.

Power to compel production of the books of livery stable-keepers.

Power to inspect stables and seize carriages and animals if tax unpaid and owner unknown.

reason to believe that there is any carriage or animal liable to taxation;

and if the Commissioners at any time find any carriage or animal in respect of which no license has been obtained, the Commissioners may, if the person entitled to the possession of such carriage or animal is unknown, by a written order authorize any of their subordinate officers to take possession of such carriage or animal, and the Commissioners shall make such order as they think fit respecting the custody thereof.

85. If any person within one month establishes his claim to the possession of such carriage or animal, the Commissioners shall order it to be delivered to him on payment of the tax due, together with such costs as the Commissioners may have reasonably incurred in taking possession of, and keeping, the same. If no person within such period establishes his claim to such carriage or animal, it may be sold for the recovery of the tax and costs aforesaid; and if any person whose carriage or animal has been sold establishes his claim to the net proceeds of such sale, the Commissioners shall order the proceeds of such sale, less the tax due and all costs incurred in consequence of the seizure and sale, to be delivered to such person.

86. The Commissioners shall, from time to time, cause to be prepared and entered in distinct columns in a book to be kept at the office of the Commissioners and to be open to the inspection of any person who shall apply for leave to inspect the same, a list of the persons to whom during the then current period of six months a license has been granted under section seventy-nine and of the carriages and animals in respect of which the same has been granted.

PART II.—Of the tax on Professions, Trades, and Callings.

87. Every person who shall exercise in Calcutta any of the professions, trades or callings specified in the Second Schedule shall annually take out a license, and shall pay for the same such sum as is in the Second Schedule mentioned.

The Commissioners may in their discretion remit, or refund, any portion of the sum so payable if they are satisfied that any such person has exercised any such profession, trade, or calling for a portion of the year only.

They may also reduce any person from a higher to a lower class, or exempt any person altogether on the ground of his inability to take out such license.

88. The license mentioned in the last preceding section shall be granted by the Commissioners, and shall specify—

- (a) the date of the grant thereof,
- (b) the name of the person to whom the license is granted,
- (c) the profession, trade or calling, and if the license is a local license class is determined by

the valuation of the premises the place of business in respect of which it is granted, and the sum paid for such license.

Such license shall have effect and continue in force from the commencement of the year on account of which it is granted until the thirty-first day of March next after the day of the granting thereof, and no longer.

89. The liability of any person to take out a license, and the class under which he shall be deemed bound to take out such license, shall be determined in accordance with the procedure laid down in rule-7 of the Second Schedule.

90. Whoever exercises any trade, profession, or calling without the license required by section eighty-seven on or after the first day of July in any year, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, and not being less than one and a half times such amount. And such fine shall, when levied, be taken in full satisfaction of the demand on account of such license.

91. The Commissioners may, by a notice in writing, require the occupier of any house to forward to them within seven days a list, signed by him, of the names of all persons residing in such house, and of their respective professions, trades, and occupations.

92. Whoever, being the occupier of any house, fails to forward such list when required to do so under the last preceding section, shall be liable to a fine not exceeding Rs 100.

93. As soon as may be after the first day of April in every year, the Commissioners shall prepare a list of the persons licensed for the preceding year under section eighty-eight, which shall state the particulars specified in that section, and such list shall be kept in the office of the Commissioners, and be open to public inspection at all reasonable times.

PART III.—Of the Registration of Carts.

94. Every cart kept or used within the limits of Calcutta or Howrah shall be registered in the office of the Commissioners with the name and residence of the owner, and shall have affixed thereto the number of such registration in such manner as the Commissioners shall direct.

95. Whoever keeps or is in possession of a cart not duly registered as required by the last preceding section shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix the registration number required by the last preceding section shall be liable to a fine not exceeding Rs. 5.

96. The registration of carts under section ninety-four shall be made, and the numbers assigned half-yearly on or after the first day of April and the first day of October in each year, upon such days as

the Commissioners shall appoint, and a fee of Rs. 4 shall be paid for each registration.

The Commissioners may in their discretion remit any portion of the fee so payable if they are satisfied that the cart hereinbefore required to be registered, as mentioned in section ninety-four has been kept or used for a portion of the half-year only.

When any registered cart is transferred within any half-year, it shall be registered anew in the name of the person to whom it has been transferred; and a fee of four annas shall be paid for every such last-mentioned registration.

The total net proceeds of the fees half-yearly received by the Commissioners for the registration of carts shall be divided between the Municipalities of Calcutta and Howrah, and such other Municipalities adjacent to Calcutta or Howrah as the Local Government shall think entitled to a share in such receipts, in such proportion as the Local Government may, from time to time, determine.

Last three sections not to apply to certain carts.

97. The three last preceding sections shall not apply to carts—

- (a) which are the property of the Government;
- (b) which are the property of the Commissioners of Calcutta or Howrah, or of any adjacent Municipalities; or
- (c) which are kept at any place more than eight miles distant from Government House and are only temporarily and casually used within the Municipality of Calcutta or Howrah.

98. If any person owns or keeps any cart

On failure to register, the Commissioners may seize and sell cart and animals.

hereinbefore required to be registered, without having caused the same to be registered, the Commissioners may seize such cart (provided the same be not employed at the time of the seizure in the conveyance of passengers or goods), together with the animals or cattle drawing the same, and may detain them.

And all Police Officers shall, on the application of the Commissioners, seize and detain any such cart, animals or cattle.

If the cart, animals, or cattle so seized be not claimed within ten days, they may be sold by auction by order of a Magistrate, and the proceeds of such sale may be applied to the expenses incurred on account of the seizure, detention, and sale; and the surplus (if any), if not claimed within a further period of twenty days, shall be paid to the credit of the Corporation.

PART IV.—Of the Tax on Petroleum.

99. The Commissioners in meeting may, with the previous sanction

Levy of a tax on petroleum.

of the Local Government, prohibit the introduction into Calcutta for the purpose of storage therein of petroleum intended for consumption elsewhere, and may thereafter, with the like sanction, levy a tax not exceeding four annas per case of ten gallons on all petroleum introduced into Calcutta for consumption therein.

100. The Commissioners in meeting may, from time to time, with the sanction of the Local Government, make rules as to all or any of the following matters:—

Rules for taxing petroleum.

- (a) the detention and examination of petroleum introduced into Calcutta for consumption therein;
- (b) the collection of the tax levied on petroleum;
- (c) Such other matters connected with the introduction of petroleum into Calcutta for consumption therein as the Commissioners in meeting may, from time to time, think fit to regulate:

Provided that no rule shall render petroleum, passing through Calcutta in transit for any place beyond it, liable to taxation or to any detention or examination whatsoever under this Act.

And all petroleum introduced into Calcutta, contrary to any rules made under the provisions of this section, may be seized and confiscated.

All petroleum confiscated under this section shall become the property of the Commissioners.

CHAPTER IV.

OF RATES.

PART I.—Of imposing the Rates.

101. The Commissioners may, as provided in section seventy-one impose the following rates upon all houses and lands within the town:—

- (a).—The general rate not exceeding 13 per cent. on the annual valuation.
- (b).—A water-rate not exceeding 6 per cent. on the annual valuation:
Provided that houses and lands, no part of which is within 150 yards of the nearest stand-pipe or other supply of filtered water available to the public, shall pay 3 per cent. less than houses otherwise situated.
- (c).—A lighting-rate not exceeding 2 per cent. on the annual valuation.
- (d).—A halalkhor rate not exceeding 2 per cent. on the annual valuation.

102. The water-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Water-supply Fund.

The Water-supply Fund shall be credited with the receipts of the water-rate, with all receipts arising out of the sale of water, and with all miscellaneous receipts connected with the water-supply.

It shall be debited with—

- (a).—The annual interest on all sums borrowed from time to time, whether from Government, or by way of debenture loan for the construction or extension of water-works for the supply of filtered or unfiltered water.
- (b).—The annual expenditure requisite for the repayment of these loans, or for the creation of a Reserve Fund for their future repayment.

(c).—The cost of maintaining in an efficient condition the supply of filtered water to Calcutta.

(d).—The cost of maintaining in an efficient condition the supply of unfiltered water to Calcutta.

(e).—The establishments and miscellaneous expenditure necessary for the above purposes.

(f).—Such a proportionate share of the cost of collection, of general supervision and of the Head Office, as the Commissioners in meeting may from time to time direct.

103. The lighting-rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Lighting Fund.

The Lighting Fund shall be credited with the receipts of the lighting-rate, with the receipts, if any, arising out of the sale of gas or electricity, and with all miscellaneous receipts connected with the lighting of the town.

It shall be debited with—

(a).—The annual interest on all sums which may hereafter be borrowed for the construction of gas-works or for supplying electricity for the lighting of Calcutta.

(b).—The annual contributions to the Reserve Fund for the future repayment of such sums.

(c).—All expenditure necessary for the efficient lighting of the town by gas, oil, electricity, or any other means.

(d).—The establishments and miscellaneous expenditure necessary for the above purposes.

(e).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may from time to time direct.

104. The halalkhor rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the Halalkhor Fund.

The Halalkhor Fund shall be credited with the receipts of the halalkhor rate, with the proceeds, if any, arising from the sale of night-soil, the receipts from licenses under section three hundred and eleven, and with all miscellaneous receipts connected with the working of the Night-soil Removal Department.

It shall be debited with—

(a).—The cost of the establishments maintained under section three hundred and thirteen.

(b).—The cost of maintenance of all public latrines and urinals and of the establishments for their cleansing.

(c).—Such proportionate share of the cost of inspecting, maintaining, and cleansing the public sewers as the Commissioners in meeting may from time to time determine.

(d).—Such proportionate share of the cost of collection, of general supervision, and of the Head Office as the Commissioners in meeting may from time to time determine.

105. The general rate shall be annually fixed by the Commissioners in meeting with reference to the requirements of the General Fund.

The General Fund shall be credited with the receipts of the general rate, with all moneys paid to the Commissioners in accordance with the provisions of this Act other than those assigned to the Water-supply Fund, Lighting Fund or Halalkhor Fund, and with such other moneys received by the Commissioners as the Commissioners in meeting may from time to time direct to be credited to the General Fund.

It shall be debited with all expenditure incurred in accordance with the provisions of this Act other than that debitable to the Water-supply Fund, Lighting Fund or Halalkhor Fund, and with all other expenditure that may be lawfully incurred by the Commissioners which the Commissioners in meeting shall direct to be debited to the General Fund:

Provided that, when any of the other rates are levied at a maximum, but not otherwise, grants may be made by the Commissioners in meeting in aid of any fund dependent on such rate if the receipts of the Fund fall short of the requisite disbursements.

106. These four rates, after having been determined annually as above in accordance with the procedure laid down in Chapter II, Part V, shall be levied as one consolidated rate, and the collections made on account of this rate shall be divided between the General Fund, the Water-supply Fund, the Lighting Fund and the Halalkhor Fund in the proportions at which the rates are being levied for the time being without reference to the year on account of which each payment is made.

Such deduction shall, however, be made from the proportion to be credited to the Water-supply Fund as may seem to the Commissioners in meeting to be approximately equivalent to the diminished productiveness of that rate, owing to the partial exemption of certain premises under clause (b) of section one hundred and one.

107. The consolidated rate shall be payable half by the owners of the houses and lands, and half by the occupiers thereof.

It shall be payable on the first day of April, first day of July, first day of October and first day of January for the quarters, respectively, commencing on those dates.

PART II.—Of the Owner's share of the Consolidated Rate.

108. If the annual value of any house or land as determined under Chapter V shall in any case exceed the amount of rent payable by the occupier to the owner, the owner may in such case recover from the occupier the difference between the sum assessed upon him as the owner's share of the consolidated rate and the sum at

If assessment be made at a higher annual value than the amount paid by the occupier, owner may recover difference from him.

which he would have been assessed had the house been valued only at the amount of rent actually payable to him, and such difference shall be added to the rent payable by the occupier, and shall be recoverable by the owner from him.

109. When any house or land whereon the consolidated rate is assessed under Chapter V has been vacant for sixty consecutive days during any year, the person liable to pay the owner's share of the consolidated rate shall, if notice in writing be given to the Commissioners of such house or land being vacant, be liable to pay only one-fourth of the consolidated rate due on account of the period of vacancy—the period of vacancy being calculated from the date on which the notice is delivered; if more than one-fourth of the consolidated rate has been paid in advance, the surplus shall, on demand, be refunded.

110. No refund shall be made under the last preceding section unless the same shall be applied for within six months from the date of vacancy of the house or land on account of which the remission is applied for.

PART III.—Of the Occupier's share of the Consolidated Rate.

111. When any house or land whereon the consolidated rate is assessed under Chapter V is vacant, the person liable to pay the occupier's share of the rate up to the period of such vacancy shall, if he has paid for the whole quarter, be entitled to a refund of all the rate paid by him for the period during which the house is vacant, or for the period during which it may have been occupied by a new occupier, if notice shall have been given in writing to the Commissioners of such house or land being vacant; and the date of vacancy shall be calculated from the date of delivery of such notice at the office of the Commissioners.

112. No refund of rates shall be made under the last preceding section unless the same is applied for within six months from the date of cessation of occupation of the house or land on account of which the refund is applied for.

113. Whenever any house or land which shall have been unoccupied shall be occupied during any quarter, there shall be forthwith payable in respect of such house or land the full occupier's share of the consolidated rate for the period between the date of occupation and the last day of the quarter.

114. Whenever any person holding any house or land at a rent from the person liable to pay the owner's share of the consolidated rate in respect of such house or land has or may sub-let the same to different persons holding in severalty, the person so holding shall, for the purposes of this Act, be deemed to be the occupier of such house or land.

115. If any house is occupied by more than one person holding in severalty, or is valued at less than Rs. 200, the Commis-

sioners may impose the entire consolidated rate upon the owner of such house.

116. If the entire rate is paid by the owner of any house under the last preceding section, such owner may, if there be but one occupier of the house, recover from such occupier half of the rate so paid by such owner; and if there be more than one occupier, he may recover from each occupier half of such sum as shall bear to the entire amount of rate so paid by him the same proportion as the value of the portion of the house in the occupation of such person bears to the entire value of such house.

117. In the case of hutee land the Commissioners shall impose the entire consolidated rate in respect of the land and the huts thereon upon the owner of the land, making a deduction of one-eighth to cover the cost of collection and as a commutation of all refunds due for huts which are vacant or which may be removed or destroyed:

Provided that no additional rates shall be imposed on account of any new huts built or of any huts enlarged during the year for which the valuation remains in force, under the provisions of section one hundred and twenty-four.

118. In such cases, the Commissioners shall cause the land and the huts standing on it to be separately valued, and the owner of the land may recover from the owner of each hut half the consolidated rate paid by him for the land on which the hut stands, and the entire consolidated rate payable on account of the hut.

119. Every owner who, under the provisions of sections one hundred and sixteen and one hundred and eighteen, may be entitled to recover any sum from the occupier of any house or of any portion thereof, or from the owner of any hut shall have for the recovery of such sum all such and the same remedies, powers, rights, and authorities as if such sum were rent payable to him.

120. The Commissioners may by a notice in writing require the occupier of any house or land to furnish them, within fifteen days, with the name and address of the owner of such house or land, and such name and address, when so received, shall be duly entered in the assessment book kept under section one hundred and twenty-eight.

121. If the occupier of any house or land shall refuse or neglect to furnish the information so required of him under the last preceding section, he shall be liable to pay the rates payable by the owner on account of such house or land, and on non-payment thereof, the Commissioners may recover the same by distress and sale of any moveable property found in the house or on the land:

Provided that no arrear of rate which has remained due from the owner of any house or land, for more than one year, shall be so recovered from the occupier thereof.

CHAPTER V.

OF THE ASSESSMENT OF HOUSES AND LAND.

122. - For the purpose of assessment under this Act, the annual value of land and the annual value of any house built for letting purposes or ordinarily let shall be the gross annual rent at which such land or house might reasonably be expected to let from year to year, less, in the case of a house, an allowance of 10 per cent. for the cost of repairs, and for all other expenses necessary to maintain the house in a state to command such gross rent. The annual value of any house not built for letting purposes and not ordinarily let shall be 5 per cent. on the sum obtained by adding the estimated cost of building, less a reasonable amount to be deducted on account of depreciation, if any, to the estimated value of the land valued with the house as part of the same premises.

The value of land so estimated shall not include the value of any machinery thereon.

123. All valuations of houses made by the Commissioners prior to the commencement of this Act shall remain in force during the period for which they were so made, and on the expiration of such period, the annual value at which any house is to be assessed shall be fixed by the Commissioners for a period of six years, and thereafter for successive periods of six years.

124. Bustee lands with the huts upon them, or lands that are waste or used for agricultural purposes, may be valued annually at the discretion of the Commissioners, and shall be so valued on the application of the owner. When not revalued, the former valuation shall remain in force from year to year until a revaluation is made.

125. Any house, the valuation of which may have been cancelled on the ground of irregularity, or which for any other reason may have no annual value legally assigned to it, may be valued at any time under section one hundred and twenty-two for such period as remains unexpired in the district in which it is included under section one hundred and twenty-nine.

126. If during the currency of any period mentioned in section one hundred and twenty-three any substantial alteration and improvement is made to any such house, the Commissioners may cause such house to be again valued, even though such period has not expired, and such last-mentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation.

127. If during the currency of any period mentioned in section one hundred and twenty-three the value of such house shall suffer depreciation from any cause proved to the satisfaction of the Commissioners to have been beyond the control of the owner or occupier thereof, the Commissioners shall as soon as

practicable, on application being made to them in writing by the owner or occupier of such house, cause it to be again valued, even though the current period of valuation has not expired, and such lastmentioned valuation shall be in force, and the rate shall be imposed according to it, until the expiration of the said period of valuation.

Provided that if any substantial alteration and improvement shall be made, prior to the expiration of the said period of valuation, to the house which shall have been again valued as aforesaid, the Commissioners may cause such house to be again valued as under the last preceding section.

128. The annual value fixed by the Commissioners as hereinbefore provided shall be entered in a book to be kept at the office of the Commissioners, wherein shall also be written—

- (a) number of premises;
- (b) description of premises;
- (c) name of person primarily liable to pay the rate;
- (d) amount of valuation;
- (e) amount of rate payable quarterly;
- (f) if exempted, the ground of exemption.

This information may be contained in as many books as the Commissioners may, from time to time, determine which shall together constitute a book to be called the "assessment book."

When the name of the owner or occupier is not known, it shall be sufficient to designate him in the assessment book as the "owner" or "occupier":

Provided that any owner or occupier may at any time apply to the Commissioners to have his name entered as owner or occupier in the assessment book, and the Commissioners shall, unless there is sufficient reason to refuse such application, (which refusal shall be in writing) cause such name to be entered in the assessment book.

No owner or occupier whose name is not entered in the assessment book shall be entitled to object that any bill, notice of demand, warrant or other notice of any kind required by this Act to be served on the owner or occupier of any house or land, has not been made out in his own name:

Provided that any person who has paid the owner's share of the consolidated rate for the last preceding quarter may, if there is no opposition to his application to be registered as owner, but such application is rejected or postponed for want of evidence, claim to have his name provisionally registered as owner, and when his name is so provisionally registered he shall enjoy all the privileges and incur all the liabilities attaching to the owner of any house or land under this Act so long as no other person claims to be registered as owner.

A list shall be published annually, in such manner as the Commissioners may determine, stating the names of all persons who are provisionally registered and the premises in respect of which they are so registered.

Any name provisionally registered as that of an owner of any premises shall after three years, if no objection be taken, be transferred to the assessment book as that of the owner of such premises.

129. For the purpose of valuing houses for a period of six years, the Commissioners shall divide Calcutta into such and so many districts as they may think fit, and proceed to make a separate valuation district by district, and shall enter the same in the assessment book.

130. The Commissioners, by a notice in writing, may require the owner or occupier of any house or land to furnish them with returns of the measurements and of the rent or annual value thereof; and the Commissioners, or any person authorized by them in that behalf, may at any time between the hour of seven in the forenoon and sunset enter on, and inspect, survey, and measure such house or land after giving a notice in writing of not less than twenty-four hours.

131. Whoever refuses or fails to furnish any such return for the space of one week from the day on which he shall have been required so to do, or knowingly makes a false or incorrect return, or whoever hinders, obstructs, or prevents any Commissioner, or any person appointed by the Commissioners as aforesaid, from entering or inspecting or measuring any such house or land shall be liable to a fine not exceeding Rs. 200 for every such offence.

132. When the valuation of any of the districts into which Calcutta may have been divided by the Commissioners in accordance with the provisions of section one hundred and twenty-nine shall have been completed, the Commissioners shall give public notice thereof, and of the place where the statement of valuations of all the houses included in such district may be inspected. Such notice shall be by advertisement in at least two English newspapers, and in two Vernacular newspapers, published in Calcutta, and also by placards posted up in conspicuous places throughout such district.

And the person in whose custody the statement of valuations may be shall permit any person, being the owner or occupier of any house or land included in the district or the agent of such owner or occupier, to inspect the records and to make extracts therefrom without payment of any fee, and any person, not being such owner or occupier to inspect and make extracts, in like manner, on payment of a fee of one rupee in respect of each entry extracted.

133. The Commissioners shall, in all cases in which any house is for the first time valued, or in which the valuation of any house previously valued is increased, give special notice thereof to the owner or occupier of the same, and when the valuation is increased as aforesaid, the said notice shall state the grounds of such increase.

134. Before re-valuing any bustee, or other, land under section one hundred and twenty-four the Commissioners shall give notice to the owner of the land that on or after a date, not less than fifteen days from the receipt of such notice by the owner of the land such re-valuation will take place, and if the valuation so made exceeds the previous valuation, the Commissioners shall give

to the owner a special notice of the amount of the valuation with full details thereof.

135. Appeals against any valuation made by the Commissioners under this Chapter shall lie—

Appeals.

(a) to a bench consisting of the Chairman or Vice-Chairman and not less than three Commissioners; or

(b) to a Court of Small Causes.

In any case of an appeal to the Court of Small Causes, under this section, the said Court may follow the procedure laid down in sections four hundred and twenty-four and four hundred and twenty-five.

136. Any person desiring to appeal against any valuation made under this Chapter, shall, in the case of houses, within fifteen days after the publication of the notice referred to in section one hundred and thirty-two or after receipt of the notice referred to in section one hundred and thirty-three when such notice is received after the publication of the notice referred to in section one hundred and thirty-two, and in the case of bustee or other land within fifteen days after the receipt of the special notice referred to in section one hundred and thirty-four deliver at the office of the Commissioners a notice in writing stating the grounds of appeal, and also informing the Commissioners whether he intends to appeal under clause (a) or (b) of the last preceding section.

No appeal shall lie as hereinbefore provided unless the amount of the rate payable by the appellant for one quarter, at the former valuation, has been deposited with the Commissioners, and unless the appeal is preferred by the person who at the time the appeal is made shall be recorded in the said book as the owner of the house or land to which the appeal refers, or by the occupier thereof, or by the agent of either of them.

The Chairman or Vice-Chairman may, for sufficient reason, extend the time fixed for giving notice of an appeal.

137. Due notice shall be given to an appellant of the date fixed for hearing his appeal under clause (a) of section one hundred and thirty-five.

Every appeal under clause (b) of the said section shall be presented to the Small Cause Court within seven days from the date of the delivery of the notice at the office of the Commissioners under the last preceding section.

138. The valuation by the Commissioners when no appeal therefrom is made as hereinbefore provided, and the adjudication of any appeal under the two last preceding sections when an appeal is made, shall be final and binding.

139. The valuation made by the Commissioners subject to such alterations as may from time to time thereafter be duly made, shall be entered in the assessment book, and the assessment calculated on the said valuation shall, subject to such alterations as aforesaid, be deemed to be the amount payable during the whole period for which the valuation is in force, and this period shall be calculated from the commencement of the quarter next succeeding that in which any such amendment shall be so authenticated; and until such date the old

valuation shall continue in force, notwithstanding that the period for which it was made may have expired.

140. The Chairman or Vice-Chairman may at any time amend the assessment book by inserting therein the name of any person whose name ought to be so inserted, or by inserting any house or land liable to the rate, or by inserting a valuation when the house or land liable to be valued has not been valued, after giving notice to any person interested in the making of the amendment of a day, not being less than fifteen days from the date of the service of such notice when such amendment is to be made; they may also strike out the name of any person, or any house or land not liable to the rate or reduce the amount of the valuation without notice:

Provided that no reduction shall be made inconsistent with the provisions of section one hundred and thirty-eight.

If any amendment shall be made in cases where notice is required, the same shall be deemed to have been made on the expiration of fifteen days after service of the said notice; and any person interested in such amendment may appeal by application in writing to the Commissioners, to be left at their office three clear days before the day fixed in the said notice from such amendment; and the provisions of sections one hundred and thirty-five, one hundred and thirty-six, one hundred and thirty-seven, and one hundred and thirty-eight shall, so far as may be practicable, apply to such appeal.

CHAPTER VI.

OF LEVYING THE RATES.

141. When any rate is due, the Commissioners shall cause to be presented to the person liable to the payment thereof a bill for the sum due, which shall also contain a statement of the period and a description of the property for which the rate is charged.

142. If the bill is not paid by the person liable to pay the same within seven days from the presentation thereof, the Commissioners may cause to be served upon such person a notice of demand in the form contained in the Fifth Schedule, or to the like effect; and, if he shall not, within seven days from the service of such notice of demand, pay the sum due, or show sufficient cause to the satisfaction of the Commissioners for non-payment of the same, such sum, with all costs, may be levied by distress and sale of the moveable property of the defaulter, or if the defaulter be the occupier of any house or land in respect of which a rate is due, by distress and sale of any moveable property found on the house or land, whether actually belonging to the defaulter or not, under a warrant in the form contained in the Sixth Schedule, or to the like effect, to be issued for that purpose by the Commissioners:

Provided that when the premises in respect of which the default is committed are a place of business, and the moveable property distrained is shown to the satisfaction of the Commissioners to have been left there for repairs or safe custody in the ordinary course of business, it shall be released.

For every notice of demand under this section which the Commissioners shall cause to be served upon any person, a fee, not exceeding one rupee, shall be payable.

Such fee shall be added to the amount of the rate in respect of which the notice is given, and, if not duly paid, may be levied in the same manner as such rate may be levied.

143. The officer charged with the execution of a warrant of distress under the last preceding section shall forthwith make an inventory of the moveable property seized under such warrant, and shall at the time give a notice in writing in the form contained in the Seventh Schedule, or to the like effect, to the person in possession thereof at the time of the seizure, that the said moveable property will be sold as therein mentioned.

144. If the warrant is not in the meantime discharged or suspended by the Commissioners, the moveable property seized shall be sold and the proceeds, or such part thereof as may be necessary, shall be applied in discharge of the said arrears and costs;

and the surplus, if any, shall be returned on demand to the person in possession of the moveable property at the time of the seizure.

All distresses under this Chapter shall be reasonable and the amount of property seized shall be proportionate to the arrears due, and all sales of property under this section shall, so far as may be practicable, be regulated by the procedure now in force, or hereafter to be in force in the Courts of Small Causes with respect to sale after distress.

Fees shall be payable upon warrants issued under this Act according to the rates set forth in the table of fees in the Eighth Schedule.

All officers and servants of the Corporation are prohibited from purchasing any property at any such sale.

145. The moveable property of any person from whom any rate is due may be distrained, wherever the same may be found, for money due from him.

Goods of defaulters, wherever found, may be distrained.

146. If the sum due on account of any rate from the owner of any house or land remains unpaid after notice of demand has been duly served, the Commissioners may demand the amount from the occupier or any of his sub-tenants for the time being of the house or land, and on non-payment, thereof, may recover the same by distress and sale of any moveable property found on the house or land, as provided in section one hundred and forty-two, and, in such case, the occupier or his sub-tenant may deduct, from the next and following payments of his rent, the amount which may be so paid by, or recovered from, him:

Provided that no arrear of rate so due shall be recovered from the occupier if it has been due for more than one year, or for a period during which the occupier was not in occupation.

147. The purchaser of any house or land for which any sum is due on account of the rate payable by the owner at the time of such purchase shall be liable for the amount due

Rates due from vendor may be recovered from purchaser.

the amount of such rates for any person not exceeding one year prior to the purchase.

148. No distress levied under this Act shall be deemed unlawful; nor shall any party making the same be deemed a trespasser, on account of any defect or want of form in the notice, schedule, summons, notice of demand, warrant of distress, inventory, or other proceeding relating thereto, nor shall such party be deemed a trespasser on account of any irregularity committed by him; but all persons aggrieved by such irregularity may recover, in any court of competent jurisdiction, full satisfaction for any special damage sustained by them.

Commissioners may sue instead of proceeding by distress.

149. Instead of proceeding by distress and sale, or in case of failure to realize by distress and sale the whole or any part of the sum due in respect of any rate, the Commissioners may sue, in any court of competent jurisdiction, the person liable to pay the same.

CHAPTER VII.

OF THE WATER-SUPPLY.

150. The Commissioners shall provide a supply of water within all parts of Calcutta, and shall for that purpose cause such mains and pipes to be laid, and such tanks, reservoirs, or other works to be made and constructed as shall be necessary for the supply of filtered water in the principal public streets, and shall also erect sufficient and convenient stand-pipes or pumps for the gratuitous use of the inhabitants for domestic purposes.

Ships lying at the jetties or in the docks of the Port Commissioners shall be entitled to the gratuitous use of filtered water for domestic purposes while so lying.

151. The Commissioners shall, on demand, be bound to supply every ship leaving the port with a reasonable quantity of filtered water for use on the voyage at such price, not exceeding five rupees for every thousand gallons, as the Commissioners in meeting may, from time to time, determine.

152. A supply of water for domestic purposes shall not include a supply of water for animals, or for washing carriages, where such animals or carriages are kept for sale or hire, or a supply for any trade, manufacture, or business, or for fountains, or for watering gardens or roads, or for any ornamental or mechanical purpose.

153. The Commissioners shall, between the hours of six in the forenoon and eight in the afternoon, so far as may be reasonably practicable, keep and maintain throughout their pipes and mains a sufficient supply of filtered water under a pressure of not less than ten feet for the domestic use of the rate-payers, and shall every day, for not less than two hours in the forenoon and one hour in the afternoon, maintain a pressure of water in the service pipes and mains sufficient to raise the water in all houses and places in which the same may be introduced within the area at present supplied to a height of not less than thirty feet, and shall test the

pressure of the water supplied once every week or at such intervals of time as the Commissioners in meeting may direct.

154. The Commissioners may supply water through a meter, for other than domestic purposes, if the person requiring such supply make application to the Commissioners in writing, specifying the purpose for which such supply is required and the quantity likely to be consumed.

The Commissioners may thereupon, subject to such charges or rates as may have been fixed by the Commissioners in meeting, lay down, or allow to be laid down, the necessary communication-pipes and works of such dimensions and character as may be fixed by the Commissioners.

No meter shall be necessary in any case in which the applicant agrees to pay such sum per mensem for the use of the water as may be fixed by the Commissioners.

When water is supplied by the Commissioners through a meter, it shall be presumed that the quantity indicated by the meter has been consumed until the contrary is proved.

Any person using water supplied by the Commissioners for other than domestic purposes without the leave of the Commissioners shall be liable to a fine not exceeding Rs. 20.

155. The occupier of every house connected with the water-supply shall be entitled to have, free of further charge, three thousand gallons of filtered water for every rupee paid to the Commissioners as water-rate on account of such house, to be supplied from the service pipes of the Commissioners for domestic use, through a ferrule of the size indicated in the ninth schedule. If the Commissioners have reason to believe that the occupier of any house consumes more filtered water than he is entitled to as aforesaid, it shall be lawful for the Commissioners to provide a water-meter at their own expense, and attach the same to the water-pipes of the said house; and any water which may be used over and above the quantity to which the occupier is entitled as aforesaid shall be paid for by him at the rate of one rupee for every three thousand gallons.

Provided that no charge shall be made by the Commissioners for unfiltered water supplied under the next succeeding section.

156. It shall be at the option of the Commissioners to provide filtered or unfiltered water for all latrines and water-closets; and wherever filtered water has been already supplied to such latrines or water-closets, it shall be lawful for the Commissioners, at their own expense, and not otherwise, to stop the supply of filtered water, and in lieu thereof to provide unfiltered water for such latrines and water-closets.

157. All latrines and water-closets now supplied, or hereafter to be supplied, with water filtered or unfiltered, shall be provided with a cistern of such size and description and in such position as the Commissioners shall direct; and all such cisterns shall be put up at the

Communication-pipes to be made of required dimensions and at expense of house-holder.

deem it practicable and consistent with the maintenance of an efficient water-supply, they shall allow any person

living in a masonry house and paying the water-rate hereinbefore mentioned to lay down communication-pipes from the service pipes of the Commissioners for the purpose of bringing into his house or land a supply of water for domestic use in accordance with the scale of ferrules prescribed in the ninth schedule;

Provided that if the house is so situated that the size of the ferrule prescribed for the use of such house in such scale is insufficient to pass the daily supply of water which the occupier of such house is entitled to receive under section one hundred and fifty-five, the Commissioners shall permit the use of a ferrule of such size as shall be sufficient to pass such supply.

Provided also that the Commissioners may at their own expense replace any ferrule, used for the supply of water to any house at the time when this Act comes into force which is of larger size than the occupier of such house under such scale is entitled to use, by a ferrule of the size prescribed under such scale for the use of such house.

Provided also that the Commissioners shall be at liberty to cut off the supply of water to any house or land during the time the said house or land is unoccupied.

The communication-pipes leading the water from the service-pipes of the Commissioners into the house of any rate-payer, and the pipes and works within the house connected therewith, shall be of such character, dimensions, and material as the Commissioners shall fix and approve; and shall be made and constructed at the expense of the person requiring the same.

159. The ferrules, communication-pipes and all fittings thereon leading water from the service pipes of the Commissioners into any house or land, and the pipes, works, and fittings inside the house or land, must in all cases be executed subject to the inspection and to the satisfaction of the Commissioners.

Such communication-pipes, works, and fittings may be made by the servants and workmen of the Commissioners upon such terms as may be agreed upon between the Commissioners and the person requiring the supply, or subject to such charges as may be fixed by the Commissioners;

and the Commissioners may require the amount necessary for the execution of such works to be paid or deposited before such works are executed;

and such charges and expenses shall be recoverable in the same manner as the water-rate.

160. The Commissioners may, between the hours of seven in the forenoon and five in the afternoon, enter into or on any house or land supplied with water as aforesaid in order to examine all pipes, works, and fittings connected with the supply of water, and to ascertain if there be any waste or misuse of such water;

and if the Commissioners at any such time be refused admittance into such house or land for the purposes aforesaid, or be prevented from mak-

which by the custom of the country is considered private, unless a notice in writing of not less than four hours be given.

161. In the event of any pipes, works, or fittings connected with the supply of water to any house or land being at any time found on examination by the Commissioners to be out of repair to such an extent as to cause any waste of water, the Commissioners may cause the water to be turned off or cut off from such house or land, after giving notice in writing of not less than twenty-four hours to the person in occupation thereof, and may recover the expense incurred for cutting off the water from the occupier of such house or land.

162. If any person supplied with water shall neglect to pay the water-rate hereinbefore mentioned at any of the times of payment thereof, or the charge made for the said water when supplied for other than domestic purposes, the Commissioners may turn off or cut off the water from the house or land in respect of which such rate or charge is payable, and may recover the expense from such person:

Provided that the turning off or cutting off the supply of water shall not relieve any person from any penalties or liabilities which he may otherwise have incurred.

163. The occupier of any house or land in which water supplied by the Commissioners under this Act is from negligence or other circumstances under the control of the said occupier wasted, or in whose house or land the pipes, works, and fittings for the supply of water shall be found to be out of repair to such an extent as to cause any waste of water, shall be liable to a fine not exceeding Rs. 20.

164. Any person causing waste of water supplied by the Commissioners shall be liable to a fine not exceeding Rs. 5.

165. It shall be within the discretion of the Commissioners to allow any person not residing within the limits of Calcutta to take or be supplied with water for his domestic use on such terms as the Commissioners in meeting may from time to time prescribe. And any person taking or causing to be taken for use outside the limits of Calcutta water supplied by the Commissioners without the permission of the Commissioners shall be liable to a fine not exceeding Rs. 50.

166. It shall not be lawful for any person to execute any work in connection with the laying on of water from any service pipes of the Commissioners to any house or land or in connection with the extension of such pipes or the supply of additional fittings after such water has been laid on unless he shall hold a license from the Commissioners authorizing him to act as a plumber under such rules and regulations as the Commissioners may from time to time lay down, and which shall be printed on the back of his license. Any person licensed by the Commissioners as a plumber, who shall infringe or break any rules or regulations under

When pipes are out of repair, Commissioners may cut off, or turn off water.

Water may be turned off or cut off on neglect to pay the rate.

Occupier in whose house water is wasted liable to penalty.

Person causing waste of water liable to penalty.

Commissioners at their discretion may allow person outside the town to take water.

Penalty.

Person executing any work for laying on water must hold a license from the Commissioners.

and any unlicensed person executing any such work shall be liable to a fine not exceeding Rs. 50.

167. Any owner or occupier of any house or land who shall cause or allow works, pipes, or fittings for the supply of water from the service pipes of the Commissioners to be executed by any person other than a plumber licensed by the Commissioners shall be liable to a fine of Rs. 50, and the Commissioners may cut off the connection until such pipes have been removed or replaced to their satisfaction.

168. Before a connection for the supply of water from the service pipes of the Commissioners to any house or land is sanctioned by the Commissioners, the Engineer of the Commissioners shall cause all the works, pipes, and fittings within the said house or land to be inspected by a duly qualified officer; and the cost of such inspection shall be payable in advance at such rates as the Commissioners in meeting shall from time to time direct, by the person applying for the said connection; and until the Engineer of the Commissioners shall have certified that the said works, pipes, and fittings have been executed and put up in a satisfactory manner, a connection with the Commissioners' service pipes shall not be permitted.

169. The connection with the service pipes of the Commissioners, as also the laying of supply pipes under any public road or thoroughfare, shall be executed in the presence of an officer of the Commissioners authorized in that behalf and in no other way.

170. If any licensed plumber shall execute any works or put up any fittings within any house or land for the supply of water from the pipes of the Commissioners in a careless and negligent manner, or make use of bad materials or fittings, the said licensed plumber shall be liable to a fine not exceeding Rs. 20, and upon a third conviction shall be liable to have his license cancelled at the discretion of the Commissioners.

171. Any person who shall unlawfully flush, draw off, divert, or take water from any water-work belonging to, or under the management or control of, the said Commissioners, or shall by any wrongful act damage such water-work or any pipe connected with it, or shall use such water-work for any purpose other than the purpose for which it has been set apart shall be liable to a fine not exceeding Rs. 100.

172. The occupier of any masonry house holding direct from the owner thereof may, by notice in writing, signed by him, require the owner of such house to perform all such necessary works as may be required for bringing into such house a supply of water for domestic use.

Every such notice shall contain an agreement on the part of such occupier to pay interest at the rate of one per cent. per mensem, calculated from the date of the completion of the works on the cost of such works during the residue of his term of occupation:

Provided that, if the house and the premises belonging thereto shall not abut upon some

173. If any owner shall not, within the space of one month from the date of such notice as is mentioned in the last preceding section, cause such necessary works as aforesaid to be completed, the occupier, who shall have given such notice, may cause the same to be completed, and may deduct from the rent payable by him the cost of such works save so much of such cost as may be incurred in connecting with a supply-main any house and premises belonging thereto which may not abut upon a street in which there may be a supply-main; and such deduction shall be made by six equal monthly instalments.

Interest on each such instalment shall be payable to the owner by the occupier at the rate of one per cent. per mensem, from the time when it shall have been so deducted.

174. In case there shall be any difference between the owner of any premises and the occupier respecting the cost or the sufficiency of the water-supply of such house either the owner or the occupier may refer such difference to the Commissioners, and the written award of the Engineer of the Commissioners, or of any officer authorized by them in that behalf, shall be binding on the owner and the occupier.

175. There shall be payable to the Commissioners in respect of every such reference a fee at the rate of Rs. 2 for every Rs. 100 of the monthly rent of the house or land in respect of the water-supply to which the difference may have arisen:

Provided that such fee shall in no case exceed Rs. 10, and shall be paid by the person making the reference.

176. Except in the case of a special agreement to the contrary, the owner of any house or land shall bear the expense of keeping all works connected with the supply of water to such house or land in substantial repair, and if he fails to do so the occupier may himself have the repairs executed and deduct the amount expended thereon from any rent which is due from him to the owner in respect of the premises where such repairs have been executed:

Provided that nothing in this section shall affect the liabilities of parties under leases executed or made previous to the commencement of this Act.

177. Any owner to whom any sum is payable under sections one hundred and seventy-two and one hundred and seventy-three may recover such sum from the person liable to pay the same as if the same were rent payable by such person for the house, in respect of which the expenses have been incurred.

178. All public tanks, reservoirs, cisterns, wells, aqueducts, conduits, tunnels, pipes, pumps, and other water-works, whether made, laid, or erected at the cost of the Commissioners or otherwise, and all bridges, buildings, engines, works, materials, and things connected therewith or appertaining thereto, and also any adjacent land (not being private property) appertaining to any public tank, shall become vested in the Commissioners.

179. If any person being

or being the occupier or owner of any place where an offensive trade or manufacture is carried on,

does any act connected with the said business whereby the water in any stream, tank, reservoir, well, cistern, conduit, aqueduct, or other water-works belonging to the Commissioners is fouled or corrupted, the Commissioners may, at any time between sunrise and sunset, lay open and examine any pipes, conduits, and works belonging to such person:

and if, upon such examination, it appears that the water has been fouled or corrupted by anything proceeding from, or contained in, the pipes, conduits, or works examined, the Commissioners shall forthwith take all necessary measures to purify the water and put the works in efficient order, and the expenses of such examination, purification or repairs shall be paid by the person to whom such pipes, conduits, or works belong, or under whose management or control they may be;

but if it appear that the water has not been so fouled or corrupted, then such expenses, and all damages occasioned by the examination, shall be paid by the Commissioners.

180. Any sum due for water supplied by the Commissioners under a meter, or by agreement when a meter is dispensed with, may be recovered as if the same were a water-rate due under this Act.

CHAPTER VIII.

OF THE REGISTRATION OF BIRTHS AND DEATHS.

181. The Commissioners shall keep in their office a register of all births and deaths in Calcutta, and for this purpose shall divide it into such and so many districts as they shall think fit, and for every such district shall appoint a person to be a registrar of births and deaths within such district; and the Commissioners shall at each registered or licensed burial and burning ground appoint a sub-registrar for the registration of all corpses brought to such burial or burning ground for interment or cremation.

182. Every registrar shall dwell within the district of which he is registrar, and every sub-registrar shall dwell in the vicinity of the burial or burning ground for which he is appointed; and they shall cause their names, with the addition of registrar for the district, or sub-registrar for the burial or burning ground for which they shall be so appointed, to be placed in some conspicuous place on or near the outer door of their own dwelling-houses; and the Commissioners shall cause to be printed and published a list containing the name and place of abode of every registrar and sub-registrar in the town.

183. The Commissioners shall cause to be prepared and printed a sufficient number of register books for making entries of all births and deaths which may take place in Calcutta, according to the forms prescribed in the Tenth and Eleventh Schedules, and the pages of such books shall be numbered progressively from the beginning to the end.

184. Every registrar shall inform himself of every birth and death which shall happen in his district, and shall ascertain and register, as soon as conveniently may be after the event, without fee or reward, the particulars required to be registered according to the forms in the Tenth and Eleventh Schedules respectively touching every such birth and every such death, as the case may be, which shall not have been already registered; every such entry being made in order from the beginning to the end of the book.

185. The father or mother of every child born in Calcutta, or in the case of the death, illness, or absence, or inability of the father and mother, the occupier of the house in which such child is born, shall, within eight days after the day of the birth, give information to the registrar of the district, according to the best of his or her knowledge and belief, of the several particulars by this Act required to be known and registered touching the birth of such child.

186. The nearest relative present at the death, or in attendance during the last illness, of any person dying in Calcutta, or, in case of the death, illness, inability, absence, or default of such relative every person present at the death, or in case of their default the occupier of the house, or if the occupier be the person who shall have died, some person living in the house in which such death shall have happened, shall forthwith give information to the registrar of the district, or sub-registrar at the burial or burning ground where the corpse of such person so dying is buried or burnt, according to the best of his knowledge and belief, of the several particulars by this Act required to be known and registered touching the death of such person:

Provided that if any one person gives the required information all other persons are thereby released from the obligation imposed upon them by this section:

Provided also that, in lieu of the information hereinbefore stated, in the case of persons dying in any hospital in Calcutta, it shall be the duty of the medical officer in charge forthwith to send a notice in writing to the Commissioners in the form prescribed in the Eleventh Schedule of the occurrence of any death in the hospital under his charge.

187. Any medical man in attendance during the last illness of any person dying in Calcutta shall, within seven days from the date of the death of such person, send a notice in writing to the Commissioners as near as may be in the form prescribed in the Eleventh Schedule stating, to the best of his judgment, the cause of death.

188. Any person whose duty it shall be to give information under the three last preceding sections, who shall refuse or neglect to give such information, or who shall give false information, shall be liable to a fine not exceeding Rs. 20.

189. Every person by whom the information contained in any register of births or deaths under this Act shall have been given shall sign in the

register his name, description, and place of abode; and no such registration shall be deemed to be complete or of any effect until such person shall have so signed it:

Provided that the registrar may fill up and sign the register for any person who is unable to write:

Provided, also that the registration of death shall be deemed to be complete on receipt by the Commissioners of the written notice from the medical officer in charge of a hospital prescribed in section one hundred and eighty-six.

190. It shall not be lawful for any sexton or keeper of a burial or burning ground, whether situated within Calcutta or not, to bury, burn, or allow to be buried or burned, any corpse of a person who has died in Calcutta, unless such corpse is accompanied by a certificate in the form prescribed in the Eleventh Schedule, and signed by a registrar or sub-registrar appointed under section one hundred and eighty-one, or by a medical officer:

Provided that at every burial or burning ground where there is a sub-registrar who keeps a register in the prescribed form an entry in such register shall be deemed sufficient.

Every sub-registrar shall, within twenty-four hours of registering any death under this section, forward to the registrar of the district in which the death occurred a copy of the entry made by him, and the registrar on receipt thereof shall forthwith enter the death in the district register.

191. Whoever buries, burns, or allows to be buried or burnt, a corpse without the certificate mentioned in the last preceding section shall be liable to a fine not exceeding Rs. 100.

CHAPTER IX.

OF TAKING A CENSUS.

192. At such times and in such manner as the Commissioners may from time to time appoint, an account shall be taken of the number of persons who at the time of taking such account shall be within Calcutta; and the persons employed in taking such account shall set down the several particulars respecting the same which are hereinafter prescribed.

193. The Chairman or Vice-Chairman, or any person specially appointed by the Commissioners in meeting for that purpose, shall superintend the taking of such account, and shall cause to be prepared and issued, for the use of the persons to be employed, such forms and instructions as he shall, with the sanction of the Local Government, deem necessary; and the expenses thereby incurred shall be paid by the Commissioners.

194. Each police division of Calcutta shall be formed into one or more enumeration districts.

195. At such times as shall be appointed under section one hundred and ninety-two, and as shall be notified in the *Calcutta Gazette* by the Local Government, every occupier of a dwelling-house, or of any part of a dwelling-house distinctly occupied, and every person to whom a form as mentioned in section one hundred and ninety-seven may have been delivered, shall afford such information in

house, or in the place under his charge, on the night immediately preceding the day appointed for the return of the form, and in such manner as may under this Act be required of them.

196. The Chairman, or the person appointed under section one hundred and ninety-three, shall select a sufficient number of competent persons to act as enumerators; and every such enumerator, under the direction of the Chairman, shall visit every house within his district, and except as hereinafter provided, shall take an account in writing of the name, sex, age, caste, nationality, and occupation of every living person who shall abide therein on the night immediately preceding the day appointed as aforesaid, and shall also take an account of the occupied houses, and the houses then being built and therefore uninhabited, and also of all other uninhabited houses within his district, and in all respects conform to, and obey, the instructions which may be issued to him by the Chairman in this behalf:

Provided that no female shall be required to disclose her name or age.

197. The Chairman, or the person appointed as aforesaid, when he deems such a course to be advisable, may cause such a form as shall be sanctioned by the Commissioners in meeting, subject to the approval of the Local Government, to be delivered to any occupier of any dwelling-house who may be able to write; and such occupier shall fill in all the particulars required in the form on the day to be appointed, and shall deliver the same to the person authorized to demand the same.

198. Any military or naval officers in command of bodies of military or naval men, or of vessels of war, or any master of a merchant vessel, or wacodah, or tindal of a vessel or boat, or any person in charge of a lunatic asylum, hospital, or prison, or of any public or private charitable or scholastic institution, or any keepers of hotels or lodging-houses, shall, if required, act as enumerators for the purpose of taking account of persons under their command or charge, or abiding in their houses, on the night immediately preceding the day to be appointed.

199. Whoever, being required under section one hundred and ninety-seven to fill in any form, or under section one hundred and ninety-eight to act as an enumerator, fails so to do, shall be liable to a fine not exceeding Rs. 100 for every such offence. Every person so required to act as an enumerator shall receive and conform to all instructions in writing which may be issued to him by the Chairman, or the person appointed as aforesaid in that behalf.

200. The Chairman, or the person appointed as aforesaid, shall obtain, by such ways and means as shall appear to him best adapted for the purpose, and as shall be sanctioned by the Commissioners in meeting, returns of the particulars required by this Act with respect to all houseless persons and all persons who, during the said night immediately preceding the day to be appointed, were on out-door night duty, or for any other reason were not abiding in any house of which account is to be taken by the enumerators.

201. The enumerators shall fill in all forms

CHAPTER X.

OF STREETS AND BUILDING REGULATIONS.

PART I.—Of the Streets.

202. All public streets in Calcutta (not being the property and kept under the control of the Government or the Commissioners for making improvements in the Port of Calcutta) and the pavements, stones, and other materials thereof, and also all erections, materials, implements, and other things provided for such streets, shall vest in and belong to the Commissioners.

203. The Commissioners, making due compensation to the owners and occupiers of any houses or land which may be required for, or in connection with, any such purposes, may—

- (a) lay out and make new streets;
- (b) build and construct new bridges and sub-ways;
- (c) turn, divert, discontinue, or permanently or temporarily close any public street or part of a public street; and
- (d) widen, open, enlarge, or otherwise improve any such street.

Power to acquire premises for improvement of public streets.

204. The Commissioners in meeting may—

- (a) acquire any land required for the purpose of opening, widening, extending, or otherwise improving any public street, or of making any new public street, and the buildings, if any, standing upon such land;
- (b) acquire, in addition to the said land and the buildings, if any, standing thereupon, all such land with the buildings, if any, standing thereupon, as it shall seem expedient for the Commissioners to acquire outside of the regular line of such street, provided that, without the special sanction of the Local Government, not more than one hundred feet shall be acquired on either side of the regular line of the street;
- (c) lease or sell or otherwise dispose of any land or building purchased under clause (b).

Any re-conveyance of land or of a building under clause (c) may comprise such conditions as the Commissioners think fit as to the removal of the existing building, the description of new building to be erected, the period within which such new building shall be completed, and other such matters.

205. When any public street is permanently closed under section two hundred and three the Commissioners may dispose of the site of so much of the roadway and footpath as is no longer required, making due compensation to any person injured by the closing of the road and the sale of the site. And if any dispute shall arise touching the amount or apportionment of such compensation, it shall be settled in the manner herein-

respecting damages and expenses: Provided that, in determining such compensation, the Court shall make allowance for any benefit conferred on the same premises or any adjacent premises belonging to the same owner by the construction or improvement of any other public street, at or about the same time that the public street, on account of which the compensation is paid, is closed.

206. The Commissioners may prescribe a line on each side of any public street within which no portion of any building abutting on the said street shall, after such line has been prescribed, be constructed without the express sanction of the Commissioners.

A line so prescribed shall be called the regular line of a public street.

207. When any house, any part of which projects beyond the regular line of a public street, or beyond the front of the house on either side thereof, has fallen down, or been burnt down, or been taken down in order to be rebuilt or altered, or such portion thereof as projects beyond the regular line of the street has fallen down, been burnt down, or been taken down as above, the Commissioners may require the same to be set back to or towards the regular line of the street, or the line of the adjoining houses:

Provided that the Commissioners shall make full compensation thereof to the owner of any such house for any direct damage he may thereby sustain, and if any dispute shall arise respecting the amount of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

By 'direct' damage is meant the market-value of the land taken and the depreciation, if any, in the ordinary market-value of the rest of the land owing to the area being reduced in size, but it shall not include damage due to any particular use to which the owner may allege that he intended to put the ground, but which the reduction of the site may injuriously affect.

208. The Commissioners may from time to time prepare plans of proposed public streets showing the alignment of such streets, the intended regular line on each side of them, and such other details as may appear desirable; and after such plans have been approved of by the Commissioners in meeting, such streets shall be deemed to be projected public streets, and the provisions of section two hundred and seven shall apply to all houses which may fall down, be burnt down, or may be taken down in order to be rebuilt or altered, so far as they shall fall within the regular lines of the projected public street.

209. The Commissioners may, upon such terms as they shall think fit, allow any house to be set forward for improving the line of any public street in which such house is situated.

210. The Commissioners shall cause the public streets to be maintained and repaired, and for such purpose may do all things necessary for the public safety and convenience.

211. The Commissioners shall, so far as they may deem requisite for the public convenience, cause the chief public streets to be watered: and for that purpose may provide such works and engines as they may think necessary.

212. Whoever builds any wall, or without the consent of the Commissioners erects or sets up any fence, rail, post, or other obstruction, projection or encroachment in any public street, or in or over any drain, sewer, or aqueduct shall be liable to a fine not exceeding Rs. 100 and the Commissioners shall have power to remove any such obstruction, projection or encroachment whether they prosecute the offender or not, and the expense of such removal shall be paid by the person erecting the same, and shall be recoverable as hereinafter provided.

Nothing herein contained shall prevent the Commissioners from allowing any temporary erections in any public street on occasions of festivals and ceremonies, or for building purposes.

213. Every person who wishes to make or lay out any new street shall give notice in writing thereof to the Commissioners, showing the intended level and width of such street, the arrangements made for draining it, and the level and width of every such street and the drainage arrangements shall be subject to the approval by the Commissioners.

On receipt of such application the Commissioners shall, within thirty days, either sanction the making of such new street, or disallow it, or ask for further information with respect to it. If further information is asked for, no steps shall be taken to construct the street until orders have been passed upon receipt of such information.

214. Whoever lays out, makes, or builds upon any such street, otherwise than in accordance with the level, width and drainage arrangements fixed or approved by the Commissioners, shall be liable to a fine not exceeding Rs. 500.

215. If any street or any part thereof be not levelled, paved, metalled, flagged, channelled, and sewered to the satisfaction of the Commissioners, they may, by notice in writing to the respective owners or occupiers of the land fronting, adjoining, or abutting upon such parts thereof as may need to be levelled, paved, metalled, flagged, channelled, and sewered, require them to level, metal, pave, flag, channel, and sewer the same within a time to be specified in such notice; and upon non-compliance, the Commissioners may, if they think fit, execute the works mentioned or referred to therein;

and the expenses thereby incurred shall be paid by the owners in default according to the frontage of their respective lands, and in such proportion as shall be settled by the Commissioners or, in case of dispute, as shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses:

Provided that, after such street shall have been so levelled, paved, metalled, flagged, channelled, and sewered on the requisition of the Commissioners, or by the Commissioners as aforesaid, at

the expense of the owners, such owners shall have a right to require that the street shall be declared a public street, to be from time to time repaired by the Commissioners out of the General Fund.

216. If any street be levelled, paved, metalled, flagged, channelled, and sewered, to the satisfaction of the Commissioners, they may, if they think fit, and if three-fourths of the owners of houses in such street signify in writing their consent thereto, by notice in writing put up in any part of such street, declare the same to be a public street, and thereupon the same shall become a public street, and be from time to time repaired by the Commissioners out of the General Fund.

Nothing in this section shall preclude the Commissioners in meeting from taking possession of any street with the consent of the owner or owners thereof, and thereafter such street shall become a public street.

217. The Commissioners shall from time to time cause to be put up or painted on a conspicuous part of some house, wall, or place, at or near each end, corner, or entrance of every public street, such name as the Commissioners in meeting may, from time to time, determine as the name by which such street is to be known; and whoever destroys, pulls down, or defaces any such name, or puts up any name different from that put up by order of the Commissioners, shall be liable to a fine not exceeding Rs. 20.

218. The Commissioners may from time to time cause to be fixed a number in a conspicuous place on the out side of any house or at the entrance of the enclosure thereof; and whoever destroys, pulls down, or defaces any such number shall be liable to a fine not exceeding Rs. 20.

When a number has been fixed on a house under this section the occupier, or if there is no occupier the owner, shall be liable to maintain such number or replace it if removed or defaced; and if a number is replaced by the Commissioners, they may recover the cost of replacing it from the person liable to replace it in the manner prescribed in Chapter VI for the recovery of rates.

219. All doors, gates, bars, and ground-floor windows which open upon any public street shall be hung or placed so as not to open outwards in a manner likely, in the opinion of the Commissioners, to cause obstruction;

and if any such door, gate, bar, or window be hung or placed so as to open outwards on any such public street, the owner of the house or land to which the same is attached shall, within fifteen days after notice from the Commissioners to that effect, cause the same to be altered so as not to open outwards; and if he neglects so to do, the Commissioners may cause such alteration to be made, and the expenses thereby incurred shall be paid by such owner:

Provided that nothing in this section shall be held to apply to house shutters so constructed as to fold flat to the wall, whether opening to the ground or not.

220. The owner of every house in any public street shall, within fifteen days after notice from the Commissioners, put up and keep in good condition proper gutters and pipe for catching and carrying the water from the roof and other parts of such house, and for discharging the same in such manner as the Commissioners shall direct; and in default of compliance with such notice within the period aforesaid, such owner shall be liable to a fine not exceeding Rs. 10 for every day that he shall so make default.

Gutters and pipes to be fixed to houses.

Penalty.

221. The Commissioners may give notice in writing to the owner or occupier of any house to remove or alter any projection, encroachment, or obstruction which shall hereafter be erected or placed against such house or on, or over, any public street or which has been so erected or placed subsequent to the first day of June in the year one thousand eight hundred and sixty-three, and such owner or occupier shall, within fifteen days after the service of such notice upon him, remove such projection, encroachment, or obstruction, or alter the same in such manner as shall have been directed by the Commissioners, and in default thereof shall be liable to a fine not exceeding Rs. 200; and the Commissioners in such case may, whether they prosecute the offender or not, cause such projection, encroachment, or obstruction, to be removed and the expense of such removal shall be paid by the owner or occupier so making default, and shall be recoverable as hereinafter provided:

Projections erected in future from houses to be removed.

Provided that, when the expense shall have been paid by the occupier, except in the case in which such projections, encroachments, or obstructions were made or put up by him, such occupier shall be entitled to deduct the expense of removing or altering the same from the rent payable by him to the owner of the house.

222. The Commissioners may cause any projection, encroachment, or obstruction erected or placed against, on or over any house in any public street previous to the first day of June in the year one thousand eight hundred and sixty-three, to be removed or altered as they think fit; provided that they give notice of such intended removal or alteration to the occupier of the house against, or in front of, which such projection, encroachment, or obstruction shall be begun; and if such projection, encroachment, or obstruction shall have been lawfully made, they shall make reasonable compensation to every person who suffers damage by such removal or alteration; and if any dispute shall arise touching the right of any person to compensation when the right thereto is disputed and the amount thereof, or touching the amount of such compensation when the right thereto is admitted, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Removal of existing projections from houses.

Notice of removal.

Compensation when to be made.

223. The Commissioners may give permission in writing, on such conditions as they think fit, to the owners or occupiers of houses abutting on any public street to put up verandahs, balconies, sunshades, weather-frames, and the like, to project from any upper story thereof over any public street, and on breach of any such condition the Commissioners may give the owner or occupier notice to comply with such condition within fifteen days, and if he fails to comply, it shall be lawful for the Commissioners to enter upon the premises and remove any projection put up in breach of any condition specified in the notice.

Commissioners may allow certain projections from houses.

224. The external roofs and walls of huts or other buildings erected or renewed within Calcutta after the commencement of this Act, shall not be made of grass, leaves, mats, or other such inflammable materials; and it shall not be lawful for the owner of any hut or other building in or near any street (public or otherwise) now having an external roof or wall made of any such material, and which is contiguous to, or adjoining, any other building, to suffer such roof or wall to remain after the commencement of this Act, unless with the consent in writing of the Commissioners, and whoever makes any external roof or wall of such materials, or suffers any roof or wall made of such materials to continue contrary to the provisions herein contained, and who shall not remove or alter the same within one month after notice in writing from the Commissioners, shall be liable to a fine not exceeding Rs. 10 for every day that such roof or wall shall be maintained.

Roofs and external walls of huts not to be made of inflammable materials.

Penalty.

Nothing in this section shall ordinarily apply to garden huts, orchid houses, ferneries or similar erections within compounds:

Provided that if in any particular case the Commissioners consider any such erection dangerous they may require the same to be removed or altered and thereupon the provisions of this section shall apply:

Provided also that this section shall not apply to any portion of the area by this Act added to the town of Calcutta until it shall have been specially extended to the whole or any portion thereof by a resolution passed by the Commissioners in meeting.

225. The Commissioners may give notice to the owner or occupier of any house or land to trim or prune the hedges thereof bordering on any public street to a height not exceeding seven feet; or to cut and trim trees overhanging any public street, and obstructing the same or causing damage thereto;

Commissioners may direct hedges to be trimmed.

and if such notice is not complied with within three days from the date thereof, the Commissioners may cause such hedges and trees to be cut in the manner required, and the expenses thereby incurred shall be paid by the owner of the house or land.

226. When the pavement or surface of any public street, or when any sewer or drain shall be opened or broken up by the Commissioners, they shall,

Commissioners breaking up street to restore the same with all convenient speed.

with all convenient speed, complete the work on account of which the same shall have been broken up, and fill in the ground, and make good the pavement and surface, and the sewer or drain so opened or broken up, and carry away the rubbish occasioned thereby; and shall in the meantime cause the place where such pavement or surface shall be so opened or broken up to be fenced and guarded and sufficiently lighted during the night.

227. If the Commissioners deem it necessary

Situation of gas and water-pipes may be altered by the Commissioners.

for the purposes of this Act to raise, sink, or otherwise alter the situation of any water-pipe or gas-pipe, or other water-works or gas-works laid in any street (public or otherwise), they may, from time to time by notice in writing, require the person to whom any such pipes or works belong, or under whose control they may be, to cause forthwith, or as soon as conveniently may be, any such pipes or works to be raised, sunk, or otherwise altered in position in such manner as the Commissioners direct.

Such alteration shall not be such as permanently to injure such works, or to prevent the water or gas from flowing as freely and conveniently as before; and the expenses attending such raising, sinking, or altering, and full compensation for the damage done thereby, shall be paid by the Commissioners as well to the persons to whom such pipes or works belong as to all other persons.

And if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

Settlement of disputes.

228. If the person to whom any such pipes

Upon neglect to make alterations, the Commissioners may cause the same to be made.

or works as are mentioned in the last preceding section belong, or under whose control they may be, do not proceed forthwith, or as soon as conveniently may be after the receipt of the notice mentioned in the last preceding section, to cause the same to be raised, sunk, or altered in such manner as the Commissioners require, the Commissioners may themselves cause such pipes or works to be raised, sunk, or altered as they may think fit, provided that such works be not permanently injured thereby, or the water or gas prevented from flowing as freely and conveniently as before.

229. No person shall deposit any building

No one to deposit materials or make holes in a public street.

materials or make a hole in any public street without the permission of the Commissioners in writing; and when such permission is granted to any person, he shall, at his own expense, cause such materials or such hole to be sufficiently fenced and enclosed, until the materials are removed or the hole is filled up and otherwise made secure; and shall cause the same to be sufficiently lighted at night, and if he neglect to sufficiently fence or light the same and any damage or injury arises, he shall be liable to the Commissioners for any expense which they may incur by reason of such neglect,

230. Whoever deposits materials or makes a hole without such permission, or encloses more of the

public street than the Commissioners have permitted him to enclose or fails to fence or enclose and light such materials or hole, or does not remove such materials or fill up such hole when the permission has lapsed or been withdrawn, shall be liable to a fine not exceeding Rs. 50, and to a further fine not exceeding Rs. 50 for each day during which the offence is continued after he has been convicted of such offence.

The Commissioners may cause any such hole to be filled up, and may cause any such materials to be removed, and may detain them until the expenses connected with such removal shall have been paid.

231. If any building, tank, well, or hole,

Dangerous places near streets to be repaired or enclosed.

or other place be, for want of sufficient repair, protection, or enclosure, dangerous to passengers or to persons living in the neighbourhood, the Commissioners may, by notice in writing, require the owner of the land to repair, protect, or enclose the same; and if he fails to comply with such requisition during eight days from the service thereof, the Commissioners shall cause the same to be repaired, protected, or enclosed, so as to prevent danger therefrom;

and the expenses thereby incurred shall be paid by the owner of the property so repaired, protected, or enclosed.

232. Whoever, being an owner of land, fails

to comply with the requisition mentioned in the last preceding section, shall be liable to a fine not exceeding Rs. 200, and to a further fine, not exceeding Rs. 50 for every day during which the offence is continued after he has been convicted of such offence.

PART II.—Of Building Regulations regarding Houses.

233. If any building, or anything affixed

House in a ruinous and dangerous state.

thereon, be deemed by the Commissioners to be in a ruinous state, or likely to fall, or to be in any way dangerous, they shall immediately, if it appears to them to be necessary, cause a proper hoard or fence to be put up for the protection of passengers, and shall cause notice in writing to be given to the owner, if he be known and resident in Calcutta, and shall also cause such notice to be put on some conspicuous part of such building, or otherwise to be given to the occupier thereof (if any), requiring such owner or occupier forthwith to take down, repair, or secure, such building, or thing affixed thereon, as the case shall require.

If such owner or occupier does not commence to

If owner does not take house down, Commissioners may do so.

take down, repair, or secure the same within three days after such notice, or fails to complete such work with due diligence, the Commissioners shall cause all or so much of such building, or thing as they shall think necessary, to be taken down, repaired, or otherwise secured and the expenses thereby incurred shall be paid by the owner.

The provisions of section two hundred and seven and two hundred and eight shall apply to houses taken down or repaired under the provisions of this section.

234. If any building, or any part of the same, be taken down under the provisions of the last preceding section, the Commissioners may sell the materials thereof, or so much of the same as shall be taken down, and apply the proceeds of such sale in payment of the expenses incurred, and shall, on demand, restore to the owner any surplus arising from such sale.

The Commissioners shall have the same remedies for compelling the payment of so much of the said expenses as may remain due after the application of the proceeds of such sale as by this Act are given to them for compelling the payment of the whole of the said expenses.

235. Before beginning to build any new house or to convert any hut or any temporary structure into a house, the person intending so to do shall obtain the sanction of the Commissioners to the site on which he proposes to build. With this object he shall submit a plan drawn to the scale of forty feet to the inch, showing the position of the house with reference to—

- (a) some existing public street; or
- (b) some projected public street approved of by the Commissioners in meeting under section two hundred and eight; or
- (c) some existing private street; or
- (d) some proposed private street which it is intended to construct under section two hundred and thirteen.

Such plan shall also show the position and approximate height of all other masonry houses within forty feet of the proposed site:

Provided that, for special reasons, the Commissioners may sanction any site without reference to any public or private street.

On receipt of such plan, the Commissioners shall, within thirty days, either signify in writing their approval of such site, or, for reasons recorded, their disapproval thereof as not being a proper site with reference to the street shown in such plan, or any other street or projected street on which it will abut; or with reference to the position of the adjacent buildings; or if the street shown in the plan is a proposed private street, the Commissioners may at their discretion decline to approve of the site till such private street is commenced or completed.

Until the approval of the site is signified in writing, the house shall not be constructed.

236. Before beginning to build any new house on a site approved of under the last preceding section, or to rebuild or materially alter the structure of any house, the person intending so to do shall give to the Commissioners notice thereof in a printed form to be prepared by the Commissioners for this purpose (for which no charge shall be made), containing the description of the building, the purposes for which it is intended, its dimensions, such plan of the building as the form may specify, and such other details as may be deemed requisite to enable the Commissioners to pass orders on the

237. Within thirty days after the receipt of

such notice, the Commissioners shall signify in writing their approval thereof or their disapproval for any of the reasons set forth in section two hundred and thirty-eight, or they shall postpone final orders and call for any or all of the following further details:—

(a) Plans and sections of every floor of the intended building which shall be drawn to a scale of not less than one inch to every eight feet, and shall show the position, form, and dimensions of the several parts of such building and of every water-closet, privy, urinal, cesspool, well, and other appurtenance, and in the case of a building intended as a dwelling-house for two or more families, or for carrying on any trade or business in which a number of people, exceeding twenty, may be employed, or as a public resort, the means of ingress and egress.

(b) A description in writing of the materials of which it is intended that the building shall be constructed, of the thickness of the walls and roof, and of the intended mode of drainage, means of water-supply, and means of ventilation, and if the building is to adjoin or abut on a street, the intended means of access from such street.

(c) The width and level of the street, if any, in front, and of the street, if any, at the rear of such building, the levels of the foundations and lowest floor of such building, and of any yard or ground belonging thereto.

(d) A plan showing the intended line of drainage of such building, and of the intended size, depth and inclination of such drain, and of the details of the arrangements proposed for the ventilation of the drains.

If such requisition be not complied with, the notice given under section two hundred and thirty-six shall be deemed to have been cancelled.

The Commissioners may decline to accept any plan, section, or description as sufficient for the purposes of this section, which does not bear the signature of a competent surveyor in token of its having been prepared by such surveyor.

238. Within thirty days after the receipt of the details, required to be given under the last preceding section, the Commissioners shall pass orders in writing either approving of the proposed building or disapproving thereof for any of the following reasons—

- (a) that it will be unsafe; or
- (b) that it encroaches upon or over municipal land; or
- (c) that its construction contravenes some specified provision of this Act; or some specified bye-law made under this Act.

If the Commissioners disapprove of the building for any of the above reasons it shall not be proceeded with till such modifications have been made as to satisfy the requirements of the

233. Nothing in sections two hundred and thirty-five and two hundred and thirty-six shall be deemed to preclude any person intending to build a new house from sending in simultaneously the ground plan required by section two hundred and thirty-five and the notice required by section two hundred and thirty-six as also at his discretion all or any of the plans and details specified in section two hundred and thirty-seven.

Provided that the period of thirty days after the receipt of the notice shall not commence to run till the site has been approved of. If the proposed work be not commenced within one year after the date of approval, it shall not be commenced without a fresh notice being submitted under the provisions of section two hundred and thirty-six.

240. If any building such as is referred to in section two hundred and thirty-five be commenced without sending in the ground plan required by that section, or after such ground plan has been sent in, before the site has been approved of by the Commissioners, the Commissioners may cause such house, or so much of it as has been constructed, to be demolished.

241. If any building or alteration such as is referred to in section two hundred and thirty-six be commenced without the notice required by that section being sent to the Commissioners, or before the expiration of the thirty days or of any subsequent period of thirty days prescribed by section two hundred and thirty-seven, or otherwise than in accordance with the information furnished in the notice or in the further details and plans subsequently called for, or in contravention of any lawful orders issued by the Commissioners under section two hundred and thirty-eight, the Commissioners may cause such work as has been done to be demolished or altered in such manner as they may think fit, and the expenses thereby incurred shall be paid by the person failing to comply with the requirements of the Act.

242. The Commissioners may, in addition to, or in lieu of, exercising the powers conferred on them by sections two hundred and forty and two hundred and forty-one, prosecute any person who shall build a new house without sending in the ground plan required by section two hundred and thirty-five, or who shall build or re-build or materially alter the structure of any house without giving the notice required by section two hundred and thirty-six, and such person shall, on conviction, be liable to a fine not exceeding Rs. 100 and to a further fine not exceeding Rs. 20 for every day during which the offence is continued after he has been convicted of such offence.

243. The following provisions shall apply to buildings which it is proposed to construct under section two hundred and thirty-six:—

- (a). The levels and width of foundation shall be such as the Commissioners consider satisfactory.
- (b). No house shall be built upon a lower level than will allow of the drainage of such house or building being led

or projected, or into some tidal river into which the Commissioners are empowered to empty their sewers.

- (d). The plinth of such building shall be at least two feet above the centre of the nearest street.
- (d). The building shall not be erected over any sewer or drain belonging to the Commissioners without their written consent.
- (e). Every privy shall be so situated and so constructed as not to be a nuisance to the neighbours or dangerous to the health of the inmates.
- (f). Every building shall be provided with adequate ventilation.
- (g). No building shall cover a greater portion of the ground belonging to the owner of it and forming part of the same or adjacent premises, than is consistent with the free circulation of air, supposing the owners of contiguous lands to cover their land with buildings to the same extent.

244. If the Commissioners fail to pass orders within thirty days as required by section two hundred and thirty-five, two hundred and thirty-seven, or two hundred and thirty-eight, they shall pay to the person intending to build, compensation for such delay at the rate of Re. 1 per diem for every day in excess of thirty days:

Provided that the rate shall be increased to Rs. 2, Rs. 5, Rs. 10 or Rs. 20 per diem respectively if the person, in sending in the plan required by section two hundred and thirty-five or the notice required by section two hundred and thirty-six, or the further details required by section two hundred and thirty-seven, certifies that the building will cost more than Rs. 10,000, Rs. 25,000, Rs. 50,000 or Rs. 1,00,000, as the case may be.

If the thirtieth day is a close holiday, it shall suffice if orders are passed on the first open day after the expiration of the thirtieth day, and the excess period shall commence to run from the day following such open day.

245. Every person intending to build or take down any house, or to alter or repair the outward part of any house, where any public street will be obstructed or rendered inconvenient by means of such work shall, before beginning the same, cause sufficient boards or fences to be put up, in order to separate the house where such works are being carried on from the street, and shall keep such hoard or fence standing and in good condition, to the satisfaction of the Commissioners, during such time as the public safety or convenience requires, and shall cause the same to be sufficiently lighted:

Provided that no person shall put up a hoard or fence without the written permission of the Commissioners, and shall not keep up such hoard or fence for a time longer than that specified in such written permission.

246. Every person who begins to build, or to take down, or alter, or repair any house contrary to the provisions of the last preceding section, or who, without a license, erects or sets up any hoard, scaffolding, or fence whatsoever, or who, having obtained permission, fails to put up such fence or hoard, or to maintain the same standing and

hoard or fence is standing, keep the same sufficiently lighted, or who does not remove the same when the time specified in the permission has elapsed, shall be liable to a fine not exceeding Rs. 50 for every such offence, and to a further fine not exceeding Rs. 20 for each day during which the offence is continued after he has been convicted of such offence.

PART III.—Of Building Regulations regarding Huts and Bustees.

247. Before beginning to build, re-build or add to any hut, the person intending so to do shall give to the Commissioners notice thereof in a form to be provided by them (for which no charge shall be made). Such form shall require a ground plan of the hut drawn to the scale of eight feet to the inch and such other details as the Commissioners may prescribe. On receipt of such notice, the Commissioners shall, within thirty days, express their approval of the proposed work, or their disapproval on any one or more of the following grounds:—

- (a) That the site is ill-chosen with reference to adjacent huts or with reference to any present or proposed roads.
- (b) That the ventilation will be defective.
- (c) That the arrangements for scavenging or drainage are defective.
- (d) That the hut will be within thirty feet of a tank.
- (e) That the hut will be on the site of a tank which has been so recently filled up as to be prejudicial to the health of a person dwelling in it.
- (f) That the plinth is not two feet above the level of the centre of the nearest street.
- (g) That the erection of the proposed hut will infringe some specified bye-law made under this Act.

If the proposal is approved of, the hut may be built, re-built, or added to at any time within six months after the date of sanction. If it is disapproved of on any of the grounds above stated, the work shall not be commenced till such modifications have been made in the plan of the proposed hut as the Commissioners may deem necessary.

248. If any hut be built, re-built, or added to without giving the Commissioners such notice as is required by the last preceding section, or before the approval of the Commissioners has been obtained under that section, the Commissioners may cause such hut or so much of it as has been constructed to be demolished or altered in such manner as they may prescribe; and the expenses of such demolition or alteration shall be paid by the person failing to comply with the provisions of this Act.

249. The Commissioners may, in addition to, or in lieu of, exercising the powers conferred on them by section two hundred and forty-eight, prosecute any person who builds, re-builds, or adds to any hut in contravention of the provisions of section two hundred and forty-seven, and such person shall be liable to a fine not exceeding Rs. 100 for any such offence, and to a further fine not exceeding Rs. 20 for every day

during which the offence is continued after he has been convicted of such offence.

250. If the Commissioners fail to pass orders within thirty days as required by section two hundred and forty-seven, the provisions of section two hundred and forty-four regarding the payment of compensation for delay shall apply:

Provided that the sum payable in respect of compensation shall not exceed Rs. 1 per diem.

251. The Commissioners may define the external limits of any bustee, and may from time to time modify such limits; and for the purposes of this Act, land comprised within such limits shall be deemed to be a bustee:

Provided that every bustee shall consist of one or more complete plots of bustee land, separately numbered as such in the assessment book, and no plot bearing only one number shall be divided so as to fall within the limits of separate bustees. The existence of one or more houses with the land attached thereto, within the limits defined as above, shall be no bar to the bustee lands within such limits being deemed to be a bustee: Provided that the Commissioners shall have no power under this Part of exercising any control over such houses and land attached, except by acquiring the whole or any portion of them by purchase or under the provisions of the Land Acquisition Act, 1870, or any similar Act for the time being in force for the acquisition of land for public purposes.

252. The Commissioners may at any time serve a notice upon the owners of a bustee, calling on them to prepare a joint plan thereof to the scale of forty feet to the inch showing the manner in which such bustee should be laid out with the huts standing in regular lines and with a free passage in front of and behind each line of such width as may be necessary for ventilation and for scavenging. The plan shall also show the proposed drains of the bustee, the water-supply, bathing arrangements (if any) and the privy accommodation to be provided for the use of the tenants, the roads which are to be maintained for their benefit, the land, if any, which is to be kept as common land, the tanks which are to be filled up or conserved, and any other proposed improvements.

Such plan, when prepared as above, shall be considered by the Commissioners, and such modifications shall be made therein as the Commissioners shall require. After any plan has been finally approved of by the Commissioners, it shall be taken as the standard plan of the bustee. If any land within the limits of a bustee is not bustee land, the standard plan shall be so prepared as clearly to distinguish it from the bustee land.

When a call has been made on the owners of the bustee to prepare a joint plan under this section, no hut shall be built, re-built, or added to within the bustee till a standard plan has been prepared.

253. If the owners of a bustee cannot agree among themselves in the preparation of a joint plan, or if they for any reason prefer to have a joint plan prepared for them by the Commissioners, or if

Power to demolish hut built without sanction.

Commissioners, under certain circumstances, may prepare a standard plan.

they fail to comply with the notice to submit a joint plan within the space of sixty days, the Commissioners shall, within a further period of sixty days, themselves prepare a plan to the scale and in the manner prescribed above, for which they may charge the owners at such rate not exceeding Rs. 8 per bigah as the Commissioners in meeting may fix. The cost of preparing such plan may be recovered as a rate under this Act.

254. When a plan has been prepared by the Commissioners under the last preceding section, they shall fix a day for the hearing of objections on the part of the owners; and may at their discretion modify the plan in accordance with any objections made. When the objections have been disallowed, or when the plan has been modified in conformity with any objections raised, it shall be approved of by the Commissioners, and shall thereafter be taken as the standard plan of the bustee.

255. When a standard plan has been prepared for any bustee under sections two hundred and fifty-two or two hundred and fifty-four, no hut shall be built, re-built, or added to in such bustee, unless the hut or the portion to be added occupies a site, or portion of a site marked as the site for a hut in the standard plan. The Commissioners may, at any time by paying compensation to the owner of any hut not in conformity with the standard plan, require him to take down his hut and re-build it in conformity with such plan. Such compensation shall, in the event of dispute, be determined in the manner provided in this Act for the settlement of disputes respecting damages and expenses.

The Commissioners may at any time serve notice upon the owners of any bustee, calling upon them to construct the roads, privies, drains, and other details shown in the standard plan of any bustee, so far as may be practicable in the existing arrangement of the huts, and if any tank is shown as to be filled up or improved, may call upon the owner to improve or fill up such tank. Till such notice is complied with, the Commissioners may refuse to sanction the building or re-building of any hut in the bustee, or any addition to any existing hut.

256. When a bustee has been brought into conformity with a standard plan which has been prepared for it, it shall be deemed to be a remodelled bustee.

257. When it appears to the Commissioners in meeting that any bustee is, by reason of the manner in which the huts are crowded together, or for any other reason, in such an insanitary condition that the procedure provided by sections two hundred and fifty-two to two hundred and fifty-six will be too dilatory for improving such bustee, they may cause it to be inspected by two medical officers who shall make a report in writing on the sanitary condition of the said bustee.

Such report shall be accompanied by a plan which shall be approved of by the medical officers as a proper standard plan of the bustee, and they shall certify which of the changes necessary to bring the bustee into conformity with the

proposed standard plan shall be taken in hand forthwith, in consequence of the insanitary condition of the bustee, and which can await the procedure prescribed in sections two hundred and fifty-two to two hundred and fifty-six. The former changes shall be shown in a Schedule attached to the report to be called Schedule A; and this Schedule shall clearly indicate the huts which should wholly or in part be removed, the roads and drains which should be constructed, the tanks or low lands which should be filled up, and any other works necessary to remove or abate the insanitary condition of the bustee. If for the purpose of making such roads or effecting any other improvement, it is necessary to purchase or acquire any land within the bustee which is not bustee land, the schedule shall specify the land which should be purchased or acquired.

258. On receipt of the report of the medical officers, the Commissioners in meeting may cause notice to be served upon the owners or occupiers of the huts, or at the option of the Commissioners, the owner of the land on which such huts are built, requiring them to carry out and execute within a reasonable time, to be fixed by the Commissioners for such purpose, all or any of the works specified in the aforesaid Schedule A annexed to the report, or any portion thereof respectively.

The Commissioners in meeting shall also approve of the standard plan prepared by the medical officers with such modifications as they may deem proper.

259. If, after the service of the notice referred to in the last preceding section, such owners or occupiers, or the owners of the land, shall refuse or neglect to carry out and execute the said works within the time appointed, the Commissioners may cause all or any of the said works, or any portion thereof respectively, to be executed; and the expenses thereby incurred, including such reasonable compensation as the Commissioners think fit to pay to the owners or occupiers of huts destroyed or removed, shall be paid by the owners of the land:

Provided that the Commissioners in meeting may order the expenses so incurred to be recovered by instalments from the said owners, or, if it should appear to them that any owner is unable by reason of poverty to pay the same, may order the same or any portion thereof to be paid out of the General Fund.

260. If any of the said huts be pulled down, the Commissioners shall cause the materials of each hut to be given to the owner of the hut; or if the owner be unknown, or the title disputed, the materials shall be sold and the proceeds shall be held in deposit by the Commissioners until the person interested therein shall obtain an order from a competent court for the payment of the same.

A Court of Small Causes shall be deemed a competent court for the purpose.

261. The Commissioners may, at any time, after the receipt of the report of the medical officers acquire any land other than bustee land shown in that report as land which should be acquired.

Commissioners on the report of medical officers may acquire land.

262. After the works specified in Schedule A, or so much of such works as are approved by the Commissioners in meeting, have been completed, the provisions of section two hundred and fifty-five shall apply to such bustee until it is brought into complete conformity with the standard plan approved in accordance with the provisions of section two hundred and fifty-eight, after which the bustee shall be deemed to be a remodelled bustee.

When an insanitary bustee to be deemed remodelled bustee.

263. No standard plan, prepared under sections two hundred and fifty-two, two hundred and fifty-three, two hundred and fifty-seven, or two hundred and sixty-eight shall, without the consent of the owners, show more than one-fifth of the area of the bustee as roads or more than two-thirds as open lands not to be built upon, whether such open land be common ground, roads, or spaces behind a line of huts; but no tank that is not filled up shall be taken into account in calculating the above proportion. The proposed standard plan shall also, as far as possible, provide for one or more huts being completely contained in each separate plot of bustee land within the bustee and for a due proportion of roadway and open ground in each plot; and if a greater portion of any one plot is taken for roads or open ground than the proportion allowed by this section, the compensation which should be paid to the owner of this plot and the persons who should pay such compensation by reason of their benefiting thereby shall be specified; if no other owner can be equitably called upon to pay such compensation, it shall be paid by the Commissioners. The compensation thus fixed shall not be payable till the plot belonging to the owner entitled to it has been brought into complete conformity with the standard plan.

Provisions as to standard plan.

264. Any owner of bustee land included within the limits of a bustee may at any time give notice to the Commissioners that he intends to change the character of the whole or of any portion of the land belonging to him, so that it will cease to be bustee land. If his notice refers only to a part of his land, a separate number shall be forthwith assigned in the assessment book to the part to which the notice applies. From the date of such notice no application shall be received for building, re-building, or adding to any hut in the land to which the notice applies, and the owner shall be bound to remove all existing huts within six months after giving such notice. When all the huts have been removed, the land shall cease to be liable to the incidents of bustee land, and, according to its situation, shall either be altogether excluded from the limits of the bustee, or shall be shown in the standard plan of the bustee as land within the said limits which is

Effect of notice of intention to change character of bustee land.

265. The roads shown in the standard plan of a bustee which are not already public streets shall, unless the Commissioners and the owners concerned otherwise agree, remain private streets; and the portion which falls on the land of each owner shall belong to such owner. Any portion which falls on land acquired or purchased by the Commissioners under section two hundred and sixty-one shall remain the property of the Commissioners.

Roads in standard plan if not public streets remain private.

Every such private street shall at all times be kept open to the conservancy carts of the Commissioners for the purpose of scavenging in the bustee, and shall also be kept open for the use of all the tenants of the bustee, but no such use, whether by the conservancy carts or by the tenants, shall be held by any lapse of time to confer a right of way on the public, so as to bring such street within the definition of a "public street."

266. If any portion of the land which it is sought to remove from the incidents of bustee land is shown in the standard plan of the bustee as a road or part of a road, the notice shall be held not to apply to such road without the express consent of the Commissioners, but such road shall continue part of a private street open to the use of conservancy carts and of the tenants of the bustee.

Roads in a bustee not affected by change of character of bustee land.

267. When a standard plan has been prepared for a bustee, the several owners of the bustee lands shall be respectively deemed to be the occupiers of the roads, common ground, and of such drains of the bustee as serve more than one hut, so far as constructed in accordance with such standard plan, and the owner of each hut shall be deemed to be the occupier of the land occupied by his hut, of that portion of the open space behind his hut which appertains to it, and of any drain which is for the sole use of his hut.

Owners of a bustee, when standard plan is prepared, deemed occupiers of the open spaces.

268. Notwithstanding anything contained in sections two hundred and fifty-seven to two hundred and sixty-two, the Commissioners in meeting may, upon receipt of the report prescribed under section two hundred and fifty-seven, pass a resolution to the effect that any bustee is an unhealthy area, and that, in the opinion of the Commissioners, the acquisition of the bustee, or any part thereof, by purchase lease, or otherwise, is necessary for the purpose of making the requisite improvements thereon, and shall proceed to make a standard plan for the improvement of such land, and shall forward such plan, accompanied by such estimates as shall be necessary for a due understanding of the same, together with a copy of such resolution, for the consideration and sanction of the Local Government.

Power to purchase, improve, and re-sell or lease unhealthy areas.

On receipt of such sanction, the Commissioners in meeting may acquire such land or any part thereof in the manner provided by Chapter XIII, Part II.

When the sanction of the Local Government has been accorded to any standard plan for the

in meeting may sell or let any part of the acquired land to any person for the purpose and under the condition that he will, as respects the land so purchased by, or leased to, him, carry out such standard plan.

The Commissioners may, instead of selling or letting the land acquired by them as aforesaid, themselves bring the bustee into conformity with such standard plan.

The Commissioners shall be bound to sell or lease such land in the manner aforesaid, or themselves to carry out such sanctioned improvement as is above described within the term of four years from the date of their acquiring such land, unless the Local Government shall specially extend such term.

When a bustee has been improved under this section, it shall be deemed to be a remodelled bustee.

269. The Commissioners in meeting may sanction the employment of a special establishment for the cleansing of bustees, and when such establishment has been sanctioned, they may impose a rate to defray the cost of such establishment, on the owners of such bustees:

Provided that, without the consent of the owners, no such rate shall be levied upon any remodelled bustee.

270. If any bustee for which no such establishment as is referred to in the last preceding section is maintained, appears to the Commissioners to be in a filthy condition, the Commissioners may serve notices upon the occupiers as defined in section two hundred and sixty-seven, requiring them within three days to cleanse the same, and if the occupiers do not comply with the terms of such notices to the satisfaction of the Commissioners, the Commissioners may cleanse the whole or any portion of the bustee which requires cleansing, and may recover the cost incurred by them from the occupiers of such portions of the bustee as they have cleansed.

CHAPTER XI.

OF DRAINAGE WORKS, DRAINS AND PRIVIES.

271. The Commissioners may carry out such a complete system or systems of sewerage and drainage as they may think fit, subject to the approval of the Local Government, and such alterations as may from time to time be ordered by it.

272. All public sewers and drains, and all sewers, drains, tunnels, and culverts in, alongside, or under any public street, whether made at the cost of the Commissioners or otherwise, and all works, materials, and things appertaining thereto, shall vest in, and belong to, the Commissioners.

273. The Commissioners shall have power to construct within Calcutta, and when necessary for the purposes of outfall or distribution of sewage without Calcutta, such sewers as they may think necessary for keeping the town properly cleansed and drained, and may carry such sewers through, across or under any road, street

or place, and after reasonable notice in writing into, through or under any premises or lands whatsoever, and may from time to time enlarge, lessen, alter, arch over or otherwise improve, modify or change, or close up or destroy all sewers, vested in them, provided no nuisance is created by such operations; and if any person is thereby deprived of the lawful use of any drain or sewer, the Commissioners shall provide another as effectual for his use within one hundred feet from some part of his premises. The Commissioners shall cause their sewers to be so constructed, kept and cleansed as not to be a nuisance or injurious to health, and for the purpose of cleansing, flushing and emptying them may construct and place either above or under ground, such reservoirs, sluices, engines or other works as may be necessary, and may cause such sewers to communicate with, and be emptied into, such places as may be fit and necessary within Calcutta, and if necessary for the purpose of outfall or distribution of sewage without Calcutta, and may cause the sewage and refuse therefrom and from the town to be collected for sale, or for the improvement of land, or for incineration, or for any purpose whatsoever, but not so as to create a nuisance.

If a sewer is carried into, through or under any lands not belonging to the Corporation, the Commissioners shall make compensation to the owner thereof for any damage sustained by him by reason of such sewer being so carried into, through or under his land. In case of dispute, the amount of compensation payable by the Commissioners shall be determined in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

274. When the contents of any sewer or drain, or any other flow of filth or refuse, are discharged into any river or stream in the bed or channel of which the quantity of water at any season of the year is so much diminished, by natural or artificial causes, as to be insufficient to keep such channel clean or clear, the Commissioners, with the sanction of the Local Government, may make such alteration in the bed of such river or stream as may prevent such sewer and drain-water from spreading over the surface of such bed, or from accumulating and stagnating in parts thereof to the injury of health or the annoyance of the surrounding population.

275. If any person, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners, or makes such drain, or carries out such alterations, with materials not approved of by the Commissioners, the Commissioners may cause such branch drain to be demolished, altered, re-made, or otherwise dealt with as they shall think fit;

and the expenses thereby incurred shall be paid by the person making or altering such branch drain.

276. Whoever, without the written consent of the Commissioners first obtained, makes or alters any drain leading into any of the sewers or drains vested in the Commissioners by this Act, shall be liable to a fine not exceeding Rs. 200.

277. If any house or land within one hundred

Commissioners empowered to make drains from houses which are not properly drained.

feet of a public sewer or surface drain fit for use, or of some tidal river or other place at which the Commissioners are empowered to empty their sewers, be at any time not drained to the satisfaction of the Commissioners by sufficient surface drains or pipes communicating with some sewer, surface drain, tidal river, or other place as aforesaid, the Commissioners may, if the owner neglects to do so within fifteen days after notice, construct or lay through or from such house or land, suitable drains of such materials, of such size and with such fall, as they shall think necessary for the complete draining of such house or land;

and the expenses thereby incurred shall be paid by the owner.

278. The Commissioners themselves may

construct and lay down such portions of the drains mentioned in sections two hundred and eighty-two and two hundred and eighty-three, as may be carried through or under any public drain, aqueduct, or street, and the expenses thereby incurred shall be paid by the owner.

279. Whenever it is provided in this Chapter

Sewage and rain-water drains to be distinct.

that steps shall or may be taken for the effectual drainage of any premises, it shall be competent to the Commissioners to require that there shall be one drain for sewage and polluted water, and another and an entirely distinct drain for rain-water or unpolluted subsoil water or for both, each emptying into separate municipal drains or other suitable places.

280. It shall not be lawful for any person

to make any underground drains in connection with the public sewers unless he shall hold a license from the Commissioners under such rules and regulations as the Commissioners may, from time to time, lay down, and which shall be printed on the back of the license.

Any person holding such license who shall

infringe or break any such rule or regulation shall be liable to have his license cancelled, and he or any person making any underground drain in connection with the public sewers without a license shall be liable to a fine not exceeding Rs. 20.

281. The Commissioners may cause the

Supervision of certain works.

work of laying underground drains to be supervised while in progress, and from time to time during their execution may order such reasonable alterations therein, additions thereto, and abandonment of part or parts thereof, as may to the Commissioners appear, on the fuller knowledge afforded by the opening of the ground, requisite to secure the complete and satisfactory execution of such works as aforesaid.

282. If it appear to the Commissioners that

Group or block of houses may be drained

a group or block of houses may be drained more eco-

nomic size already exists, or is about to be constructed, within one hundred feet of any part of such group or block of houses, the Commissioners may cause such group or block of houses to be drained by a combined operation;

and the expenses thereby incurred shall be paid by the owners of such houses, or, in the case of bustee lands, by the owners of the land in such proportions as shall to the Commissioners seem fit.

Not less than fifteen days before any work under this section is commenced, the Commissioners shall give notice to the owners of all the land or houses to be drained of the nature of the proposed work and an estimate of the expenses about to be incurred in respect thereof and the proportion payable by each owner.

283. Whenever a drain belonging to one or

Commissioners may require the owner of a drain to allow another to use it.

more persons has been laid in any street or passage common to more than one house, and it is deemed desirable to drain any other premises into such drain, the Commissioners may require the owners of such drain to allow a connection therewith to be made on such terms as may seem to them equitable, and the owner or owners of the drain shall be entitled to refuse to allow the connection to be made until the terms prescribed have been accepted and any order for payment made by the Commissioners has been complied with.

284. All underground drains in streets (public

Sewers in streets to be covered with traps.

or otherwise) shall be provided by the Commissioners or by the persons to whom they severally belong with proper traps or other coverings and means of ventilation, so as to prevent stench.

If the owner of any private sewer or underground drain shall, for ten days after notice given to him by the Commissioners, neglect or delay to provide proper traps or coverings and means of ventilation as aforesaid, the Commissioners may forthwith provide and apply the same;

and the expenses thereby incurred shall be paid by the owner.

285. The Commissioners may erect on, or

Power of Commissioners to erect or affix to building, pipes for ventilation of sewers.

fix to, any house or wall such properly jointed pipes as they may deem necessary for the proper ventilation of the sewers belonging to them, and such pipes shall be carried to a height of not less than six feet above the highest part of the highest adjacent house, and erected so as not to occasion any nuisance or inconvenience to any house in the neighbourhood.

286. All branch drains, as well within as

Branch drains, privies, cess-pools, stables, and cow-houses to be under the control of the Commissioners, and to be kept in good order by owners.

without the house or land to which they belong, and all privies, cess-pools, stables and cow-houses in Calcutta, shall be under the survey and control of the Commissioners as regards their site, material, dimensions and construction, and shall be altered, supplied with water, connected with a sewer, paved, repaired, kept in proper order, stopped up, or demolished, at the costs and charges of the owner of the house or land to which the

and if the owner of any house or land to which any such drain, privy, cess-pool, stable or cow-house belongs, neglect, during eight days after notice in writing, to execute the work in the manner required by the Commissioners, the Commissioners may cause the work to be executed in respect of such drain, privy, cess-pool, stable or cow-house;

and the expenses thereby incurred shall be paid by the owner.

287. If any private drain is obstructed, the occupier of the premises in which such drain is situated shall, within six hours after receiving notice to do so from the Commissioners, cause the obstruction to be removed, and if he make default, the Commissioners may cause the necessary work to be done and the expenses thereby incurred shall be recoverable from such occupier.

288. If any branch drain, privy, cess-pool, stable or cow-house be constructed contrary to the directions, bye-laws or regulations of the Commissioners or contrary to the provisions of this Act, or if any person, without the consent of the Commissioners, constructs, rebuilds or unstops any branch drain, privy, or cess-pool which has been ordered by them to be demolished or stopped up, or not to be made, or constructs or rebuilds any stable or cow-house which has been ordered by them to be demolished or not to be built, the Commissioners may cause such amendment or alteration to be made in any such drain, privy, cess-pool, stable or cow-house as they think fit;

and the expenses thereby incurred shall be paid by the person by whom such drain, privy, cess-pool, stable or cow-house was improperly constructed, rebuilt, or otherwise dealt with.

289. Whoever constructs any drain, privy, cess-pool, stable or cow-house after the commencement of this Act contrary to the directions, bye-laws or regulations of the Commissioners, or contrary to the provisions of this Act, or, whoever without the consent of the Commissioners, constructs, rebuilds or unstops any drain, privy, or cess-pool which has been ordered by them not to be made or to be demolished or to be stopped up, shall be liable to a fine not exceeding Rs. 50.

290. The Commissioners may inspect any branch drain, privy, cess-pool, stable or cow-house, and for that purpose, at any time between sunrise and sunset, after one hour's notice in writing to the occupier of the house or land to which such drain, privy, cess-pool, stable or cow-house is attached, may enter upon such house or land with such assistants and workmen as are necessary, and cause the ground to be opened where they may think fit, doing as little damage as may be;

and if, upon such inspection, it appears that such drain, privy, cess-pool, stable or cow-house is not in good order and condition, or that it has been constructed contrary to the provisions of this Act, the expenses of such inspection shall be paid by the person to whom such drain, privy, cess-pool, stable or cow-house may belong;

but if the drain, privy, cess-pool, stable or cow-house be found to be in proper order and condition, and not to have been constructed in violation of the provisions of this Act, the Commissioners shall cause the ground to be closed and made good as soon as may be, and the expenses of opening and closing the ground shall be paid by the Commissioners.

291. Whoever throws or puts, or permits his servants to throw or put, any rubbish, or, until suitable sewers shall be provided, any offensive matter or sewage into any sewer or drain belonging to the Commissioners, or into any drain communicating therewith, shall be liable to a fine not exceeding Rs. 50 for every such offence.

292. No person shall, without the permission of the Commissioners in writing, construct or keep any latrine, privy, urinal, cess-pool, house-drain, or other receptacle for filth or other offensive matter, within fifty feet of any public tank, or a tank used by the inhabitants of any locality. Any person upon whose land any latrine, privy, urinal, cess-pool, house-drain, or other receptacle so situated shall be now existing or hereafter constructed, shall remove the same within eight days of the receipt of a written notice from the Commissioners.

293. Any person failing to comply with the notice mentioned in the last preceding section shall be liable to a fine not exceeding Rs. 20 and to a further fine, not exceeding Rs. 3 for every day that the latrine, privy, urinal, cess-pool, house-drain, or other receptacle remains within the limits aforesaid.

294. If the Commissioners think that any privy or additional privy should be provided for any house or land, the owner of such house or land shall, within fourteen days after notice in that behalf by the Commissioners, cause such privy, together with the necessary pipes, drains, and water-supply, to be constructed in accordance with the requisition of such notice; and if such privy be not so constructed to the satisfaction of the Commissioners within such period, the Commissioners may cause such privy, together with the necessary pipes, drains, and water-supply, to be so constructed; and the expenses thereby incurred shall be paid by the owner.

295. The Commissioners, in executing any works under this Act, shall provide and make, at their own expense, a sufficient number of convenient ways, water-courses, drains, and channels in the place of such as may be interrupted, injured, or rendered useless by reason of the execution of such works;

and if any difference arises between the Commissioners and the persons affected thereby, such difference shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

296. The Commissioners shall, during the construction or repair by them of any of the streets, sewers, or drains, vested in

Obstructions in private drains to be removed.

Commissioners may alter any drain, privy, cess-pool, stable or cow-house made contrary to their order.

Penalty for persons making or altering drain, contrary to the orders of the Commissioners.

Inspection of drains, privies, and cess-pools.

Penalty for throwing rubbish into sewers.

No latrine to be constructed within fifty feet of a tank.

Commissioners may cause additional privies to be provided for any land.

Commissioners in executing works to provide proper drains.

Bars to be erected across streets during repairs and lights placed at night.

or belonging to them, take proper precaution for guarding against accident, by shoring up and protecting the adjoining houses;

and shall cause such bars, chains, or posts to be fixed across or in any street (public or otherwise), to prevent the passage of carriages, carts, cattle, or animals, while such works are carried on as to them shall seem proper;

and shall cause any sewer, or drain, or other works in streets (public or otherwise), during the construction or repair thereof by them, to be sufficiently lighted and guarded during the night.

CHAPTER XII.

OF SANITARY MATTERS.

PART I.—Of scavenging and cleansing.

297. The Commissioners shall cause the public streets to be sufficiently lighted and regularly swept and cleansed; and the rubbish and offensive matter of every kind whatsoever found thereon to be collected and removed every day.

298. The Commissioners may cause any number of moveable or fixed dust-boxes or other convenient receptacles, (wherein rubbish and offensive matter arising from the ordinary domestic use of houses, may be temporarily deposited until removed and carried away,) to be provided and placed in proper and convenient situations, and may require the occupiers of houses in public streets to cause all such matter as aforesaid to be deposited in such receptacles and between such hours as they may from time to time direct:

Provided that no occupier shall be required to deposit refuse in a dust-box at a greater distance than fifty yards from the entrance of his premises.

299. Subject to the proviso contained in the last preceding section, every person who, after such receptacles have been provided, and after such requisition as abovementioned, shall deposit, or cause or permit to be deposited, any such matter in any public street, except in such receptacles, shall be liable to a fine not exceeding Rs. 10.

300. Whoever deposits, or suffers to be deposited, any dust, dirt, filth, or refuse of any kind whatsoever, in any public street, or on any public quay, jetty, ghât, or landing place, or on any part of the river bank, whether above or below high water mark, except in such places, and in such manner, and at such hours, as shall be fixed by the Commissioners, shall be liable to a fine not exceeding Rs. 10 for every such offence.

301. If it shall in any case be shown that dust, dirt, filth or refuse of any kind has been thrown or placed on any street or place in contravention of section two hundred and ninety-nine or section three hundred from some building or land, it shall be presumed that the offence has been committed by, or with the sufferance of, the occupier of such building or land, unless the contrary be proved.

302. Whoever causes or allows the water of any sink or sewer, or any offensive liquid matter belonging to him, or being in any house or land in his occupation, to run, drain, or be thrown or put upon any street (public or otherwise), or causes or allows any sewage to run, drain, or be thrown into a surface drain not intended for the purpose in any street (public or otherwise), shall be liable to a fine not exceeding Rs. 10 for every such offence.

Penalty for allowing sewage to flow on streets.

point—

- (a) the hours within which sewage or any offensive matter may be removed;
- (b) the kind of cart or other receptacle in which it may be removed;
- (c) the route by which such cart or other receptacle shall proceed.

304. When the Commissioners have fixed such hours and given public notice thereof, whoever

removes or causes to be removed along any street (public or otherwise) any such offensive matter at any time, except within the hours so fixed, and also, whoever at any time, whether such hours have been fixed by the Commissioners or not, uses for any such purpose any cart, carriage, or other receptacle or vessel other than that approved and sanctioned by the Commissioners, or spills any such offensive matter in the removal thereof and does not carefully sweep and clean every place in which any such offensive matter has been so spilled, or places or sets down in any public place any vessel containing such offensive matter, or drives or takes, or causes to be driven or taken, any cart, carriage, receptacle, or vessel used for any such purpose as aforesaid, through any street (public or otherwise), or by any route other than that, from time to time, by public notice, appointed for that purpose by the Commissioners, shall be liable to a fine not exceeding Rs. 20 for every such offence.

305. The Commissioners shall from time to time appoint or provide places—

- (a) for the deposit of rubbish or offensive matter collected and removed in accordance with the provisions of this Act;
- (b) for the deposit of the carcasses of animals removed in accordance with the provisions of this Act; and
- (c) for keeping all cattle, carts, implements, and other things required for the above or any of the purposes of this Act.

306. The occupier of any premises in or upon which any animal shall die, or upon which the carcass of any animal shall be found, and the person having the charge of any animal which dies in a street or in any open place shall, within three hours after the death of such animal, or if the death occurs at night, within three hours after sunrise, either—

- (a) remove the carcass of such animal to some receptacle, dépôt or place appointed by the Commissioners under

Removal of carcasses of animals.

Presumption as to offender under sections two hundred and ninety-nine and three hundred.

section three hundred and five for the temporary deposit or final disposal of such carcasses; or

- (b) report the death of the animal to the proper officer of the Commissioners, with a view to causing the carcass to be removed.

When any carcass is removed, as in clause in b a fee for the removal, of such amount as shall be fixed by the Commissioners, shall be paid by the owner of the animal, or, if the owner is not known, by the occupier of the premises in or upon which, or by the person in whose charge the same died. The word "animal" in this section includes an elephant, camel, horse, mule, donkey, horned beast, sheep, pig, or other large animal.

307. Whoever, being the occupier of any house or land, keeps or suffers to be kept any offensive matter for more than twenty-four hours, otherwise than in a proper receptacle, or suffers such receptacle to be in a filthy or noxious state, shall be liable to a fine not exceeding Rs. 50 and to a further fine, not exceeding Rs. 30 for each day during which the offence is continued after he has been convicted of such offence.

308. All dirt, dust, filth, and any other refuse whatsoever, collected from the streets (public or otherwise), houses, privies, sewers, and cess-pools, and all carcasses removed under the provisions of section three hundred and six shall belong to the Commissioners, who may sell or dispose of the same as they may think proper, and the money arising from the sale thereof shall form part of the General Fund.

309. If any house or land, by reason of abandonment, or of disputed ownership, or other cause, remains untenanted, and thereby becomes a resort of idle and disorderly persons,

or becomes in a filthy or unwholesome state, or is complained of by any two or more of the neighbours as a nuisance,

the Commissioners, after due enquiry, may cause notice in writing to be given to the owner, or to the person claiming or believed to be the owner, if he be known and resident in Calcutta, and shall also cause such notice to be put on the door of the house or some conspicuous part of the land requiring the persons concerned therein, whoever they may be, to secure, enclose, clean, or clear the same;

and if such notice shall not be complied with within eight days, the Commissioners shall cause the necessary work to be executed, and the expenses thereby incurred shall be recovered from the owner or by the sale of any materials found upon such house or land, and the provisions of section two hundred and thirty-four shall be applicable to such sale.

310. The Commissioners may provide and maintain in proper and convenient situations, common necessities and urinals, and shall cause the same, when provided, to be constructed, and kept so as not to be a nuisance or injurious to health.

311. The Commissioners may license, for any period not exceeding one year, such necessities for public accommodation as they may, from time to time, think proper; and may at any time, on giving one month's notice, if they think fit, cancel any license so granted.

All fees payable under any license granted under this section shall be recoverable from the persons liable to pay the same, as if the amounts payable in respect thereof were rates due to the Commissioners from such persons, under the provisions of Chapter VI.

312. Whoever keeps any public necessary without a license as mentioned in the last preceding section, or, having a license, suffers such public necessary to be in a filthy or noxious state, shall be liable to a fine not exceeding Rs. 100, for every such offence, and to a further fine, not exceeding Rs. 50, for each day during which the offence is continued after he has been convicted of such offence.

313. The Commissioners shall maintain an establishment under their control for the removal of sewage from all houses, the privies of which are not connected with the sewers.

314. The Commissioners at a meeting may, by a general order, or by an order to affect such portion of Calcutta as may be specified therein, prohibit the making of excavations for the purpose of taking earth therefrom, or for the purpose of storing rubbish or offensive matter therein, and the digging of cess-pools, tanks, wells or pits without the special permission of the Commissioners.

If any such excavation, cess-pool, tank, well or pit is made after the issue and publication of such order without such permission, the Commissioners may require the owner and occupier of the land on which such excavation, cess-pool, tank, well or pit is made, within two weeks to fill up such excavation with earth or other material approved of by them, and in default the Commissioners, their officers and workmen may enter upon the land and execute the work, and the expense thereby incurred shall be paid one-half by the owner and one-half by the occupier of such land.

315. When any well, tank, or marshy ground, or any waste or stagnant water, whether within any private enclosure or not, appears to the Commissioners to be injurious to health or to be offensive to the neighbourhood, the Commissioners may require, by notice in writing, the owner of the same to cleanse or fill up such well, tank or marshy ground with suitable material, or to drain off or remove such stagnant water; and if he shall refuse or neglect to comply with such requisition during one month from the service thereof, the Commissioners, their officers, and workmen, may enter into the said premises, and do all necessary acts for all or any of the purposes aforesaid as they shall think fit;

and the expenses thereby incurred shall be paid by the owner, and until so paid the Commissioners may retain possession of the land or tank or the site of such tank and utilise the same for public purposes.

316. Whoever, being an owner of land, fails to comply with the requisition mentioned in the last preceding section, shall be liable to a fine not exceeding Rs. 200, and to a further fine, not exceeding Rs. 50, for each day during which the offence is continued after he has been convicted of such offence.

PART II.—Inspection and sanitary regulation of premises.

317. The Commissioners may inspect any building or other premises for the purpose of ascertaining the sanitary condition thereof.

318. If it shall appear to the Commissioners necessary for sanitary reasons so to do, they may, by written notice, require the owner or occupier of any building so inspected, to cause the same or some portion thereof to be limewashed or otherwise cleansed, either externally or internally, or both externally and internally, within a time to be specified in such notice.

319. If, for any reason, any building intended for or used as a dwelling shall appear to the Commissioners to be unfit for human habitation, they may apply to a Magistrate to prohibit the further use of such building for such purpose; and the Magistrate, after such inquiry as he thinks fit to make, may, by written order, make a prohibition as aforesaid or may pass such other order as he shall deem just and proper.

When any such prohibition has been made, no owner or occupier of such building shall use or suffer the same to be used for human habitation until the Commissioners certify in writing that the causes rendering it unfit for human habitation have been removed to their satisfaction, or the Chief Presidency Magistrate, by a written order, withdraws the prohibition aforesaid.

320. If it shall appear to the Commissioners that any building used as a dwelling is so overcrowded as to endanger the health of the inmates thereof, they may apply to a Magistrate to prevent such overcrowding; and the Magistrate, after such inquiry as he thinks fit to make, may, by written order, require the owner of the building, within a reasonable time not exceeding six weeks, to be prescribed in the said order, to abate the overcrowding thereof, by reducing the number of lodgers, tenants, or other inmates of the said building, or may pass such other order as he shall deem just and proper.

If the owner of the said building shall have sub-let the same, the landlord of the lodgers, tenants or other actual inmates of the same shall, for the purposes of this section, be deemed to be the owner of the building.

It shall be incumbent on every tenant, lodger or other inmate of the building to vacate on being required by the owner so to do in pursuance of any such requisition.

PART III.—Of the prevention of infectious or contagious diseases.

321. Every medical practitioner who treats or becomes cognizant of the existence of any case of cholera, small-pox, diphtheria or typhoid fever in any private or public dwelling, other than a public hospital, shall be bound to give information of the same with the least practicable delay to the Commissioners. The said information shall be communicated in such form and with such details as the Commissioners may from time to time require.

The Commissioners in meeting may, with the sanction of the Local Government, impose a similar obligation with regard to any other dangerous disease.

322. The Commissioners may, at any time, after giving such notice of their intention as shall, under the circumstances, appear to them to be reasonable, enter and inspect any place in which any dangerous disease is reputed or suspected to exist, and take such measures as they shall think fit to prevent the spread of the said disease beyond such place.

323. If it shall appear to the Commissioners that the water in any well, tank, or other place is likely, if used for drinking, to engender or cause the spread of any dangerous disease, they may, by public notice, prohibit the removal or use of the said water for the purpose of drinking.

No person shall remove or use for the purpose of drinking, any water in respect of which any such public notice has been issued.

324. When any hospital or place for the reception of persons suffering from any dangerous, epidemic, endemic, or infectious disease has been provided, the Commissioners may, on a certificate countersigned by the Health Officer, and with the consent of the Superintendent of such hospital or place, direct the removal thereto of any male person suffering from any such dangerous disease, who is, in the opinion of such Health Officer, without proper lodging or accommodation.

325. If, upon the certificate of the Health Officer, the Commissioners are of opinion that the cleansing or disinfecting of a building, or of a part of a building, or of any article therein likely to retain infection, would tend to prevent or check the spread of any dangerous disease, they may, by written notice, require the owner or occupier of such building, within a reasonable time to be prescribed in the said notice, to cleanse or disinfect the same.

If the owner or occupier fails to comply with the said notice, the Commissioners shall cause the building, or part of the building, or

article, to be cleansed or disinfected, and the expenses thereof shall be paid by the owner or occupier.

Provided that if, in the opinion of the Commissioners, the owner or occupier is, from poverty or other cause, unable effectually to carry out the said requirements, the Commissioners may cleanse or disinfect the building, or part of the building, or article likely to retain infection at the charge of the General Fund.

326. If the Commissioners are of opinion that the destruction of any hut is necessary to prevent the spread of any dangerous disease, they may, after giving the owner or occupier thereof reasonable notice, take measures for the destruction of such hut or shed and the materials of which it is constructed.

The Commissioners may pay compensation to any person sustaining substantial loss by the destruction of any, but no person shall be entitled as of right to claim compensation for any loss or damage sustained by him by reason of the destruction of any hut by the Commissioners under the powers conferred upon them by this section.

327. The Commissioners in meeting may provide a proper place or places, with all necessary apparatus and attendance, for the disinfection of clothing, bedding, or other articles which have become infected, and may cause articles brought for disinfection to be disinfected free of charge.

The Commissioners may from time to time notify one or more places at which clothing or bedding, or other articles which have been exposed to infection from any dangerous disease, may be washed; and no person shall wash any such article at any public place not so notified, without having previously disinfected the same.

The Commissioners may direct the disinfection or destruction of bedding, clothing, or other articles likely to retain infection, and may, in their discretion, give compensation at the charge of the General Fund for any article destroyed.

328. The Commissioners in meeting may provide and maintain suitable conveyances for the free carriage of persons suffering from small-pox or cholera or from any other dangerous disease in regard to which the Commissioners in meeting may impose a similar obligation; and when such conveyances have been provided, it shall not be lawful to convey any such person by any other public conveyance.

The Commissioners in meeting may also provide suitable conveyances for the transport of clothing, bedding or other articles which have been exposed to infection.

329. The owner, driver, or person in charge of a public conveyance in which any person suffering from small-pox has been carried shall immediately provide for the disinfection of the same to the satisfaction of the Commissioners.

330. No person shall, without previous disinfection of the same, give, lend, sell, transmit or otherwise dispose of any article which he knows, or has reason to know, has been exposed to infection.

But nothing in this section shall be deemed to apply to a person who transmits, with proper precautions, any article for the purpose of having the same disinfected.

331. No person who is suffering from small-pox shall enter a public conveyance without previously notifying to the owner, driver, or person in charge of such conveyance that he is so suffering.

Notwithstanding anything contained in any Act relating to public conveyances for the time being in force, no owner or driver or person in charge of a public conveyance shall be bound to carry any person suffering as aforesaid in such conveyance, unless payment or tender of sufficient compensation for the loss and expenses he must incur in disinfecting such conveyance, is first of all made to him.

332. No person shall let a building, or any part of a building, in which he knows, or has reason to know, that a person has been suffering from any of the diseases specified in section three hundred and twenty-one without first having such building or part thereof and every article therein likely to retain infection disinfected to the satisfaction of the Commissioners.

For the purpose of this section, the keeper of an hotel or inn shall be deemed to let part of his building to any person accommodated in such hotel or inn.

333. Any person committing a breach of any of the provisions of this Part shall be liable to a fine not exceeding Rs. 50.

334. In the event of Calcutta being at any time visited or threatened with an outbreak of any dangerous, epidemic or zootic disease, the Commissioners in meeting, if they think that the ordinary precautions are insufficient to check the spread of such disease, may, with the sanction of the Local Government, take such special measures as they shall think necessary to prevent, check, or mitigate any such outbreak, and the expenses of any such measures shall be paid out of the General Fund. Such measures and any regulations passed to give effect thereto shall be published in the *Calcutta Gazette*, and any person wilfully neglecting or refusing to carry out, or obstructing the execution of any regulation made under this section, shall be liable to a fine not exceeding Rs. 100.

PART IV.—Of the control of public stables, cattle-houses, bathing places and wash-houses.

335. No person shall keep any animal for profit within Calcutta except in a place licensed by the Commissioners.

Such license shall be taken out yearly before the first day of June in every year.

The word 'animal' in this section shall include an elephant, camel, horse, mule, donkey, horned beast, sheep, goat and pig.

The Commissioners in meeting shall determine the places where such animals may be kept and the rules as to paying, drainage, water-supply, cubical space, light and other conditions subject to which the license may be granted, and may impose an annual fee not exceeding Rs. 10 for such license, and no place shall be licensed until the conditions imposed have been complied with.

336. Whoever, being the owner of any land, permits any animals to be kept thereon in contravention of the provisions of the last preceding section, shall be liable to a fine not exceeding Rs. 100, and to a further fine, not exceeding Rs. 20, for each day during which the offence is continued after he has been convicted of such offence, and the person keeping the animals shall also be liable to a similar fine.

Penalty.

When a conviction has been obtained under this section, it shall be lawful for the Commissioners to turn out the animals and close the place wherein they were kept.

337. Whoever, being the holder of a license under section three hundred and thirty-five commits a breach of the conditions of such license, shall be liable to a fine not exceeding Rs. 50, and to a further fine, not exceeding Rs. 10, for each day during which the offence is continued after he has been convicted of such offence.

Penalty.

338. The Commissioners may, at their discretion, set apart any public ghât or place (not being private property, or part of the river or river bank of the Port of Calcutta) for the purpose of being used as a bathing place; .

Commissioners may set apart bathing places.

provide or set apart a sufficient number of convenient tanks or reservoirs, or runs of water, for the inhabitants to bathe in;

construct wash-houses for washing clothes, and set apart tanks or reservoirs, or runs of water, for washing animals or clothes, or for any other purpose connected with the health, cleanliness, and comfort of the inhabitants.

339. Whoever bathes or washes any animal or clothes in any public place, except the places provided or set apart under the last preceding section, shall be liable to a fine not exceeding Rs. 50.

Penalty.

340. The Commissioners in meeting may, by public notice, prohibit the washing of clothes by washermen in the exercise of their calling, except at such places as the Commissioners shall appoint for the purpose; and when any such prohibition has been made, no person who is, by calling, a washerman shall wash clothes at any place not so appointed other than his own or those of the owner or occupier of such place.

The Commissioners shall provide suitable places for the exercise by washermen of their

calling, and may require payment of such fees for the use of any such place as shall from time to time be determined by the Commissioners in meeting.

PART V.—Of Slaughter-houses and Dangerous and Offensive Trades.

341. No place shall be used as a slaughter-house within Calcutta unless a license in writing for the use thereof as a slaughter-house has been obtained from the Commissioners in meeting, who may, at their discretion, from time to time, grant, refuse, suspend or revoke such license.

Whoever uses any place as a slaughter-house without such license shall be liable to a fine of Rs. 20, and upon a conviction being obtained the Commissioners may, if they think fit, close such slaughter-house.

342. Whoever, during the period for which any license is suspended, or after the same is revoked as aforesaid, slaughters any animal, or allows any animal to be slaughtered in the slaughter-house to which such license relates, shall be liable to a fine not exceeding Rs. 100, and to a further fine, not exceeding Rs. 50, for each day during which the offence is continued after he has been convicted of such offence.

343. The Commissioners in meeting may, from time to time, if they shall think fit, provide places within or without Calcutta for the purpose of being used as slaughter-houses; and all places heretofore provided by the Commissioners for the purpose of being used as slaughter-houses shall be deemed to have been provided under this section.

344. Every owner, occupier or farmer of any slaughter-house in Calcutta shall cause such drains to be made therein as shall be considered sufficient by the Commissioners, and (if required so to do by the Commissioners) shall cause all the floors and drains to be paved with stone or other material, and shall also cause a supply of water to be provided sufficient for keeping such slaughter-house in a clean and wholesome state. He shall also cause to be removed, at least once in every twenty-four hours, all blood, offal, manure or filth arising from the use of such slaughter-house in such manner, at such time, and with such precautions as the Commissioners may direct.

If such owner, occupier, or farmer, after notice in writing given to him by the Commissioners that such slaughter-house is defective in any of the said particulars, and requiring him to remedy the defect specified within not less than thirty days, makes default therein, he shall be liable to a fine not exceeding Rs. 50 for every day during which such default is continued.

345. The Commissioners in meeting may set apart places for the sacrifice of goats, in accordance with Hindu rites, and the sale of the meat thereof, and the provisions of sections three hundred and forty-three and three hundred and forty-four shall apply to such places.

No place shall be used as a slaughter-house without a license from the Commissioners.

Penalty for using slaughter-houses during suspension or revocation of license.

Commissioners to provide places for slaughter-houses.

Slaughter-houses to be properly drained.

Penalty.

Regulation as to washing by washermen.

Commissioners may set apart places for sacrifice and the sale of meat.

346. No premises, not already registered under section two hundred and ninety-seven of Bengal Act IV of 1876, shall be used :—

Certain offensive and dangerous trades carried on in Calcutta to be registered.

- (a) for melting tallow;
- (b) for boiling offal, hoofs, bones or blood;
- (c) as a soap-house;
- (d) as an oil-boiling house;
- (e) as a dyeing-house;
- (f) as a tannery;
- (g) as a brick, pottery, or lime kiln;
- (h) as a knacker's yard;
- (i) as a hide godown or hide screw-house;
- (j) as a mill for crushing bones or preparing artificial manure;
- (k) as a manufactory or place of business from which offensive or unwholesome smells arise; or
- (l) as a dépôt for hay, straw, wood, coal, or rags;

except under a license from the Commissioners, who may, at their discretion, from time to time, grant such license on such conditions as they may think fit.

347. The Commissioners in meeting shall fix Commissioners to fix a scale of fees to be paid for in respect of premises licensed under the last preceding section or registered under section two hundred and ninety-seven of Bengal Act IV of 1876 :

Provided that no fee shall exceed Rs. 500, nor be less than the amount otherwise payable as a trade or profession license under the Third Schedule.

348. Whoever, without a license, uses any unregistered place for any purpose specified in section three hundred and forty-six shall be liable to a fine not exceeding Rs. 500, and to a further fine, not exceeding Rs. 50, for each day during which the said offence is continued after he has been convicted of such offence.

349. If it be shown to the satisfaction of the Commissioners that any place referred to in section three hundred and forty-six is a nuisance or entails probable danger to the neighbourhood, they may give notice to the occupier to discontinue the use of such place within one month after the date of such notice.

Whoever, after the expiration of such time, uses such place, or permits it to be used, shall be liable to a fine not exceeding Rs. 200, and to a further fine, not exceeding Rs. 100, for each day during which the offence is continued after he has been convicted of such offence.

Penalty.

PART VI.—Of markets and the sale of food and drugs.

350. The Commissioners in meeting may, from time to time, if they shall think fit, with the sanction of the Local Government, provide places in Calcutta for the purpose of being used as municipal markets, and the Commissioners may charge such rents, tolls, and fees as to them may seem fit for the use of, or right to expose goods for sale in, such markets, and for the use of shops, stalls, and standings therein.

351. All such rents, tolls, and fees which shall be imposed shall be recoverable by the Commissioners from the persons liable to pay the same as if the amounts payable in respect thereof were rates due to the Commissioners from such persons under the provisions of Chapter VI.

352. The Commissioners may expel from any such municipal market any vendor who, or whose servants, may be convicted of disobeying any bye-law made under section four hundred and twelve, clause (i), and may prevent such person, by himself or his servants, from further carrying on any trade or business in such market, or occupying any stall or shop therein, and may determine any lease or tenure which such person may have in any such stall or shop.

353. The Commissioners may sell, or let to tenants on lease or otherwise, on such terms as they may think fit, any municipal market, or any part thereof, and may do all things necessary for carrying the provisions of this section into effect.

354. The Commissioners in meeting may close any municipal market, or any part thereof, or sell, or let out to tenants on lease or otherwise, any land heretofore used as a municipal market, or any part thereof, on such terms as they may think fit, and may do all things necessary for carrying the provisions of this section into effect.

355. It shall be within the discretion of the Commissioners in meeting to grant licenses for the use of any place which they are satisfied is suitable for the purpose, as a market for the sale of meat, fish, fruit, and vegetables, and every such license shall be in force until the first day of April next ensuing the day therein named for the commencement thereof.

Nothing contained in this section shall be held to impose upon any person the obligation of taking out a license for a market which has been registered under section six of Bengal Act VIII of 1871.

356. No person shall, without a license from the Commissioners, use any place as a shop for the sale of fresh meat or fish except in a municipal, registered, or licensed market. And the Commissioners in meeting may fix a scale of fees for licenses to be taken out annually for such shops:

Provided that no fee for a license to use any place as a shop for the sale of meat shall be less than Rs. 12. This section shall not apply to any place licensed as an hotel or eating-house.

Power to Commissioners to construct markets.

Recovery of fees.

Power to expel vendor breaking regulations.

Power to Commissioners to sell or let markets.

Power to Commissioners to close markets or to sell or let land formerly used as markets.

Power to grant licenses for markets. Duration of licenses.

Shops for the sale of meat and fish to be licensed.

357. Whoever wilfully or negligently permits any place in Calcutta (not being a market which has been registered under section six of Bengal Act VIII of 1871) to be used as a market for the sale of meat, fish, fruit or vegetables, or as a shop for the sale of fresh meat or fish, without a license under this Act, shall be liable to a fine not exceeding Rs. 200 and to a further fine not exceeding Rs. 50 for each day during which the said offence shall be continued after he has been convicted of such offence.

358. Upon a conviction being obtained under the last preceding section, the Magistrate shall, on the application of the Commissioners, but not otherwise, order such place to be closed, and thereupon appoint persons, or take other steps, to prevent such place being so used; and every person who shall sell or expose for sale meat, fish, fruit, or vegetables in any place which shall have been so closed shall be liable to a fine not exceeding Rs. 10.

359. The Commissioners in meeting may define, fix, and determine the limits of any registered or licensed market or bazar and what portions of any market or bazar shall be thrown into, and made part of, the existing approaches, roads, paths, and ways in such market or bazar for the convenient use of persons resorting thereto; and shall signify the same by affixing, or causing to be affixed, in some conspicuous place or places in the market or bazar, a notice signifying the limits and description of the parts of the said market or bazar so to be kept and used as part of the approaches, roads, paths, and ways.

360. The Commissioners in meeting may, by notice in writing to the owner, proprietor, or lessee of any registered or licensed market or bazar, require him, within a time to be specified therein, to execute the necessary works and take all necessary measures for the setting out, clearing, widening, and maintaining of the said approaches, roads, paths, and ways;

and may, in case of default by their servants and workmen, enter into and upon the said market or bazar, and clear, set out, and widen the said approaches, roads, paths, and ways, and the expenses thereby incurred shall be paid by the person on whom the notice has been served.

361. The Commissioners in meeting may from time to time vary and alter the said approaches, roads, paths, and ways as occasion may require, signifying the same by a like notice.

362. Whoever shall cause any obstruction or encroachment in or on any approaches, roads, paths, or ways to, or in, any registered or licensed market or bazar shall be liable to a fine not exceeding Rs. 50, and to a further fine, not exceeding Rs. 10 for every day such obstruction or encroachment is continued after notice from the Commissioners to remove or discontinue the same.

363. Any Magistrate, on the application of the Commissioners or any of their officers, setting forth that there is just cause to believe that any article, which has been rendered or has become noxious or unfit for use as food or drink for man, is in the possession of any person for the purpose of being sold, offered, or exposed for sale, may grant a warrant to enter upon the premises of such person and to search for and seize such article;

and if it appear to the Magistrate that any such article, whether discovered with or without a warrant under this section, is noxious or unfit for such use, he shall order it to be forfeited and disposed of in such way as to him shall seem proper.

364. No person shall sell to the prejudice of the purchaser any article of food which is not of the nature, substance or quality of the article demanded by such purchaser under a penalty not exceeding Rs. 100 for the first offence, and not exceeding Rs. 500 for any offence after a conviction for a first offence: Provided that an offence shall not be deemed to be committed under this section in the following cases, that is to say—

- (1) Where any matter or ingredient not injurious to health has been added to the food, because the same is required for the production or preparation thereof as an article of commerce, in a state fit for carriage or consumption, and not fraudulently to increase the bulk, weight or measure of the food or conceal the inferior quality thereof.
- (2) Where the food is unavoidably mixed with some extraneous matter in the process of collection or preparation.

The term "food" shall include every article used for food or drink by man other than drugs or water.

In any prosecution under this section it shall be no defence to allege that the vendor was ignorant of the nature, substance or quality of the article sold by him, or that the purchaser, having bought only for analysis, was not prejudiced by the sale.

No proceedings shall be instituted under this section without the order or consent in writing of the Commissioners.

365. The Commissioners, may, at all reasonable times, enter into and inspect any market, building, shop, stall, boat, vessel, wharf godown, or other place used for the sale, preparation, or storage of articles intended for food, or as a slaughter-house, and may examine any such articles which may be therein, and if, upon examination, such articles, or any of them, appear to be unfit for food, may seize the same.

Meat subjected to the process of blowing shall be deemed unfit for food.

366. Upon the seizure of any article of food under the last preceding section, the same may, if the owner or the person in whose possession the same is found consents, be forthwith destroyed or so disposed of as to prevent it being used as food; but if the owner or the person in whose possession the same is found do not consent, then, if it appear to the Chairman, Vice-Chairman, Health Officer, or any Commissioner to whom the same may be brought that the same is unfit for food, he shall order the same to be destroyed or so disposed of as to prevent it being used as food. And the Commissioners may, if they think fit, prosecute the owner or the person in whose possession the same is found, such person not being merely a carrier or bailee thereof, and he shall, upon conviction, be liable to a fine not exceeding Rs. 10.

367. If the Commissioners shall apply to purchase any article of food exposed to sale, and shall tender the price for a quantity not more than shall be reasonably requisite for the purpose of analysis, and the person exposing the same for sale shall refuse to sell the same, such person shall be liable to a penalty not exceeding Rs. 50.

368. No shop or place shall be kept for the retail sale of drugs not being also articles of ordinary domestic consumption, unless the same shall have been registered in the office of the Commissioners. Any keeper of such shop or place failing to register the same within two months of the passing of this Act, or within two months from the date of the establishment of such place, shall be liable to a fine not exceeding Rs. 100. The Commissioners shall, upon registration, grant the keeper of such shop or place a license, which he shall be bound to display in some conspicuous part of his premises.

No person shall compound, mix, prepare, dispense, or sell any drug in any such registered shop or place unless he be duly certified as a fit person to be entrusted with such duties under rules made for that purpose by the Local Government.

Any person not being a holder of such certificate, who shall compound, mix, prepare, or sell any drugs in any such registered shop or place, shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for each offence, and any owner, occupier or keeper of any such shop or place who shall employ any such uncertified person to perform any one or more of such duties shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 200, and shall be further liable, at the discretion of such Magistrate, to forfeit his license.

Nothing in this section contained shall be construed to apply to the sale of drugs used by practitioners of indigenous medicines, when such drugs are not sold in a shop or place where medicines are dispensed upon prescription.

369. The Commissioners, or any person authorized by them in that behalf, may, at all reasonable times, enter into and inspect any place kept for the sale of drugs, or in which drugs are sold,

and if they have reason to suspect that any drug in the said place is adulterated, or by reason of age, or the effect of climate, has become inert or unwholesome, or has otherwise become deteriorated in such a manner as to lessen its efficacy, to change its operation, or to render it noxious, may remove the same on giving a receipt specifying the nature and quantity of the drug removed and its approximate value; and if it appear to any Magistrate that the said drug removed as aforesaid is adulterated, or has become inert, unwholesome, or deteriorated as aforesaid, he may order the same to be destroyed, or to be so disposed of as to him may seem fit. If it shall appear to the Magistrate that the drug so removed is not adulterated or has not become inert, unwholesome, or deteriorated as aforesaid, the person from whose shop or place it has been taken shall be entitled to have it restored to him, and it shall be in the discretion of the Magistrate to

award him such compensation, not exceeding the actual loss which has been sustained, as the Magistrate may think proper.

If the drug removed as aforesaid is not brought before a Magistrate, it shall be restored to the person from whose shop or place it was taken, and such person shall be entitled to compensation for any actual loss which he may have sustained by the removal of the said drug, and any dispute which may arise touching the amount of compensation to be given shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses.

PART VII.—Of Weights and Measures.

370. The Commissioners shall from time to time provide such local standards of measure and weight as they deem requisite for the purpose of verification of weights and measures in use in Calcutta, and shall make such arrangements as they shall think fit for the safe keeping of the said standards.

The Commissioners shall also provide from time to time proper means for verifying weights and measures by comparison with the said standards and for stamping the weights and measures so verified.

371. The Commissioners shall from time to time fix the times and places at which some municipal officer appointed by them in this behalf shall attend for the purpose of the verification of weights and measures.

The municipal officer so appointed shall attend with the local standards in his custody at each time and place fixed, and shall examine every measure or weight which is of the same denomination as one of such standards and is brought to him for the purpose of verification and compare the same with that standard, and, if he find the same correct, shall stamp it with a stamp of verification in such manner as best to prevent fraud.

The said municipal officer shall enter in a book kept by him minutes of every such verification, and give, if required, a certificate under his hand of every such stamping.

372. There shall be payable to the Commissioners in respect of the verification and stamping of weights and measures by a municipal officer as aforesaid such fees as the Commissioners in meeting from time to time fix in this behalf.

PART VIII.—Of Burial and Burning Grounds.

373. The Commissioners may, if they think fit, cause a survey and measurement to be made of every public burial and burning ground, and every place used as such; and every burial and burning ground and every place used as such shall be registered by the owner or the person having the control thereof, who, if it is not a public burial or burning ground, shall, if required by the Commissioners so to do, deposit a plan thereof in the Municipal office within three months. If there be no owner or person authorized to control the same, the registration may be made by order of the Commissioners, in a book to be kept by them for that purpose.

374. Whoever uses any such place as is mentioned in the last preceding section without the same being registered or without a plan having been deposited, when required by the Commissioners, within the period prescribed in the last preceding section, shall be liable to a fine not exceeding Rs. 100, and to a further fine, not exceeding Rs. 50, for each day during which the offence is continued after he has been convicted of such offence.

375. Every person having the control of a burial or burning ground shall keep a register of all burials or cremations therein, in which shall be entered the particulars required to be entered in the certificate referred to in section one hundred and ninety, and the Commissioners, shall at all times have access to such register.

376. Whoever buries or burns, or causes, procures, or suffers to be buried or burned, any corpse in or on any ground not registered as a burial or burning ground, or without registering the burial or cremation under the last preceding section, shall be liable to a fine not exceeding Rs. 100.

377. No burial or burning ground, whether public or private, shall be made or used, or, having fallen into disuse, shall be again used as such, otherwise than by, or under the authority of, the Local Government without a license, describing the extent and boundaries thereof, previously obtained from the Commissioners in meeting, who may at their discretion, from time to time, grant such license.

378. The Commissioners in meeting may from time to time, out of the General Fund, provide burial and burning grounds, and fix fees. They may also provide fitting places to be used as burial or burning grounds, and may fix a scale of fees in respect of burials and cremations within such burial or burning grounds.

379. No vault or grave shall be made within the walls of, or underneath, any church, chapel, or other place of public worship, without the permission of the Commissioners except by order of the Local Government.

380. Whoever buries or burns, or causes, permits, or suffers to be buried or burned, any corpse in any vault, grave, or burial or burning ground opened, made, or formed without such license, or contrary to the terms thereof, shall be liable to a fine not exceeding Rs. 500.

381. If the Commissioners in meeting, with the sanction of the Local Government, shall certify, in manner hereinafter provided, that any burial ground or place of burial, or that any place used for the burning of corpses, is in such a state as to be dangerous to the health of persons living in the neighbourhood thereof;

or that any church or other place of public worship is dangerous to the health of persons frequenting the same, by reason of the state of the vaults or graves within the walls of, or underneath, the same, or in any churchyard or burial ground adjacent thereto;

and shall also certify that a fitting place for interment or burning (as the case may be) exists within a convenient distance and is available, no person shall, after a time (not less than two months) to be named in such certificate, bury or burn, or permit or suffer to be buried or burned, any corpse in, upon, within, or under the ground, church, or place of worship to which the certificate relates, except in so far as may be allowed by such certificate.

Every such certificate shall be published in the *Calcutta Gazette*, and a translation thereof in Bengali shall, in the case of a burial or burning ground, be affixed conspicuously on some part of the said ground.

382. Whoever, after due publication of such certificate, buries or burns, or causes, permits, or suffers to be buried or burned, any corpse contrary to the last preceding section, shall be liable to a fine not exceeding Rs. 200.

383. Notwithstanding any certificate under section three hundred and eighty-one where, by usage or otherwise, there is any right of interment in or under any church or chapel, or in any vault of such church or chapel, or of any churchyard, burial ground, or place of burial affected by such certificate, or where any exclusive right of interment, or any exclusive right to ground for the purpose of interment, has been purchased or acquired, the Commissioners may, if on application made to them, they are satisfied that the exercise of such right or the use of such ground will not be injurious to health, grant a license for such exercise or use during such time and subject to such conditions and restrictions as they may think fit.

384. The Commissioners shall, from time to time, grant licenses to persons applying for such, for the sale at burning grounds, of fuel and other articles used for the cremation of dead bodies, and shall in meeting prescribe

a scale of rates for the sale of such articles; and any person not so licensed who shall, within three hundred yards of any such burning ground, sell or offer for sale any such fuel or other articles, shall be liable to a fine not exceeding Rs. 50.

The Commissioners may, on good and sufficient cause, revoke or withdraw any such license they may think fit, and any person to whom any such license is granted, who shall charge for the sale of any such article any higher rate than the rate fixed for such article in such scale, shall, at the discretion of the Commissioners, be liable to have his license cancelled, and shall also be liable to a fine not exceeding Rs. 10.

The Commissioners shall not be bound to grant a fresh license to any person whose license may have been revoked, withdrawn, or cancelled under the provisions of this section.

PART IX.—Of Nuisances.

385. The following nuisances shall be deemed to be nuisances liable to be dealt with summarily in manner provided by this Chapter:—

Nuisances which may be dealt with summarily.

- (a) Any premises in such a state as to be a nuisance or injurious to health:
- (b) Any tank, well, ditch, gutter, water-course, privy, urinal, cesspool, or drain so foul or in such a state as to be a nuisance or injurious to health:
- (c) Any animal so kept as to be a nuisance or injurious to health:
- (d) Any accumulation or deposit which is a nuisance or injurious to health:
- (e) Any house or part of a house so overcrowded as to be dangerous or injurious to the health of the inmates, whether or not members of the same family:
- (f) Any factory, workshop or workplace not kept in a cleanly state, or not ventilated in such a manner as to render harmless, as far as practicable, any gases, vapours, dust or other impurities generated in the course of the work carried on therein that are a nuisance or injurious to health, or so overcrowded while work is carried on as to be dangerous or injurious to the health of those employed therein:
- (g) Any fireplace or furnace which does not, as far as practicable, consume the smoke arising from the combustible used therein, and which is used for working engines by steam, or in any mill, factory, dye-house, brewery, bake-house, or gas-work, or in any manufacturing or trade process whatsoever, and any chimney (not being the chimney of a private dwelling-house) sending forth black smoke in such quantity as to be a nuisance:

Provided—

- 1st.—That a penalty shall not be imposed on any person in respect of any accumulation or deposit necessary for the effectual carrying on of any business or manufacture, if it be proved to the satisfaction of the court that the accumulation or deposit has not been

kept longer than is necessary for the purposes of the business or manufacture, and that the best available means have been taken for preventing injury thereby to the public health.

- 2nd.—That where a person is summoned before any court in respect of a nuisance arising from a fireplace or furnace which does not consume the smoke arising from the combustible used in such fireplace or furnace, the court shall hold that no nuisance is created within the meaning of this Act and dismiss the complaint, if it is satisfied that such fire-place or furnace was constructed before the passing of this Act, and in such manner as to consume as far as practicable, having regard to the nature of the manufacture or trade, all smoke arising therefrom, and that such fireplace or furnace has been carefully attended to by the person having the charge thereof.

386. Information of any nuisance, referred to in the last preceding section, existing in Calcutta, may be given to the Commissioners by any person aggrieved thereby or by any officer of the Commissioners.

387. On the receipt of any information respecting the existence of a nuisance, the Commissioners shall, if satisfied of the existence of a nuisance, serve a notice on the person by whose act, default, or sufferance the nuisance arises or continues, or if such person cannot be found, on the owner or occupier of the premises on which the nuisance arises, requiring him to abate the same within a time to be specified in the notice, and to execute such works and do such things as may be necessary for that purpose: Provided—

- 1st.—That where the nuisance arises from the want or defective construction of any structural convenience, or where there is no occupier of the premises, notice under this section shall be served on the owner:

- 2nd.—That where the person causing the nuisance cannot be found, and it is clear that the nuisance does not arise or continue by the act, default or sufferance of the owner or occupier of the premises, the Commissioners may themselves abate the same without further order.

388. If the person on whom a notice to abate a nuisance has been served makes default in complying with any of the requisitions thereof within the

Where notice insufficient, Commissioners may prefer a complaint.

time specified, or if the nuisance, although abated since the service of the notice, is, in the opinion of the Commissioners, likely to recur on the same premises, the Commissioners may cause a complaint relating to such nuisance to be made before a Magistrate, and such Magistrate shall thereupon issue a summons requiring the person on whom the notice was served to appear before him.

389. If the Magistrate is satisfied that the alleged nuisance exists, or that, although abated, it is likely to recur on the same premises, the Magistrate shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise to abate the nuisance within a time specified in the order, and to do any works necessary for that purpose; or an order prohibiting the recurrence of the nuisance and directing the execution of any works necessary to prevent the recurrence; or an order both requiring abatement and prohibiting the recurrence of the nuisance.

The Magistrate may, by his order, impose a penalty not exceeding Rs. 50 on the person on whom the order is made.

390. Where the nuisance proved to exist is such as to render a house or building, in the judgment of the Magistrate, unfit for human habitation, the Magistrate may prohibit the using thereof for that purpose, until, in his judgment, the house or building is rendered fit for that purpose; and, on the Magistrate being satisfied that it has been rendered fit for that purpose, the Magistrate may determine his previous order by another declaring the house or building habitable, and from the date thereof such house or building may be let or inhabited.

391. Any person not obeying an order to comply with the requisition of the Commissioners or otherwise to abate the nuisance, shall, if he fails to satisfy the Magistrate that he has used all due diligence to carry out such order, be liable to a penalty not exceeding Rs. 5 per diem during his default; and any person knowingly and wilfully acting contrary to an order of prohibition, shall be liable to a penalty not exceeding Rs. 10 per diem during such contrary action; moreover, the Commissioners may enter the premises to which any order relates, and abate the nuisance, and do whatever may be necessary in execution of such order, and recover the expenses incurred by them from the person on whom the order is made.

392. The provisions of this Part relating to nuisances shall be deemed to be in addition to, and not to abridge or affect any right, remedy or proceeding under any other law for the time being in force:

Provided that no person shall be punished for the same offence both under the provisions of this Part and under any other law.

CHAPTER XIII.

OF THE GENERAL POWERS OF THE COMMISSIONERS.

PART I.—Of the Rights of Entry.

393. The Commissioners shall, for the purposes of this Act, have power, by themselves, their officers, servants or agents between sunrise and sunset, to enter upon any house or land for the purpose of making any inspection, survey, measurement, valuation or enquiry necessary for the discharge of any duty imposed upon them by this Act, or by any bye-law made by virtue of this Act, or for the

purpose of executing any work authorized by this Act, or by any bye-law as aforesaid, to be executed by them without being liable to any legal proceedings or molestation whatsoever on account of such entry, or of anything done on such house or land in pursuance of this Act:

Provided that, except as herein otherwise provided, the Commissioners, their officers, servants, or agents shall not enter upon any house or land which may be occupied at the time, unless with the consent of the occupier thereof, without previously giving the said occupier twenty-four hours' notice in writing of their intention so to do.

394. The Commissioners, their officers, servants, or agents may enter upon the land of any person adjoining to, or being within the distance of one hundred yards of any works by this Act authorized to be executed for the purpose of depositing upon such land any soil, gravel, sand, lime, brick, stone, or other materials, or for obtaining access to any such works, or for any other purposes connected with the formation of the said works, without making any previous payment, tender, or deposit, doing as little damage as may be in the exercise of the several powers hereby granted to them, and making compensation for such temporary occupation of, or temporary damage to, the said land to the owner and occupier thereof from time to time, and as often as any such temporary occupation shall be taken, or such temporary damage done, and making compensation to the owner also for the permanent injury (if any) to such land;

and if any dispute shall arise touching the amount or apportionment of such compensation, the same shall be settled in the manner hereinafter provided for the settlement of disputes respecting damages and expenses;

Provided that, before the Commissioners make any such temporary use as aforesaid of any land adjoining or lying near to the said works, they shall give three days' notice in writing of their intention to the owner and occupier of such land, and shall, if required so to do by the owner or occupier, set apart by sufficient fences, so much of the land as shall be required to be used as aforesaid.

395. For the purpose of laying pipes or constructing aqueducts for bringing water into Calcutta from any place without the limits thereof, or for the purpose of making sewers or drains to communicate with, or empty themselves into, any public sewer, lake, stream, canal, or water-course, without the said limits, the Commissioners, their officers, and servants may, whenever a plan for laying down any such pipes or constructing any such aqueduct, sewer, or drain, shall have been approved by the Local Government, exercise, in the laying of such pipes and construction of such aqueduct, sewer, or drain throughout the line of country through which the said pipes, aqueduct, sewer, or drain are to run, all the powers which by this Act they may exercise within the limits of Calcutta, and which may be necessary for the laying of such pipes, or the construction of such aqueduct, sewer, or drain, without being subject to any section or molestation whatever for so doing;

and the Magistrate of any district through which the said pipes, aqueduct, sewer, or drain are to run may exercise in respect thereof the like powers and jurisdiction, within the limits of his own district, as a Magistrate may under this Act exercise in respect of any work to be executed by the Commissioners in Calcutta.

396. Whoever at any time obstructs or molests any person employed by the Commissioners (not being a public servant within the meaning of section twenty-one of the Indian Penal Code), or any person with whom they may have contracted under the provisions of this Act, in the performance and execution of their or his duty, or of anything which they are respectively empowered or required to do by virtue or in consequence of this Act; or removes any mark set up for the purpose of indicating any level or direction necessary to the execution of works authorized by this Act, shall be liable to a fine not exceeding Rs. 200 or, in the discretion of the Magistrate by whom he is convicted, to imprisonment, either rigorous or simple, for any term not exceeding two months.

PART II.—Of the acquisition and disposal of land.

397. The Commissioners in meeting may acquire any land, whether within or without Calcutta, for any of the purposes of this Act, and may dispose of land vested in them, and the Commissioners may receive the rent of any land leased by them on such terms as they may think fit.

398. The Commissioners in meeting may, from time to time, pay rent for, or take on lease, on such terms as they may think fit, any land required for the purposes of this Act.

399. Any land required for the purposes of this Act may be acquired under the provisions of the Land Acquisition Act, 1870, or any similar Act for the time being in force for the acquisition of land for public purposes; and on payment by the Commissioners, out of the General Fund, of the compensation payable under that Act and of the charges reasonably incurred by the Collector in respect of the proceedings thereunder, such land shall vest in them for the purposes of this Act.

PART III.—Of Railways.

400. The Commissioners in meeting may, upon any of the public streets within Calcutta, or upon any land within or without Calcutta, which is vested in the Commissioners, construct or maintain any railway or tramway which may appear to them to be useful or necessary for the purposes of this Act, and use and employ upon any such railway or tramway by them heretofore constructed or hereafter to be constructed, such locomotive engines or other moving power, and such carriages and wagons to be drawn or propelled thereby, carry and convey upon such railway all such passengers and goods as shall be offered to them for that purpose,

and make such reasonable charges in respect thereof as they may from time to time determine upon.

401. The Commissioners in meeting, from time to time, may enter into any contract with any person for the passage over any railway already constructed by the Commissioners, or hereafter to be constructed by them, of the engines, wagons, or other carriages of such person, upon the payment of such tolls or rent, and under such conditions and restrictions as may be mutually agreed upon.

402. The Commissioners in meeting may lease any railway constructed or to be constructed by them under the provisions hereinbefore contained to any person upon such terms and under such conditions and restrictions as may be mutually agreed upon; and every person to whom any such railway shall be so leased by the Commissioners shall, subject to such conditions and restrictions as aforesaid, have all such and the same powers of maintaining the same, and for using and employing thereupon locomotive engines and other moving power, and carriages and wagons to be drawn or propelled thereby, and for carrying and conveying thereupon passengers and goods, and making charges in respect thereof, as the Commissioners would have had if such railway had not been leased.

The Commissioners in meeting may, from time to time, enter into any contract with any person for the purpose of the construction of any railway within or without Calcutta and for the purpose of maintaining and working of the same.

403. All the powers conferred under this Part shall be exercised with the previous sanction of the Governor-General in Council.

CHAPTER XIV.

OF THE MUNICIPAL DEBT.

404. For the construction of works of a permanent nature under this Act, the Commissioners in special meeting may, with the sanction of the Governor-General in Council, from time to time borrow by way of debenture, on the security of the rates, taxes, and dues imposed and levied on account of the Municipal Fund, or of a portion of them, and at such rate of interest and upon such terms as to the time of repayment and otherwise as the Governor-General in Council may approve, any sums of money the Commissioners may require for the objects aforesaid.

405. All the debentures aforesaid issued under the authority of this Act shall be in the form contained in the twelfth Schedule, or in such other form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may determine, and shall be transferable by endorsement, and the right to sue in respect of the moneys secured by any of such debentures shall be vested in the holders thereof for the time being without any preference by reason of some of such debentures being prior in date to others.

406. The Commissioners in meeting may at any time, with the sanction of the Governor-General in Council, raise, by the issue of new debentures, any money that may be required to pay any moneys for the time being due on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

407. The Commissioners shall set aside quarterly out of their income, before making any disbursements in respect thereof,

such sum as may be required for the payment of the interest and instalments payable to the reserve funds which may fall due within the quarter on any debentures issued under the authority of this Act, or of any enactment hereby expressly repealed.

The instalments payable to the reserve funds shall be at the rate of one per cent. per annum on the aggregate unpaid sum borrowed by the Commissioners after the first day of April 1881, and at the rate of two per cent. per annum on the unpaid balance of all debenture loans contracted before that date.

408. The Commissioners shall apply the reserve set aside under the last preceding section so far as it is required or so far as it extends to repay such debenture loans issued by them as shall fall due in the course of the year and shall invest the surplus (if any) of the said sum, after repayment as aforesaid, or in case there has not been any amount due or paid in respect of such loans or debentures during the year, then they shall invest the whole of the said sum in Government securities, or in any securities guaranteed by Government, or in Calcutta municipal debentures, in the names of the Secretary to the Government of Bengal in the Financial Department and the Accountant-General of Bengal respectively for the time being, to be by them held as Trustees for the purpose of repaying at due date from time to time the several loans contracted or debentures issued by the Commissioners. And all moneys and securities now held by any Trustees for the Commissioners, for the purpose of paying off any sums borrowed by them, not being sums borrowed from the Secretary of State for India in Council, shall be held by them upon the trusts hereinbefore declared.

All interest accruing due to the Trustees shall also from time to time be invested by them in like manner and held upon the like trust:

Provided always that the accounts of the fund formed by the payments made at the rate of two per cent. per annum and the fund formed by the payments made at the rate of one per cent. per annum shall be kept separate and distinct, and each reserve fund shall only be applied to paying off the debentures on account of which the instalments are payable.

409. The Trustees shall from time to time, whenever any loans or debentures shall fall due by the Commissioners, realize the whole or a sufficient portion of the securities held by them as aforesaid on account of the reserve fund applicable to liquidate such loans or debentures and apply the sale proceeds thereof, so far as the same will

extend, to satisfy such loans or debentures. The Trustees shall, at the end of every year, submit a statement to the Commissioners showing the amount which has been invested during the year under section four hundred and eight, and setting forth the date of the last investment made previous thereto, and also the aggregate amount of the securities then in their hands, and the aggregate amount which has up to the date thereof been paid off in respect of the said debentures and loans.

Such statement shall be laid before the Commissioners in meeting and published in the *Calcutta Gazette*.

410. The total sum borrowed by the Commissioners by way of debenture loans under this or any preceding Act shall not exceed such an amount that the sum payable thereon annually by way of interest and as instalments due to the reserve funds shall be more than ten per cent. on the annual valuation of Calcutta.

411. Nothing in this Chapter shall be construed to prevent the Commissioners in meeting from inviting tenders at any time for a new loan to be called the "Municipal Consolidated Loan" on such terms as may be approved by the Governor-General in Council, and also inviting holders of municipal debentures to exchange their debentures for such Municipal Consolidated Loan stock at such rates as the Commissioners may consider fair and the Governor-General in Council may approve. The scrip of such stock shall be in such form as the Commissioners in meeting, with the previous sanction of the Governor-General in Council, may prescribe. The Commissioners shall repay such Consolidated Loan by annual payments at a rate of not less than one-sixtieth of the unpaid balance in each year in lieu of contributing to a reserve fund under section four hundred and seven, and the stock to be paid off shall be purchased in the open market; and the provisions of section four hundred and seven shall apply to the sums necessary to make such annual payment.

Provided that, if during any year no stock is obtainable in the open market at, or below, its par value, it shall not be obligatory on the Commissioners to make repayment until such stock is obtainable in the open market at, or below, its par value.

CHAPTER XV. OF BYE-LAWS.

412. The Commissioners in meeting may from time to time make bye-laws, not inconsistent with the provisions of this

Act, with regard to—

- (a) all matters and things connected with the supply and use of water;
- (b) the time and place of bathing for persons of each sex in places provided or set apart for bathing purposes;
- (c) the deposit of rubbish and offensive matter, the removing and carrying away the same, and charging the person making the deposit with the expenses of removing it;

- (d) the conditions under which persons shall be permitted to drive registered carts;
- (e) the height and mode of construction of buildings;
- (f) ventilation and the extent to which space must be left for the free circulation of air as required by the provisions of section two hundred and forty-three;
- (g) drainage, cess-pools, privies, cowhouses and stables;
- (h) the management, inspection and scale of fees to be charged for the use of places provided under the provisions of sections three hundred and forty-one, and three hundred and forty-five;
- (i) the inspection and management of, and conduct of, business in markets and the keeping the same in a proper, orderly, and cleanly state;
- (j) the inspection of places used for any of the purposes mentioned in section three hundred and forty-six and the management and conduct of business in the same;
- (k) theatres and other places of public resort, recreation, and amusement;
- (l) lodging-houses, public laundries, dairies and licensed cowhouses and stables;
- (m) securing the cleanliness of milk-stores, milk-shops and milk-vessels used for keeping or conveying milk;
- (n) the inspection and management of burial and burning grounds;

and generally for carrying out the purposes of this Act.

And to repeal or alter them.

413. The Commissioners may from time to time repeal, alter, or add to any bye-laws made under the last preceding section.

414. No bye-law, and no repeal or alteration of, or addition to, any bye-law, shall have effect until the same has been confirmed by the Local Government.

415. No bye-law, and no repeal, or alteration of, or addition to, any bye-law shall be confirmed until the same has been published in the English

and Bengali Government Gazettes at least three times, nor till one month has elapsed from the date of the first publication, during which period a copy of such proposed bye-law, or the repeal or alteration of, or addition to, any bye-law shall be kept at the office of the Commissioners, and all persons may at any time between ten o'clock in the forenoon and five o'clock in the afternoon inspect such copy without fee.

416. Every bye-law, and every repeal or alteration of, or addition to, any bye-law, when confirmed, shall be published in the English and Bengali Government Gazettes.

417. Whoever infringes any bye-law made and confirmed or any rule made and sanctioned under this Act shall be liable to a fine not exceeding Rs. 20, and to a further fine not exceeding Rs. 10 for each day during which the offence is continued after he has been convicted of such offence.

CHAPTER XVI.

OF PROSECUTIONS.

418. Every prosecution under this Act may be instituted before any Magistrate having jurisdiction who may summon the person charged to appear at a time and place to be mentioned in the summons; and if such person do not appear, the Magistrate may, upon proof of service of the summons, if no sufficient cause shall be shown for the non-appearance of the person charged, proceed to hear and determine the case in his absence.

If such person do appear, then the procedure laid down in the Code of Criminal Procedure, from section two hundred and forty-two to section two hundred and forty-eight, shall be followed.

419. No person shall be liable to any fine under this Act for any offence cognizable by a Magistrate unless the complaint respecting such offence shall have been made within three months next after the commission of such offence:

Provided that the failure to take out any license under this Act shall be deemed to be a continuing offence until the expiration of the period for which such license is required to be taken out.

420. If, through any act, neglect, or default on account whereof any person shall have been fined under this Act, any damage to the property of the Commissioners shall have been committed by such person, he shall be liable to make good such damage, as well as to pay such fine;

and the amount of such damage shall, in case of dispute, be determined by the Magistrate by whom such person has been fined;

and on default of payment of the amount of such damage on demand, the same may be levied in the same manner as a fine.

421. In any case in which a Magistrate is satisfied that the Commissioners had no reasonable ground for instituting a prosecution, it shall be lawful for such Magistrate to direct the Commissioners to pay to the accused such compensation, not exceeding Rs. 50, as he thinks fit, and the sum so awarded shall be recoverable as if it were a fine.

422. The Local Government may, at the request of the Commissioners in meeting, appoint one or more Magistrates for the trial of offences against the provisions of this Act, and may by rule prescribe the times and places at which such Magistrate or Magistrates shall sit for the despatch of business. Such Magistrate or Magistrates shall be paid such salary out of the General Fund as the Local Government may, from time to time, prescribe.

CHAPTER XVII.

OF THE RECOVERY OF DAMAGES AND EXPENSES.

423. Where any damages, costs, or expenses are by this Act directed to be paid, the amount, and, if necessary, the apportionment of the same in case of dispute, shall be

ascertained and determined by a Court of Small Causes.

424. In any case which is to be determined by a Court of Small Causes under this Act, the said Court may, on the application of either party, summon the other party to appear at a time and place to be named in such summons.

Upon the appearance of the parties, or, in the absence of any of them, upon proof of due service of the summons, the said Court may hear and determine such question, and for that purpose may examine such parties, or any of them, and their witnesses on oath; and the costs of every such enquiry shall be in the discretion of the said Court, which shall determine the amount thereof.

425. If the amount of damages, costs, or expenses ascertained in the manner above described be not paid by the party liable to pay the same within seven days after demand, such amount may be recovered, under a warrant of the said Court, by distress and sale of the moveable property of such party; and the surplus arising from the sale thereof, after satisfying such amount and the costs of the distress and sale, shall be returned on demand to the party whose property shall have been distrained.

426. Instead of proceeding by distress and sale, and in case of failure to realize by distress the whole or any part of any expenses, charges, or damages awarded under the provisions of this Act, the Commissioners may sue the person liable to pay the same in any Court of competent jurisdiction.

CHAPTER XVIII.

MISCELLANEOUS.

427. No suit shall be brought against the Commissioners, or any of their officers, or any person acting under their direction, for anything done, or purporting to be done, under this Act until the expiration of one month next after notice in writing has been delivered or left at the office of the Commissioners, or at the place of abode of such person, stating the cause of suit and the name and place of abode of the intending plaintiff.

Unless such notice be proved, the Court shall find for the defendant.

Every such suit shall be commenced within three months next after accrual of the right to sue, and not afterwards.

If any person to whom any such notice of suit is given shall, before the suit is brought, tender sufficient amends to the plaintiff, such plaintiff shall not recover in any such action when brought; and if no such tender shall have been made, it shall be lawful for the defendant in such action to pay into Court such sum of money as he shall think fit, and thereupon such proceedings shall be had as in other cases where defendants are allowed to pay money into Court.

428. The Commissioners may make compensation to all persons sustaining any damage by

429. When any license is granted under section three hundred and eleven or three hundred and forty-one authorizing the use of any place for any of the purposes therein described, and when permission is given under section two hundred and twenty-three for putting up any projection, the Commissioners may charge a fee not exceeding Rs. 500 for such license or permission.

When permission is given under section two hundred and twelve to make any temporary erection, the Commissioners may charge a daily fee not exceeding Rs. 100 for such permission.

430. When permission is given under section two hundred and twenty-nine or two hundred and forty-five, the Commissioners may charge rent for any land made use of in pursuance of such permission.

431. Every person to whom a license has been granted under this Act shall, at all reasonable times while such license shall remain in force, if required so to do by the Commissioners, or by any person authorized by them in that behalf, produce such license.

432. Whoever fails to produce his license when required so to do as aforesaid shall be liable to a fine not exceeding Rs. 50, and to a further fine, not exceeding Rs. 10, for each day during which the offence is continued after he has been convicted of such offence.

433. The Commissioners may from time to time prepare or sanction forms of the various notices required by this Act, and may, from time to time, make such alterations therein as they deem requisite, and they shall cause every such form to be sealed with the seal of the Corporation, and any notice made on a form sanctioned by the Commissioners shall in all proceedings be held sufficient in law.

434. Every notice, bill, form, summons, or notice of demand under this Act may be served personally on, or presented to, the person to whom the same is addressed or be left at his usual place of abode with some adult male member or servant of his family, or at his place of business with some clerk of the office, or if it cannot be so served or presented, may be put on some conspicuous part of his place of abode, or of his place of business, or of the house or land in respect of which the notice, bill form, summons, or notice of demand is intended to be served.

435. Where any notice is required to be given to the owner or occupier of any house or land, such notice, addressed to the owner or occupier, as the case may require, may be served on the occupier of such house or land, or otherwise in the manner in the last preceding section mentioned:

every notice required to be given to the owner of any house or land to be served on such owner or left with some adult male member or servant of his family,

and if the place of abode of the owner be not in Calcutta, they shall send every such notice by post in a registered cover addressed to his place of abode, and the same shall be deemed to be good service of the notice.

When the name of the owner or occupier is not known, it shall be sufficient to designate him as "the owner" or "the occupier" of the house or land in respect of which the notice is served.

When there are several owners or occupiers of any premises, the Commissioners may, at any time, call upon such owners or occupiers to appoint, within thirty days, one of their number to receive notices on behalf of the rest; otherwise the Commissioners shall serve a separate notice on each owner or occupier who has registered, or who has applied to register, his name under section one hundred and twenty-eight.

436. Whenever it is provided by this Act that the Commissioners may require the owner or occupier of any house or land to execute any work or take order with any property under his control, such requisition shall, unless otherwise provided by this Act, be made by a notice to be served in the manner provided by the last preceding section. Such notice shall specify a period within which the requisition is to be complied with, and if no period is provided by this Act, the period specified shall be a reasonable period having regard to the circumstances under which it is issued.

Every such notice shall state that, if the person to whom it is addressed fails to comply therewith or to satisfy the Commissioners within the specified period that it should be withdrawn or modified, the Commissioners will enter upon the premises and execute the work or take the necessary order with the property, and that the expense thereby incurred will be recovered from the person to whom it is addressed.

437. Any person upon whom such notice as is referred to in the last preceding section is served may prefer an objection in writing addressed to the Commissioners stating the grounds upon which such notice should be withdrawn or modified, and if preferred in time to admit of orders being passed upon the objection before the period specified in the notice expires, the execution of the work may be postponed until the Commissioners have passed orders upon the objection. If the objection is disallowed, a second notice shall be served upon the person who preferred the objection specifying a reasonable period within which the requisition is to be complied with.

438. Instead of preferring an objection, or at the time of preferring an objection any person upon whom such notice as is referred to in section four hundred and thirty-six is served may apply to the Commissioners for an estimate of the cost of the work if executed by the Commissioners, and upon such application the Commissioners shall supply such estimate.

439. If the Commissioners fail to supply an estimate as required by the provisions of the last

than Rs. 5 shall be charged by the Commissioners for any work executed by them on default by the person served with a notice to execute such work.

If the estimate exceeds Rs. 300, the work shall not be undertaken by the Commissioners on default until the expiry of ten days from the date on which the estimate was supplied, and within seven days from such date the person to whom such estimate was supplied may apply in writing to have his objections to execute the work, or to the estimated cost of such work determined by a Committee of the Commissioners, or by the Commissioners in meeting. If such application is made within the time specified, the Commissioners shall not undertake the work until the decision of the Committee of the Commissioners, or the Commissioners shall have been given.

440. Subject to the above provisions, whenever any work is required by this Act or by any orders of the Commissioners lawfully issued to be executed by the owner or occupier of any house or land, and default is made in the execution of such work, the Commissioners, whether any penalty is or is not provided for such default, may cause such work to be executed;

and the expenses thereby incurred or incurred in any case in which the Commissioners are empowered to execute any work on behalf of an owner or occupier, shall be paid by the person by whom such work ought to have been executed, or on whose behalf it is done, and in default of payment thereof the same may be recovered as a rate under Chapter VI.

441. If the defaulter, as mentioned in the last preceding section, be the owner of any house or land, the Commissioners may, by way of additional remedy, whether any suit or proceeding has been brought or taken against any such owner or not, require the payment of all or any part of the expenses payable by the owner for the time being from the person who then, or at any time thereafter, occupies the house or land under such owner, and in default of payment thereof by such occupier on demand, the same may be recovered as a rate under Chapter VI;

and every such occupier shall be entitled to deduct from the rent payable by him to the owner so much as is so paid by, or recovered from him, in respect of any such expenses.

442. No occupier of any house or land shall be liable to pay more money in respect of any expenses charged by this Act on the owner thereof than the amount of rent due from him for the house or land in respect of which such expenses are payable at the time of the demand made upon him, or which, at any time after such demand, has accrued and become payable by him, unless he neglect or refuse, upon a requisition made to him for that purpose by the Commissioners, truly to disclose the amount of his rent, and the name and address of the person to whom such rent is payable;

but nothing in this section shall affect any special contract made between any such owner or occupier respecting the payment of the expenses

443. Whenever any expenses incurred by the Commissioners are to be paid by the owners of any land as provided in section four hundred and forty, the Commissioners may, if there be

Commissioners may apportion expenses incurred on behalf of owners or occupiers amongst them.

more than one owner, apportion the said expenses among such of the owners as are known in such manner as to the Commissioners may seem fit. And whenever any such expenses are to be paid by the occupiers of any land as provided in section four hundred and forty, the Commissioners may, if there be more than one occupier, apportion the said expenses among such of the occupiers as are known in such manner as to the Commissioners may seem fit.

444. Whenever any works or any alterations or improvements, of which the Commissioners are authorized to require the execution, are executed by the occupier on the requisition of the Commissioners or are executed by the Commissioners and the cost thereof is recovered from the occupier, the cost thereof may, if the Commissioners certify that such cost ought to be borne by the owner, be deducted by such occupier from the rent payable to such owner or may be recovered by such occupier from the owner in any court of competent jurisdiction.

445. Any owner or occupier of land may contest his liability to pay any expenses with which he may be charged under section four hundred and forty, or may contest the correctness of the amount which he has been called upon to pay in any court of competent jurisdiction:

Provided that the institution of a suit shall in no way interfere with the right of the Commissioners to recover the amount demanded by them in the manner provided by section four hundred and forty.

446. Whenever default is made by the owner of any house or land in the execution of any work required to be executed by him, the occupier of such house or land may, with the approval of the Commissioners, cause such work to be executed, and the expense thereof shall be paid to him by the owner, or the amount may be deducted out of the rent from time to time becoming due from him to such owner.

447. If the occupier of any house or land prevent the owner thereof from carrying into effect, in respect of any house or land, any of the provisions of this Act, after notice of his intention so to do has been given by the owner to such occupier, any Magistrate may, in writing, require such occupier to permit the owner to execute all such works with respect to such house or land as may be necessary for carrying this Act into effect, and if, after the expiration of eight days from the date of the order, such occupier continues to refuse to permit such owner to execute such works, every such owner, during the continuance of the refusal, shall be discharged from

448. Whoever, being the occupier of any house or land, fails to comply with any requisition made by a Magistrate under the last preceding section, shall be liable to a fine not exceeding Rs. 50, and to a further fine, not exceeding Rs. 20, for each day during which the offence is continued after he has been convicted of such offence.

449. No tax or rate on property made under this Act shall be invalid for defect of form, and it shall be enough in any such tax or rate, or any assessment of value for the purpose of making such tax or rate, if the property rated or assessed is so described as to be generally known, and it shall not be necessary to name the owner or occupier thereof.

450. Whenever the Commissioners shall have incurred any expenses in the execution of any of the works which under sections two hundred and fifteen, two hundred and fifty-nine, two hundred and twenty-seven and two hundred and eighty-two, the owners of any houses or lands are required to execute, the Commissioners may either recover the amount of such expenses in the manner hereinbefore provided; or, if they think fit, may take engagements from the said owners for the quarterly payment of such sums as will be sufficient to defray the whole amount of the said expenses, with interest thereon at the rate of six per cent. per annum, within a period not exceeding five years, and such sums, when due, may be recovered as rates under Chapter VI.

451. All police officers shall give immediate information to the Commissioners of any offence committed against this Act.

Any police officer may arrest any person committing in his view any offence against this Act if the name and the address of such person be unknown to him,

or if such person decline to give his name and address;

or if the police officer shall have reason to doubt the accuracy of such name and address if given.

And such person may be detained at the station-house until his name and address shall be correctly ascertained, or may be brought up at once before a Magistrate.

452. Any mekter or other servant of the Commissioners employed to remove or otherwise deal with sewage, offensive matter or rubbish, who shall, without the permission of the Commissioners, withdraw from his duties unless he has given notice in writing, not less than one month previously, of his intention so to withdraw shall be punished with rigorous imprisonment for a term which may extend to three months and shall forfeit any salary which may be due to him.

453. If the Local Government shall have determined that any person

Police officers to report offences to Commissioners and to arrest unknown offenders.

Penalty for mekter withdrawing from work without notice.

Right of Commissioners to recover expenses under section four hundred and forty not barred by suit.

On certificate of the Commissioners occupier may recover expenses from owner.

the boundaries thereof by notification in the *Calcutta Gazette*, then in respect of such extension of such water-supply, Chapter VII shall have effect within the boundaries so declared;

and all such expenses and compensation as, under such chapter and by the provisions of this Act, may be determined by a Court of Small Causes, may be ascertained and determined by any Court of Small Causes having jurisdiction within such boundaries; and all fines payable in respect of such sections, and under this Act, shall be enforced in the manner prescribed by sections three hundred and eighty-six, three hundred and eighty-seven, and three hundred and eighty-nine of the Code of Criminal Procedure by the Magistrate having jurisdiction within such boundaries.

454. Houses used exclusively for purposes of public worship and public burial and burning grounds

Houses used for public worship exempt from rates and taxes.

and land within Calcutta, and it shall be lawful for the Commissioners to exempt the owner of any hut from payment of all or any rate in respect of such hut.

Saving clause.

455. Nothing in this Act contained shall be construed to—

(a) render lawful any act or omission on the part of any person, which, but for this Act, would, by law, be deemed to be a nuisance:

(b) exempt any person guilty of nuisance from a suit in respect thereof:

(c) affect any enactment not hereby expressly repealed.

456. The Local Government may, by notification published in the *Calcutta Gazette*, and in such other manner as the Local Government may determine, declare its intention—

(a) to exclude from Calcutta any local area not being within the ordinary original jurisdiction of the High Court at Fort William in Bengal;

(b) to include within Calcutta any local area in the vicinity of the same and defined in the notification.

Provided that, where the local area is a military cantonment or part of a military cantonment, a notification shall not be published under this section in respect of it without the previous consent of the Governor-General in Council.

457. Any inhabitant of Calcutta or of a local area in respect of which a notification has been published in the *Calcutta Gazette* under the last preceding section may, if he objects to the alteration proposed, submit his objection in writing to the Local Government within six weeks from the publication of the notification in the *Calcutta Gazette*, and the Local Government shall take his objection into consideration.

When six weeks from the publication of the notification in the *Calcutta Gazette* have expired, and the Local Government has considered the objections (if any) which have been submitted under this section, the Local Government may, by a notification in the *Calcutta Gazette*, exclude the local area from Calcutta or include it therein, as the case may be.

Effect of exclusion of local area from Calcutta.

458. When a local area is excluded from Calcutta under the last preceding section—

(a) this Act, and all rules, orders, directions and powers made, issued or conferred under this Act, shall cease to apply thereto; and

(b) the Local Government shall, after consulting the Commissioners, frame a scheme determining what portion of the balance of the General Fund and other property vested in the Commissioners shall vest in Her Majesty for the benefit of the local area, and in what manner the liability of the Commissioners shall be apportioned between the Commissioners and the Secretary of State for India in Council, and on the publication of the scheme in the *Calcutta Gazette*, the property and liabilities shall vest and be apportioned accordingly.

All property vested in Her Majesty under this section shall be applied, under the orders of the Local Government, to discharging the liabilities imposed on the Secretary of State for India in Council under this section, or for the promotion of the safety, health or convenience of the inhabitants of the local area.

459. When a local area is included in Calcutta under section four hundred and fifty-seven, this Act, and, except as the Local Government may otherwise, by notification in the *Calcutta Gazette*, direct, all rules, orders, directions and powers made, issued or conferred under this Act, and in force throughout Calcutta at the time the local area is so included, shall apply to the local area.

Effect of including local area in Calcutta.

SECOND SCHEDULE.

(See Sections 8 and 87.)

RULES FOR GRANTING LICENSES ON PROFESSIONS, TRADES, AND CALLINGS.

Licenses shall be either personal or local, and shall be granted under seven classes.

A local license is a license the classification of which depends on the valuation of the place of business, and also a license granted under class IV, clauses (d) and (e), class V, clause (c), and class VI, clause (a).

The seven classes are as follows:—

Class I.—Rs. 200.

Every Joint-Stock Company the paid-up capital of which amounts to ten lakhs of rupees or upwards.

Class II.—Rs. 100.

- (a) Every other Joint-Stock Company.
- (b) Every merchant, banker, wholesale trader, commission agent, architect, civil engineer, builder, contractor, carrying company, owner or lessee of a cotton, jute, hide or other screw, market, bazar, theatre, place of public entertainment kept up for the purpose of profit, auctioneer, hotel-keeper, boarding-house keeper, lodging-house keeper, manufacturer, retail trader or shop-keeper whose place of business is valued under Chapter V at Rs. 350 per mensem or upwards.

Class III.—Rs. 50.

- (a) Every practising surgeon, physician, dentist, barrister, attorney, vakeel of the High Court, proctor, notary public, shroff, banian.
- (b) Every merchant, banker, wholesale trader, commission agent, architect, civil engineer, builder, contractor, carrying company, owner or lessee of a cotton, jute, hide or other screw, or of a market, bazar, theatre, not liable under Class II.
- (c) Every auctioneer, hotel-keeper, boarding-house-keeper, lodging-house keeper, shop-keeper, plumber, gas-fitter, manufacturer, or retail trader not liable under class II, whose shop or place of business is valued under Chapter V at Rs. 100 a month or upwards.

Class IV.—Rs. 25.

- (a) Every broker or dalall employed in the wholesale transfer or purchase of imports or exports, country produce, silk, or other merchandise.
- (b) Every broker or dealer in precious stones, houses, landed property, Government securities, shares, and bills-of-exchange, and every freight broker.
- (c) Every practising licentiate of medicine, apothecary, and veterinary surgeon.
- (d) Every owner of a spirit or liquor shop or shop for the sale of intoxicating drugs, and punch-house, music hall or billiard-room, wholesale tobacco, jute or other depôt.
- (e) Every owner of a steam ferry-boat or cargo-boat.
- (f) Every pawn-broker or money-lender.
- (g) Every pleader, mookhtear, or law agent not liable under class III.

- (h) Every hotel-keeper, boarding-house keeper, lodging-house keeper, plumber, gas-fitter, carriage and horse-dealer, shop-keeper, manufacturer or trader, whose shop or place of business is valued under Chapter V at Rs. 25 or upwards.

Class V.—Rs. 12.

- (a) Every broker not liable under class IV.
- (b) Every professional actor, singer or musician.
- (c) Every keeper of a permanent stall at a daily public market or bazar, or of a shop within fifty yards of a public market or bazar, selling goods of the same kind as any of the goods sold in such public market or bazar.
- (d) Every poddar or money-changer.
- (e) Every hakeem, koberaj, practising native doctor or midwife.
- (f) Every order-supplier, cooly-supplier, shipping agent, or boat-supplier.
- (g) Every hotel-keeper, boarding and lodging-house keeper, owner of a carriage, passenger boat or palanquin let out for hire, plumber, gas-fitter, band-supplier, carrier, stamp vendor, carriage or horse-dealer, shop-keeper, manufacturer or trader whose shop or place of business is valued under Chapter V at Rs. 10 or upwards.

Class VI.—Rs. 4.

- (a) Every keeper of a shop not included in any other class.
- (b) Every dalall not included in class IV.
- (c) Every pedler, vendor of goods in carts, hawker, boxwallah, and every professional nurse not included in class V.

Class VII.—Rs. 1.

All itinerant dealers hawking goods for sale in baskets or trays.

(2). No person shall be required to take out more than one personal license, provided that if he is liable under different classes he shall take out a license under the highest class under which he is liable.

(3). When two or more persons carry on business jointly, they may take out a single license as a firm; but if any of the partners exercises any separate profession, trade or calling on his own account, he must take out a separate license.

(4). A separate local license shall be requisite for each separate place of business. Provided that no separate license shall be necessary for adjacent premises forming one place of business, or for yards, godowns or factories auxiliary to a place of business, but in such cases the valuation of all the premises, yards or godowns shall be computed in determining the class under which the license must be taken out.

(5). When any person practises a profession, trade or calling for which a personal license should be taken out, and is also the owner or lessee of a place of business for which a local license should be taken out, he shall take out separate licenses, but one license will suffice if the place of

business is auxiliary to his profession, trade or calling.

(6). When the owner or lessee of any place is liable to take out a license, the license should be taken out by the lessee, if there is any lessee; if not, by the owner.

(7). The liability of any person to take out a license, and the class under which he is liable shall be determined in the following manner:—

(a)—Any person who has taken out license for the preceding year or been fined under section ninety for not taking out a license during such year, and is resident in Calcutta, shall be presumed to be liable and entitled to take out a license under the class in which he was then placed in the year for which the tax is being levied.

(b)—Any person who, in consequence of any change in his profession, trade, or calling, or place of business, or for any other reason, considers himself entitled to take out a license in lower class than before, or to be altogether exempted, may present an application to that effect to the Commissioners at any time before the first day of July. If no application is made by that date he will be liable to take out a license as prescribed in clause (a).

(7). The Commissioners shall pass orders on such application, and the license shall be taken out in accordance with such orders, unless appealed against under clause (e).

(c)—If the Commissioners consider that any person who has not taken out license in the preceding year ought to take out a license, or that any person who has taken out a license for the preceding year but has not taken out a license for the current year ought to take out a license in a higher class or more than one license, they may serve him with a notice directing him to take out a license for the current year in such class as may seem to them proper.

(d)—If the Commissioners consider that any person who has taken out a license for the current year ought to have taken out a license in a higher class, they may serve him with a notice directing him to take out a license in such higher class the following year, and such person shall thereupon, unless such order is modified, be bound to take out a license in such higher class, clause (a) notwithstanding.

(e)—Any person dissatisfied with the orders of the Commissioners under clause (b) or on whom a notice is served under clause (c) or clause (d) may appeal against the orders contained in it—

- (1)—To a Bench consisting of the Chairman or Vice-Chairman and not less than three Commissioners; or
- (2)—To a Court of Small Causes.

(8). In case of an appeal to a Court of Small Causes under this Schedule, the said Court may follow the procedure laid down in sections four hundred and twenty-four and four hundred and twenty-five.

(f)—Such person shall, within fifteen days of the passing of the order, or of the receipt of the notice, deliver at the office of the Commissioners an application in writing, stating the grounds of appeal, and also informing the Commissioners whether he intends to appeal under clause (1) or clause (2).

No appeal shall lie unless the amount of the license as assessed has been deposited with the Commissioners.

(g)—The order of the Bench or Court, or, if no appeal is made, the order contained in the notice, shall be final.

(9). The Commissioners may at any time grant a license for any previous year for which no license has been taken out on payment of the amount of such license, but the production of such license shall not afford a valid defence if the licensee is prosecuted for failing to take out a license within the time required by this Act.

NUDDEA RIVERS.

No. 112.—Notification.—The following Resolution and Notification, having reference to the abovenamed navigable rivers which are under the provisions of the Canals Act (V of 1864, B. L. C.), are published :—

READ—

Letter from the Board of Revenue reporting on certain points connected with the administration of the Nuddea Rivers, and suggesting that the Public Works Department should, in order to avoid divided control and responsibility, take over their working and management.

Letter from the Board of Revenue stating, in reply to an enquiry with reference to their previous proposal, that the Board see no objection to the transfer of the administration to the Public Works Department being made from 1st April next.

RESOLUTION.

On a full consideration of all the facts and circumstances that have been brought to notice from time to time, and of all that has been urged by the Board, and after consulting the Revenue Department, the Lieutenant-Governor is of opinion that the present system of revenue administration under the direction of the Board of Revenue and Civil Officers, coupled as it is with the necessity for audit of accounts under rules obtaining in the Public Works Department, is a source of friction inseparable from a system of dual control and opposed to the best interests of the management. His Honour is therefore of opinion that the management of these rivers should be placed under the control and management of the Public Works Department, subject to the orders of Government in the Irrigation Department of Public Works. Accordingly the following notification is issued.

All points of detail connected with this transfer of management will be settled depart-

NOTIFICATION.

It is hereby notified for general information that, from the 1st April next, the management of the Nuddea Rivers will vest in the Public Works Department, and that the regulation of the traffic and collection of tolls will be carried out according to the rules in force from time to time under the orders of the Executive Engineer of the Nuddea Rivers Division, subject to the control of the Superintending Engineer, South-Western Circle. The power to collect tolls on these rivers under section VIII of the Canals Act (V of 1864, B.L.C.) which is exercised by the Collectors of the Moorsshedabad and Nuddea districts will, from the 1st of April next, be exercised by the Executive Engineer, Nuddea Rivers Division.

COMMISSIONER'S OFFICE, CHITTAGONG, the 16th March 1888.

The following is published for general information.

A. CROFT,

Director of Public Instruction.

Dated Agra, the 3rd February 1888.

From—The Secretary, Khatri Hitkari Committee,
To—The Director of Public Instruction of Bengal.

WITH a view to encourage high education among the Khatri, it was resolved at a meeting of the Managing Committee of the Khatri Hitkari (a monthly national journal published at Agra)—

- (1). That the following medals and prizes be awarded to such Khatri and Saraswat Brahmin lads as pass most successfully the next B.A., F.A., and Entrance Examination of the Calcutta University and the Middle Class Anglo-Vernacular Examination of the North-Western Provinces and Oudh:—

B. A. Examination—One medal or watch worth Rs. 40.

F. A. Examination—Two prizes of Rs. 30 and Rs. 25 respectively.

Entrance Examination—Two prizes of Rs. 25 and Rs. 10 respectively.

Middle Class Anglo-Vernacular Examination—One medal or watch of Rs. 15.

- (2). That the Director of Public Instruction of Bengal be requested to give publicity to the above Resolution in Bengal.

Educational Prospectus.

THE Calcutta Medical College Session, 1888-89, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, i.e., Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year ...	40
For six months' attendance in each department of hospital practice ...	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the first and second years' Test and Honour Examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results on the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Churan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

Goodeve scholarship of Rs. 12 per mensem is annually awarded to students of the 5th year on the result of the Midwifery Test Examination of the 4th year.

F. O. Chatterjee scholarship of Rs. 17 per mensem is annually awarded to the best students in Histology at the end of the 4th year.

Abdool Gunny scholarship of Rs. 26 per mensem is annually awarded to the best student at the General Examinations of the 1st to 4th year.

Duke of Edinburgh's prize is awarded to the best in Surgery at the end of the 5th year.

Bhola Nath Bose's prize of Rs. 40 is awarded to the best clinical clerk in Surgery and Medicine in alternate years.

A gold medal and certificates of honour are awarded to the best students in each subject. Goodeve and Macnamara silver medals are given to the 1st year students in Anatomy and Chemistry, respectively.

11. College scholars, who receive less than Rs. 20 per mensem, are not required to pay Rs. 30 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence.

13. This College classes are acknowledged by all the Medical Schools in the United

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

Notice is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

If the Bank refuses to receive any sum tendered owing to the amount not being available at the treasury, the application will be retained by the Bank and forwarded by it to the Accountant-General, who will advise the Bank and the applicant if the amount can be made available.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

NOTIFICATION.

The 17th March 1888.—The following rules, framed by the Commissioner of the Orissa Division, under section 22 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 22, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF BALASORE.

Rule 1.—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration:—

- Name of the ferry and names of the villages and thanah in which, and the river across which, it is situated.
- The number and description of the boats to be maintained, and the strength of the crew to be employed on each.
- The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.
- The periods or season during which the ferry is to be plied every year.

Rule 2.—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

Rule 3.—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

Rule 4.—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crews to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

Rule 5.—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorized to carry at a single trip.

Rule 6.—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

Rule 7.—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

Rule 8.—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

Rule 9.—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

Rule 10.—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

Rule 11.—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

Rule 12.—The Magistrate of the district may delegate his duties and powers under these rules to the Sub-divisional Magistrates, and may authorize them to entertain petitions, &c.

NOTIFICATION.

The 17th March 1888.—The following rules, framed by the Magistrate of Balasore, with the approval of the Commissioner of the Orissa Division, under section 15 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF BALASORE.

Rule 1.—In these rules the term “Magistrate” includes—

- (a) the District Magistrate of Balasore and any Magistrate subordinate to him and appointed by him in that behalf;
- (b) the District Board of Balasore in respect of any public ferry the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Balasore when legally vested with powers in respect of any public ferry by the District Board of Balasore.

Rule 2.—Every public ferry in the district of Balasore shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

- (a) provide such boats, landing-stages, rest-houses and other appliances as he shall think proper;
- (b) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;
- (c) fix with the approval of the Commissioner the tolls to be levied from persons using the ferry;
- (d) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;
- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry boat shall carry, and cause a notice to this effect

(f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;

(g) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.O.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the rules and the form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. of the amount of bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals and goods which may come to the ferry ghât to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail carts, dâk-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.

9. If I make default in the payment of the rent for the ferry, or of any penalty which may be lawfully imposed, or if I do not observe and perform the covenants herein contained, it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on re-letting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

NOTIFICATION.

The 17th March 1888.—The following rules, framed by the Commissioner of the Orissa Division, under section 22 of the Bengal Ferries Act I (B.C.) of 1845, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 22, ACT I (B.C.) OF 1845, FOR THE DISTRICT OF CUTTACK.

Rule 1.—All private ferries shall be registered in the office of the Magistrate of the district in which they are situated, and particulars under the following heads shall be entered in the application for registration:—

- (a). Name of the ferry and names of the villages and thannah in which, and the river across which, it is situated.

(c). The maximum number of passengers, animals, vehicles, and bulk or weight of goods to be carried by each boat.

(d). The periods or season during which the ferry is to be plied every year.

Rule 2.—Before a private ferry is registered, the Magistrate shall satisfy himself that the statements contained in the application are correct.

Rule 3.—If the proprietor of any private ferry shall not apply, as required by Rule 1, for its registration within three months from the publication of these rules, the Magistrate of the district may serve upon him a written notice requiring him to furnish the particulars stated in Rule 1, within a stated period of not less than one month; and any proprietor on whom such a notice has been served in respect of any ferry shall not maintain the same, or allow it to be maintained, after the expiry of the period fixed in such notice, unless the particulars required by Rule 1 shall have been furnished to the Magistrate as ordered.

Rule 4.—The proprietor of every private ferry shall be bound to adhere to the terms of his application, or of any statement furnished by him under Rule 3, and shall not reduce the number of boats or crew to be maintained by him, or allow any of his boats to carry an excess number of passengers, animals, vehicles or weight or bulk of goods.

Rule 5.—The proprietor shall mark on each boat the number of passengers, animals and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 6.—The ferry shall ordinarily ply between sunrise and sunset, but the proprietor may ply the boats after sunset, provided each boat carries a light, which must be exhibited in a conspicuous part of the boat.

Rule 7.—The ferry shall not ply when the current, wind, or state of the weather is such as to render the crossing unsafe, or to endanger the lives of the passengers.

Rule 8.—The Magistrate may direct that any boat used in any private ferry may be examined by such officer as he may depute, and may prohibit the use of such boat if he is satisfied that it is of such a kind, or in such a condition, that its use is dangerous to life or property.

Rule 9.—The owner of every private ferry shall report without delay, at the police-station within whose jurisdiction the ferry is situated, the occurrence of any accident at the ferry resulting in serious injury or in loss of life.

Rule 10.—The Magistrate may require the owner of any private ferry to state the name of any person to whom such ferry may be leased, or who may be placed in charge of such ferry.

Rule 11.—The person in charge of a private ferry, and all persons employed in working a private ferry-boat, shall be responsible that such boat shall not be overladen; and every person having been directed not to enter a fully-laden boat, or not to load animals and goods in it, shall be bound to obey such direction.

Rule 12.—The Magistrate of the district may delegate his duties and powers under these rules to the Sub-divisional Magistrate, and may authorize them to entertain petitions, &c.

NOTIFICATION.

The 17th March 1888.—The following rules framed by the Magistrate of Cuttack with the approval of the Commissioner of the Orissa Division, under section 15 of the Bengal Ferries Act I (B.C.) of 1885, have been accepted by the Lieutenant-Governor and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF CUTTACK.

Rule 1.—In these rules the term "Magistrate" includes—

- (a) the District Magistrate of Cuttack and any Magistrate subordinate to him and appointed by him in that behalf;
- (b) the District Board of Cuttack in respect of any public ferry the management of which has been vested in it under section 85 of Act I (B.C.) of 1885; and any Local Board in the district of Cuttack when legally vested with powers in respect of any public ferry by the District Board of Cuttack.

Rule 2.—Every public ferry in the district of Cuttack shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

- (a) provide such boats, landing-stages, rest-houses, and other appliances as he shall think proper;
- (b) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;

- (d) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;
- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry-boat shall carry, and cause a notice to this effect to be affixed to each boat;
- (f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;
- (g) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears to the whole period for which he compounded. Such refund shall be made under the orders of the Magistrate.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages, and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rentes for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee to whom the ferry has been knocked down shall deposit 25 per cent. of the amount of bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorised tolls duly signed under section 19 of the Act, and two notice-boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice-boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals, and goods which may come to the ferry ghāt to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14.—The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail-carts, dak-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals, and vehicles, when accompanied by a challan from

- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.
- (h) Members of the District and Local Board travelling on duty connected with their work as District and Local Board Members.

Rule 15.—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

Rule 16.—The ferry shall ordinarily ply between sunrise and sunset; but the lessee may employ the boats in ferrying passengers across at any time after sunset, provided each boat so employed carries a light, which must be displayed in a conspicuous part of the boat.

Rule 17.—The Magistrate may, if necessary, fix the times for the crossing of the mails and dāk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghât, and that no delay is allowed to occur in their transit.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passenger and goods traffic.

Rule 19.—The lessee shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 20.—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss, consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

Rule 21.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

Rule 22.—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

Rule 23.—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

Rule 24.—If the lessee desires to establish communication across the ferry by means of bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25.—The Magistrate may at any time require the lessee to repair or replace any boat which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 26.—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

Rule 27.—The ferry boats belonging to any public ferry shall not be plied when the current, wind, or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

Rule 28.—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate:—

Receipts on account of ferry , farmed by , at an annual rent of Rs.

[Signature of officer holding sales.]

Serial number.	Details of payments.	Amount.	PAYMENT.				REMARKS.
			Amount.	Date.	Number of challan.	Initials of Magistrate or Vice-Chairman.	Initials of Treasury Officer.
		Rs.	Rs.				

Rule 29.—A quarterly statement shall also be kept showing the demand, collection and arrears up to date on account of rents for public ferries.

Form of Agreement.

The Secretary of State for India in Council doth hereby lease to me
 , hereinafter called the lessee, son of
 , resident of mouzah , pergunnah , thana
 , district. ; and I, the said lessee, do hereby take the
 lease of the public ferry across the river , and situated on the road from
 to at the rent of Rs. upon and
 under the following terms and conditions, viz.—

1. I, the lessee, have deposited with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due, or penalties which may be awarded under sections 23, 24, and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the Rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the
 to the , and during this period I shall be bound to ply the ferry from
 the to the every year.

4. I hereby agree—

- (a) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair;
- (b) to employ a crew of men on each boat;
- (c) to make at least crossings every day; and
- (d) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river.

5. I shall not charge or demand tolls for ferrying over—

- (a) Mails, mail-carts, dāk-runners and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a chaltan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers
- (d) Police and other public officers and process-serving peons (survey party and salt officers) } when travelling on duty with their *bond fide* baggage, horses, palkees or other conveyances.
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.
- (h) Members of the District and Local Board travelling on duty connected with their work as District and Local Board members.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments :—

		Rs. A. P.	Date.
1st	
2nd	
3rd	
4th	

But if at any time before the expiry of the period for which the ferry has been leased to me I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which

it shall be lawful for the Magistrate to remove me from the charge of the ferry, and to settle the same with some other person. After such removal, I shall not be entitled to any part of the proceeds of the ferry or to levy any toll therefor. And if the rent on reletting the ferry fall short of the amount at which it was leased to me, and the Government thereby incur loss, I shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner set forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, or on account of inundations, or the breaking down of bridges.

DECLARATION.

The 16th March 1888.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Baranagore Municipality for a public purpose, viz., for a tank and square at Dakhineswar, pergunnah Calcutta, district 24-Pergunnahs, it is hereby declared that for the above purpose a piece of land measuring 6 beegahs 12 cottas, more or less, of the standard measurement, is required. It is bounded on the north by the lands of Adya Nath Rai Choudhuri and others; on the east by the Duliapara road; on the south by the said Duliapara road, the lands of Sib Nath Rai Choudhuri and the house of Cheroo Dulia; and on the west by the lands of Sib Nath Rai Choudhuri and the dwelling-house of Madhub Chandra Moitra.

2. This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 17th March 1888.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Baranagore Municipality for a public purpose, viz. to provide accommodation for dying persons on the riverside at Ariadah, pergunnah Calcutta, district 24-Pergunnahs, it is hereby declared that for the above purpose a piece of land measuring 2½ cottahs, more or less, of the standard measurement, is required. It is bounded on the north and east by the remaining lands of the Bhukoilas Rajas; on the south by the Gabtola Ghât Road; and on the west by the Strand Road.

2. This declaration is made, under the provisions of section 6, Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 17th March 1888.—Whereas it appears to the Lieutenant-Governor of Bengal that land is likely to be taken up by Government at the expense of the Furreedpore Municipality for a public purpose, viz., for the construction of a public latrine, in the village of Martingunj, in the town of Furreedpore, pergunnah Haveli, zillah Furreedpore, it is hereby declared that for the above purpose a piece of land measuring, more or less, 1 cottah of standard measurement, is required. It is bounded on the north and east by the land of Nitai Banick, Sukchand Banick, and others; on the south by a drain which runs between Khabhashpur and Martingunj; and on the west by the Kabbarkhana road and a drain.

This declaration is made, under the provisions of section 4 of Act X of 1870, to all whom it may concern.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

DECLARATION.

The 20th March 1888.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up by Government at the expense of the Calcutta Municipality for a public purpose, viz., for the construction of a square at No. 10, Sittaram Ghose's Street, it is hereby declared that for the above purpose a piece of land, No. 10, Sittaram Ghose's Street, in the town of Calcutta, district 24-Pergunnahs, measuring, more or less, 1 beegah and 2 cottahs only, is required. The boundaries of the land are as follows:—On the north partly Sittaram Ghose's Street and partly a municipal public bathing platform; on the south the remaining portion of No. 10, Sittaram Ghose's Street; on the east Nursing's Lane; and on the west Sittaram Ghose's Street.

A plan and specification of the land to be acquired is filed in the Office of the Municipal Commissioners for public inspection.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

Furrceepore Collectorate, the 16th February 1888.

C. W. BOLTON, Offg. Collector.

NOTICE is hereby given that (under Government orders No. 1250-500LR, dated the 13th April 1886) the proprietary right of Government, as specified in the conditions of sale below, to the under-mentioned estates, situate in the district of Furrceepore, will be put up to sale at the Furrceepore Collectorate on Monday, the 26th March 1888, corresponding with 14th Chaitra 1294 B.S., subject to the payment of Government revenue entered in column 5.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

1st.—The estates to be sold to the highest bidders above the upset price. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.

2nd.—The sales to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and purchasers to be bound to respect the rights of resident cultivators who have signed the schedules of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sales, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale or sales to be cancelled (the sum deposited being forfeited to Government), and the estate or estates to be again put up to sale at the risk of the defaulting purchaser or purchasers, after issue of advertisements, as in the case of original sales.

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1886, the terms of subscription and sale will be as follows:—

THE FOURTH SCHEDULE.—FEES (*Inventions*).

THE FIFTH SCHEDULE.—APPLICATION FOR ORDER FOR REGISTRATION OF DESIGN.

THE SIXTH SCHEDULE.—FEES (*Designs*).*An Act to consolidate and amend the law relating to the Protection of Inventions and Designs.*

WHEREAS it is expedient to consolidate and amend the law relating to the protection of inventions and designs; It is hereby enacted as follows:—

1. (1) This Act may be called the *Inventions and Designs Act, 1888.*

2. (1) The enactments described in the first schedule are hereby repealed to the extent specified in the third column thereof.

(2) But this repeal of enactments shall not affect any exclusive privilege acquired, or any conditions or restrictions imposed with respect to any such privilege, or any right or liability accrued or incurred, under any of those enactments before the commencement of this Act, or any relief in respect of any such privilege, right or liability.

(3) Any enactment or document referring to any enactment hereby repealed shall be construed to refer to this Act or to the corresponding portion thereof.

3. The remainder of this Act is divided into Parts, as follows:—

PART I.—INVENTIONS.

PART II.—DESIGNS.

PART I.
INVENTIONS.

4. In this Part, unless there is something repugnant in the subject or context,—

(1) "invention" includes an improvement:
(2) "inventor" does not include the importer into British India of a new invention unless he is the actual inventor:

(3) "applicant" means a person who has applied under this Part for leave to file a specification of an invention, whether he has filed the specification or not:

(4) "assign" includes a grantee of the exclusive privilege of making, selling or using an invention, or of authorising others so to do, during the term for which the privilege is to continue or may be extended, or for any shorter term:

(5) "inventor", "actual inventor" and "applicant" include the executors, administrators or assigns of an inventor, actual inventor and applicant, as the case may be:

(6) "manufacture" includes any art, process or manner of producing, preparing or making an article, and also any article prepared or produced by manufacture:

(7) "write" includes print, lithograph, photograph, engrave, and every other mode in which words or figures can be expressed on paper or on any substance:

(8) "Secretary" means a Secretary to the Government of India appointed by the Governor General in Council to discharge the functions of the Secretary under this Act, and includes any under-secretary, assistant-secretary or other officer subordinate to the Government of India to the extent to which such officer may be authorised by general or special order of the Governor General in Council to discharge any of those functions:

(9) "District Court" has the meaning assigned to that expression by the Code of Civil Procedure: and

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 5-9.)*

5. (1) The inventor of a new manufacture, whether he is a British subject or not, may apply to the Governor General in Council for leave to file a specification thereof.

Application for leave to file specification.

(2) The application must be in writing signed by the applicant and in the form or to the effect of the second schedule if the inventor has not obtained a patent in the United Kingdom, and in the form or to the effect of the third schedule if he has obtained a patent in the United Kingdom.

(3) It must state the name, occupation and address of the applicant, and, where a patent has been obtained in the United Kingdom, the date of the patent and the date of the actual sealing thereof, and must describe with reasonable precision and detail the nature of the invention, and of the particular novelty whereof it consists, and be supplemented by such further particulars relating to the invention, and by such drawings or photographs illustrative thereof, as the Governor General in Council may see fit to require from the applicant.

(4) If in any case it appears to the Governor General in Council that an application ought to be further supplemented by a model of anything alleged to constitute an invention, he may require the applicant to furnish such a model neatly and substantially made of durable material and of dimensions not exceeding those, if any, specified in the requisition therefor.

6. (1) Upon an application under the last foregoing section the Governor General in Council may, after such inquiry as he thinks fit, make an order authorising the applicant to file a specification of the invention.

(2) Before making an order under sub-section (1), the Governor General in Council may direct that the application be referred for inquiry and report to any person whom he thinks fit.

(3) When such enquiry and report are made by a person who is not in the service of the Government, there shall be payable to that person by the applicant such fee as the Governor General in Council, after considering the report, may determine.

(4) When an application is to be referred to such a person, the applicant shall deposit, in such place and within such time as the Governor General in Council may by rule or otherwise prescribe, such sum as will, in the opinion of the Secretary, be sufficient to defray any fee which is likely to be determined under sub-section (3).

(5) If the sum is not deposited in the place and within the time prescribed, the application may be rejected.

(6) If the fee as determined by the Governor General in Council exceeds the sum so deposited, an order shall not be made under sub-section (1) until the applicant has paid the balance of the fee.

(7) If the sum deposited exceeds the fee so determined, the excess shall be refunded to the applicant.

to be identical or so similar as to be practically identical, the Governor General in Council may, in his discretion, authorise both or all the applicants, subject to the other provisions of this Part, to file specifications of their respective inventions.

(2) If they apply on different days for leave to file specifications of such inventions as aforesaid, the applicant who applied on the first of the different days shall be deemed to have a preferential claim to an order authorising the filing of his specification.

8. (1) If within six months from the date of an order under section 6, sub-section (1), or within such further time, not exceeding three months, as the Governor General in Council, in his discretion, may, on cause shown to his satisfaction and on payment of the fee prescribed in that behalf in the fourth schedule, see fit to allow, the applicant causes a specification of his invention to be filed in manner by this Part required, and the fee prescribed in the fourth schedule in respect of the filing of the specification to be paid, the applicant shall, subject to the other provisions of this Part, be entitled to the exclusive privilege of making, selling and using the invention in British India, and of authorising others so to do, for a term of fourteen years from the date of the filing of the specification.

(2) But an exclusive privilege in respect of an invention of a new manufacture shall, notwithstanding anything in sub-section (1), cease if the inventor fails to pay, within the time limited in that behalf by the fourth schedule, any fee prescribed in that schedule in respect of the continuance of the privilege.

(3) If, nevertheless, in any case, by accident, mistake or inadvertence, an inventor fails to pay any such fee within the time so limited, he may apply to the Governor General in Council for an enlargement of the time for making the payment.

(4) Thereupon the Governor General in Council may enlarge the time accordingly, on payment of the fee prescribed in that behalf in the fourth schedule and subject to the following conditions, namely:—

(a) the time for making a payment shall not in any case be enlarged for more than three months; and

(b) if any suit is instituted in respect of an infringement of the exclusive privilege committed after a failure to make a payment within the time limited for the making thereof and before the enlargement of that time, the Court disposing of the suit may, if it thinks fit, refuse to award or give any damages in respect of the infringement.

9. (1) A specification filed under this Part must be in writing signed by the applicant, and must set forth the precise invention in respect of

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 10-15.)*

(2) Every specification must explain the principle of the invention set forth therein and the best mode in which the applicant has contemplated applying that principle, and must describe the manner of making and using the invention in such full, clear, concise and exact terms as to enable any person skilled in the art or science to which the invention appertains, or with which it is most closely connected, to make or use the same.

10. Every application for leave to file a specification, and every specification filed under this Part, must be left with, or sent by post to, the Secretary, and the date of the delivery or receipt thereof shall be endorsed thereon and recorded in his office.

11. (1) At the time of delivering or sending the specification for the purpose of its being filed, the applicant shall cause to be delivered or sent therewith to the Secretary as many copies thereof, not being fewer than four, as may be required by the rules for the time being in force under this Part.

(2) One of these copies shall be retained by the Secretary, and one shall be sent to the Governor of Fort St. George in Council, one to the Governor of Bombay in Council, one to the Chief Commissioner of Burma, and the others, if any, to such authorities as the Governor General in Council may appoint in this behalf.

(3) The copies of the specification which are sent under sub-section (2) to the authorities mentioned or referred to in that sub-section shall be open to the inspection of any person at all reasonable times at places to be appointed by those authorities.

12. (1) A book, to be called the register of inventions, shall be kept in the office of the Secretary wherein shall be entered and recorded every application for leave to file a specification, every order made on any such application, every specification filed in pursuance thereof, and every subsequent proceeding relating to the invention described therein.

(2) Applications for leave to file a specification shall be numbered consecutively in the order in which they are delivered or received, and be dated as of the day of their delivery or receipt, and shall be entered in the register of inventions in the order of their respective numbers.

(3) A reference shall be made in that register, in the margin of the entry of each application, to every order on or in respect of the application, to the specification, if any, filed in pursuance thereof, and to every subsequent proceeding relating to the invention which forms the subject of the application.

13. (1) Another book, to be called the address-book, shall be kept in the office of the Secretary wherein any person filing a specification under this Part, or any person in whom an exclusive privilege acquired under this Part, or any share or interest therein, may become vested, may from time to time cause to be stated some place in British India where notice of any rule or proceeding relating to the exclusive privilege may be served on him.

(2) A reference to each entry in the address-book shall be made in the register of inventions in the margin of the entry in that register of the application for leave to file the specification.

14. (1) Every entry in the register of inventions or address-book, and every document entered and recorded in the register, shall, for the purposes of the law of evidence for the time being in force, be deemed to be a public document and shall be open to the inspection of any person at all reasonable times at the office of the Secretary.

(2) The books kept under section 11 and section 35 of Act No. XV of 1859 (*an Act for granting exclusive Privileges to Inventors*) shall be deemed to be parts of the register of inventions and address-book respectively.

15. (1) The inventor of a new manufacture may, at any time not more than one year and not less than six months before the time limited for the expiration of an exclusive privilege acquired under section 8, apply to the Governor General in Council for an extension of the privilege for a further term.

(2) When an application is made under sub-section (1), the Governor General in Council may, if he thinks fit, refer it to a High Court for report.

(3) The Court to which the application is referred shall, in making its report, have regard to the nature and merits of the invention in relation to the public, to the profits made by the inventor as such, and to all the circumstances of the case.

(4) The procedure on the reference shall be such as the Court thinks fit, and may include the issue of citations calling upon persons claiming to have any interest in the reference to appear before the Court on the day on which the reference is to be considered, or on any day to which the consideration thereof may be adjourned, and make with respect thereto any representation which they may see fit in relation to any of the matters to which the Court is required by the last foregoing sub-section to have regard in making its report.

(5) If the Governor General in Council is of opinion, or, where a reference has been made under sub-section (2), if the Court reports, that the inventor has been inadequately remunerated

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 16-21.)*

by his exclusive privilege, the Governor General in Council may, on payment of the fee prescribed in that behalf in the fourth schedule, make an order extending the term of the privilege for a further term not exceeding seven or, in exceptional cases, fourteen years from the expiration of the first term of fourteen years.

(6) But an exclusive privilege of which the term has been extended under the last foregoing sub-section shall, notwithstanding anything in that sub-section, cease if the inventor fails to pay before the expiration of each year of such extended term the fee prescribed in the schedule aforesaid in respect of the continuance of the privilege.

16. An order under section 6, sub-section (1), authorizing the filing of a specification, or under section 15, sub-section (5), extending the term of an exclusive privilege, may be made subject to such conditions as the Governor General in Council thinks expedient.

17. (1) Subject to any conditions imposed under the last foregoing section—

(a) with respect to the filing, by a person employed in the service of Her Majesty in India, of the specification of a manufacture invented by him in the course of his employment, or

(b) with respect to the extension, in favour of any person, of the term of an exclusive privilege,

an exclusive privilege acquired under this Part shall have to all intents the like effect as against Her Majesty as it has against a subject.

(2) But the officers or authorities administering any department of the service of Her Majesty may, by themselves, their agents, contractors or others, at any time after the delivery or receipt of the application for leave to file the specification of an invention, use the invention for the services of the Government on terms to be before or after the use thereof agreed on, with the approval of the Governor General in Council, between those officers or authorities and the inventor or, in default of such agreement, on such terms as may be settled by the Governor General in Council.

18. (1) If, after the filing of the specification, the applicant has reason to believe that through mistake or inadvertence he has erroneously made any mis-statement in his application or specification or included therein something which at the date of the delivery or receipt of his application was not new or whereof he was not the inventor, or that the specification is in any particular defective or insufficient, he may apply to the Governor General in Council for leave to file a memorandum point-

ing out the mis-statement or disclaiming any part of the alleged invention, or for leave to file an amended specification, as the case may be.

(2) The application must be in writing signed by the applicant, and must state how the error, defect or insufficiency occurred and that it was not fraudulently intended.

(3) Upon the application the Governor General in Council may make an order allowing the memorandum or amended specification to be filed.

(4) The provisions of section 6 with respect to applications, and of sections 9 and 11 with respect to specifications and copies thereof, shall apply, so far as they can be made applicable, to applications and to amended specifications, respectively, made and filed under this section.

19. An amended specification filed under the last foregoing section shall, except as to any suit or proceeding relating to the exclusive privilege which may be pending at the time of the filing of the amended specification, have the same effect as if it had been the specification first filed:

Provided that nothing in an amended specification shall be construed to extend or enlarge an exclusive privilege before acquired.

20. A person shall not be entitled to an exclusive privilege under this Part—

(a) if the invention is of no utility, or

(b) if the invention, at the date of the delivery or receipt of the application for leave to file the specification thereof, was not a new invention within the meaning of this Part, or

(c) if the applicant is not the inventor thereof, or

(d) if the original or any amended specification does not fulfil the requirements of this Part, or

(e) if the original or any subsequent application relating to the invention or the original or any amended specification contains a wilful or fraudulent mis-statement, or

(f) if the application for leave to file the specification of the invention was made under this Part after the expiration of one year from the date of the acquisition of an exclusive privilege in respect of the invention in any place beyond the limits of British India and the United Kingdom.

21. An invention shall be deemed a new invention within the meaning of this Part if it has not before the date of the delivery or receipt of the application for leave to file, the novelty of invention dependent on public use or knowledge thereof before application to file specification.

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 22—29.)*

specification thereof been publicly used in any part of British India or of the United Kingdom, or been made publicly known in any part of British India or of the United Kingdom by means of a written publication.

22. The public use or knowledge of an invention before the date of the delivery or receipt of the application for leave to file a specification thereof shall not be deemed a public use or knowledge within the meaning of this Part if the knowledge has been obtained surreptitiously or in fraud of the inventor or has been communicated to the public in fraud of the inventor or in breach of confidence:

Provided that the inventor has not acquiesced in the public use of his invention, and that, within six months after the commencement of that use, he applies for leave to file a specification.

23. Use of an invention in public by the inventor thereof, or by his servant or agent, or by any other person by his license in writing, for a period not exceeding one year immediately preceding the date of the delivery or receipt of his application for leave to file a specification thereof, or knowledge of the invention resulting from such use thereof in public, shall not be deemed a public use or knowledge within the meaning of this Part.

24. If an inventor who has obtained a patent for his invention in the United Kingdom causes an application for leave to file a specification of the invention under this Part to be delivered or received by the Secretary within twelve months from the date of the actual sealing of the patent, the invention shall be deemed a new invention within the meaning of this Part if it was not publicly used or known in any part of British India at or before the date of the application for the patent, notwithstanding that it may have been publicly used or known in some part of British India or of the United Kingdom before the date of the delivery or receipt of the application under this Part for leave to file the specification.

25. If an inventor applies for leave to file a specification under this Part while his application for a patent is pending in the United Kingdom, and the interval between the date of his application for the patent and the date of the delivery or receipt of his application under this Part does not exceed twelve months, the invention shall not be deemed to have been publicly used, or made publicly known, within

the meaning of this Part, by reason only of the invention having been used, or a description thereof having been published, in any part of British India or of the United Kingdom during the interval.

26. If an inventor, being the exhibitor of his invention at an industrial or international exhibition, certified as such by the Governor General in Council, causes an application for leave to file a specification of the invention to be delivered to or received by the Secretary within six months from the date of the admission of the invention into that exhibition, the invention shall not be deemed to have been publicly used, or made publicly known, within the meaning of this Part, by reason only of the invention having at any time after admission into the exhibition been publicly used or made publicly known.

27. (1) An exclusive privilege acquired under this Part shall cease if the Governor General in Council declares the privilege, or the mode in which it is exercised, to be mischievous to the State, or generally prejudicial to the public.

(2) It shall also cease if a breach of any condition on which the applicant was authorised to file a specification, or on which the term of the exclusive privilege was extended, is on an application under this Part to a High Court proved to the satisfaction of that Court, and if the Governor General in Council thereupon declares the privilege to have ceased.

28. (1) An exclusive privilege acquired under this Part in respect of an invention for which a patent has been obtained in the United Kingdom shall cease on the revocation or expiration of the patent.

(2) Such a privilege in respect of an invention for which a patent has not been obtained in the United Kingdom shall cease on the revocation or expiration of any patent or exclusive privilege which has been obtained or acquired for or in respect of the invention in any other country.

29. (1) An inventor may institute a suit in the District Court against any person who, during the continuance of an exclusive privilege acquired by him under this Part in respect of an invention, makes, sells or uses the invention without his license, or counterfeits or imitates it.

(2) The suit shall not be defended upon the ground of any defect or insufficiency of the specification of the invention, or upon the ground that the original or any subsequent application relating to the invention, or the original or any amended specification, contains a

willful or fraudulent mis-statement, or upon the ground that the invention is of no utility:

(3) Nor shall it be defended upon the ground that the plaintiff was not the inventor, unless the defendant shows that he himself is the actual inventor or has obtained from the actual inventor a right to make, sell or use the invention, or to counterfeit or imitate it, as the case may be:

(4) Nor shall it be defended upon the ground that the invention was not new, unless the defendant, or some person through whom he claims, has, before the date of the delivery or receipt of the application for leave to file the specification, publicly or actually used in some part of British India or of the United Kingdom the invention or that part of it with respect to which the exclusive privilege is alleged to have been infringed.

30. Any person may apply to a High Court for a rule to show cause why the Court should not declare that an exclusive privilege in respect of an invention to be specified in the rule has not been acquired under this Part by reason of all or any of the objections following (to be specified in the rule), that is to say:—

- (a) that the invention is of no utility, or
- (b) that the invention was not, at the date of the delivery or receipt of the application for leave to file the specification, a new invention within the meaning of this Part, or
- (c) that the applicant was not the inventor thereof, or
- (d) that the original or any amended specification does not fulfil the requirements of this Part, or
- (e) that the applicant has knowingly or fraudulently included in the application for leave to file the specification or in the original or any amended specification, as part of his invention, something which was not new or whereof he was not the inventor, or
- (f) that the original or any subsequent application relating to the invention, or the original or any amended specification, contains a wilful or fraudulent mis-statement, or
- (g) that some part of the invention, or the manner in which that part is to be made and used, as described in the original or any amended specification, is not thereby sufficiently described, and that this insufficiency was fraudulent and is injurious to the public.

31. Any person may apply to a High Court for a rule to show cause why the Court should not declare that an exclusive pri-

vilage in respect of any part of an invention, to be specified in the rule has not been acquired under this Part, by reason of all or any of the objections following (to be specified in the rule) that is to say:—

- (a) that that part of the invention is wholly distinct from the other parts thereof and is of no utility, or
- (b) that that part of the invention was not, at the date of the delivery of receipt of the application for leave to file the specification, a new invention within the meaning of this Part, or
- (c) that the applicant was not the inventor of that part of the invention, or
- (d) that that part of the invention, or the manner in which it is to be made and used, is not sufficiently described in the original or any amended specification, and that this insufficiency is injurious to the public.

32. The High Court may, irrespective of any provisions of the Code of Civil Procedure in this behalf, require a person applying for a rule under either of the two last foregoing sections to give security for the payment of all costs incurred or likely to be incurred by any person appearing to show cause against the rule. XIV of 1882.

33. (1) Any person authorised by the Governor General in Council in this behalf may apply to a High Court for a rule to show cause why the question of the breach of any condition on which leave to file a specification has been granted, or any other question of fact on which the cessation of an exclusive privilege under section 27 may, in the judgment of the Governor General in Council, depend, should not be tried in the form of an issue directed by the Court.

(2) If the rule is made absolute, the Court, unless the breach or other matter of fact is admitted, may direct the issue to be tried and certify the result of the trial to the Governor General in Council.

34. (1) Notice of any rule obtained or proceeding taken under section 30, section 31 or section 33 shall be served on all persons appearing from the address-book to be proprietors of the exclusive privilege, or to have shares or interests therein, and it shall not be necessary to serve the notice on any other person.

(2) The notice shall be deemed to be sufficiently served if a copy thereof is left at the place for the time being stated in the address-book, by delivering the copy to any person resident at or in charge of the place or, if there

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 35-38.)*

is no person resident at or in charge of the place, or if the place is not within the local limits of the jurisdiction of the Court, by causing the notice to be sent to the place by post by a registered letter directed to the person to whom the notice is addressed.

35. (1) The High Court may, if it thinks fit, direct an issue for the trial, before itself or any other High Court, or any District Court, of any question of fact arising upon an application under section 30, section 31 or section 33, and the issue shall be tried accordingly.

(2) If the issue is directed to another Court, the finding shall be certified by that Court to the Court directing the issue.

(3) If the issue is directed to a District Court, the finding of that Court shall not be subject to appeal, but the evidence taken upon the trial shall be recorded, and a copy thereof, certified by the Judge of the Court, shall be transmitted, together with any remarks which he may think fit to make thereon, to the High Court, and the High Court may thereupon act upon the finding of the District Court, or dispose of the application upon the evidence recorded, or direct a new trial, as the justice of the case may require.

36. (1) If it appears to the High Court at the hearing of an application under section 30 or section 31 that, by reason of any of the objections specified in the rule, the exclusive privilege in the invention or in any part thereof has not been acquired, the Court shall make an order accordingly, and thereupon the applicant shall, so long as the order continues in force, cease to be entitled to the exclusive privilege.

(2) If it appears to the High Court, at the hearing of any such application as last aforesaid, that the applicant has, in the description of his invention in the application for leave to file a specification thereof or in the original or any amended specification, erroneously included something which at the date of the delivery or receipt of the application for leave to file the specification was not new or whereof he was not the inventor, or that the specification is in any particular defective or insufficient, but that the error, defect or insufficiency was not fraudulently intended, the Court may adjudge the exclusive privilege to have been acquired and to be valid, save as to the part thereof affected by the error, defect or insufficiency: or

(3) If it appears to the High Court that the error, defect or insufficiency can be amended without injury to the public, the Court may adjudge the exclusive privilege in respect of the whole of the invention to be valid, and may, upon such terms as it thinks reasonable, order the specification to be amended in any particular in which it is erroneous, defective or insufficient; and thereupon the applicant shall, within

a time to be limited by the Court for the purpose, file in the office of the Secretary a specification amended according to the order.

(4) The provisions of section 18 with respect to the distribution and disposal of copies of amended specifications, and of section 19 with respect to the effect of such specifications, shall apply, so far as they can be made applicable, to an amended specification filed under this section.

(5) An exclusive privilege in respect of an invention shall not be defeated upon the ground that the application for leave to file the specification of the invention contains a mis-statement, unless the mis-statement was wilful or fraudulent.

37. (1) In a suit for the infringement of an exclusive privilege acquired under this Part the plaintiff shall deliver with his particulars of the breaches complained of in the suit, and the defendant shall deliver a written statement of the particulars of the grounds, if any, upon which he means to contend that the plaintiff is not entitled to an exclusive privilege in respect of the invention.

(2) In like manner, upon an application to a High Court under section 30, section 31 or section 33, the person making the application shall deliver particulars of the objections or grounds on which he means to rely.

(3) At the hearing of any such suit or application, or at the trial of any issue arising out of any such application, evidence shall not be allowed to be given in proof of any breach of the exclusive privilege, or of any ground impeaching the validity of that privilege, or of any objection or ground affecting such a privilege, unless such breach or other matter as aforesaid has been stated in the particulars delivered under this section.

(4) If it is alleged that the invention was publicly used or known before the date of the delivery or receipt of the application for leave to file the specification thereof, the places where and the manner in which the invention was so publicly used or known shall be stated in the particulars.

(5) Notwithstanding anything in the foregoing portion of this section, the Court in which the suit or application is pending, or an issue arising out of the application is being tried, may allow the plaintiff or defendant respectively to amend the particulars delivered under this section upon such terms as it thinks fit.

38. If, in a suit instituted in the District Court at any time within fourteen years from the date of the filing of a specification of an invention under this Part, the actual inventor proves to the satisfaction of the Court that the applicant was not the actual inventor,

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 39-43.)*

and that at the time of the application for leave to file the specification the applicant knew or had reason to believe that the knowledge of the invention was obtained by himself or by some other person surreptitiously or in fraud of the actual inventor, or by means of a communication made in confidence by the actual inventor to him or to any person through whom he derived the knowledge, the Court may make a decree declaring an exclusive privilege in respect of the invention to be vested, subject to the other provisions of this Part, in the actual inventor for a term of fourteen years from the date on which the specification was filed, and requiring the applicant to account for and pay over to the actual inventor the profits derived by him from the invention or so much of those profits as the Court, having regard to the degree of diligence exerted by the actual inventor in proceeding under this section and to all the other circumstances of the case, may see fit to require the applicant to pay.

39. A Court making a decree in a suit under Transmission of section 29 or section 38, or copies of decrees and an order on an application orders to Secretary. under section 30, section 31 or section 33, shall send a copy of the decree or order, as the case may be, to the Secretary, who shall cause an entry thereof and reference thereto to be made in the register of inventions and against any entry in the address-book affected thereby.

Registration of cessa- 40. In the following tion of exclusive privi- cases, namely:— lege.

- (a) when an exclusive privilege acquired under this Part has ceased under section 8 or section 15 by reason of a fee in respect of the continuance of the privilege not having been paid within the time limited by the fourth schedule for the payment thereof, and the period, if any, within which an order might have been made for enlarging the time for the making of the payment has expired;
- (b) when an exclusive privilege acquired under this Part has been declared by the Governor General in Council under section 27 to have ceased;
- (c) when an exclusive privilege acquired under this Part has ceased under section 28 by reason of the revocation or expiration of a patent or exclusive privilege;
- (d) when the whole or any part of an exclusive privilege acquired under this Part has ceased under section 36 in consequence of an order under that section;
- (e) when an exclusive privilege has been declared by a decree to have vested in an actual inventor under section 38;

- (f) when an exclusive privilege acquired under this Part has ceased by reason of the expiration of the term for which it was acquired;

the Secretary shall cause an entry with respect to the cessation or vesting of the exclusive privilege to be made in the register of inventions, and a reference to that entry to be made in the margin of the entry in that register of the application for leave to file the specification of the invention.

41. (1) If any person is aggrieved by an entry in the register of inventions or address-book, or by the omission of an entry therefrom, and a proceeding is not provided in the foregoing portion of this Part whereby the register or book may be rectified, he may apply to a High Court for an order for the rectification of the register or book, and the Court may make such order on the application as it thinks fit.

(2) A copy of the order shall be forwarded by the Court to the Secretary, who shall cause an entry thereof and reference thereto to be made in the register of inventions and against any entry in the address-book affected thereby.

(3) When the Secretary is a party to an application under this section, the costs of another party thereto shall not be adjudged to be payable by the Secretary.

42. A High Court to which an application has been made under section 30, section 31, section 33 or section 41 may stay proceedings on, or dismiss, the application if in its opinion the application would be disposed of more justly or conveniently by another High Court.

43. If on the petition of any person interested it is proved to the Governor General in Council that, by reason of an inventor who has acquired an exclusive privilege under this Part failing to grant licenses on reasonable terms,—

- (a) the exclusive privilege is not being worked in British India, or
- (b) the reasonable requirements of the public with respect to the invention cannot be supplied, or
- (c) any person is prevented from working or using to the best advantage an invention of which he is possessed,

the Governor General in Council may order the inventor to grant, or may himself on behalf of the inventor grant, licenses on such terms as to the amount of royalties, security for payment, or otherwise, as the Governor General in Council, having regard to the nature of the invention and the circumstances of the case, may deem just.

*The Inventions and Designs Act, 1888.**(Part I.—Inventions.—Sections 44-49.—(Part II.—Designs.—Sections 50-52.)*

44. Any person for the time being entitled to an exclusive privilege under this Part, or to any share or interest in such a privilege, in any local area may, subject to the conditions of his title thereto, assign the privilege or such share or interest, as the case may be, for any place in or part of that local area.

45. If an applicant is absent from British India, an application for leave to file a specification, or a specification, or an application for leave to file a memorandum or amended specification, may, instead of being signed by the applicant under section 5, section 9 or section 18, as the case may be, be signed on behalf of the applicant by an agent in British India authorised by him in writing in that behalf.

46. (1) An application under this Part for leave to file a specification, memorandum or amended specification must be verified by the person making the application.

(2) If that person is absent from British India, the application may be verified by the agent who signs the application on his behalf.

(3) The verification must be signed by the person making it, and must be to the effect that the facts stated in the application are true to his knowledge, except as to matters stated on information and belief, and that as to those matters he believes them to be true.

47. Subject to the provisions of the two last foregoing sections and of any other enactment for the time being in force, any act which is required or authorised by this Part to be done by any person may be done on his behalf by an agent in British India having authority in writing from that person so to do the act.

48. (1) There shall be paid in respect of the several proceedings specified in the fourth schedule the fees in that schedule prescribed.

(2) The Governor General in Council may, if he thinks fit, reduce any of those fees and revoke or vary the reduction.

(3) The fees payable under this section shall be collected by means of stamps or otherwise as the Governor General in Council directs.

(4) A proceeding in respect of which a fee is payable under the fourth schedule, shall be of no effect unless the fee has been paid.

49. (1) The Governor General in Council may make such rules and prescribe such forms as he thinks necessary for carrying out the purposes of this Part, and may alter or amend either of the forms in the second and third schedules.

(2) Rules under this section may provide, among other matters, for the printing of specifications, memoranda and amended specifications, and for the distribution or sale of printed copies thereof.

PART II.

DESIGNS.

50. In this Part, unless there is something repugnant in the subject or context,—

Definitions.

(1) "design" means some peculiar shape, configuration or form given to an article, or arrangement of lines or the like used on or with an article, but not the article itself:

(2) "copyright" means the exclusive right to apply a design to an article:

(3) the author of any new and original design shall be considered the "proprietor" thereof, unless he executed the work on behalf of another person for a good or valuable consideration, in which case that person shall be considered the "proprietor", and every person acquiring for a good or valuable consideration a new and original design, or the right to apply the same to an article, either exclusively of any other person or otherwise, and also every person on whom the property in the design or the right to the application thereof shall devolve, shall be considered the "proprietor" of the design in the respect in which the same may have been so acquired, and to that extent, but not otherwise: and

(4) "Secretary", "District Court" and "High Court" have the same meanings as in Part I.

51. (1) Any person, whether a British subject or not, claiming to be the proprietor of any new and original design not previously published in British India may apply to the Governor General in Council for an order for the registration of the design.

(2) The application must be in writing in the form or to the effect of the fifth schedule, and must contain a statement of the nature of the design and be accompanied by as many copies of drawings, photographs or tracings thereof, not being fewer than four, as may be required by the rules for the time being in force under this Part.

(3) It must be left with, or sent by post to, the Secretary, and the date of the delivery or receipt thereof in the office of the Secretary shall be endorsed thereon and recorded in that office.

52. (1) Upon the application the Governor General in Council may, after such inquiry as he thinks fit, make an order authorizing the registration of the design.

*The Inventions and Designs Act, 1888.**(Part II.—Designs.—Sections 53-61.)*

(2) When an order has been made under sub-section (1), the Secretary shall cause the design to be registered in a book to be kept by him for the purpose and to be called the register of designs.

(3) The date of registration shall be recorded in the register.

53. When a design is registered, the proprietor thereof shall, subject to the other provisions of this Part, have copyright in the design during five years from the date of registration.

54. (1) Before delivery on sale of any article to which a registered design has been applied, the proprietor of the design shall cause the article to be marked with the word "registered" either in full or in an abbreviated form.

(2) If he fails to cause the article to be so marked, the copyright in the design shall cease unless the proprietor shows that he took all proper steps to ensure the marking of the article.

55. If the proprietor of a design exhibited at an industrial or international exhibition, certified as such by the Governor General in Council, causes an application for an order for the registration of the design to be delivered to or received by the Secretary within six months from the date of the admission of the design into that exhibition, the design shall not be deemed not to be a new and original design not previously published in British India within the meaning of section 51 by reason only of the design having been exhibited at the exhibition.

56. Any person in whom the copyright in a design has become vested may apply to the Secretary for the entry of his name in the register of designs as proprietor of the copyright, and the Secretary may, if he sees fit, cause the entry to be made.

57. (1) The registered proprietor of a design may institute a suit in the District Court for the recovery of any damages arising from the application by any person to any article of the design or of any fraudulent or obvious imitation thereof for the purpose of sale, or from the publication, sale or exposure for sale by any person of any article to which the design, or any fraudulent or obvious imitation thereof, has been applied, that person knowing or having reason to believe that the proprietor had not given his consent to such application.

(2) When the Court makes a decree in a suit under this section, it shall send a copy of the decree to the Secretary, who shall cause an

entry thereof to be made in the register of designs.

58. (1) When, from the expiration of the term of a copyright or from any other cause, the copyright in a design has ceased, the Secretary shall cause an entry with respect to the cessation of the right to be made in the register of designs.

59. (1) A High Court may, on the application of any person aggrieved by an entry in the register of designs, or by the omission of an entry therefrom, make such order for the rectification of the register as it thinks fit.

(2) An order under sub-section (1) may declare copyright in a design not to have been acquired.

(3) A copy of the order shall be forwarded by the Court to the Secretary, who shall cause an entry thereof to be made in the register of designs.

(4) When the Secretary is a party to an application under this section, the costs of another party thereto shall not be adjudged to be payable by the Secretary.

60. A High Court to which an application has been made under the last foregoing section may stay proceedings on, or dismiss, the application if, in its opinion, the application would be disposed of more justly or conveniently by another High Court.

61. The provisions of the following portions of Part I, namely:—

- (a) section 11, with respect to copies of specifications,
 - (b) section 14, with respect to the register of inventions and the matters entered therein, and
 - (c) section 47, with respect to the performance by an agent of any act required or authorised by that Part to be done by a principal,
- shall, so far as they can be made applicable, apply, respectively, to—
- (a) copies of drawings, photographs or tracings accompanying an application for an order for the registration of a design in respect of which such an order has been made,
 - (b) the register of designs and the matters entered and documents referred to therein, and
 - (c) the performance by an agent of any act required or authorised by this Part to be done by a principal.

*The Inventions and Designs Act, 1888.**(Part II.—Designs.—Sections 62-63. The First Schedule.—Enactments repealed.)**(The Second Schedule.—Application where Patent has not been obtained. The Third Schedule.—Application where Patent has been obtained.)*

62. (1) There shall be paid in respect of the several proceedings specified in the sixth schedule the fees in that schedule prescribed.

Fees.

(2) The Governor General in Council may, if he thinks fit, reduce any of those fees and revoke or vary the reduction.

(3) The fees payable under this section shall be collected by means of stamps or otherwise as the Governor General in Council may direct.

(4) A proceeding in respect of which a fee is payable under the sixth schedule shall be of no effect unless the fee has been paid.

63. The Governor General in Council may make such rules and prescribe such forms as he thinks necessary for carrying out the purposes of this Part, and may alter or amend the form in the fifth schedule.

EDUCATION DEPARTMENT, BENGAL.

Subordinate Educational Service.

The 22nd March 1888.—Babu Bhagabati Sahay, M.A., Temporary Third Master of the Bhagulpore Zillah School, is appointed to class VI, with effect from the 17th February 1888,

Educational Prospectus.

The Calcutta Medical College Session, 1888-89, will commence on the 23rd June next. Students who may be desirous of commencing their studies are requested to apply to the Principal between the hours of 11 A.M. and 4 P.M. on or before that date.

2. Ten free presentations will then be awarded. These are given to students according to their relative position in the University, B.A., B.L., and F.A. Examinations, preference being given to those who have passed the highest examination.

3. No person shall be enrolled as a matriculated student who has not previously passed the First Arts Examination of the Calcutta University, or a preliminary Arts Examination of the United Kingdom recognised by the British General Medical Council.

4. All matriculated students of the College shall pay Rs. 15 on entrance, Rs. 30 for the summer session on the 23rd June, and Rs. 30 for the winter session on 1st November of each year.

Mahomedan students are required to pay Rs. 15 on entrance and one-third fee, i.e., Rs. 10 per session. The remaining two-third fees are charged to the Moshin Fund.

5. Any matriculated student of the College may, with the permission of the Principal and the Professor of the subject, attend courses of lectures or departments of hospital practice in addition to the full curriculum for the year, and shall be entitled to certificates of attendance at such extra lectures, if the Professor is satisfied that he or she has really studied the subject. The fees payable in advance for such additional courses are the following :—

	Rs.
For a single course of lectures on each subject in one year	40
For six months' attendance in each department of hospital practice	60

6. Any matriculated student who leaves the College before completing his University course, with the object of continuing his studies at a Medical School in Europe, may receive certificates of attendance at lectures on payment of fees at the rate fixed in the foregoing rule. But in calculating the sum to be so paid, the amount of the fees already paid by him as a regular student, or in the case of a free student, the amount which would have been paid by him had he been a paying student, shall be deducted.

7. Any person not being a matriculated student of the College, who wishes to attend any course of lectures, or any department of hospital practice, may do so with the permission of the Principal and Professor of the subject, on payment, in advance, of fees at the rates fixed in rule 5. If he has passed the Entrance Examination of the University, he shall receive certificates of attendance at lectures. If he has not passed the Entrance Examination he shall receive no class certificates.

8. College scholarships, prizes and certificates of honour are open for competition only to matriculated students of the College, Hospital Apprentice and Female Certificate classes.

9. Junior scholarships of Rs. 8 per mensem and free tuition for one year are annually awarded to 10 students of the 2nd and to 10 of the 3rd year, on the results of the first and second years' Test and Honour Examinations respectively.

10. Ten senior scholarships of Rs. 12 per mensem and free tuition are annually awarded to students of the 4th year on the results on the University First Examination in Medicine. But these shall not be awarded to students who gain Doorga Churan Laha and Female Medical scholarships. These are tenable for two years. Failed students are not eligible for these scholarships.

Goodeve scholarship of Rs. 12 per mensem is annually awarded to students of the 5th year on the result of the Midwifery Test Examination of the 4th year.

F. C. Chatterjee scholarship of Rs. 17 per mensem is annually awarded to the best students in Histology at the end of the 4th year.

Abdool Gunny scholarship of Rs. 26 per mensem is annually awarded to the best student at the General Examinations of the 1st to 4th year.

Duke of Edinburgh's prize is awarded to the best in Surgery at the end of the 5th year.

Bhola Nath Bose's prize of Rs. 40 is awarded to the best clinical clerk in Surgery and Medicine in alternate years.

A gold medal and certificates of honour are awarded to the best students in each subject. Goodeve and Macnamara silver medals are given to the 1st year students in Anatomy and Chemistry, respectively.

11. College scholars, who receive less than Rs. 20 per mensem, are not required to pay Rs. 30 per session. All other scholars shall pay fees as matriculated students. These may pay their fees in advance, or have their scholarship money deducted till the full amount is received.

12. Any student holding a Medical College scholarship will be permitted to draw the stipend of the said scholarship at any recognized Medical School in the United Kingdom, provided he furnishes from the head of such school a certificate of good conduct and diligence.

14. The class assistantships of *Bathology, Physiology, and Comparative Anatomy* can be held only by matriculated students of the College:—

JOHN BOXWELL, *Offg. Commissioner.*

PATNA COMMR.'S OFFICE, BANKIPORE, the 22nd March 1888.

NOTICE BY THE ACCOUNTANT-GENERAL, BENGAL.

SUPPLY BILLS.

NOTICE is hereby given that supply bills for sums of Rs. 500 and above in even rupees are usually obtainable on the treasuries named below at the rates of premium shewn.

Any person desiring to obtain a supply bill should send to the Bank of Bengal, Calcutta, a written application containing the following information—(1) his own name and address; (2) the name of the person to whom payment is to be made; (3) the treasury on which the bill is to be granted; and (4) the amount for which the bill is to be granted. With this application the cost of the bill (the amount plus the premium) should be paid into the Bank. If payment by telegram is desired (but this is admissible only in cases in which the name of the payee has been previously registered in the Accountant-General's office), the fact should be stated in the application, and an additional rupee paid with the cost.

The Bank of Bengal will, if the amount is available at the treasury named, receive the money tendered, and grant a receipt, returning the application therewith. The receipt and the application should then be sent to the Accountant-General's office, by which the bill will be granted.

The Bank of Bengal will be advised by the Accountant-General on the 1st and 16th of each month of the amounts available at the several treasuries, and will receive the amounts tendered by the first comers till those amounts are exhausted.

ORDERS BY THE LIEUT.-GOVERNOR OF BENGAL.

MUNICIPAL AND LOCAL.

NOTIFICATION.

The 24th March 1888.—The following rules, framed by the Magistrate of Purneah, and approved by the Commissioner of the Bhagulpore Division, under section 15 of the Bengal Ferries Act I of 1885, have been accepted by the Lieutenant-Governor, and are published for general information.

COLMAN MACAULAY,
Secretary to the Govt. of Bengal.

RULES UNDER SECTION 15, ACT I (B.C.) OF 1885, FOR THE DISTRICT OF PURNEAH.

Rule 1.—In these rules the term “Magistrate” includes—

- (a) the District Magistrate of Purneah and any Magistrate subordinate to him and appointed by him in that behalf;
- (b) the District Board of Purneah in respect of any public ferry the management of which has been vested in it under section 35 of Act I (B.C.) of 1885; and any Local Board in the district of Purneah when legally vested with powers in respect of any public ferry by the District Board of Purneah.

Rule 2.—Every public ferry in the district of Purneah shall either be held khas by the Magistrate, or be leased by public auction.

Rules for the management of public ferries held khas.

Rule 3.—For every public ferry which is held khas, the Magistrate shall from time to time—

- (a) provide such boats, landing-stages, rest-houses, and other appliances as he shall think proper;
- (b) appoint a suitable person to superintend the plying of the ferry, provide and pay boatmen, receive the authorised tolls, and remit the same to the treasury;
- (c) fix, with the approval of the Commissioner, the tolls to be levied from persons using the ferry;
- (d) cause a schedule of such tolls, legibly written in the vernacular, to be fixed up on both landing-stages;
- (e) determine the maximum number of passengers, animals, carts, vehicles, and goods which each ferry-boat shall carry, and cause a notice to this effect to be affixed to each boat;
- (f) determine the hours within which the boats shall ply, and the minimum number of journeys to be made every day;
- (g) provide for the prompt conveyance of the mails at all times across the ferry.

Rule 4.—Any person may compound for tolls payable for the use of the ferry; and if the ferry should be closed before the expiry of the period for which such person has compounded for tolls payable for its use, he shall be entitled to a refund, the amount of which shall bear the same proportion to the whole sum paid by him as the period remaining bears.

Rules for leasing out ferries.

Rule 5.—When it has been determined to lease the tolls of any public ferry by auction, under section 9 of Act I (B.C.) of 1885, the Magistrate shall, at least 15 days before the auction is held, cause an advertisement of such auction to be published, both in English and in the vernacular, in such place and in such manner as to him shall seem expedient.

Rule 6.—The advertisement shall specify—

- (a) the time and place of the sale;
- (b) the period for which the ferry is to be leased, and the dates between which the lessee shall be bound to ply the ferry every year;
- (c) the number and description of the boats to be maintained, the strength of the crew to be employed on each, and the maximum number of passengers, animals, vehicles, and the bulk or weight of goods each is authorised to carry;
- (d) the liability or otherwise of the lessee to provide the boats, and to keep them in repair;
- (e) the liability or otherwise of the lessee to provide and keep in order the landing-stages and the rest-houses or travellers' sheds, if any, at either or both termini of the crossing;
- (f) the minimum number of crossings to be made daily at any particular season of the year;
- (g) the rate of tolls to be levied;
- (h) the persons and things to be ferried over free of toll as provided in Rule 14;
- (i) the instalments in which the rent for the ferry is to be paid; and
- (j) such other particulars as the Magistrate shall consider necessary.

Rule 7.—A copy of the advertisement, and of the Rules and the Form of Agreement required to be executed under section 9 of the Act, shall be posted up in a conspicuous place in the Magistrate's office, and shall be duly notified on the day of the auction.

Rule 8.—On the day of the auction the lessee, to whom the ferry has been knocked down, shall deposit 25 per cent. of the amount of bid as security for the due fulfilment by him of the conditions of his lease. This deposit may, however, at the discretion of the Magistrate, be dispensed with in the case of small ferries in which boats or canoes are not provided by Government.

Rule 9.—In cases in which the ferry is leased for only a year, or part of a year, the lessee shall be held liable for the rent for the entire period the moment the ferry has been knocked down to him. In cases in which the ferry is leased for a number of years, the liability for each year's rent shall accrue from the first day of the year.

Rule 10.—The contract which the lessee will be required to execute under section 9 of the Act shall be in the form appended to these rules.

Rule 11.—As soon as possible after the contract has been executed by the lessee, the Magistrate shall furnish him, free of charge, with a copy of these rules, a list of the authorized tolls duly signed under section 19 of the Act, and two notice boards having written on them legibly in the vernacular the schedule of tolls applicable to the ferry, the number of boats which the lessee is bound to keep plying, the number of men by whom each boat is to be manned, and the maximum number of passengers, &c., each boat is allowed to carry. The notice boards shall be fixed by the lessee in a conspicuous place at both ends of the ferry, and shall be kept by him in a proper condition. On the expiry of his lease they shall be returned by him to the Magistrate.

Rules for the management of ferries leased by public auction and for regulating their traffic.

Rule 12.—The lessee shall be bound to ferry over diligently, carefully, and with the least possible delay, all passengers, vehicles, animals and goods which may come to the ferry ghāt to be ferried over.

Rule 13.—The rate of tolls to be levied shall be those fixed by the Magistrate, with the approval of the Commissioner, under section 18 of the Act.

Rule 14. The lessee shall not charge or demand tolls for ferrying over—

- (a) Mails, mail carts, dāk-runners, and Government telegraph messengers on duty.
- (b) Commissariat stores, animals, and vehicles, when accompanied by a chāllan from the Commissariat officer.
- (c) Military officers, soldiers, and their followers, when travelling on duty with their *bonds* *Ado* baggage, horses, *palkies* or other conveyances.
- (d) Police and other public officers and process-servants.
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.

Rule 15.—The lessee shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from

Rule 17.—The Magistrate may, if necessary, fix the times for the crossing of the mails and dāk-runners, and may, as occasion arises, vary such times. He shall in all such cases give notice in writing to the lessee of the times at which the mails are to be ferried over, and it shall thereupon become the duty of the lessee to see that arrangements are specially made for the crossing of the mails immediately on their arrival at the ferry ghāt, and that no delay is allowed to occur in their transit.

Rule 18.—The lessee shall provide and keep in proper order, to the satisfaction of the Magistrate, the landing-stages on both sides of the ferry, and shall move them when necessary according to the rise and fall of the water. He shall also provide proper rest-houses or travellers' sheds on the banks of the ferry as required by the Magistrate, and shall make all proper arrangements and provide all suitable accommodation on the ferry-boats for passenger and goods traffic.

Rule 19.—The lessee shall mark on each boat the number of passengers, animals, and vehicles, and the bulk and weight of other things it is authorised to carry at a single trip.

Rule 20.—When any ferry which has been leased for a given period is discontinued under the orders of the Magistrate before the expiry of that period, the lessee shall be allowed a deduction in the rent payable for the unexpired portion of the term of the lease. If it be shown to the satisfaction of the Magistrate that the lessee has suffered any loss consequent on the discontinuance of the ferry, the Magistrate may allow him such compensation as he thinks is deserved.

Rule 21.—In the event of the ferry being discontinued before the expiry of the lease, either by order of the Magistrate or otherwise, all persons who have compounded for the tolls for its use shall be entitled to receive a refund calculated as in Rule 4, and unless the claims of all such persons have been satisfied by the lessee, the Magistrate shall have authority to satisfy the claims out of the deposit made by the lessee under Rule 8.

Rule 22.—The lessee shall, when required by the Magistrate to do so, but not otherwise, furnish all information in his power regarding suspicious persons or classes of persons who may have been, or may come to be, ferried over.

Rule 23.—The lessee shall be bound to furnish such returns of traffic as may from time to time be called for by the Magistrate, and for this purpose he shall keep up a register of traffic in the form to be prescribed by the Magistrate.

Rule 24.—If the lessee desires to establish communication across the ferry by means of a bridge of any kind, he shall first obtain the sanction, in writing, of the Magistrate, and shall, on obtaining such sanction, carry out any orders which the Magistrate may make regarding the opening of such bridge for the through passage of vessels and rafts. Such bridge shall on no account obstruct the free passage of the stream.

Rule 25.—The Magistrate may at any time require the lessee to repair or replace any boat, which he considers to be in a dangerous state of disrepair, and the lessee shall thereupon be bound to repair or replace it as directed.

Rule 26.—Police officers will report at once any instance of mismanagement of a public ferry, the insecurity of the boats, landing-stages, slopes or approaches, and any other defect in the working of the ferry, which may come to their notice.

Rule 27.—The ferry boats belonging to any public ferry shall not be plied when the current, wind or state of the weather is such as to render the crossing unsafe and endanger the lives of the passengers.

Rule 28.—A register in the following form, showing the demand and collection on account of rents payable for tolls of public ferries, shall be kept up by the Magistrate:—

Receipts on account of ferry, farmed by _____, at an annual rent of Rs.

[Signature of officer holding rules]

Serial number.	Details of payments.	Amount.	PAYMENT.				REMARKS.	
			Amount.	Date.	Number of challan.	Initials of Magistrate or Vice-Chair- man.		Initials of Treasury Officer.
		Rs.	Rs.					

Rule 29.—A quarterly statement shall also be kept showing the demand, collection and arrears up to date on account of rents for public ferries.

Form of Agreement.

The Secretary of State for India in Council doth hereby lease to me

district ; and I, the said lessee, do hereby
take the lease of the public ferry across the river , and situated on the
road from to at the rent of Rs.
upon and under the following terms and conditions, viz.—

1. I, the lessee, have deposited with the intent that the Magistrate shall hold the same until the determination of the lease, as partial security for the due performance by me of the stipulations herein contained, and for the observance by me of the provisions of the Bengal Ferries Act I (B.C.) of 1885, and the rules framed under it, and may deduct therefrom any rent which may become due, or penalties which may be awarded under sections 23, 24, and 25 of the said Act.

2. I, the lessee, do hereby acknowledge to have received a copy of the rules under section 15 of the Act aforesaid, and to be aware of the provisions of section 10 of the Act, under which I am legally bound to conform to them. I also acknowledge to have received a list of the tolls to be levied at the ferry.

3. The lease to me is to be for , namely, from the to the , and during this period I shall be bound to ply the ferry from the to the every year.

4. I hereby agree—

- (a) (to provide boats for the ferry and) to keep the boats (provided by the Magistrate for the ferry) in proper repair ;
- (b) to employ a crew of men on each boat ;
- (c) to make at least crossings every day ; and
- (d) to (provide and) keep in order the landing-stages and the travellers' sheds at either or both banks of the river.

5. I shall not charge or demand tolls for ferrying over—

- (a) Mails, mail-carts, dak-runners and Government telegraph messengers on duty.
- (b) Commissariat stores, animals and vehicles, when accompanied by a challan from the Commissariat officer.
- (c) Military officers, soldiers and their followers.
- (d) Police and other public officers and process serving peons.
- (e) Executive officers of the District Road Department when travelling on duty.
- (f) Coolies engaged in repairing roads, with their tools and instruments.
- (g) Persons carrying dead bodies or property sent in by the police.

6. I shall not charge or demand tolls from persons who wade or swim across, or take cattle or other animals or property across at their own cost and risk, or from persons who cross themselves, or take other persons across without charge, in their own boats.

7. I hereby agree to pay the rent in the following instalments :—

		Rs.	A.	P.
1st		
2nd		
3rd		
4th		

Date.

But if at any time before the expiry of the period for which the ferry has been leased to me, I be removed therefrom for any breach of the terms and conditions of the lease, or for any wilful breach of any of the rules under section 15 of the Act, I shall be liable to pay rent up to and including the instalment due next after my removal.

8. If the rates of toll are reduced during the currency of my lease, or the exemptions from the payment of it are extended, this agreement is to be modified accordingly. I shall be given a fair opportunity of satisfying the Magistrate as to the effect of the change, and if the terms proposed by him thereafter are not such as I can reasonably accept, I will, according to the law, immediately carry into effect the order reducing the rates of toll, or extending the exemption from payment of it, but will at the same time state the amount of rent I may be willing to pay under the altered circumstances of the case. Should my offer appear to the Magistrate to be inadequate, it shall be competent to him to remove me and place another person in charge of the ferry, and for such time as I remain in charge of the ferry after the issue of the order reducing the rates of tolls, or extending the exemption from payment of it, I shall pay rent only at the rate tendered by me.

9. If I make default in the payment of the rent for the ferry, or of any penalty which

ll short of the amount at which it was leased to me, and the Government thereby incur loss, shall be held responsible for such difference or loss, the amount of which may be deducted from my deposit. If the deposit does not cover the loss incurred, the rent due from me, and the amount of tolls refunded by the Magistrate under Rule 21 of the rules under section 15 of the Act, the total amount which is deficient shall be recoverable in the manner forth in section 12 of the Act.

10. I will not assign, sublet or part with the possession of the ferry without the previous consent, in writing, of the Magistrate.

11. I shall not claim any compensation on account of roads being closed for repairs, on account of inundations, or the breaking down of bridges.

E. G. GLAZIER, Collector.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situated in the district of Gya. will be put up for sale at the Gya Collectorate on the 12th April 1888, corresponding with the 16th Chait 2nd, 1295 Fasli.

The purchasers will be subject to the following conditions of sale:—

Conditions of Sale.

- 1st.—The estate to be sold to the highest bidder above the upset price. The purchasers of these estates will be considered as the proprietors, and the entire proprietary right of Government in such estates will be transferred to them, subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force; and the purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estates to be again put up to sale at the risk of the defaulting purchasers after issue of advertisement, as in the case of original sale.

NOTICE.

It is hereby notified, for general information, that subscriptions to the complete series of the Indian Law Reports should be registered during the first three months of each calendar year. Subscribers are therefore requested to send in their subscriptions for the complete series before the 31st March in each year. Those who register their names after that date will understand that copies will be supplied only if available.

H. A. D. PHILLIPS,

Under-Secy. to the Govt. of Bengal.

The 24th November 1886.

The following revised advertisement is published in substitution for that which appeared at page 1084, Part II of the *Calcutta Gazette* of the 9th July 1884:—

The Indian Law Reports,

Published under Authority.

THE Indian Law Reports, published under the authority of the Governor-General in Council, appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprise four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1885, the terms of subscription and sale will be as follows:—

Terms of subscription payable annually in advance.

For the complete series, including postage, Rs. 22-8.

PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 23rd March, 1888, and is hereby promulgated for general information:—

ACT NO. VI OF 1888.

An Act to amend the law relating to Imprisonment for Debt.

WHEREAS it is expedient to amend the law relating to imprisonment for debt; It is hereby enacted as follows:—

Title, commencement and extent. I. (1) This Act may be called the Debtors Act, 1888; and

(2) It shall come into force at once.

(3) The several portions thereof have the same local extent as the enactments to which they respectively relate.

IV of 1882.

2. After section 245 of the Code of Civil Procedure the following sections shall be inserted, namely:—

“245A. Notwithstanding anything in the last foregoing section or in any other section of this Code, the Court shall not order the arrest or imprisonment of women in execution of decrees for money.

“245B. (1) Notwithstanding anything in section 245 or in any other section of this Code, when an application is for the execution of a decree for money by the arrest and imprisonment of a judgment-debtor who is liable to be arrested in pursuance of the application, the Court may, instead of issuing a warrant for his arrest, issue a notice calling upon him to appear before the Court on a day to be specified in the notice and show cause why he should not be committed to jail in execution of the decree.

“(2) If appearance is not made in obedience to the notice, the Court shall, if the decree-holder so requires, issue a warrant for the arrest of the judgment-debtor.”

3. In section 250 of the said Code, between the word “shall” and the word “issue”, the following shall be inserted, namely:—

“subject to the provisions of sections 245A and 245B,”.

Addition of new section after section 337 of the Code. 4. After section 337 of the said Code the following shall be inserted, namely:—

“337A. (1) When a judgment-debtor appears before the Court in obedience to a notice issued under section 245B, or is brought before the Court after being arrested in execution of a decree for money, and it appears to the Court that the judgment-debtor is unable from poverty or other sufficient cause to pay the amount of the decree or, if that amount

terms, if any, as it thinks fit, make an order disallowing the application for his arrest and imprisonment, or directing his release, as the case may be.

"(2) Before making an order under sub-section (1), the Court may take into consideration any allegation of the decreeholder touching any of the following matters, namely:—

- (a) the decree being for a sum for which the judgment-debtor was bound as a trustee or as acting in any other fiduciary capacity to account;
- (b) the transfer, concealment or removal by the judgment-debtor of any part of his property after the date of the institution of the suit in which the decree was made, or the commission by him after that date of any other act of bad faith in relation to his property, with the object or effect of obstructing or delaying the decreeholder in the execution of the decree;
- (c) any undue or unreasonable preference given by the judgment-debtor to any of his other creditors;
- (d) his refusal or neglect to pay the amount of the decree or some part thereof when he has or since the date of the decree has had the means of paying it;
- (e) the likelihood of his absconding or leaving the jurisdiction of the Court with the object or effect mentioned in clause (b) of this sub-section.

"(3) While any of the matters mentioned in sub-section (2) are being considered, the Court may in its discretion order the judgment-debtor to be imprisoned, or leave him in the custody of an officer of the Court, or release him on his furnishing sufficient security for his appearance on the requisition of the Court.

"(4) A judgment-debtor released under this section may be re-arrested.

"(5) If the Court does not make such an order as is mentioned in sub-section (1), it shall cause the judgment-debtor to be arrested if he has not already been arrested and, subject to the other provisions of this Code, commit him to jail."

5. To section 380 of the said Code the following shall be added, namely:—

"On the application of any defendant in a suit for money in which the plaintiff is a woman the Court may at any stage of the suit make a like order if it is satisfied that such plaintiff does not possess any sufficient immoveable property within British India independent of the property in suit."

6. In section 640 of the said Code, after the words "from arrest in execution of civil process" the words "in any case in which the arrest of women is not prohibited by this Code" shall be added.

7. In section 642 of the said Code, for the words and figures "except as provided in sections 256 and 643" the following shall be substituted, namely:—

"except as provided in section 337A, sub-section (5), and sections 256 and 643."

8. After section 652 of the said Code the following shall be added, namely:—

"653. (1) At any time after a warrant of arrest has been issued under this Code, the Court may cancel it on the ground of the serious illness of the person against whom the warrant was issued.

"(2) When a judgment-debtor has been arrested under this Code the Court may release him if in its opinion he is not in a fit state of health to undergo imprisonment.

"(3) When a judgment-debtor has been committed to jail, he may be released therefrom—

- (a) by the Local Government, on the ground of his suffering from any infectious or contagious disease, or
- (b) by the committing Court, or any Court to which that Court is subordinate, on the ground of his suffering from any serious illness.

"(4) A judgment-debtor released under this section may be re-arrested, but the period of his imprisonment shall not in the aggregate exceed that prescribed in section 342 or section 481, as the case may be."

9. The last sixteen words of section 8 of the Married Women's Property Act, 1874, and the whole III of section 31 of the Ajmere Courts Regulation, 1877, are hereby repealed.

10. (1) For the first fifty-five words of section 48 of the Act of the Government of Fort St. George in Council, No. VIII of 1865, the following shall be substituted, namely:—

"No person shall be imprisoned as a defaulter for a longer period than six months whatever the amount of the arrears may be, nor for a longer period than six weeks if the arrears do not exceed fifty rupees."

(2) For the proviso to section 163 of the North-Western Provinces Rent Act, 1881, the following shall be substituted, namely:—

"Provided that the time for which a debtor may be confined in execution of a decree under this Act shall not exceed six weeks when the amount decreed (exclusive of costs) does not exceed fifty rupees, or six months in any other case."

S. HARVEY JAMES,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 23rd March, 1888, and is hereby promulgated for general information :—

Repeal of part of section 8. 4. The second paragraph
of section 8 is hereby re-
pealed.

Addition to section 14. 5. To section 14 the
following shall be added,
namely :—

"Where a suit is instituted in British India
on the judgment of any foreign Court in Asia
or Africa except a Court of Record established
by Letters Patent of Her Majesty or any pre-
decessor of Her Majesty or a Supreme Consu-
lar Court established by an Order of Her Ma-
jesty in Council, the Court in which the suit
is instituted shall not be precluded from inquiry
into the merits of the case in which the judg-
ment was passed."

Addition of new sec- 6. The following shall be
tion after section 16. inserted after section 16,
namely :—

"16A. (1) When it is alleged to be uncertain
within the local limits of
the jurisdiction of which of
two or more Courts any
Place for institution immovable property is
of suit where local limits of jurisdiction of Courts are uncertain. situate, any one of those
Courts may, if satisfied that there is ground
for the alleged uncertainty, record a statement
to that effect and thereupon proceed to entertain
and dispose of any suit relating to that property,
and its decree in the suit shall have the same
effect as if the property were situate within the
local limits of its jurisdiction :

"Provided that the suit is one with respect
to which the Court is competent as regards
the nature and value of the suit to exercise
jurisdiction.

"(2) Where a statement has not been record-
ed under sub-section (1), and an objection is
taken before an appellate or revisional Court that
a decree or order in a suit relating to such pro-

7. In section 17, after Explanation II, the following shall be inserted, namely :—

"EXPLANATION III.—In suits arising out of contract, the cause of action arises within the meaning of this section at any of the following places, namely :—

- (i) the place where the contract was made ;
- (ii) the place where the contract was to be performed or performance thereof completed ;
- (iii) the place where in performance of the contract any money to which the suit relates was expressly or impliedly payable."

8. In section 27 there shall be inserted after the words "the Court may" the words "at any stage of the suit", and after the words "any other person or persons" the words "with his or their consent".

9. For section 53 the following shall be substituted, namely :—

"53. The plaintiff may, at the discretion of the Court,—

- (a) at, or at any time before, the settlement of issues be rejected if it does not disclose a cause of action ;
- (b) at, or at any time before, the settlement of issues be returned for amendment within a time to be fixed by the Court, and upon such terms as to the payment of costs occasioned by such amendment as the Court thinks fit, if it—
 - (i) is not signed and verified as hereinbefore required,
 - (ii) does not state correctly and without prolixity the several particulars hereinbefore required, or contains particulars other than those so required,
 - (iii) is wrongly framed by reason of nonjoinder or misjoinder of parties, or joins causes of action which ought not to be joined in the same suit, or
 - (iv) is not framed in accordance with the provisions of section 42 ;
- (c) at any time before judgment be amended by the Court upon such terms as to the payment of costs as the Court thinks fit :

"Provided that a plaintiff shall not be amended either by the party to whom it is returned for amendment, or by the Court, so as to convert a suit of one character into a suit of another and inconsistent character.

"When a plaintiff is amended under this section the amendment shall be attested by the signature of the Judge."

10. For section 72 the

mons, the summons shall ordinarily be delivered or sent to the proper officer to be served by him or one of his subordinates.

"(2) The proper officer may be an officer of another Court than that in which the suit is instituted, and, where he is such an officer, the summons may, subject to any rules which the High Court may make in this behalf, be sent to him by post or in such other manner as the Court may direct."

11. In section 82, for the first twenty words the following shall be substituted, namely :—

"When a summons is returned under section 80, the Court shall if the return under that section has not been verified by the affidavit of the serving-officer, and may if it has been so verified, examine the serving-officer on oath, or cause him to be so examined by another Court, touching his proceedings".

12. For section 90 the following shall be substituted, namely :—

"90. If there is a British Resident or Agent, or a Superintendent appointed by the British Government, or a Court established or continued by the authority of the Governor General in Council, in or for the territory in which the defendant resides, the summons may be sent to such Resident, Agent, Superintendent or Court, by post or otherwise, for the purpose of being served upon the defendant ; and, if the Resident, Agent or Superintendent or the Judge of the Court returns the summons with an endorsement under his hand that the summons has been served on the defendant in manner hereinbefore directed, such endorsement shall be evidence of the service."

13. For sections 141 and 142 the following shall be substituted, namely :—

"141. (1) Subject to the provisions of the next following sub-section, there shall be endorsed on every document which has been admitted in evidence in the suit the following particulars, namely :—

- (a) the number and title of the suit,
- (b) the name of the person producing the document,
- (c) the date on which it was produced, and
- (d) a statement of its having been so admitted,

and the endorsement shall be signed by the Judge.

"(2) If a document so admitted is an entry in a book, account or record and a copy thereof has been substituted for the original under the next following section, the particulars aforesaid shall be endorsed on the copy and the endorsement thereon shall be signed by the Judge.

"141A. (1) If a document admitted in evidence in the suit is an entry in a shop-book or other account

party on whose behalf the book or account is produced, the Court may require a copy of the entry to be furnished—

- (i) where the record, book or account is produced on behalf of a party, then by that party, or
- (ii) where the record, book or account is produced in obedience to an order of the Court acting of its own motion, then by either or any party.

“(3) When a copy of an entry is furnished under the foregoing provisions of this section, the Court shall, after causing the copy to be examined, compared and attested in manner mentioned in section 62, mark the entry and cause the book, account or record in which it occurs to be returned to the person producing it.

“142. When a document relied on as evidence by either party is considered by the Court to be inadmissible in evidence, there shall be endorsed thereon the particulars mentioned in clauses (a), (b) and (c) of section 141, sub-section (1), and a statement of its having been rejected, and the endorsement shall be signed by the Judge.

“142A. (1) Every document which has been admitted in evidence, or a copy thereof where a copy has been substituted for the original under section 141A, shall form part of the record of the suit.

“(2) Documents not admitted in evidence shall not form part of the record and shall be returned to the parties respectively producing them.”

14. In section 143, for the words and figures “sections 62, 141 and 142” there shall be substituted the following, namely:—

“section 62, section 141A, sub-section (3), or section 142A, sub-section (2).”

15. In section 159 the words “or sent” shall be inserted after the word “delivered”.

16. In section 168, for the words “shall examine the serving-officer on oath” the following shall be substituted, namely:—“shall if the certificate of the serving-officer has not been verified by affidavit, and may if it has been so verified, examine the serving-officer on oath, or cause him to be so examined by another Court.”

17. The following shall be inserted, after section 185, namely:—

“185A. (1) The Local Government may, by notification in the official Gazette, direct, with respect to any Judge specified in the notification, or falling under a description set forth therein, that

evidence in cases in which an appeal is allowed shall, instead of being taken down in the manner prescribed in the foregoing sections, be taken down by him with his own hand in the English language.

“(2) Where a Judge is prevented by any sufficient reason from complying with a direction under sub-section (1), he shall record the reason and cause the evidence to be taken down in writing from his dictation in open Court.

“(3) Evidence taken down under sub-section (1) or sub-section (2) shall be in the form mentioned in section 182, and be read over and signed, and, as occasion may require, interpreted and corrected, as if it were evidence taken down under that section.

“(4) The Local Government may, by notification in the official Gazette, revoke or vary a direction notified under sub-section (1).”

Addition to section 18. For section 191 the following shall be substituted, namely:—

“191. (1) Where the Judge taking down any evidence, or causing any evidence taken down by another Judge, memorandum to be made, under this Chapter, is prevented by death, transfer or other cause from concluding the trial of the suit, any successor to such Judge may deal with such evidence or memorandum as if he himself had taken it down or caused it to be made, and proceed with the suit from the stage at which his predecessor left it.

“(2) The provisions of sub-section (1) shall apply, so far as they can be made applicable, to a suit transferred under section 25:

“Provided that a Court transferring a suit under that section may, if it thinks fit, direct that the Court to which the suit is transferred shall recall all or any of the witnesses who have been examined and take their evidence afresh.”

19. To section 193 the following shall be added, namely:—

“A Court continuing a suit under section 191 may recall and re-examine a witness who has departed in accordance with section 173.”

20. (1) In section 209, for the first thirteen words the words “When a decree is for the payment of money” shall be substituted.

(2) To the same section the following shall be added, namely:—

“Where such a decree is silent with respect to the payment of further interest on such aggregate sum as aforesaid from the date of the decree to the date of payment or other earlier date, the Court shall be deemed to have refused such interest, and a separate suit therefor shall not lie.”

21. (r) In section 216, for the first twenty-four words the following shall be substituted, namely :—

"If the defendant has been allowed a set-off against the claim of the plaintiff,".

(2) To the same section the following shall be added, namely :—

"The provisions of this section shall apply whether the set-off is admissible under section 111 or otherwise."

22. In section 223, for the words "in a case cognizable by a Court of Small Causes" the following shall be substituted, namely :—

"in a suit of which the value as set forth in the plaint did not exceed two thousand rupees and which, as regards its subject-matter, is not excepted by the law for the time being in force from the cognizance of either a Presidency or a Provincial Court of Small Causes".

23. In section 229, after the word "established" the words "or continued" shall be inserted.

24. After section 229 the following shall be inserted, namely :—

"229A. So much of the foregoing sections of this Chapter as empowers a Court to send a decree for execution to another Court shall be construed as empowering a Court in British India to send a decree for execution to any Court established or continued by the authority of the Governor General in Council in the territories of any Foreign Prince or State to which the Governor General in Council has, by notification in the Gazette of India, declared this section to apply."

25. The last paragraph of section 230 is hereby repealed.

26. (r) In section 244, for clause (c) the following shall be substituted, namely :—

"(c) any other questions arising between the parties to the suit in which the decree was passed, or their representatives, and relating to the execution, discharge or satisfaction of the decree or to the stay of execution thereof."

(2) To the same section the following shall be added, namely :—

"If a question arises as to who is the representative of a party for the purposes of this section, the Court may either stay execution of the decree until the question has been determined by a separate suit or itself determine the question by an order under this section."

27. For the last paragraph of section 258 the following shall be substituted, namely :—

"Unless such a payment or adjustment has been certified as aforesaid, it shall not be recognized as a payment or adjustment of the decree by any Court executing the decree."

28. (r) In the first proviso to section 266, clause (a), the words "and bedding" shall be inserted after the word "apparel".

(2) In the same proviso, clause (b), after the word "cattle" the words "and seed-grain" shall be inserted.

(3) In the same proviso, for clause (h) the following shall be substituted, namely :—

"(h) the salary of a public officer or of any servant of a Railway Company or local authority to the extent of—

(i) the whole of the salary where the salary does not exceed twenty rupees monthly;

(ii) twenty rupees monthly where the salary exceeds twenty rupees and does not exceed forty rupees monthly; and

(iii) one moiety of the salary in any other case."

(4) To the same proviso, after clause (l), the following shall be added, namely :—

"(m) any allowance declared by any law passed under the Indian Councils Act, 1861, by a Governor or a Lieutenant-Governor in Council to be exempt from liability to attachment or sale in execution of a decree;

"(n) where the judgment-debtor is a person liable for the payment of land-revenue, any moveable property which under any law applicable to him is exempt from sale for the recovery of an arrear of such revenue."

(5) In the Explanation to the same proviso, for the word and letter "and (j)" the letters and word "(j) and (m)" shall be substituted.

29. In section 289 the words "on the spot where the property is attached" are hereby repealed.

30. To section 320 the following shall be added, namely :—

"Rules under this section may confer upon the Collector or any gazetted subordinate of the Collector all or any of the powers which the Court might exercise in the execution of the decree if the execution thereof had not been transferred to the Collector, including the powers of the Court under sections 294 and 312, and

may provide for orders passed by the Collector or any gazetted subordinate of the Collector, or orders passed on appeal with respect to such orders, being subject to appeal to and revision by superior Revenue-authorities as nearly as may be as the orders passed by the Court, or orders passed on appeal with respect to such orders, would be subject to appeal to and revision by appellate or revisional Courts under this Code or other law for the time being in force if the decree had not been transferred to the Collector.

"A power conferred by the rules upon the Collector or any gazetted subordinate of the Collector, or upon any appellate or revisional authority, shall not be exercisable by the Court or by any Court in exercise of any appellate or revisional jurisdiction which it has with respect to decrees or orders of the Court.

"In executing a decree transferred to the Collector under this section, the Collector and his subordinates shall be deemed to be acting judicially within the meaning of Act No. XVIII of 1850 (*an Act for the protection of Judicial Officers*).

31. (1) In section 349, for the words "is under arrest" the words "is in custody under the foregoing provisions of this Code" shall be substituted.

(2) In section 354, between the word "and" and the words "shall operate" the words "every order under that section appointing a Receiver" shall be inserted.

(3) For the second paragraph of section 360 the following shall be substituted, namely:—

"A Court so invested may entertain an application under section 344 by any person who has been arrested or imprisoned, or against whose property an order of attachment has been made, in execution of a decree for money passed by that Court."

(4) At the end of Chapter XX the following shall be inserted, namely:—

"360A. Nothing in this Chapter shall apply to any Court having jurisdiction within the limits of the town of Calcutta, Madras or Bombay."

32. (1) For sections 363 and 364 the following shall be substituted, namely:—

"363. If there are more plaintiffs than one, and any of them dies, and if the right to sue does not survive to the surviving plaintiff or plaintiffs alone but survives to him or them and the legal representative of the deceased plaintiff jointly, the Court may cause the legal representative, if any, of the deceased plaintiff to be made a party, and shall thereupon cause an entry to that effect to be made on the record and proceed with the suit."

(2) For section 365 the following shall be substituted, namely:—

"365. In case of the death of a sole plaintiff or sole surviving plaintiff, the legal representative of the deceased may, where the right to sue survives, apply to the Court to have his name entered on the record in place of the deceased plaintiff, and the Court shall thereupon enter his name and proceed with the suit."

(3) To section 368 the following shall be added, namely:—

"The legal representative of a deceased defendant may apply to have himself made a defendant in place of the deceased defendant, and the provisions of this section, so far as they are applicable, shall apply to the application and to the proceedings and consequences ensuing thereon."

(4) After section 372 the following shall be added, namely:—

"372A. The provisions of section 5 of the Indian Limitation Act, 1877, applicable to appeals shall apply to applications under sections 365, 366, 368 and 371."

33. To section 381 the following shall be added, namely:—

"or show good cause why such time should be extended, in which case the Court may extend it.

"Where a suit is dismissed under this section, the plaintiff may apply for an order to set the dismissal aside, and, if it is proved to the satisfaction of the Court that he was prevented by any sufficient cause from furnishing the security within the time allowed, the Court shall set aside the dismissal upon such terms as to security, costs or otherwise as it thinks fit, and shall appoint a day for proceeding with the suit.

"The dismissal shall not be set aside unless the plaintiff has served the defendant with notice in writing of his application.

"The provisions of the Indian Limitation Act, 1877, with respect to an application under section 103, and of this Code with respect to an appeal from an order rejecting such an application, shall apply, so far as they can be made applicable, to an application under this section for an order to set aside the dismissal of a suit, and to an appeal from an order rejecting such an application, respectively."

34. In section 386, for the words "or to any pleader of a High Court whom the Court issuing the commission thinks fit to appoint" the following shall be substituted, namely:—

"or to any pleader or other person whom the

Court issuing the commission may, subject to any rules of the High Court in this behalf, think fit to appoint."

35. In section 419, after the words "Government Pleader in any Court" the words "or such other person as the Local Government may for any Court appoint in this behalf" shall be inserted.

36. In section 424, after the words "intending plaintiff" the words "and the relief which he claims" shall be inserted.

37. (1) In section 432, after the words "British India," the following shall be inserted, namely:—

"or at the request of any person competent in the opinion of the Government to act on behalf of such Prince or Chief,".

(2) To the same section the following shall be added, namely:—

"An appointment under this section may be made for the purpose of a specified suit or of several specified suits, or for the purpose of all such suits as it may from time to time be necessary to prosecute or defend on behalf of the Prince or Chief.

"A person appointed under this section may authorise or appoint persons to make and do appearances, applications and acts in any such suit or suits as if he were himself a party to the suit or suits."

38. For section 433 the following shall be substituted, namely:—

"433. (1) Any such Prince or Chief, and any ambassador or envoy of a Foreign State, may, with the consent of the Governor General in Council, certified by the signature of one of the Secretaries to the Government of India (but not without such consent), be sued in any competent Court.

(2) Such consent may be given with respect to a specified suit or to several specified suits, or with respect to all suits of any specified class or classes, and may specify, in the case of any suit or class of suits, the Court in which the Prince, Chief, ambassador or envoy may be sued; but it shall not be given unless the Prince, Chief, ambassador or envoy—

(a) has instituted a suit in the Court against the person desiring to sue him, or

(b) by himself or another trades within the local limits of the jurisdiction of the Court, or

(c) is in possession of immoveable property situate within those limits and is to be sued with reference to such possession or for money charged on that property.

(3) No such Prince, Chief, ambassador or envoy shall be arrested under this Code, and,

except with the consent of the Governor General in Council certified as aforesaid, no decree shall be executed against the property of any such Prince, Chief, ambassador or envoy.

"(4) The Governor General in Council may, by notification in the Gazette of India, authorise a Local Government and any Secretary to that Government to exercise, with respect to any Prince, Chief, ambassador or envoy named in the notification, the functions assigned by the foregoing sub-sections to the Governor General in Council and a Secretary to the Government of India, respectively.

"(5) A person may, as a tenant of immoveable property, sue, without such consent as is mentioned in this section, a Prince, Chief, ambassador or envoy from whom he holds or claims to hold the property."

39. (1) Section 434 shall become section 229B, and any reference made before the commencement of this Act in any notification or other document to section 434 shall be read as a reference to section 229B.

(2) In section 229B, the words "or continued" shall be inserted after the word "established".

Insertion of new section 434.

40. After section 433 the following section shall be inserted, namely:—

Style of Princes and Chiefs as parties to suits.

"434. A Sovereign Prince or ruling Chief may sue, and shall be sued, in the name of his State:

"Provided that in giving the consent referred to in the last foregoing section the Governor General in Council or Local Government, as the case may be, may direct that any such Prince or Chief shall be sued in the name of an agent or in any other name."

Addition to section 464.

41. To section 464 the following shall be prefixed, namely:—

"Nothing in this Chapter applies to a Sovereign Prince or ruling Chief suing or being sued in the name of his State or being sued, by direction of the Governor General in Council or a Local Government, in the name of an agent or in any other name, and".

42. In section 503, clause (d), the words "as the Court thinks fit" shall be inserted after the words "by way of remuneration".

43. In section 504, for the words "the Court may appoint the Collector" the words "the Court may, with the consent of the Collector, appoint him" shall be substituted.

44. In section 539, for the words "having a direct interest" the words "having an interest" shall be substituted.

Addition to section 540. 45. To section 540 the following shall be added, namely:—

“An appeal may lie under this section from an original decree passed *ex parte*.”

Addition to section 549. 46. To section 549 the following shall be added, namely:—

“If such security be furnished, any costs for which a surety may have rendered himself liable may be recovered from him in execution of the decree of the Appellate Court in the same manner as if he were the appellant.”

Substitution of new section for section 551. 47. (1) For section 551 the following shall be substituted, namely:—

“551. (1) The Appellate Court, if it thinks fit, may, after fixing a day for hearing the appellant or his pleader and hearing him accordingly if he appears on that day, dismiss the appeal without sending notice of the appeal to the Court against whose decree the appeal is made and without serving notice on the respondent or his pleader.

“(2) If on the day fixed under sub-section (1) or any other day to which the hearing may be adjourned the appellant does not attend in person or by his pleader, the appeal shall be dismissed for default.

“(3) The dismissal of an appeal under this section shall be notified to the Court against whose decree the appeal is made.”

(2) For the first paragraph of section 552 the following shall be substituted, namely:—

“Unless the Appellate Court dismisses the appeal under the last foregoing section, it shall fix a day for hearing the appeal.”

(3) In section 558 the words and figures “section 551, sub-section (2),” shall be inserted before the word and figures “section 556”.

48. (1) For the proviso to the first paragraph of section 561 the following shall be substituted, namely:—

“Provided he has filed the objection in the Appellate Court within one month from the date of the service on him or his pleader under section 553 of notice of the day fixed for hearing the appeal, or within such further time as the Appellate Court may see fit to allow.”

(2) To the same section the following shall be added, namely:—

“Unless the respondent files with the objection a written acknowledgment from the appellant or his pleader of having received a copy thereof, the Appellate Court shall cause such a copy to be served, as soon as may be after

the filing of the objection, on the appellant or his pleader, at the expense of the respondent.

“The provisions of Chapter XLIV shall, so far as they can be made applicable, apply to an objection under this section.”

49. (1) In section 562 the words “so as to exclude any evidence of fact which appears to the Appellate Court essential to the determination of the rights of the parties” are hereby repealed.

(2) In the same section, for the word “investigate” the word “determine” shall be substituted.

50. Section 563 is hereby repealed.

51. In section 565, for the word “shall” the word “may” shall be substituted.

52. (1) In section 566 the words “and the evidence upon the record is not sufficient to enable the Appellate Court to determine such issue or question” are hereby repealed.

(2) In the same section, between the words “the Appellate Court may” and the words “frame issues” the words “if necessary” shall be inserted.

53. (1) In section 582, for the words “the words ‘plaintiff,’ ‘defendant’ and ‘suit’ shall be held to include an appellant, a respondent and an appeal, respectively,” the following shall be substituted, namely:—

“the word ‘plaintiff’ shall be held to include a plaintiff-appellant or defendant-appellant, the word ‘defendant’ a plaintiff-respondent or defendant-respondent, and the word ‘suit’ an appeal”.

(2) In the same section, the words and figures “including those of section 372A,” shall be inserted after the words “The provisions hereinbefore contained”.

54. To section 584 the following shall be added, namely:—

“An appeal may lie under this section from an appellate decree passed *ex parte*.”

55. (1) In section 588, clause (9), for the word “or” the word “for” shall be substituted.

(2) In the same section, clause (16), for the words “the first paragraph of” the words “and orders under” shall be substituted.

56. The first paragraph of section 589, and the word “other” in the second paragraph of that section, are hereby repealed.

57. Section 599, and in section 601 the words “within thirty days from the date of the order”, are hereby repealed.

58. After the second paragraph of section 610 Addition to section the following shall be inserted, namely:—

"In so far as the order awards costs to the respondent, it may be executed against a surety therefor, to the extent to which he has rendered himself liable, in the same manner as it may be executed against the appellant :

"Provided that such notice in writing as the Court in each case thinks sufficient has been given to the surety."

59. To section 626 the following proviso shall be added, namely:—

"and

"(c) an application made under section 624 to the Judge who delivered the judgment may, if that Judge has ordered notice to issue under proviso (a) to this section, be disposed of by his successor."

Addition of new sections after section 646.

60. After section 646 the following shall be inserted, namely:—

"646A. (1) If at any time before judgment a Court in which a suit has been instituted doubts whether the suit is cognizable by a Court of Small Causes or is not so cognizable, it may submit the record to the High Court with a statement of its reasons for the doubt as to the nature of the suit.

"(2) On receiving the record and statement the High Court may order the Court either to proceed with the suit or to return the plaint for presentation in such other Court as it may in its order declare to be competent to take cognizance of the suit.

"646B. (1) If it appears to a District Court that a Court subordinate thereto has, by reason of erroneously holding a suit to be cognizable by a Court of Small Causes or not to be so cognizable, failed to exercise a jurisdiction vested in it by law, or exercised a jurisdiction not so vested, the District Court may, and, if required by a party, shall, submit the record to the High Court with a statement of its reasons for considering the opinion of the subordinate Court with respect to the nature of the suit to be erroneous.

"(2) On receiving the record and statement, the High Court may pass such order in the case as it thinks fit.

"(3) With respect to any proceeding subsequent to decree in any case submitted to the High Court under this section, the High Court may make such order as in the circumstances appears to it to be just and proper.

"(4) A Court subordinate to a District Court shall comply with any requisition which the

District Court may make for any record or information for the purposes of this section."

61. (1) For the third paragraph of section 648 Amendment of, and the following shall be substituted:—

"and the Court making an arrest under this section shall send the person arrested to the Court by which the warrant of arrest was issued, unless he shows cause to the satisfaction of the former Court why he should not be sent to the latter Court, or unless he furnishes sufficient security for his appearance before the latter Court or (where the case is one under Chapter XXXIV) for satisfying any decree that may be passed against him by that Court, in either of which cases the Court making the arrest shall release him."

(2) To section 648 the following shall be added, namely:—

"Where a person to be arrested or moveable property to be attached under this section is within the local limits of the ordinary original civil jurisdiction of the High Court of Judicature at Fort William in Bengal or at Madras or Bombay, or of the Court of the Recorder of Rangoon, the copy of the warrant of arrest or of the order of attachment, and the probable amount of the costs of the arrest or attachment, shall be sent to the Court of Small Causes of Calcutta, Madras, Bombay or Rangoon, as the case may be, and that Court, on receipt of the copy and amount, shall proceed as if it were the District Court."

62. In section 650A, the words "or continued" shall be inserted after the word "established".

63. To section 652 the following shall be added, namely:—

"A High Court not established under the Statute 24 & 25 Victoria, chapter 104 (*an Act for establishing High Courts of Judicature in India*) may, from time to time, with the previous sanction of the Local Government, make, with respect to any matter other than procedure, any rule which any High Court so established might under section 15 of that Statute make with respect to any such matter for any part of the territories under its jurisdiction which is not included within the limits of a presidency-town. Rules so made shall be published in the same manner, and shall thereupon have the same force, as rules made and published under this section for the regulation of matters connected with procedure."

64. In form No. 137 of the fourth schedule the words "bound by the decree" shall be inserted after the words "remove any person".

65. (1) After clause (n) of section 17 of the Indian Registration Act, 1877, as amended by the Indian Registration Act, 1877.

1886, the following clause shall be added, namely:—

"(o) a certificate of sale granted to the purchaser of any property sold by public auction by a Civil or Revenue officer."

(2) In the second paragraph of section 50 of the same Act, for the word and letter "and (n)" the letters and word "(n) and (o)" shall be substituted.

(3) The Indian Registration Act, 1877, shall be construed as if the amendments made in it by this section had been made therein by Act XII of 1879 (*an Act to amend the Code of Civil Procedure, the Registration Act, 1877, and the Limitation Act, 1877*):

Provided that nothing in this sub-section shall be deemed to affect a decree or order made by any Court before the commencement of this Act.

66. (1) No. 161 of the second schedule to the Indian Limitation Act, 1877,

shall be transposed and become No. 173A, and the entry against it in the second column of that schedule shall be "Ditto", signifying ninety days.

(2) Nos. 171, 171A and 171B of the same schedule are hereby repealed.

CALCUTTA AND SUBURBAN MUNICIPALITIES AMALGAMATION BILL.

THE HON. SIR HENRY HARRISON moved that the clauses of Chapter II, Part I, of the Bill to consolidate and amend the law relating to the municipal affairs of the Town and Suburbs of Calcutta be further considered for settlement in the form recommended by the Select Committee.

The motion was put to the vote and carried.

THE HON. DR. GOOROO DAS BANERJEE moved that in line 3 of section 19, after the words "year 1888-89" the words "on some day, being a public holiday" be inserted. He said:—The object of this amendment is shortly this. The Bill requires that votes at all elections shall be given personally at the polling stations. That being so, unless the elections are held on a public holiday, it will place at a disadvantage a certain large and important class of voters—I mean the educated middle classes, whose occupation is for the most part service. Voters of this class always exercise their privilege of voting with honest independence and discrimination, and they contribute in no small measure to raising the tone of the elections and to the success of the elective system. It is but right, therefore, that their case should deserve some consideration, and the difficulty would be sufficiently met by holding the elections on some public holiday. There are no less than three public holidays about the time that these elections would be held, viz., New Year's Day, Sri Panchami, and Dole Jatra, and any one of these might be selected; or a special holiday might be given for the purpose.

HIS HONOUR THE PRESIDENT said:—I see no objection in substance to the motion before the Council, but I should like to know the effect of giving a special holiday. Would that necessarily mean that the Public Treasury and Banks would be closed, or merely public offices? If it is not intended to be a public holiday under the Negotiable Instruments Act, I have no objection.

THE HON. MR. MACAULAY said:—The hon. member forgets that, when the elections under the Bengal Municipalities Act were held, all public offices and courts under the control of the Local Government were closed by executive order. No public holiday was, however, declared under the Negotiable Instruments Act, as the effect would have been to stop the currency of bills of exchange.

THE HON. DR. GOOROO DAS BANERJEE said:—I have no objection to withdraw the amendment, as I understand that a public holiday in its more limited sense will be granted as far as the Local Government is concerned.

The motion was accordingly by leave withdrawn.

THE HON. DR. GOOROO DAS BANERJEE moved that from the first paragraph of section 19 the portion beginning with the words "until such election shall take effect" to the end of the paragraph be omitted. He said:—The object I had in view when I gave notice of this amendment was to make this section of the Bill consistent with the other provisions of the Bill in the event of the first amendment, of which I gave notice, viz., that no portion of the Suburbs be amalgamated with the Town, being carried. From that point of view this amendment has no object now: but it serves another purpose, and that is this. If this portion of section 19 is left out, some other provision would have to be made for the carrying on of the work of the Corporation between the time of the passing of this Bill into law and the time when the first elections pursuant to its provisions take place. As the provision stands, it authorises the Commissioners, who are in office at the date of the passing of this Bill into law, to continue in office and to carry on municipal work until the new elections take effect. But there are inconveniences in this, one of which I shall notice. Certain portions of the Suburbs will be amalgamated with the Town. These portions have their elected Commissioners, some of whom may reside within the limits of the new Town, others may not. The section says that "this Act shall be read as if the Commissioners elected for those parts of the Suburbs of Calcutta which correspond with Wards 19, 20, 21, 22, 23, 24 and 25, as defined in this Act, and the Commissioners for the Suburbs of Calcutta nominated by Government and resident in Calcutta, were duly

appointed and elected under this Act." So that some of the Commissioners for the Suburbs would be in office, while others would not be in office by reason of not being resident within the limits of the new Town. That is an inconvenience which would be avoided by omitting this portion of the section.

The HON. SIR HENRY HARRISON said:—The amendment of the hon. member is one which raises a point of considerable importance, and one which deserves the best consideration of the Council, because it will closely affect the working of the new Corporation in its initial stage. When section 19 was originally drafted, the hope was entertained that the Act might come into force from the beginning of the next year; and it was deliberately intended that the old Commissioners should work for nearly a year before the new elections took place in order that the difficulties of adjusting the new arrangements might fall into experienced hands, and it was with that object the last portion of this section was framed. But in the meantime the date of the Act coming into force has been thrown back a whole year. This provision of the Bill assumes that the Act would be in force considerably before 31st March. Therefore the question is, do the Council wish to have the new Corporation elected before the Act comes into force, or the Act to come into force first and to be worked for some time by the old body of Commissioners? There are some inconveniences in both proposals: but I think the inconveniences of working with the old body predominate. I do not anticipate any great difficulty from the number of the Commissioners, but there may be considerable difficulty in working Committees, especially the Town Council. This body now consists of 30 Commissioners, being one Commissioner for each ward and a due proportion of nominated Commissioners. The Commissioners who might be then members of the Town Council would naturally wish to remain in it, and it would be difficult to reduce it below that number. Then again representation must be given to the Suburban Commissioners, and it would be difficult to resist the pressure of individual members to have a Town Council of something like 40 Commissioners, and that would be a very formidable Committee indeed; so that probably there would be some inconvenience in working the Corporation with the joint bodies. The inconvenience arising from the other procedure is, I think, on the whole not so serious. It is mainly this, that we should have to conduct the elections from the Town without having that control over all the registers and statistics which a certain period of working would give us. I have very little doubt that the Suburban Commissioners will give us sufficient assistance as far as the owners and occupiers are concerned who are qualified to vote, and with regard to those who hold licenses we ourselves have the requisite information. But there is one class of electors who will not be able to vote at the first elections in that case, viz., those who pay Rs. 24 in the year, for the reason that the voters who will be able to obtain that qualification are chiefly the lower grades of the trades and professions tax payer, who will not be in existence in the Suburbs; and therefore a certain appreciable number of residents in the Suburbs, who would have got a vote if the Act had been in force for a year, will not be able to vote at the first elections, and consequently it may be made a matter of complaint that the constituency which elects the first body of Suburban Commissioners will be somewhat smaller than if the Act had been in force for a year. It is just possible that not having the same familiarity with the Suburban as with the Town wards our machinery will not work as smoothly as regards the Suburban elections as I hope it will with regard to the Town. I beg the Council to consider which of these two alternatives they prefer. If they prefer that the Commissioners should be elected before the new Act is worked, then they should adopt the amendment. In that case nothing more will be needed than in the first section of the Bill to enact that sections 7—34 of the Bill are for the purposes of the election to come into force on a date either to be fixed in the Act or on a date to be fixed by the Local Government, and that the rest of the Act shall come into operation on some other date specified. There will be no difficulty if the Council will declare whether they prefer that the Act should be worked by the joint body as was intended when the Bill was framed, or whether they prefer that the elections shall take place before the Act comes into force. That is the point which the Council has to decide in making up its mind on this amendment.

HIS HONOUR THE PRESIDENT said:—My own idea would be that for the convenience of working it will be better to fix by law, or to allow the Local Government to fix by notification, that from the beginning of the official year next following this the new Municipal Act is to come into force, and to go through the first elections within three months previously to that time. That would be in January or February next. I think the difficulty which the hon. mover of the amendment has pointed out is a real one, and I know not what further difficulties might crop up if the Act is to come into force now, but to be worked by the Town Corporation jointly with the Commissioners of the portions of the Suburbs which will be amalgamated, and with two separate establishments. This is merely my own idea, and I do not do more than ask the Council to consider it. The question is which of the two proposals the Council prefers. I shall be glad to accept whichever procedure is preferred.

THE HON. BABU KALI NATH MITTER said:—As far as my experience goes, I think it will be better to accept the suggestion of His Honour the President. It would be a better course than to have the affairs of the Municipality carried out by two separate bodies with separate establishments. It would be better for the Act to come into operation on a certain day, and to have the elections three months earlier. There would then be no difficulty in working the Act when it comes into force.

THE HON. MR. MACAULAY said:—I do not think we can allow section 19 to remain only with the first clause without any reference to the nominations as well as to the elections. The second clause refers to those elected and appointed. This, however, can be settled when we come to deal with section 1 of the Act.

THE HON. SIR HENRY HARRISON pointed out that the word "election" throughout the Act included the appointment of both elected and nominated Commissioners.

The motion was put to the vote and carried.

THE HON. SIR HENRY HARRISON moved that for the second paragraph of section 19 the following be substituted:—

"All subsequent general elections shall be held at intervals of three years, and shall take effect from the 1st April in the calendar year in which they are so held."

He said:—The object of the amendment is simply to put in the words "general elections" for "elections." As was pointed out by the Commissioner of the Presidency Division, the word "elections" might include "bye-elections." By putting in the words "calendar year," the 1st of April must be held to mean 1st of April 11 months before the general elections (?)

The motion was put to the vote and carried.

THE HON. MR. IRVING moved that in the proviso of section 19, for the word "fifty" the words "two hundred" be substituted. He said:—For the offence of personation, I think a heavier penalty than Rs. 50 ought to be imposed, and therefore I move that the maximum limit of penalty under the Rules be fixed at Rs. 200. In England the offence of personation is made a misdemeanour. It is true that, when the breach of any rule constitutes a serious offence, the offence might be dealt with under the Penal Code; but I think it is desirable to make an Act complete in itself, especially such an Act as this.

THE HON. SIR HENRY HARRISON said:—I have no views one way or the other as to this amendment. The majority of offences under these rules would be of a comparatively trifling character. In the event of any body committing a criminal offence, we shall always have the criminal law to fall back upon. If, however, the Council think it better to raise the penalty to Rs. 200, I have no objection.

The motion was put to the vote and carried.

THE HON. SIR HENRY HARRISON moved that in the last line of section 20, for the words "an election" the words "each general election" be substituted. He said:—This is a mere verbal amendment with the object of excluding bye-elections.

The motion was put to the vote and carried.

The HON. MR IRVING in moving that at the end of section 20, and at the end of the second paragraph of section 23, respectively, the words "and such list shall be obtainable on payment of a fee not exceeding eight annas" be inserted, said:—It will be to the interest of all classes that these lists should be readily obtainable; on the other hand it may be advisable to check a too wide application for copies, by the imposition of a small fee.

The HON. BABU KALI NATH MITTER said:—I do not think this amendment necessary. It will only have the effect of deterring persons from applying for these lists. It is very necessary that candidates for election should have free access to these lists, but if a fee is imposed it will deter some from applying for them. Hitherto no fee has been imposed.

HIS HONOUR THE PRESIDENT said:—The section requires that the lists shall be published, but if a copy of the list is wanted, I understand the object of the amendment is that it should be paid for.

The HON. SIR HENRY HARRISON said:—Hitherto the practice has been to print these lists and copies of them have been given without any charge to those who apply for them.

The HON. MR. IRVING said:—There might be a very wide and unnecessary call for copies of these lists, and the imposition of a small fee would prevent this. The proposal is that the fee should not exceed 8 annas: it might be 1, 2, or 4 annas.

The motion was put to the vote and carried.

The HON. SIR HENRY HARRISON moved that in line 8 of the proviso of section 21, for the word "show" the words "satisfy the Chairman" be substituted. He said:—The difficulty involved by the introduction of the word "show" has been pointed out in the office. The word "show" is ambiguous, and it is considered better to state more clearly what is meant. What is meant is that the person shall produce some *prima facie* evidence to show that he has paid occupancy rates. This is generally done by the production of rate bills. I think the substitution of the words "satisfy the Chairman" for "show" will be an improvement.

The motion was put to the vote and carried.

The HON. SIR HENRY HARRISON moved that in lines 6 and 7 of section 25, for the words "not less than five days before the date of election" the words "not less than five days before the date fixed for the publication of the revised list" be substituted. He said:—This is more than a verbal amendment. It was at first intended that the application under this section should be made five days before the elections, but it has been pointed out by those experienced in working the elections that it would be a great convenience if the bulk of the objections could be got rid of before the publication of the revised list, so that the revised list may, as nearly as possible, correspond with the actual voters. The amendment which I propose will necessitate applications being sent in a good deal earlier. For these reasons I think it will be better that companies, firms and associations of persons should be bound to apply earlier, in order that the revised list may, as far as possible, be correct.

The motion was put to the vote and carried.

The HON. SIR HENRY HARRISON moved that in line 8 of section 27, for the words "officers in all cases made over to them" the words "officer in all cases made over to him" be substituted. He said:—This also is a verbal amendment, and the reason for it is that it is more probable that the duty referred to will be entrusted to a single officer, and at any rate the singular will include the plural.

The motion was put to the vote and carried.

The HON. SIR HENRY HARRISON moved that in line 1 of section 31, for the words "the election" the words "general elections" be substituted. He said:—This also is a verbal amendment, similar to one which has already been made on my motion.

The motion was put to the vote and carried.

The Hon. Mr. LIVING moved that for the second paragraph of clause (c) of section 82 the following be substituted :—

"In the event of a Commissioner being absent on leave, to be granted by the Commissioners, for a period exceeding three months, and not exceeding twelve months, the Local Government may appoint a substitute to serve in his absence."

He said :—It appears to me that this amendment is a very reasonable one, while at the same time it is urgently required in the interests of Europeans. The present arrangement is defective, owing to the fact that a constituency may often remain unrepresented for a considerable period during the absence of a Commissioner from the country. In such cases, where the temporary vacancies are not filled up, the continuity of representation could only be secured at the cost of a fresh election. As an illustration of the present arrangement, I may mention that in Ward No. 12 not long ago an elected member, owing to missing his steamer, was absent for six and a half months; during his absence the ward was deprived of his representation, and because he was absent a few days over the prescribed period, a fresh election had to be held entailing both trouble and expense. It is to guard against such a state of things that I propose this amendment.

The Hon. Sir Henry Harrison said :—I do not think that the provision contained in this section will work well. How is it to be known that a Commissioner will be absent for a period exceeding three months and not exceeding 12 months. In some cases a Commissioner may intend to be absent for only two months, but may stay away for a longer period; or he may intend to return in 12 months, but may be detained for $12\frac{1}{2}$ months, and then as soon as the 12 months expire a fresh election must be made. Seeing that one-third of the Corporation will consist of nominated Commissioners, and two-thirds of elected Commissioners, I think there is some objection in principle to all vacancies caused by absence being filled up by the Local Government. There has hitherto been no serious practical inconvenience felt. Every now and then we have been working with one or two Commissioners less than the complete number, in consequence of absentee Commissioners electing not to resign because they expect to return within the six months. In such cases, if an absentee does not wish to resign, then for a period of six months one ward may be without one of its Commissioners, or there may be one less than the full number of nominated Commissioners; but I cannot say that the existing procedure has caused any practical inconvenience.

The Hon. Mr. Irving said :—Many Europeans go away for six or eight months, and they may wish to take leave of this kind. If the next general elections are near at hand the leave would very likely not be asked for, but if the Commissioners have the power of granting leave when it might easily be given, it would be a convenience, more especially for European Commissioners,

The Hon. Sir Henry Harrison said :—I think the amendment cannot be substituted for the clause in the Bill, which is a disqualifying clause. It may, however, be substituted for the specific clause which provides that no Commissioner shall be disqualified by reason of his being absent for a certain period.

His Honour the President said :—I see a difficulty in accepting the amendment as it stands, though I do not see much objection to its principle. The amendment gives the Commissioners power to grant leave or not as they choose. If they do not want a nominated Commissioner, they will not grant the leave, and they will have it in their power to prevent the Local Government from nominating a *locum tenens*. The difficulty consists in there being no alternative in cases where the Commissioners refuse to grant leave.

The Hon. Mr. Irving said :—I think it desirable that the Commissioners should have power to grant or withhold leave of this kind. Suppose a Commissioner finds it necessary to go away shortly after the elections: he very probably would wish to keep his seat, and the Commissioners would surely grant the leave. If, however, the absence occurs close to the period of the elections, leave would hardly be necessary.

The HON. SIR HENRY HARRISON said :—Then I think the period of absence without leave should be very considerably reduced—say to two months. If Commissioners can obtain leave, then I think it desirable to require them to obtain leave for all prolonged absences, at any rate for three months.

The HON. BABU KALI NATH MITTER said :—I suppose the effect will be that during the time the leave extends the nominated Commissioner will be only a substitute, and when the Commissioner comes back he will take up his own place, and the nominated Commissioner will retire. So that instead of having an elected Commissioner, you would have the services of a nominated Commissioner for that time. If a Commissioner goes away for six months or twelve months, would it not be better to leave his successor to work till the end of the term, instead of only during his absence? The gentleman who may be nominated would acquire experience, and by the time his experience becomes valuable, he will be superseded by the Commissioner who comes back. I do not think the amendment to be a desirable one.

The motion was put to the vote and negatived.

The HON. BABU KALI NATH MITTER moved that in clause (3) of section 36 the words "construction and" be omitted. He said :—The expenditure of funds for the construction of hospitals is a new power which it is proposed to give to the Commissioners. The power in itself is unobjectionable, but the question is whether the means at the disposal of the Commissioners will be such as to enable them to exercise it. This provision of the law may be thrown at their teeth, and it may be said that they are not performing their duty, inasmuch as they are not exercising this power. I submit that no necessity has arisen for adding this to the powers conferred by the existing law.

The HON. SIR HENRY HARRISON said :—I entirely sympathise with the main part of the hon. member's objection, that it is very undesirable that an additional charge should be thrown on the Corporation, looking to the work they will have to do in the newly amalgamated area. But the reason why this additional power should be conferred is because it is necessary on some occasions that hospitals should be provided for the treatment of small-pox and other contagious diseases. On such occasions it may become necessary to run up temporary hospitals for isolating those affected with the disease. That certainly has been done at Bombay; but we have not the power here to construct hospitals; we have only the power of maintenance. I think this is a flaw in the present Act, though I hope very much that the Commissioners will not be involved in any heavy expenses on account of construction.

The HON. DR. MAHENDRA LAL SIRCAR said :—For the reasons which have been mentioned by the hon. member in charge of the Bill, and to meet such occasions of emergency as have been referred to by him, I move an amendment that after the word "construction" the words "hospitals for contagious diseases which, if unchecked, might prove epidemic" be added. This will limit the power to a considerable extent.

The HON. BABU KALI NATH MITTER accepted the amendment.

The HON. MR. MACAULAY questioned if the word "maintenance" would cover the erection of additional buildings to hospitals. He did not think that the power of the Municipality should be restricted to hospitals for epidemic diseases and objected to the amendment as limiting the power of the Municipality with regard to what is very useful work.

The HON. SIR HENRY HARRISON said :—I am bound to confess that if, for instance, the Medical College Hospital had not been built, and very heavy expenditure had to be incurred for the purpose of building a hospital, considerable pressure might be put upon the Commissioners to contribute to its construction; and I should be very sorry to see expenditure incurred on such an account. At the same time I think it absolutely necessary that the Commissioners should have the power to construct temporary hospitals on emergencies.

The HON. DR. GOOROO DAS BANERJEE suggested the addition after the word "construction" of the words "in cases of emergency."

The HON. MR. MACAULAY pointed out that in the Mofussil Municipal Act, III of 1884, the words used were "establishment and maintenance of hospitals." This is a power generally used throughout the Province.

HIS HONOUR THE PRESIDENT said:—My own view certainly is that the section as it stands in the Bill should remain, and mainly for this reason, that, apart from the present state of the finances, the construction of hospitals is certainly work which is elsewhere only generally considered as a proper duty for a Municipality to undertake. The objection to the Hon. Dr. Mahendra Lal Sircar's amendment is that the Commissioners may be called upon to prove that a particular disease, if unchecked, would prove epidemic.

The clause as it stood in the Bill with the words "construction and" was then put to the vote and carried.

The HON. BABU KALI NATH MITTER moved that in clause 11) of the same section after the word "ceremony" the words "for illuminations, fireworks or the presentation of addresses" be inserted; and that the words "or entertainment in Calcutta" be omitted. He said:—My object is that the cost of "entertainments" should not be defrayed out of the Municipal Fund. If it should at any time become desirable to give a public entertainment, the Commissioners can always give it at their own expense. On some occasions, when the Commissioners were prepared to entertain certain eminent individuals at their own expense, the individuals proposed to be entertained objected. If such an entertainment is desirable on any occasion, there will be no difficulty to find the ways and means. But if such a provision be inserted in the Act, there will be frequent applications for such entertainments, and a good deal of money may be expended for purposes of this kind. On all public occasions, money has been contributed by the Municipality for illuminations and the like. Although there has been no distinct provision of law for that purpose, yet the Corporation, under the belief that no objection would be raised, has spent money for such purposes. Therefore, as far as such purposes are concerned, there will be no objection; but to carry it further will, in my opinion, be objectionable.

The motion was put to the vote and negatived.

The HON. DR. GOOROO DAS BANERJEE moved that after clause (11) of section 36 the following new clause be inserted:—

"(12) Promotion of primary and technical education."

He said:—Section 36 specifies several purposes to which the municipal fund may be appropriated, but one most important purpose has been altogether omitted, I mean education, and the object of this amendment has been to supply that omission. I know it may be said that education is an Imperial purpose, and that the expense for education ought to come out of Imperial and not from municipal funds. Perhaps that may be true as far as high education is concerned, but whether it is so or not it is not my object to discuss. It is a proposition which may be discussed on the amendment of the Hon. Sir Alfred Croft which is on the paper. I venture to think that ignorance and poverty are the main causes of those great sanitary evils which the municipal administration has to cope with, and that the best municipal arrangements from outside will fail to secure the desired object so long as the people are immersed in the depths of ignorance and poverty. You may improve bustees and have more efficient conservancy and other arrangements, but you will fail to restore the health of the inhabitants if they themselves are ignorant of the most elementary principles of sanitation. By spending a small part of the municipal funds for the promotion of technical education, we may help the children of the poor to enable them to learn useful occupations, and thus earn their livelihood; and by spending another small portion of those funds for the promotion of primary education, we may educate them just enough to enable them to read some of those excellent sanitary primers in the vernacular languages. Such expenditure is sure to prove remunerative in the sense that you would thereby secure from the people so educated an amount of willing obedience to your sanitary regulations which may perhaps enable you to dispense with a part of the establishment for enforcing those regulations. Nor is that all. We find in the Mofussil Municipal Act, III of 1884,

education may be given. In the Punjab, as in Bombay, the provision is not merely permissive, for the Local Government has power to fix the share of the municipal income which must be assigned for educational purposes. What I have stated is merely a sample of what is going on throughout India. It is true that in Bengal, and especially in Calcutta, the idea of municipalities taking an active share in education is a little strange to us; but I hope I have shown that throughout the rest of India the duty of municipalities to control education, and not merely primary education, is an accepted principle. I will now go on for four or five years, and show that out-side Bengal, and even within Bengal, municipalities have within that period not stood still. I find that from 1881-82 to 1885-86, the municipal expenditure on education throughout India increased from Rs. 4,66,000 to Rs. 11,40,000, of which Rs. 4,22,000 were devoted to secondary schools, and Rs. 4,86,000 to primary schools, Rs. 27,000 to special or technical education, Rs. 2,04,000 to inspection, school buildings, and other miscellaneous objects. In the Punjab, which stood at the head of all the provinces of India in 1881-82, the educational grant remained stationary, at about $1\frac{1}{2}$ lakhs of rupees. Bombay advanced from Rs. 80,000 to Rs. 1,71,000, Madras from Rs. 88,000 to Rs. 1,75,000; while the municipal expenditure on education in Burmah advanced from Rs. 33,000 to Rs. 2,53,000—the reason being that in Burmah large grants had been made to municipalities to enable them to carry on the whole educational system within the municipal area. It was declared to be the duty of municipalities in Burmah to undertake the management of education within that area, and special sources of income were transferred to them to enable them to do so. Even in the mofussil municipalities of Bengal, the educational expenditure rose from Rs. 25,000 to Rs. 82,000. The remarkable expansion to which I have just referred is due in great measure to action taken about this time by the Government of India. In 1881-82 the Government of India decided to relieve municipalities of all charges on account of the police, and to transfer to them the control of certain services which were held to be more within their province, such as sanitation, education, and public works. The transfer of funds to these objects was accordingly carried out in every province of India, and that accounts in a large measure, though not entirely, for the increase of expenditure on education. In Bengal it was hoped that the municipal expenditure on education would amount to Rs. 1,25,000. It has not yet reached that figure, but in many other provinces it has gone far beyond the requirements imposed on municipalities by the change to which I have referred. In Madras, for example, under instructions issued by the Madras Government, municipalities are expected and required to expend one-sixth of their total income on education.

So much for the general question; but I am bound to say that the particular case of Calcutta is in some respects an exceptional one. The sanitary requirements of Calcutta, it is said, are such that they will exhaust and swallow up the whole of the addition of three or four lakhs which is to be made to its revenues by the removal of the cost of the police. I do not know whether the terms upon which the Government makes over that grant to the municipality are such as to compel the money to be spent on sanitation alone, or whether, as in the case of every other municipality to which similar relief has been afforded, sanitation is only one of those objects, education being another. But however that may be, on the general question I cannot say that Calcutta stands in any different position from other large towns in India with regard to education. We have here in Calcutta 22,000 boys at schools of all classes, primary and secondary; but according to our estimate 22,000 is only about half the number of boys that should be at school. It follows that there are about 20,000 boys who get no education at all, not even the rudiments of education. To my mind it seems a matter beyond dispute that Calcutta, as a manufacturing and industrial town, would be the gainer by the education of these 20,000 boys—not merely in the way mentioned by the last speaker that they would be more amenable to sanitary influences, but that education will make them more intelligent citizens, and therefore more useful, and profitable to the town in which they live. That is the simple ground on which municipalities have thought it worth while to spend money on education.

All this of course refers to primary education. As to technical education,

School of Art has, I believe, a great future before it in the development of artistic industries. The engineering college has established such a position and attained such success that the trained apprentices find no difficulty in getting profitable employment all over Bengal. But when boys go to one or other of these institutions they do not even know the rudiments of drawing. They have to learn it from the beginning, and to spend a long time in acquiring that moderate amount of skill which they ought to have already acquired upon entering the school. It appears to me that if drawing classes were established by the municipality, they would do most useful work quite within its province, for the municipality ought not to be indifferent to the development of artistic and industrial skill. Technical schools might in the same way be attached, with great advantage, to the municipal workshops, in order to increase the supply of skilled artisans. This is a crying want, and amply justifies the devotion of municipal funds to technical education. I may mention that in Bombay the municipality contributed Rs. 80,000 to the establishment of a Jubilee Technical Institute, and have made an annual provision of Rs. 5,000 for the same purpose. In Poona the municipality gave Rs. 5,000 to a technical school.

As to secondary education, throughout Bengal and India large sums are expended by the municipalities. In different parts of the mofussil it is felt that the municipalities contain members thoroughly qualified to control education of that kind. They have accepted and managed with the greatest success the secondary schools which have been transferred to them in pursuance of the Local Self-Government policy. This has been done to a very large extent in the mofussil municipalities of Madras, Bombay and the North-Western Provinces. In the great Presidency towns like Calcutta the case is no doubt different. Here private enterprise is so strong that it never will be necessary to spend any large sums on secondary education. At the same time it might very well happen that the Government, on retiring from one of its secondary schools, might make an offer to the municipality to take it over with its grant. If so, there seems no reason why the municipality should refuse to undertake the charge—a charge which would generally involve no additional burden on the municipal fund. Then again, suppose the municipality maintains good primary schools, such as those which are the credit and the pride of Bombay—primary schools attended by hundreds of poor children, who thus secure a far better and sounder education of an elementary kind than private effort can give them. If there are such schools, the municipality might perhaps desire to add secondary classes for the further education of advanced scholars, permission. I do not think it is the business of this Council to refuse it that as it has not. It may be taken for granted that the permission will not be misused, they spend large sums on primary education, the expenditure on secondary schools is trifling. In the view of the position which the municipality of the metropolis of India has a right to claim, we may very well say—It is open to you to establish, without interference from us, a complete system of education according to your view of what is necessary and sufficient, after other and more important requirements have been met. Of that, the municipality must be the best judge. The clause which I propose to introduce is not a compulsory one, as it is in Bombay, Burmah, and the Punjab. All that we propose to say is that, you may, if you see fit, spend a certain sum upon education; primary and technical education in the first instance; secondary education if you think it necessary. I confess that I do not see how the claim can reasonably be refused. We have this simple fact, that in all the rest of India municipalities do undertake the control and support of education, and do not limit it to primary education. If that is right for other municipalities, it is right also for Calcutta. If it is wrong in Calcutta, then you declare that the policy followed in every municipality in India is wrong. It seems to me that the burden of proof lies on those who deny that the municipality of Calcutta is qualified to exercise powers which are conferred on and exercised by every other municipality in India.

The Hon. SIR HENRY HARRISON said:—As regards the amendment of the Hon. Dr. Gooroo Das Banerjee, I dare say the majority of the Council are aware that the original Bill contained a provision for sanctioning expenditure on primary education. The reason was that we found that in the Suburbs such

section 69, clause 5, that the construction and repair of school-houses, and the establishment and maintenance of schools either wholly or by means of grants-in-aid, forms one of the purposes to which municipal funds may be appropriated; and if the municipalities in the mofussil can afford to expend money on such objects, there is no reason why the Metropolitan Municipality should grudge to do the same.

There is another point of view from which the matter may be considered. The Bill proposes to amalgamate a large part of the suburban area with the town. Now the Suburbs already enjoy this advantage. There are schools in the suburban area which already get grants from the suburban municipal funds, limited as they are; and now that these areas are to be amalgamated with the town, it will be disappointing expectations and disregarding vested interests if you suddenly deprive them of the aid they now receive.

I may also point out that in other countries, which we always do well to imitate, municipal funds are largely spent on education. From an abstract which I hold in my hand of the report of the Local Government Board in England for 1880, I find that, whereas two millions sterling were expended on highways, nearly four millions were spent on elementary education. I therefore submit that for the limited purpose of elementary and technical education the Calcutta Municipality ought to contribute something.

The Hon. SIR ALFRED CROFT moved that after clause (11) of section 36 the following new clause be inserted:—

“(12) Maintenance, support and inspection of schools, including technical schools”

He said:—There is an important difference between the amendment which I have the honour to move and that which has just been moved. By my amendment the duty of the municipality is not limited to the provision of technical and primary education. It imposes no limit of that kind so far as schools are concerned, but allows the municipality to apply its funds to education whether primary or secondary, whether technical or general. It allows the municipality, first, to establish schools of its own; secondly to support schools, that is to say, to give grants-in-aid to the support of schools maintained by private individuals or by other public bodies; and lastly to inspect schools, where necessary. I do not propose to dwell on the general principles on which the duty of municipalities to provide for education may be defended, nor will I do more than just glance at the very pronounced view of the duties of municipalities in this respect which prevails in England and on the continent of Europe. I need not go so far afield as that. I shall find quite sufficient material for my remarks within the continent of India. The objections which have been raised to the inclusion of education amongst the objects on which municipal funds can be spent are, as far as I have been able to ascertain them, two. They are, first, that education is no concern of an Indian municipality; that if education is to be provided within a municipality it should be provided by the State or by associations of private persons; and the second ground is that in the particular case of Calcutta, where the sanitary requirements of the people are so urgent, it would be unjust to divert any portion of the municipal funds from the objects for which they are so urgently required, to a purpose of less importance such as education. First, then, as to the general principle. When it is said that a municipality as such has no concern with education, that is to me so novel a view that I hope I may be pardoned if I occupy the time of the Council a little in order to show how exceptional that view is, and how much at variance with the common opinion and almost the universal practice in India. This is a point to which the Education Commission which sat in 1882-83 paid a great deal of attention. They took for granted—and in that assumption they were justified by the common practice of municipalities in India—that it is the business of municipalities to take charge of education. They said:—“The obvious advantage of connecting the education of the masses with local popular organisation has long been recognised,” and they proceed to state the extent to which municipalities in India have recognised this principle. The figures they give are somewhat surprising. In 1882 the municipalities in the Punjab spent Rs. 1,51,000 on education; Madras spent Rs. 88,000; Bombay Rs. 80,000; the North-Western Provinces Rs. 52,000; the Central Provinces Rs. 35,000; while Bengal comes last with Rs. 25,000. Then.

again, when we turn to percentages, we find that the Bombay municipalities expended 5·6 per cent. of their total income; Madras 3·8 per cent., and so on until we come down to the municipalities in Bengal, with less than half per cent. As regards Bengal, that proportion is confined to mofussil municipalities, because in Calcutta not one penny is spent on education. On this point the Education Commission remarked:—"In no other province of India do municipal bodies exhibit greater indifference to the claims of education upon the town funds. Even in the city of Calcutta no steps have been taken in this direction, though so far back as 1873 Sir George Campbell expressed a hope that the municipality in Calcutta would move the Legislature to permit the expenditure of some part of its large income upon primary schools for the children of the Calcutta poor." The Commission, I may add, went even further. Reviewing the progress of education in the past, they strongly recommended that the educational sections of the new Municipal Bills, then before the different Legislative Councils, should no longer be permissive, but compulsory. They said that executive orders of clear import and general application issued from 1854 to the present time had failed more or less in all provinces to ensure uniform attention to broad principles prescribed for general guidance; and they added:—"The evidence given before the Commission affords proof of the unanimous conviction entertained in all provinces of India, that the time has come when the exercise of these permissive powers can no longer be left to the discretion of municipal bodies." That view, however, has not generally commended itself to the local Legislatures. In more than one province it is true that under recent legislation the educational clauses of the Municipal Acts are not permissive but compulsory; or else power is taken by the Local Government to decide what proportion of the total municipal income should be devoted to education. But in general the Local Governments have, with one or two exceptions, expressed reluctance to compel these bodies, by executive order, to devote a certain minimum share of their income to education; and while they have not hesitated to express their wishes and expectations in the matter, they have for the most part been content to leave the municipalities concerned to fix the amount of their educational grants, in the full belief that the Boards would of their own motion make adequate provision for the maintenance of schools, and that a policy of compulsion was neither necessary nor desirable. But the general principle was fully accepted both by the Government of India and by the Secretary of State. The Government of India, in reviewing the report of the Education Commission, plainly stated that it was the duty of municipalities to provide for education. They said:—"Under all the Acts for settling the conditions of Local Self-Government in municipalities, provision more or less complete has been made for education;" and they went on to show that the Bengal Government anticipated a contribution of Rs. 1,25,000, for educational purposes from the municipalities of the province, excluding Calcutta.

Such then being the state of current opinion on the subject, it is important to show how far this general opinion, that municipalities should concern themselves with education, has been embodied in legislative enactments. In the District Municipal Act of Bombay I find, amongst the objects to which the municipal fund may be devoted, that adequate provision *must* be made, not *may* be made, for middle and primary schools, and that adequate provision *may* be made for higher schools. And then the Local Government takes power to define what an adequate provision is; and to ensure that the provision shall be adequate by declaring the minimum sum which municipalities are required to spend upon education. Then in Madras, district municipalities are required to provide for all primary and lower secondary schools within the municipal area. These are the provisions for district municipalities. Next I will take the Presidency towns. In Bombay, the Municipal Bill is still under consideration, and it is impossible to say what form the educational sections will take. I understand that they are not likely to depart far from the provisions of the existing Act. The Act of 1872, by which the Bombay Municipality is still governed, is not compulsory but permissive. It allows the municipal fund to be devoted to education of all grades, without any restriction to primary education. So again, in the town of Madras the municipality is required to provide for the elementary education of the poor, and to build school-houses in which such

expenditure was actually being incurred, there being a grant of Rs. 8,000 for the purpose. We thought it would be invidious to deprive the Suburbs of what they had hitherto received, the intention being merely that their rights should be preserved to them, while at the same time it was foreseen that the words might be capable of extension to other primary schools. And after the fullest consideration I am constrained to say that so strong a case has been made out on behalf of primary education that I cannot go against this amendment. I myself feel bound, seeing the weight of precedent and reason adduced for it, to vote so far as to put in a provision allowing the municipality to provide for primary education and technical education.

Then I come to my hon. friend Sir Alfred Croft's amendment, and here I find myself in a position of very great difficulty, because on the one hand I look on the amendment with the greatest possible apprehension, on the other hand I am equally bound to say that he has made a very strong case indeed; but the stronger the case the stronger is my apprehension. I feel that the case made out is so strong that it will be very difficult for me to induce the Council to reject the amendment. I am equally bound to admit that, so far as the precedent and practice of Bombay and other municipalities are concerned, they are all against me. In the Bombay draft Bill, which has passed the Select Committee, expenditure upon primary education is made compulsory, while as regards secondary education it is optional. In Bengal under the Municipal Act mofussil municipalities can spend money on education in giving grants-in-aid to schools and in various other ways. So that, except so far as our own Act is concerned, we have to face the contrary practice all round, and my hon. friend Sir Alfred Croft is justified in saying that the onus lies on us to disprove the propriety of adopting his amendment. Nevertheless that is which I am bound to attempt. My hon. friend referred to two arguments which might bear specially against his proposal. One is that the proposal is against the weight of practice or precedent elsewhere. That argument cannot be met because he proved successfully that both practice and precedent are against us. He also referred to the argument that heavy expenditure is required for the sanitation of Calcutta and the Suburbs, and that is the only argument I feel bound to press upon the consideration of the Council. The first point to recollect is that municipalities in India are essentially poor bodies; the municipalities of Calcutta and Bombay are by far the richest in India, but yet their means cannot compare with the means at the disposal of civilised municipalities elsewhere. Calcutta has to levy its taxation almost entirely by rates on property, and the assessable value of property in Calcutta does not exceed £1,200,000 a year. It is considerably less than one-twentieth of the rateable value of London, and the population of that city is only seven times larger. It is less than one-tenth of New York with a population twice as large. It is less than one-fourth of Philadelphia with a population only slightly larger: so that the Calcutta Municipality cannot command anything like the funds of other large cities. But when we come to the question of expenditure, then we find that sanitation in Calcutta attains such importance that, so far from the expenditure being less, expenditure quite on the same scale as in English cities becomes obligatory. We are to have a large area in the most insanitary condition added immediately to the town. Nobody would say that the town itself is in anything like a satisfactory sanitary condition. The difficulty in adding the suburban area has been, simply and solely this, that no one could suggest the sources from which the funds should come. The Amalgamation Committee was distinctly of opinion that, about six lakhs ought to be added to the funds of the municipality from some source. I myself formed a more sanguine estimate, and leaned to the opinion that probably four lakhs may suffice. I took a more sanguine estimate than any other member of the Committee. Can any one in this Council doubt that as soon as the suburban area is added to the town we shall have the fullest possible use for all the funds at the disposal of the municipality? I admit that education is a legitimate subject of municipal expenditure, but I also maintain that it is a secondary object. It is not to be put on the same plane as the primary objects, such as the repair of roads, the removal of refuse, cleansing, sewerage, supplying water, and in one general word "sanitation." If education is to supplant any of these objects, would it be right? I put it to the Council whether if Rs. 50,000

be taken from the purposes of sanitation and given to education, it would not be a mistake. That is a point on which I am so satisfied that I must press this view on the attention of the Council. I am far from sanguine that the effect of this amendment would be that only a small sum will be expended upon secondary education, but so far from that being likely, I feel it most probable that the expenditure under this head would soon be large. The people of Calcutta have a strong, natural and proper sympathy for high education, and the municipal body being in itself extremely sympathetic with educational institutions, we should have siege laid to our funds by perhaps the most experienced and skilful body that you could find to conduct such a siege successfully, namely, the large body of educationists in Calcutta who so much deserve and command the appreciation of the public; and the very fact of their appealing for help would go far to secure it. In the first instance some institution of an extremely beneficial character, and which met a recognised want, would probably come forward and would almost certainly succeed in getting a grant. One precedent having broken the ice, others would come in on the same ground, and before long—I appeal to hon. members who can judge of these matters—the educational budget would be a very ample one indeed. While that would be the case on the one hand, is there any reason to suppose that the natural and laudable desire of the rate-payers to keep taxation at its lowest limit would be diminished? While money would be granted freely for educational purposes, the temptation would be almost irresistible to effect economies in other directions in order to balance for the grant given to education. It is but fair to admit that my argument goes beyond the case of Calcutta. I admit that it equally applies to other municipalities in India. But strong as is the case which has been made out in other ways, my hon. friend has on this point given me considerable assistance, because he has shown that there is no head of expenditure which has so rapidly increased with municipalities as education. He showed that the educational grant had grown from four lakhs to eleven lakhs in a short time. That is exactly what I should have expected. There is no object of expenditure which is likely to develop more rapidly. The one head which would soon grow with the greatest rapidity would be education. But as regards the circumstances of educational expenditure in other countries, there is considerable difference. In England, education is placed under special School Boards under the Act of 1870, and these School Boards fix their own expenditure, and they spend it. But it is obvious that Local Sanitary Boards or Municipalities, which are totally distinct bodies, are not deterred from spending money on sanitation because other distinct bodies are spending money on other objects. But in our case we should have the same body which is spending money on education—the body which has to judge of sanitary requirements—and there would be an inevitable tendency to substitute one class of expenditure for the other. Then again the difficulty with regard to each community in Calcutta would be very serious. Calcutta is not composed of one homogeneous community, whereas you have in mofussil municipalities a more or less homogeneous population, where there are Hindus or Mahomedans, or Hindus and Mahomedans. But here we would have classes of expenditure fundamentally different, which would come before the Municipal Commissioners. We have large schools of the European and Eurasian element which would appeal for support, and large schools of the native communities. A great many of these are no doubt self-supporting. Secondary education in Calcutta can be made self-supporting, and that is a strong reason why aid is not necessary for this class of schools. But it would be a very serious task for the Corporation to do justice between all the communities which would appeal to it for aid.

Lastly, there is this special difficulty that it is a fundamental principle which has been laid down by the Government of India that, as a rule, money should only be expended by municipalities on objects which are under municipal control; but although the amendment includes cases in which the municipality might have such control, it allows the municipality to make grants to any schools in behalf of which sufficiently strong pressure is brought to bear upon it, without there being any control at all. If a municipality cares to spend money on education, I think it extremely important that they should themselves exercise a control over its expenditure, and I would suggest that we ought to introduce some provi-

educational rate, because the present rates have been certainly fixed with a view to the requirements of the town without taking into account any expenditure on education, and if such expenditure is to be added, I certainly think that power should be given to levy an educational rate.

For these reasons I think it extremely important that the Council should not introduce into Calcutta the principle of applying municipal funds for the purposes of higher education.

The HON. DR. MAHENDRA LAL SIRCAR said:—After the exhaustive speech of the last hon. speaker, conclusively disposing of the arguments of the hon. mover of the amendment, it would be superfluous for me to say much. I would simply ask the Council from what fund it is contemplated to provide for the maintenance, support and inspection of schools, and the maintenance of free libraries. It must be from what is known as the General Fund; and I would ask if anything of that fund would remain after it had been exhausted by the very comprehensive items of expenditure which had to be provided for out of that fund. Unless, therefore, it is intended to impose a new rate—an education rate—it will be found extremely difficult in practice to divert any portion of the Municipal Fund towards such purposes which, in my humble opinion, has no direct connection with the public health, safety and convenience. Impose an education rate, and then we shall know what portion of the Municipal Fund to appropriate to educational purposes. But unless you do so, to expend any portion of the municipal revenues upon education will simply be a fraud upon the rate-payers. With all my love for education, I have not been able to persuade myself that the provision of education forms a part of municipal duty. The arguments brought forward in favour of it might as well justify the municipality to maintain an army, a body of volunteers, Hindu temples, Mahomedan Masjids, Christian Churches. If you once adopt the principle of providing from the municipal fund for the maintenance, support, and inspection of schools, there would be no limit to the expenditure. Already there are a very large number of schools, and I hope the number will be multiplied a hundredfold. Would your municipal fund suffice for the provision of all these schools? The community of Calcutta is a heterogeneous community, and the question of nationality and race will most unpleasantly spring up. You will have Hindus and Mahomedans and Christians all clamouring for support of their schools from the municipal fund. Would the Commissioners be able to meet all this clamour? If you can impose an education rate, by all means have such a fund and declare the purposes to which it should be applied, but not otherwise.

The HON. THE ADVOCATE-GENERAL said:—As I intend to vote against this amendment, I consider it necessary to say a few words lest my silent vote should be supposed to indicate that I do not sufficiently appreciate the arguments which the Hon. Sir Alfred Croft has adduced in favour of the advantages of education, or that I am opposed to the general views he has expressed. If I could approach the subject of this discussion with the fact that the municipal funds of this town were unencumbered and in a flourishing condition, and with the assurance that the money which would be raised would be more than sufficient to supply all the wants of the town in respect of its sanitation, I would consider the present a proper time for discussing the question raised. Unless we are satisfied that the requirements of the municipality can be met in this respect, we are not in a position to introduce another subject of expenditure. Therefore, I do not intend to consider or discuss the question whether, strictly speaking, municipal institutions are concerned in education or not, nor even the merits of the smaller proposition put forward by the Hon. Dr. Gooroo Das Banerjee in reference to the larger measure advocated by the Hon. Sir Alfred Croft; I wish to impress upon the Council that the time has not arrived for these amendments. If I were perfectly satisfied that the funds now in hand were not all required for sanitary purposes in particular parts of the town of Calcutta, then, as I said before, the question would arise. So long as the Municipal Funds are urgently required for sanitary and other purposes, I would protest against enlarging the area of the subjects to which they might be applied. I would not enlarge it beyond the purposes stated in

And here I would point out a little discrepancy between section 33 and the amendments proposed to be introduced into it. Section 33 says—"The purposes expressly authorized by this Act shall be held to include the objects connected with the public safety, health and convenience hereinafter specified," that is to say—expenditure on account of certain purposes detailed in clauses (1) to (11) of the section. To these the Hon. Sir Alfred Croft would add "the maintenance, support and inspection of schools, including technical schools, and the provision of free libraries" as a twelfth subject of expenditure. This clause would be governed, as the whole of the other clauses are, by that which preceded them, viz., by objects connected with public safety, health or convenience. I assert none of these heads comprehends education and free libraries. The Hon. Dr. Gooroo Das Banerjee, who is a learned lawyer, perceiving very clearly that unless he could in some way associate this educational purpose with sanitation, or some one of the purposes of the section, ingeniously connected it with sanitation. He said that if you give the people education you purify their hearts, their thoughts and their manners, and you will consequently be able to reduce your expenses of sanitation and your establishments, and in due course of time less expenditure will be required for sanitation. But that is after all an indirect means of aiding sanitation. I think if he is entitled to use the argument to which I have just adverted, I am equally entitled to answer it by saying if you are justified in incurring expenditure in purifying the hearts and minds of the people, why not enable them to purify and cleanse their bodies by the help of soap purchased out of Municipal Funds and distributed gratuitously in large quantities, and thus aid the scheme of sanitation by an indirect means as potent as that advocated by Dr. Gooroo Das. I must not be supposed to complain of the argument used; I would merely point out that, unless ingenuity was brought to bear on the subject and used to afford some support to the position that education must be placed by the side of sanitation, the motion must fail. I think I have said sufficient to expose the fallacy of the argument, and I earnestly ask the Council that unless sufficient provision can be made for the necessary purposes of sanitation, we should not think of opening out new sources of expenditure for which, as the hon. member in charge of the Bill had told the Council, there would be numerous claimants. For a time it may be that this provision will merely be a permissive one. The municipal body is a large body with an experienced Chairman at its head. He may lead them in most cases rightly; but it may happen that members of the Municipality, holding the views of the hon. movers of these amendments, may insist upon education being provided out of Municipal Funds and succeed in over-ruling their opponents: in such a case there would be a grave responsibility incurred if the Municipal Funds be diverted from their legitimate objects of expenditure. Under these circumstances, I shall oppose these amendments.

The Hon. BABU KALI NATH MITTER said:—From the amendment which I moved on this section it will be quite evident that I am seriously alarmed at the prospect of expenditure which the Commissioners will not have the means to meet. I objected to "entertainments" because of its being a source of expenditure, and secondary education is thrown upon the municipality. I certainly think that the expenditure on such an object would be enormous, and that the Commissioners will not be able to resist the temptation of spending money under this head: the cry for help will be so great that it will be impossible to resist it. When this matter was discussed by the Commissioners, though one party was violently opposed to the introduction into the Bill of education as one of the objects of expenditure, because the funds at disposal would not enable them to spend money on education, another party, equally strong, thought that at any rate primary education should be provided for. Ultimately the latter prevailed, and the resolution that was passed was that, so far as primary education was concerned, some provision ought to be made. As has been very justly pointed out by the hon. mover of the first amendment, that at the present time some of the schools which exist in the area going to be added do receive some contribution from the Suburban Commissioners, it was thought proper at one time to provide for them, and no further. To that limited extent I am quite prepared

to support the hon. member, because I think it right that the schools which at present enjoy a contribution should continue to enjoy it. But beyond that I am not prepared to go. The prospects of the future municipality seem to me to be gloomy. Powers are being given to them in the exercise of which it will be necessary to have large sums at their disposal; but as far as I have been able to see, those funds are not available. That being so, I regret I cannot agree to the amendment of my hon. friend Sir Alfred Croft.

The HON. DR. GOOROO DAS BANERJEE in reply said:—One of my hon. colleagues has been pleased to observe that the diverting of any portion of the municipal fund to purposes of education will be a fraud upon the rate-payers, unless they are previously told that part of the taxes they are paying will be devoted to that purpose, and unless an education rate is levied. We know that, in the suburban area at any rate, it can by no means be open to such remarks, because we have such provision made in the Act in force there. Therefore I take it that the strong language in which my hon. friend has criticised this amendment is after all a matter of rhetoric and eloquence with a large measure of which Nature has blessed him. But the ground upon which I based the amendment was that it would be a matter of disappointment to expectations and vested interests to deprive the suburban schools, which already enjoy such contributions, from their benefit after the passing of this new law.

Then with reference to the remarks of the hon. the Advocate-General, he observed that the time had not arrived for the appropriation of any part of the municipal fund to purposes of education. I freely confess that I feel the force of his observations and those of the Hon. the Chairman of the Corporation, that for some time to come the municipal fund will be sufficiently taxed by new burden thrown upon it. But still I cannot persuade myself that the provision of a small contribution which the limited scope of my amendment will necessitate will be anything but remunerative. I am sorry I have not been able to place in the hands of the Advocate-General some of those simple sanitary primers in Bengali which ought I think to be scattered among the poor population of Calcutta. I may be a little enthusiastic in my admiration of these little books, and of the importance of primary education in securing free and willing obedience to our municipal regulations on the part of the people. But I am not singular in my expectations, for such expenditure has in other places been regarded as remunerative. The small extent to which the municipal funds will be taxed will be more than returned—if not immediately, certainly in the course of a few years.

HIS HONOUR THE PRESIDENT said:—I think I ought to make a few remarks before putting this question to the vote. I confess that the turn which the debate has taken on this point has rather disappointed me. I have always been told that the municipality, under the guidance of its admirable Chairman, had really been doing very good and very great work during the last fifteen years. I had been led to suppose that they were capable of expending their funds with something like reason, and that really they might be left to themselves in these matters. Again I have been informed on the best authority that though they loved education, yet they also loved sanitation, and that they were most eager to carry out whatever was reasonable in the recommendations before them. I had certainly gathered also that under the guidance of their able Chairman they had very considerable powers of resistance, but now we are informed that, however hard up they may be, however their funds were pledged to sanitation, however impossible it may be to spend money on schools, yet on the very first onset the cry of the body of educationists would be so strong that both they and their Chairman would be incapable of resisting the appeal, and that their funds would be at the mercy of everybody who came to them. I am not disposed to think that the Municipal Commissioners of Calcutta are so weak. I myself believe that, with the advice and assistance they are likely to get, they will be capable of spending money, at all events on primary education, wisely and well. The principle has been accepted in every town in India, and certainly elsewhere. I do not want to discuss the necessity or the propriety of it in Calcutta, but as a matter of principle I am not prepared to tie up the hands of the municipality, and to say that without special legislation they shall not spend a penny on primary and technical education.

The HON. DR. GOOROO DAS BANERJEE moved that the following new clause be inserted after the above:—

“(13). Contribution to any neighbouring municipality for sanitary purposes.”

He said that after the amalgamation the new municipality would be brought into immediate contact with poor municipalities on the north, east and south of the town. These poor municipalities not being at any considerable distance from the town, the health of the town might be affected by those subtle agencies by which disease is spread, so that for the health of the town the sanitary improvement of these poor municipalities would continue to be as much necessary as the improvement of the suburban area, now going to be amalgamated, has been felt to be for the improvement of the present town. And if these neighbouring municipalities are really from want of funds unable to carry out such matters, it is certainly necessary that the town should curtail some of its items of expenditure, for certain purposes which may without offence be considered superfluous, for the purpose of applying the money to that which is necessary not only for the health of its poor neighbours, but also for that of the town itself. And here we have very good precedent. In section 70 of the Mofussil Municipal Act, there is a provision for making similar contributions to neighbouring municipalities. If poor and backward municipalities in the mofussil can afford to make these contributions, there is no reason why the richest and most advanced municipality of the metropolis should be unable to make similar contributions to its poorer neighbours, especially when the contribution will be for its own welfare. It should also be borne in mind that the insertion of this clause will not impose any obligation on the Calcutta Corporation, but will only enable it to make grants when it has funds at its disposal and when a fit case is made out, and the Calcutta Corporation itself will be the judge of such fitness. They who will be the judges have themselves in one sense an opposite interest, and there is no likelihood of their making any such contribution unless the necessity is clearly proved and unless the contribution be for their own benefit.

The HON. SIR HENRY HARRISON said:—I entirely agree with the hon. member, and precisely for the reason he has given. It might, for instance, be for the benefit of the health of Calcutta to assist in the sanitation of the island of Oultadanga or of Chitpore or Cossipore. The municipality would be very unlikely to sanction any expenditure unless the Commissioners were satisfied that a sufficient case was made out. I am afraid I shall again incur the criticism which His Honour the President directed against the Commissioners. It is better, however, to be conscious of your own weakness.

pressure; but in the case under consideration they will be very unlikely to vote funds for any other Municipality unless an overwhelming case were made out.

The HON. THE ADVOCATE-GENERAL said he thought that, with the amalgamation of the Suburbs, this amendment becomes an absolute necessity.

The motion was put to the vote and carried.

The HON. SIR ALFRED CROFT moved that the following new clause be added to section 36:—

“Provision of free libraries.”

He said—Little argument is needed to show that the establishment of a free library in the town would be a great advantage to an educated population, and it is proposed to allow the municipality to devote a portion of its funds to such a purpose. The provision would be permissive. Such a provision is contained in the District Municipal Act of Bombay, where Municipal Funds may be devoted to the maintenance of libraries and museums. In the particular case of Calcutta, the question derives importance from the fact that two years ago a proposal was actually made that the public library at the Metcalfe Hall should be transferred to the control of the Calcutta Municipality, or else that the Municipality should make a contribution to it. The desirability of having such a library was admitted, but there were two reasons why the Municipality did not then accept the offer. In the first place they doubted whether the project was expedient at the time and in the circumstances that existed; but in the second place they pointed out that the Municipal Act made no provision for the application of Municipal Funds to such an object. The Government of Bengal, in addressing the Municipality on the subject, said that, should the Corporation be inclined to devote its funds to such a purpose, the necessary provision would be introduced into the new Municipal Bill. As it seems to me that the question may arise hereafter as it did before, and that possibly the Calcutta Corporation may then desire to devote a portion of its funds to such a purpose, a clause enabling them to do so should be inserted in the Bill.

The motion being put, the Council divided:—

HIS HONOUR THE PRESIDENT said:—The Council will remember that on the 7th of January the Select Committee laid before the Council the first instalment of their report, and I then took the opinion of the Council as to whether we should proceed to consider that report after its publication, or whether we should wait till the full report of the Committee was before us; and the general opinion seemed to be that we should proceed with the consideration of the preliminary report of the Select Committee. I was under the impression at that time that the full report would have been published before now. In that I have been disappointed, I have no doubt that the Select Committee are very wise and right in not hurrying the matter, but I think it necessary to explain that I should not have asked you to go on with the consideration of the first instalment of the report unless I had reason to suppose that the rest of the report would have been ready by this time. Neither can I tell you now when it will be ready. When it is ready, it will be published, and time will be given for its consideration. I propose to adjourn the Council now, and call you together again for a purely formal meeting to receive the report when it is ready, and then to fix a day for the consideration of the report.

Dated Calcutta, the 20th February 1888.

RESOLUTION.

THE CANAL REVENUE REPORT FOR 1886-87.

READ—

The Canal Revenue Reports for 1886-87, and the Chief Engineer's note on the same.

The total outlay direct and indirect to the close of the year 1886-87, on canals in Bengal, of which capital accounts are kept, has been Rs. 6,97,11,574. Of this sum Rs. 8,66,000 have been contributed by the Imperial Government from Famine Relief and Insurance funds, Rs. 5,91,91,309 have been charged to loan funds, and Rs. 88,78,410 have been provided from Provincial revenues. In addition to the sums abovementioned, Rs. 7,75,855 have been expended on surveys, &c., for irrigation works which have not been carried out.

2. There are now in actual operation in Bengal 837½ miles of canal of which 608 miles are navigable. The total area commanded by irrigation canals is 2,698,846 acres, of which 4,17,821 acres, producing crops of the estimated value of Rs. 93,34,374, were irrigated during the year. The total number of boats plying in the canals was 1,81,173, of which 27,314 were passenger boats. The total value of goods passing the canals in boats and rafts aggregated Rs. 7,78,30,811 approximately.

3. The receipts from, and expenditure on, the canals in operation for the last three years, are given in the statement below, the figures include indirect charges:—

The net income for the year was therefore Rs. 2,36,762. Interest amounting to Rs. 22,91,006 was, however, payable to the Imperial Government, so that there was a deficit of Rs. 19,56,284, to be met from Provincial revenues. This result is unfavourable as compared with that of the previous year, and is owing as much to a decrease in the receipts, the cause of which is explained further on, as to an increase in the expenditure owing to the necessity for special heavy repairs.

4. On the Orissa canals, the occurrence of a large breach in the main weir of the system, that on the Mahanadi river, on the 26th June 1886, necessitated a very large outlay, of which about one and a half lakhs were spent within the year, and the rest in the following year, the work being completed before the rains of 1887. Considerable damage was also caused by the floods of 1886 to nearly all the other weirs, the result being that, with scarcely an exception, the expenditure on them during 1886-87, was in excess of that of the previous year. On the Sone canals the repairs to the centre and Baroon shore sluices of the Sone weir, and the replacing of the old four feet thick piers by piers of six feet thickness caused an increase in the expenditure. On the Midnapore canal the repairs to tidal locks and silt clearance of tidal reaches were heavier than usual. Lastly on the Orissa Coast Canal the repairs on account of the floods and cyclone of 1885, added about Rs. 40,000 to what would otherwise have probably been the cost of maintenance.

5. The revenue collected in the last three years on the works mentioned in the above statement is shown below :—

HEAD.				REVENUE.		
				1886-87.	1885-86.	1884-85.
				Rs.	Rs.	Rs.
Water-rates	10,43,343	12,33,612	9,46,808
Navigation	7,88,685	8,34,780	8,22,187
Miscellaneous	80,170	50,888	1,17,593
Total	19,12,198	21,19,280	18,86,588

6. The assessments or earnings of the same year are as follows :—

HEAD.				EARNINGS.		
				1886-87.	1885-86.	1884-85.
				Rs.	Rs.	Rs.
Water-rates	9,49,260	10,45,339	13,41,655
Navigation	7,88,685	8,34,780	8,21,876
Miscellaneous	80,171	90,491	81,519
Total	18,18,116	19,70,600	22,45,050

The revenue shows a falling off under both heads of water-rates and navigation. As regards the water-rate, the decrease is due partly to the falling off in the area irrigated, and partly to the much smaller amount of arrears to be collected as compared with the balance at the beginning of the previous year. Allusion is made to the falling off in navigation further on.

The excess of revenue over the assessments is due largely to the collections of arrears of water-rates of former years.

7. The arrears of water-rates outstanding at the close of each of the last three years, are shown in the statement following :—

NAME OF CANAL.				ARREARS.		
				1st April 1887.	1st April 1886.	1st April 1885.
				Rs.	Rs.	Rs.
Orissa Canals	87,458	64,884	77,869
Midnapore Canal	50,749	69,972	1,11,212
Sone Canals	2,31,582	3,98,321	6,95,204
Sarun Canals	26,437	15,912	40,022
Total				3,96,226	5,49,089	9,24,311

The result for the year may be considered favourable, and shows a satisfactory reduction in the total amount of arrears. The remissions made amount to a comparatively small sum, and point to an improved system of working both as regards assessments and collections.

8. To understand more clearly the results of the working of the year, it is necessary to distinguish between the collections of arrears and those of the current demand. Of the former a sum of Rs. 4,10,658 or 77 per cent. of the outstandings of former years was adjusted. Of this amount 86·4 per cent. was collected, 5·5 written off as irrecoverable, and 8·1 per cent. remitted. Of the current year's demands (which include Rs. 43,645 not payable till after the expiry of the year) Rs. 2,37,196 or 25 per cent. only is left for recovery, 0·3 per cent. was remitted and the balance collected. On the Sone canals very good results were obtained, more especially in the Shahabad district. A considerable sum of arrears was, however, written off as irrecoverable. In Gya an improvement in collections is apparent, and the remissions are unimportant. In Patna, although remissions are less than in the other districts, the collections were considerably smaller. In Orissa remissions were merely nominal; but collections of the current demand cannot be considered satisfactory, and resulted in an increase in the arrear balance at the end of the year. The results in Midnapore are satisfactory both as regards collections and remissions. In Sarun the collections of the year, including arrears, amounted to less than one half of the total of the guarantee for the year, a result which must be considered far from satisfactory. On the whole the results of the year, with the exception noted above, show a considerable improvement in the working of the principal systems; and the Lieutenant-Governor notices with approval that the orders of the Local Government have received the careful attention of Civil officers. The arrears still amount, however, to a large proportion of the year's assessments, and Sir Stuart Bayley is hopeful that a continuance of the measures introduced will result in a further reduction of arrears, and allow of greater facilities for the prompt realization of the current demand.

9. The total number of certificates for the recovery of arrears issued during the year was 30,504 against 60,942 in the previous year in all districts. None were issued in the Gya District. The decrease is attributable chiefly to the large numbers previously issued under the stringent orders of Government for the recovery of arrears, but it is confidently expected that less recourse to this procedure will be necessary in future. The immediate effect of the increased exertion in collecting arrears has doubtless had its effects in bringing about the state of friction which subsequently rendered necessary the appointment of a Commission to enquire into the working of the Sone Revenue system.

10. Information regarding complaints is either non-existent or very meagre in the reports from Superintending Engineers and Revenue Authorities so that it is impossible to say whether the canal administration worked smoothly or not. That it was not doing so formerly is clearly shown by

the agitations of late years on the Orissa and Sone Canals; but, from what little can be gathered on this point in the reports, there appears to be no doubt that there was a decided improvement in this respect in the year under review. Further information should be afforded in future reports.

11. The areas irrigated (actuals) during the last three years are detailed in the following table.

NOTE.—The figures for the Sone canals for the years 1884-85 and 1885-86 do not agree with those given in last year's Resolution. The reason is that last year the areas "assessed" within the year were given as the areas "irrigated" the figures for 1884-85 not being then available. The figures now given have been obtained from the Superintending Engineer's report, and show the areas actually irrigated within each year.

A still further decrease in the total area under irrigation has taken place, and the reason is not difficult to assign. The decline is entirely in annual leases, and chiefly on the Sone canals. The season was one of favourable rainfall, and the need for irrigation not pressing. On the other hand the steady increase in the area under five-years' leases on the Sone and in the area leased on the Orissa canals which is almost entirely under five-years leases, appears to be a satisfactory indication that the idea is gaining ground that it is advantageous to lease for a long term at a reduced rate as an insurance against failure in a bad year of rainfall; and the result will be probably a gradual extension of irrigation which cannot be expected under a system of short leases, the irrigation under which is subject to fluctuation with the amount and distribution of the rainfall.

12. The tollage collections from the various canals for the last three years are given in the table following:—

YEAR.	Orissa Canals.	Midnapore Canal.	Hidkollie Tidal Canal.	Orissa Coast Canal.	Sone Canals.	Calcutta and Eastern Canals.	Total.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1884-85	52,784	1,19,797	41,382	37,335	5,08,466	7,59,764
1885-86	64,083	1,25,351	52,143	15,603	41,712	(a) 4,97,578	7,94,520
1886-87	58,664	1,09,633	51,004	28,587	40,665	4,73,193	7,71,766

(a) In last year's Resolution Rs. 10,025 on account of demurrage was omitted and Rs. 26,296, miscellaneous receipts, wrongly added. The figure has therefore been reduced by the difference, viz., Rs. 16,261.

There is a decrease in tollage collections on all canals except the Sone and Orissa Coast. On the latter the increase is due to a further length of 55 miles having been temporarily opened for traffic. The whole length has been opened out during the current year, and the canal route from Gewankally on the Hooghly through to Cuttack is now established.

13. The causes that have led to a diminution in the receipts are chiefly the depression in the rice and jute trade, and do not point to any permanent decline in the traffic. The receipts on the Calcutta and Eastern Canals were also affected by alterations in tolls. In Orissa the traffic was to some extent impeded by the low level of the water in the Kendrapara and High Level Canals, but is also due to the falling off in the exports of rice from the Central Provinces on account of absence of floods in the Mahanadi.

14. In the Nuddea Rivers the receipts are higher than those of the previous four years, the cause being attributed to the favourable state of the channels and to an increase in trade generally.

15. With the exception of the revenue report of the Superintending Engineer of the South-Western Circle, all the reports were received with fair punctuality. In the case of the South-Western Circle the report was delayed owing to the ill-health of the Superintending Engineer. There was an improvement in the date of receipt of the Examiner's Finance Accounts.

ORDER—Ordered that a copy of this Resolution and of the note and its accompaniments be submitted to the Government of India, in the Public Works Department, for information; also that copies be forwarded to the Appointment, Revenue, and Financial Departments of this Government; the Board of Revenue, Lower Provinces; the Commissioners of the Presidency, Burdwan, Patna and Orissa Divisions; the Collectors of the 24-Pergunnahs, Nuddea, Hooghly, Midnapore, Burdwan, Patna, Shahabad, Gya, Sarun, Cuttack and Balasore; the Superintending Engineers of the Orissa, South-Western and Sone Circles; and the Examiner of Public Works Accounts, Bengal, for information.

By order of the Lieutenant-Governor of Bengal,

C. W. I. HARRISON, LIEUT.-COL., R.E.,
Offg. Joint-Secretary to the Govt. of Bengal,

5. The total amount of interest payable to the Imperial Treasury on account of Major Irrigation Works for the year is Rs. 22,91,006.

FINANCIAL RESULTS.

6. The following statement shows the financial results of both Major and Minor Irrigation Works, of which Capital and Revenue accounts are kept up, to the close of the year 1886-87 :—

	Major Irrigation Works.	Minor Works and Navigation.
	Rs.	Rs.
Direct revenue ...	1,27,67,926	1,92,56,933

Net results, including interest to end of 1886-87 ...	Loss ... 3,02,88,425	

The gross capital invested in Major Irrigation Works to the end of the year 1886-87, inclusive of indirect charges, being Rs 5,91,91,309, the loss aggregated 51·17 per cent. of the capital to end of that year. There is at present no indirect revenue or enhanced land revenue in Bengal, and consequently no assistance is obtained from this source as in other provinces.

The earnings of the year include assessments made during the year under review on account of previous years, and the amounts legally due of the assessments of 1886-87.

11. The lengths of canals and distributaries in operation at the close of the year 1886-87 are given in the following statement:—

In comparison with the year 1885-86, the total length of canals for irrigation and navigation remained the same, but a length of 46½ miles of distributary and village channels was added during the year, providing for an additional area of 11,437 acres.

12. The rainfall of the year 1886-87 and of the previous year is shown in table No. IVE. From this it appears that the average fall throughout the canal area was, both for the kharif and the year, greater than that of the year 1885-86. **RAINFALL.**

RAINFALL.

The average rainfall in the immediate neighbourhood of the Orissa canals, calculated on the figures at thirteen stations for eighteen years, is 56.28 inches. The fall of the year 1886-87 at the same stations was 60.07 inches, or 3.79 inches above the average.

From statistics of rainfall in the upper districts drained by the Mahanadi, it appears that the average fall for the year was 16.90 inches less than that for the year 1885-86, and 12.97 inches less than the average of the last six years, so that the volume passing down this river was much less than usual.

The following statements are deduced from the subsidiary rainfall returns given by the Superintending Engineer and from previous reports:—

The above show that, as regards the kharif season, the rainfall was everywhere abundant and above the average, more especially in the month of September.

13. The following statement shows the areas irrigated and yearly rainfall since 1877-78:—

IRRIGATION.

14. The area irrigated is also that assessed during the year, showing an improvement of 5,370 acres chiefly in five-year leases, and there was a considerable decrease in the area illicitly irrigated. The statement below gives a comparison for three years.

AREA IRRIGATED.

				1886-87.	1885-86.	1884-85.
				Acres.	Acres.	Acres.
Karif	{	Five-year leases...	...	73,699	65,762	54,241
		Annual leases	...	68	50	20
		Unauthorized irrigation	...	1,354	4,754	1,570
Rabi	2,439	1,604	2,915
Perennial	...	Sugarcane	...	149	169	196
Total, including unauthorized irrigation				77,709	72,339	58,942
Total, excluding unauthorized irrigation				76,355	67,585	57,372

In the above statement 1,148 acres free irrigation of chaukidar's jagirs is not included, the total area actually irrigated being therefore 78,857 acres. This area ought to have been included in the assessments in order to make the assessed and irrigated areas agree, and then shown as a free grant. It cannot now be included in the returns for the year under review, as the details are wanting, but will be in futuro. The area leased is given by the Deputy Revenue Superintendent as 87,394 acres, but of this total, 13,627 acres, inclusive of the area of chaukidar's jagirs, were excluded from assessment. The practice in Orissa for three years past has been to delay the issue of the demand statements until it was finally ascertained what areas should be excluded from assessment for such reasons as non-receipt of water, failure of crops, &c. Such areas, more especially in the case of five-year leases, would more properly be shown as remissions, the demand being made at the time laid down in the rules on the area as leased. There does not appear to have been any authority for the procedure adopted in this matter by the Canal Revenue Department, and it is opposed to the spirit of the rules passed under the Irrigation Act.

15. There is a considerable decrease in the unauthorized or surreptitious irrigation, as will be seen from the foregoing statement, which decrease, according to the Deputy Revenue Superintendent, is "an index that there was little or no water to spare, especially when it was most wanted on leased areas." What this means is not very clear; but, apparently, the conclusion to be drawn is that, had there not been a scarcity of water, the area of unauthorised irrigation would have been as large as usual; and, if this be the case, it neither reflects credit on the administration, nor does it give hope that the people are taking more kindly to lawful modes of irrigation.

UNAUTHORISED IRRIGATION.

16. The total of the area 87,394 acres, shown as leased by the Deputy Revenue Superintendent, cannot be considered correct; since for some years past 8,465 acres, which were included in five-year leases in 1883, have been regularly excluded from assessment as non-irrigable, instead of revision being made of the original leases. The area excluded from assessment as having suffered loss or on account of non-receipt of water in consequence of the breach in the Mahanadi weir was 4,014 acres.

FIVE-YEAR LEASES.

17. The assessments of water-rates during the year under review are compared below with those of the two previous years:—

ASSESSMENTS.

				1886-87.	1885-86.	1884-85.
				Rs.	Rs.	Rs.
Water-rates	1,25,676	1,05,019	82,185

These figures do not represent the assessments of the crops irrigated in each year; they show the assessments which are legally due within the year, and include a portion of the assessments of the crop of the year and a portion of the assessments of the crop of the previous year, and some arrears for still earlier years.

The increase over the two previous years is due to the steady increase in the kharif irrigation, that is to say, practically, five-years' leases; for a portion of the increase is due to the improvement in the year under review as compared with 1885-86; and a portion to the assessments for 1885-86 falling due in 1886-87 being larger than the assessments for 1884-85 falling due in 1885-86.

COMPLAINTS.

18. No information is afforded regarding the number of complaints, their nature, or how disposed of. It is, however, clear that they exist from the fact that assessment papers are delayed for the correction of mistakes, and that unauthorised irrigation is always a source of complaint and friction. In future detailed information regarding complaints, in connection both with irrigation (authorised and unauthorised) and with miscellaneous matters, should be given. Complaints in connection with unauthorised irrigation should be clearly distinguished from the rest.

COLLECTIONS AND REMISSIONS.

19. The balance of water-rates outstanding on the 1st April 1886 was Rs. 64,884, and the amount falling due during 1886-87, being Rs. 1,25,676, the amount for recovery was Rs. 1,90,560. Of this sum, the cash realisations during the year aggregated Rs. 96,976, and the remissions amounted to Rs. 6,126. The total amount adjusted during the year under review being Rs. 1,03,102, the balance outstanding on the 1st April 1887 was Rs. 87,458. This increase of the unrealised balance of assessments is in a great measure due to the breach in the Mahanadi anicut. The mere fact of the breach, even where damage to crops had not occurred, was considered a sufficient reason for lessees to be unwilling to pay the assessments on unirrigated areas, and even when water had been supplied they made the breach a plea for withholding payment. But for this accident, it is probable that the voluntary payments would have been more numerous, and the revised estimate of Rs. 1,44,000 realised.

The following statement shows the collection operations of the year in a form similar to that given in last year's report:—

	OUTSTANDINGS OF ALL YEARS UP TO AND INCLUDING 1886-87.			DEMANDS DUE IN 1886-87 FOR THE IRRIGATION OF THAT YEAR.		
	Rupees.	Percentage of demands outstanding on 31st March 1886.	Rupees.	Rupees.	Percentage of demands for the year.	Rupees.

Outstanding on 1st April 1887	31.2	36,052		68.4	51,407

The outstandings on account of 1886-87 and previous years on the 1st April 1887 were respectively as below:—

	Rs.
1881-82 ...	509
1882-83 ...	1,758
1883-84 ...	4,168
1884-85 ...	9,416
1885-86 ...	20,200
1886-87 ...	51,407
Total arrears ...	87,458

The collection of the older arrears continues satisfactory, and there is again an improvement in the reduction of amounts remitted.

REVENUE SYSTEM.

20. The revenue system of the Orissa canals still remains the same, and the work of assessment of water-rates has not yet been made over to the officers of the Public Works Department. The delay was due in a great measure to the difficulty of re-arranging the old establishments. An enquiry is now being held into the working of the Sone canals system, and until such time as the report of the Commission now sitting has been considered, the introduction of any change does not appear advisable.

DUTY OF WATER.

21. Statement IE gives the duty of water on the different canals. That of 6·97 acres per cubic foot for the High Level Canal, Range II, is evidently incorrect, and is due to the loss on account of navigation, of which apparently no account is kept, and to escape through temporary outlets, the area under irrigation being also very small.

The duty on the remaining canals for the kharif crop on the discharge utilised varies from 182 acres for the Taldundah system to 85 acres for the High Level Canal, Range III.

The absence of distributaries practically vitiates the results from the High Level Canal, Ranges II and III.

The Kendrapara Canal system includes the Pattamoondi and Gobri Canals, for which also no distributaries have been provided, and the Superintending Engineer shows that, taking the Kendrapara Canal separately, the duty is 106 acres.

The under-mentioned canals give, therefore, probably the best results, but even these cannot be considered trustworthy:—

	Duty on discharge at head.	Duty on discharge utilised.
Kendrapara Canal ...	92	106
Taldundah Canal system ...	112	182
High Level Canal, Range I ...	110	169

The duties calculated on the gross discharge at the head are pretty even, but they cannot be relied upon, for in the High Level Canal no allowance is made for water flowing into the canal through drainage inlets, and the Kendra-

para Canal irrigating the largest area, 30,872* acres against 18,576 for the Taldundah, and 12,400 for the High Level, gives the lowest duty. No reason is assigned for the high duty on the Taldundah Canal. Taking the duty on the discharge utilised, the Kendrapara canal still gives the lowest result, but the quantity utilised, 291 cubic feet out of 333 as given by the Superintending Engineer, is proportionately much larger than that utilised on the other two canals.

The area of rabi under all canals being small, the calculations of duty are valueless.

22. During the year 175 experiments on the outturn of crops were made, 91 of which were upon irrigated areas. The outturn in the case of both irrigated and unirrigated land was below the average of the previous five years by 4·05 maunds of paddy and 6·36 maunds of straw per acre for the former, and 2·73 maunds paddy and 3·91 maunds straw for the latter. No explanation is forthcoming as to why the falling off on the irrigated crop was greater than on the unirrigated. The total average outturn for the year was 15·66 maunds of paddy and 23·87 maunds of straw on irrigated, and 12·25 of paddy and 19·29 of straw on unirrigated land. The increased value per acre of produce in favour of irrigation was Rs. 3·86.

CROP

NAVIGATION.

24. The receipts under the head "Navigation" amounted to Rs. 67,048, of which Rs. 8,384 were on account of the earnings of the transport service, and Rs. 58,664 from tolls on boats and rafts. The collections for ten years under the above heads are given in the table below:—

TRAFFIC.

25. The following statement compares the traffic of all the canals in Orissa during the year under review with that of the year preceding:—

There is a falling off from the previous year under all heads, due to the accident to the Mahanuddy weir, which reduced the level of the water in the Mahanuddy and Berupa rivers to such an extent as to seriously interfere with the navigation of the canals during the last four months of the year.

The *up* traffic on these canals was during the year considerably in excess of the *down*. This was due entirely to the falling off in the exports of grain, partly on account of the impeded navigation, and in a greater measure to the absence of floods in the Mahanuddy, which prevented grain being brought down as usual from Sumbhalpur; 19,594 tons of grain only were carried against 57,941 tons in the previous year.

PASSENGERS.

26. There was again a considerable increase in the passenger traffic on all, but chiefly on the Taldandah Canal.

TRANSPORT SERVICE.

27. The steamer services between Chandbally and Cuttack by way of the Kendrapara Canal continued to be maintained by the same three companies as worked the traffic in the previous year, in conjunction with the ocean steamers running from Calcutta, though under difficulties on account of the low supply in the upper reaches of the Kendrapara Canal.

The only line of steamer navigation now worked by Government in the Orissa Circle, in fact in Bengal, is that on the High Level Canal between Cuttack and Bhuddruck, a distance of 75 miles by canal and river; and during the year under review the steamers *Pioneer* and *Aurora* were employed upon this line. In consequence of the accident to the Mahanuddy weir, the working of the service was seriously interrupted and unsatisfactory.

The working expenses and earnings of the steamers amounted, respectively, to Rs. 12,247 and Rs. 8,384, the result being a loss of Rs. 3,863 against the profit of Rs. 3,379, which was obtained in the year preceding. This was chiefly due to the interrupted service mentioned above, and also to the difficulty in keeping free from silt the navigable channel across the Brahmini river, so that often cargo and passengers had to be taken to

October, on account of the bad state of her boiler, the *Pioneer* had to be taken off the service, and only one steamer was available for it.

28. The miscellaneous receipts for the year under review are compared by sub-heads with those of the previous year in the following table:—

MISCELLANEOUS
RECEIPTS.

SOURCE OF REVENUE.			YEAR IN WHICH RECEIVED.		DIFFERENCE.	
			1886-87.	1885-86.	Increase.	Decrease.
			Rs.	Rs.	Rs.	Rs.
Plantations	1,885	981	904
Rent of lands	5,340	7,337	1,997
Canal produce	676	1,508	832
Rent of buildings	4,936	4,739	197
Sale of old materials	35	4	31
Fisheries	650	493	157
Sale of water	86	180	104
Miscellaneous	1,979	1,244	735
Total	15,587	16,496	2,024	2,933

The most serious falling off is under the head "Rent of lands." This appears to be due to the rule having been introduced of giving only annual leases to prevent the acquisition of rights of occupancy. The result has been either a decrease in the area leased out, or in the rents obtained, though it is not very clear which.

29. The total revenue for the last ten years under the three main heads is shown in the following statement:—

REVENUE.

A comparison of the figures in the two foregoing statements shows the loss in working the canals during the last six years, which was as follows :—

						Rs.
1881-82	1,05,509
1882-83	21,530
1883-84	54,822
1884-85	1,72,152
1885-86	1,35,227
1886-87	3,22,321

The figures include direct charges only.

31. The following statement shows by sub-heads the cost of maintenance, exclusive of that of the transport service, during the year under review, with the corresponding figures of the past two years :—

			1886-87.	1885-86.	1884-85.
			Rs.	Rs.	Rs.
Head works	2,34,500	61,899	67,581
Main canals	74,913	1,09,225	93,145
Distributaries	21,458	24,521	22,929
Drainage works	15,512	16,807	6,125
Total	3,46,383	2,12,452	1,89,780

The great increase in the cost of maintenance is entirely under head works, all other main heads of expenditure showing a decrease.

32. A breach took place in the Mahanuddy anicut on the first rise of the river at the end of June, involving a portion of the north end of the centre sluices and adjoining weir wall. A heavy outlay was incurred in the first instance in constructing a stone dam; the total expenditure on the repairs of the weir, including maintenance, amounted to Rs. 1,70,78 against Rs. 16,773 for the previous year. The repairs to the breach were not completed within the year, and a portion of the expenditure thereon will therefore fall on the year 1887-88. An accident also occurred to the Naraj weir, the greater number of the piers of the shore sluices being overturned in the month of September; the cost of repairs was Rs. 16,872 against Rs. 8,686 in 1885-86. In this case also the repairs were not completed within the year. There was excess expenditure also on the Beropa, Bhramini, Pattia and Barrah weirs over the outlay of the previous year; due, in the case of the last three weirs, to extensive repairs being required to the aprons; and, in the case of the Beropa, to the necessity for deepening the channel above for navigation, and to increase the flow down the river for the purpose of facilitating the repairs of the Mahanuddy weir. The average cost of repairs per foot run of the seven weirs was increased from Rs. 2.79 in the previous year to Rs. 12.20.

33. The following statement shows the expenditure for the year 1886-87, and the three previous years, on the maintenance of the canals :—

It is satisfactory to notice that the mileage rates for the maintenance of all canals has diminished, the only exception being the Machgong Canal. The decrease is partly attributed to the saving in work establishment and "miscellaneous." Dredging silt and weed-clearing also were required less on most of the lines, whilst on some the decrease was in a great measure due to the expenditure in 1885-86 having been abnormal on account of the cyclone of September 1885. The canals were closed for silt clearance as below:—

NAME OF CANAL.	Date when closed.	Date when re-opened.
Kendrapara Canal and branch to Albha ...	2nd May 1886	... 5th June 1886.

34. No return has been furnished of the silt clearance of Ranges II and III of the High Level Canal. On the remaining canals, 4,411,838 cubic feet of silt was cleared by hand at a cost of Rs. 12,807, or at an average rate of Rs. 2-14-6 per 1,000 cubic feet.

DREDGING AND
SILT CLEARANCE

The quantity of silt cleared by dredging on the same canals was 124,066 cubic feet, at a cost of Rs. 2,089, or at an average rate of Rs. 16-13 per 1,000 cubic feet.

35. The following statement shows the cost of repairs to distributaries for the year 1886-87, and the three previous years:—

The mileage rate for maintenance has decreased on all canals except the Machgong Canal, and in all cases the rate is low.

The total capital outlay (direct charges) up to the end of the year 1886-87 amounted to Rs. 82,61,992. The estimates sanctioned by the Secretary of State being for Rs. 83,16,768, there remained a balance of Rs. 54,776 at the close of the year, but it is expected that the capital account of this canal will be closed at an early date.

The interest charges of this canal up to the end of the year 1885-86 have been revised in accordance with the orders of the Government of India.

37. The revenue account calculated on the "earnings" of the year is given below. Direct charges only are shown:—

The water-rates on lands irrigated during the year are due within the year. The amount of water-rates shown as earned includes arrear assessments for former years.

38. The following table shows the rainfall for the year 1886-87 and the three previous years:—

STATIONS.	1886-87.	1885-86.	1884-85.	1883-84.	Average of 17 years previous to 1886-87.
	Inches.	Inches.	Inches.	Inches.	Inches.

Contai ...	48.24	76.45	77.30	70.31	70.19

The rainfall during the year under review was considerably less than that of the previous year, and below the average of seventeen years previous to the year 1886-87. It was, however, well and seasonably distributed, so that the demand for canal water was not very pressing, and there was no loss from excessive rainfall anywhere in the irrigable area.

39. The area under lease, which is the same as the area irrigated, was 69,762 acres against 70,604 irrigated in the previous year. No rabi leases were executed, and 256 acres only were under annual leases, leaving 69,506 acres under five-year leases up to the end of the year against 67,399 for the previous year. Of the above leases, 20,285 acres expired on the 31st March 1887, including 256 acres under annual lease. The total area under lease may be thus classified:—

	Acres.
Leases which expired on 31st March 1887 ...	20,285
" " will expire " 1888 ...	32,875
" " " " " 1889 ...	12,530
" " " " " 1890 ...	2,276
" " " " " 1891 ...	1,796
Total ...	69,762

Two hundred and fifty-six acres were surreptitiously irrigated and assessed, but afterwards admitted as annual leases, being also the total of such leases. Since no five-year leases expired in 1885-86 (see last year's Note), the leases for 1,796 acres shown above as expiring on 31st March 1887 may be taken as *new* leases executed during the year under review. Of this large area of 20,029 acres under five-year leases which expired on the 31st March 1887, it is stated that leases for 11,483 acres had been renewed up to the end of July 1887.

AREA IRRIGATED.

40. The following table compares the irrigation of the year 1886-87 with that of the two previous years, and gives the proportions between the areas irrigated and commanded:—

Of the total area 88 acres only were irrigated by lift. The entire area irrigated by this canal is rice.

COMPLAINTS.

41. There is no information about complaints against the assessments or under any other head, and the remarks made on this point in paragraph 18, under the Orissa Canals, apply also to this canal. The information should be supplied in future.

DUTY OF WATER.

42. The duty of water for the four months of the kharif season from July to October is given by the Superintending Engineer, for the discharge utilized, as 134 acres per cubic foot for the area under the Midnapore weir, and 231 acres for that under the Panchkoora weir. This represents a total depth of 21 inches over the whole area in the former case, and 12 inches in the latter for four, or may be five, waterings. This difference is probably due to the fact that the area under the Panchkoora weir is low lying as compared with that under the Midnapore weir. In a year of seasonable rainfall, therefore, the former would be more likely to be benefited by drainage supplementing the water received from the canal: this would be the case with the lands under the Midnapore weir.

43. The following comparative statement shows the balances, assessments, and recoveries of water-rates on the Midnapore Canal since the year 1882-83:—

YEAR.	Amount outstanding at commencement of year.	Amount falling due during the year.	Total for recovery.	Cash realization.	Remitted or written off.	Balance at the end of the year.

1886-87 ...	69,972	1,06,750	1,76,722	1,08,834	17,139	50,749

COLLECTIONS.

The amount of the cash realisations was almost identically the same as that of the previous year, although the total for recovery was considerably less, the percentage of collections being 61.01 of the whole, which may be considered a favourable result. The amount of remissions, which were, practically, entirely arrears of previous years, has sensibly decreased; but this result was to be anticipated, considering the large remissions of arrears in the previous two years. The balance outstanding at the end of the year shows improvement, and the Deputy Revenue Superintendent is hopeful that all arrears will be cleared off in the present year, and the realisations of the current demand thereby facilitated.

REMISSIONS.

CERTIFICATE PROCEDURE.

44. There were 6,965 certificates filed against 17,501 for the previous year, the falling off being attributed to the large number previously issued under the peremptory orders of Government for the recovery of all arrears.

45. There is a slight increase in the cost of revenue establishment under the Collector, the amount being Rs. 23,064 against Rs 21,875 for the previous year. The percentage of cost on the total collections, which amounted to Rs. 1,23,769, is 18·63 against 17·89 for the previous year.

REVENUE
ESTABLISHMENT.

46. The total receipts under the head of Navigation amounted to Rs. 1,09,693 against Rs 1,37,578 for the previous year, showing a considerable decrease. Of the total Rs. 8,639 was on account of tolls from the Calcutta Steam Navigation Company, and Rs. 1,01,054 was the tollage on private boats and rafts.

(c) Includes 15,098 passenger boats and 12,287 empty boats.
(d) Includes 81,419 and 41,154 tons passenger and empty boats, respectively.

There was a very considerable falling off in the toll collections. Of the total number of boats plying, the number carrying cargo was 18,466 against 19,892 for the previous year. This decrease is due to the slackness in the export trade of grain on account of its low price in the Calcutta market. The number of boats and the gross tonnage shows an increase, but this is chiefly under the head of passenger boats, the number being 15,060 against 7,788 for the previous year.

48. The collections of the year under the head "Miscellaneous" aggregated Rs. 15,658 against Rs. 16,197 collected during the year 1885-86.

MAINTENANCE.

50. On head works the expenditure was Rs. 9,142 against Rs. 12,864 in the previous year. The expenditure on weirs was Rs. 1·60 per foot run of the Midnapore weir, and Rs. 3·92 for the Panchkura weir, against Rs. 8·24 and Rs. 1·13, respectively, the year previous. Repairs to the under sluices of the former were omitted, as there was no closure of the upper reaches, and in the case of the latter weir extensive repairs were carried out to the under sluice shutters.

The following table shows the maintenance charges per mile of main canal and distributaries since the year 1880-81 :—

YEAR.	MAIN CANAL.			DISTRIBUTARIES.

1886-87	48	1,20,135	2,503	283	17,617	62

NOTE.—The increase in the length of distributaries is not due to any additional length completed during the year, but to the correct measurement being given.

The expenditure on main canal includes the head works and, as well as the expenditure on distributaries, shows an increase over that of the previous year. Exceptional repairs and alterations were carried out on the tidal locks at a cost of Rs. 36,892 against Rs. 13,694 and Rs. 7,184 during the two preceding years. Special repairs were also carried out to the Danian lock at a cost of Rs. 5,967. Under earthwork Rs. 23,043 was expended in the silt clearance of the tidal reaches by hand labour, a quantity of 4,555,514 cubic feet being removed at a cost of Rs. 5-10-9 per 1,000 cubic feet. The silt clearance of the first reach of the canal was again omitted this year. The cost of silt clearance by dredging was Rs. 22,688.

DREDGING.

51. The only silt clearance carried out by dredging was in the lock entrances of the tidal reaches, very little work being done in the reaches themselves which, as stated above, were cleared by hand. The outturn of the hydraulic dredgers *Atlas* and *Ajax* averaged 2,775 and 6,200 cubic feet per day respectively, not by any means a favourable result, but one which would be accounted for by the work being carried out in a tide-way and with frequent interruptions. The cost of excavation in the case of the *Ajax* was Rs. 4·13 per 1,000 cubic feet, and in the case of the *Atlas* Rs. 18·83. The former rate is an improvement on that of the preceding year, while the latter is exceptionally high, and due to the *Atlas* requiring thorough repairs. The total quantity of work done by all dredgers was 2,496,525 cubic feet at a cost, including removal of silt in barges, of Rs. 9·1 per 1,000 cubic feet.

RECEIPTS AND EXPENDITURE.

52. The subjoined table shows the receipts and expenditure, including indirect charges, for the last five years, and the net revenue :—

YEAR.				Receipts.	Expenditure.	Net revenue.
				Rs.	Rs.	Rs.
1882-83	2,68,010	2,46,502	+ 21,508
1883-84	2,64,576	2,23,586	+ 40,990
1884-85	2,57,955	2,31,915	+ 26,040
1885-86	2,62,484	2,18,127	+ 44,357
1886-87	2,34,185	2,35,249	— 1,064

The result for the year is most disappointing, and is mainly due to the diminished receipts on account of navigation and the increased expenditure on account of the special repairs to tidal locks.

The works of which this canal consists were completed in 1873. A supplementary estimate for this project, amounting to Rs. 10,39,571, was submitted in March 1886 to the Government of India in connection with the revised estimate for the Orissa Coast Canal. It has been received back for further information regarding its financial prospects, and is being further revised on account of alteration in the works, but is expected to be ready for resubmission on an early date.

The interest charges have been recalculated from the commencement in accordance with the orders of the Government of India. The total receipts on revenue account were Rs. 54,404 against Rs. 52,455 for the previous year. The increase is due to miscellaneous receipts entirely, the navigation receipts being Rs. 51,904 against Rs. 52,143 for 1885-86.

The traffic in grain was slightly less than that of the previous year owing, it is believed, to the price of rice and paddy having fallen in the Calcutta market.

It is probable, however, that, but for the silted up state of this canal, the traffic would have shown on the whole an increase.

55. There was an increase of Rs. 2,188 in miscellaneous receipts, chiefly on account of fisheries.

56. The following tables show the receipts on revenue account and working expenses of the canal for the last ten years; the figures are for direct charges only:—

LENGTHS OF CANALS.

59. The areas commanded and irrigable, and lengths of canals and distributaries open, are shown in the table following:—

DIVISION.	Navigable canals.	Branch canals.	Distributaries.	Gross area under command.	Maximum discharge of canal.	AREA WHICH CAN BE IRRIGATED.		
						Kharif.	Rabi.	Total.
	Miles.	Miles.	Miles.	Acres.	Cubic feet per second.	Acres.	Acres.	Acres.
Eastern Sone	80½	357	408,155	1,613	129,040	180,000	309,040
Arrah	70	71½	407½	618,384	4,342	347,380	300,000	707,380
Buxar	62½	77½	33½	704,000				
Total	218½	148½	1,158½	1,728,509	5,955	476,400	540,000	1,016,400

A length of 4½ miles, from mile 5 to mile 9½, has been transferred from the Arrah to the Buxar Division.

A length of five miles of distributary only was added to the total length of channels in the Eastern Sone Division. At the same time there has been a correction of one and-a-half miles less in the channels of the Arrah Canal, and the net result therefore is an increase of three and-a-half miles to the length of distributary channels.

60. The area irrigable is calculated for kharif at 80 acres per cubic foot of maximum discharge, and for rabi at 180 acres per cubic foot, allowing 3,000 cubic feet per second as the available supply. Of the total area commanded 1,728,509 acres, 1,350,396 are said to be cultivable, so that the areas which can be irrigated in the kharif and rabi, respectively, as shown by the above statement, represent about 35 and 40 per cent. of the culturable area. But, as mentioned in last year's report, the kharif irrigation has never yet reached 250,000 acres (exclusive of sugarcane), and it is doubtful whether it will ever be possible, for reasons then stated, to irrigate eventually more than two-thirds of the estimated kharif area, or whether more than one-fifth of the estimated rabi area will ever require canal water. It is probable, therefore, that 24 and 8 per cent. of the culturable area represent more correctly the areas which can be irrigated in the kharif and rabi respectively.

61. The following table shows the progress made with village channels and outlets:—

VILLAGE CHANNELS.

DIVISION.			Total length of village channels completed.	Total number of temporary and permanent outlets.	Number of permanent outlets.
			Miles.	No.	No.
Eastern Sone Division	245½	1,988	26
Arrah Division	765½	2,126	497

Total 1886-87	1 518	5,652	654
Total 1885-86	1,505	5,907	618

Of the total length of 1,518 miles of village channels completed, only 178 miles were constructed by Government agency, and the remaining 1,340 miles by private individuals. The latter figures are merely approximate.

A material reduction has been made in the number of temporary outlets in the Arrah and Eastern Sone Divisions

1884-85	17.11	0.49	30.57	18.84	0.54	31.62	20.90	0.90	31.87

The rainfall of the year was exceptionally heavy, the average for 22 stations being 59.34 inches against an average yearly quantity for the whole area commanded by the Sone Canals of 40.89 inches. The Superintending Engineer remarks:—"In 1886-87, for the kharif season and the year the fall was much beyond that observed in the previous year, and also greatly in excess of the average. In the rabi season, compared with 1885-86, there was a falling off, but the rainfall in October 1886, 8.92 inches against 0.45 inches in October 1885, was so plentiful, and there was a further fall in January, that the character of the season for that crop was in reality much more favourable also. In point of fact the rainfall of the year was heavier, and as regards the crops better distributed than in any since 1869-70, when the Sone Canal project was taken in hand."

AREAS LEASED AND
IRRIGATED.

63. In former year's reports the areas assessed with water-rates within the year have been taken as the standpoint from which the irrigation for the year has been discussed. Exception was taken to this in last year's report, and an attempt made to give the areas actually irrigated within last year for the purposes of comparison. In this year's report this plan has been still further matured, and for preceding years the figures have, as far as practicable, been recast on the above lines, and only such figures used, except when it is otherwise specially stated. They will consequently differ in many cases from those given in preceding Revenue Reports.

64. The following statement shows the area leased and irrigated for three years:—

(a) Includes 68 acres leased after 1st April 1897, with effect from the 25th June 1886.

(b) Of the area actually irrigated in 1874-85 in the Arrah Division, and either not leased at all, or leased under annual leases, 5,720 acres were leased under five-year leases in 1885-86, with effect from 1st April 1884.

The Superintending Engineer remarks that a small proportion of the leased area was not irrigated on account of timely rainfall.

The result of the year's operations shows a falling off of 32,191 acres in the area leased from that of the previous year. The area irrigated was less by 64,366 acres, of which more than two-thirds was the deficiency in the Buxar Division. The deficiency is sufficiently accounted for by the abnormal quantity of rain.

It is satisfactory, however, that in a year of such favourable rainfall the area under five-year leases continued to increase, more especially taking into account that leases for 39,075 acres fell in during the year. New five-year leases, either renewals or fresh leases, were issued for 59,665 acres.

The area of all crops grown in the year, assessed during the year, deducting that cancelled in khationies, was 264,744 acres against 246,812 leased. In addition to the above, 30,886 acres, appertaining to the irrigation of 1885-86, were assessed, making a total of 295,630 acres, on which the earnings of the year should be calculated.

The improvement in the proportion of the area irrigated for which leases had been previously granted continues.

Taking into account five-year leases, the following are the irrigated areas by crops compared with those of the previous year:—

	1886-87.	1885-86.	Difference.
	Acres.	Acres.	Acres.
Kharif	177,510	217,072	—39,562

Hot weather	15,278	10,857	+4,421
Total	268,204	332,570	—64,366

In dividing the area under five-year leases under kharif, rabi and sugarcane in the Buxar Division, $\frac{2}{3}$ ths of the total area is taken as kharif, $\frac{1}{3}$ ths rabi,

and $\frac{1}{10}$ th sugarcane. For the other divisions, $\frac{1}{10}$ ths is taken as kharif and $\frac{1}{10}$ th each rabi and sugarcane. The Superintending Engineer states that these proportions have been shown to be approximately correct.

The areas actually irrigated in each of the Executive divisions during the last five years are shown below:—

The figures used in the corresponding statement of the previous year's report represent the areas *assessed*; those now given are the areas *actually irrigated*, except for the two years 1882-83 and 1883-84, for which the latter are not available.

65. The proportion of *flow to lift* irrigation was 96·5, to 3·5—the figures for the last three years are—1885-86, 95 to 5; 1884-85, 93 to 7; and 1883-84, 90 to 10.

66. The following statement shows the duty obtaining in the year under review and in the previous one:—

			Eastern Main Canal Series.	Arrah Canal System.	Buxar Canal System.	Western Main Canal Series.	Sone Canals.

		Duty on gross supply	42·6	128·0	116·1	121·7	99·9

The duty for kharif is calculated on the supply entering the canals during the three months, August to October, and that for rabi on the discharge utilised during the four months, November to February. This method was first adopted in the report for the year 1884-85, and has been continued since.

The increased duty in the kharif season is attributed to the plentiful and seasonable rainfall, so much water not being required for rice, irrigation as was necessary in the year preceding. The gross average discharge of the canals in the kharif season fell from 3,059 cubic feet per second in 1885-86 to 2,172 cubic feet in 1886-87. The low duty in the Eastern Sone Division is accounted for by the great percolation in some parts of the division owing to the sandy nature of the soil. The Superintending Engineer states that—"The main reason of the lower duty in the rabi season is that only water escaping from canals is excluded in calculating the duty, the whole of that admitted into distributaries being taken into account. The supply in distributaries has to be kept above what is actually necessary for irrigation to admit of the level of the water therein reaching the height necessary for flow irrigation, and the percentage of water wasted is also higher on a smaller area." For the purposes of comparing with other canal systems the duties on discharge utilised must be taken for the the kharif, and from Form I. E. these appear to be:—

Eastern Main Canal Series	94·2
Western " " "	190·6
Sone Canals generally	...	A.	...	159·0

But it must be remembered that the figures given in connection with the kharif are taken with reference to the three months, August to October, only.

CROP
EXPERIMENTS.

67. Experiments were carried out on crops irrigated by canal water in 263 cases, and in 256 on crops irrigated from other sources. The result is in favour of canal irrigation for the rice crop, the average yield being 17 maunds 3 seers of grain and 31 maunds 14 seers of straw, or 2 maunds 12 seers of grain and 1 maund 1 seer of straw in excess of the yield from other irrigation. In the case of rabi crops, on the other hand, the yield is slightly in favour of irrigation from wells and aharas.

DEMANDS.

68. The following statement shows the demands, collections, and balance of water-rates for five years :—

The figures in the above statement are taken from those compiled by the Examiner of Accounts. The amount of arrears at the commencement and the outstanding balance at the end of the year under review, together with the amount of remissions, agree with the figures given in the statement furnished by the Commissioner and Collectors. The Examiner's figures for current demand and collections are, however, in excess of those given by the above officers. The chief reason of the discrepancies being that miscellaneous assessments and collections made by the Collector of Shahabad are omitted by the latter. Minor discrepancies exist also, which render a complete comparison of the statements given by different officers impracticable, though the Superintending Engineer explains them as far as is possible. The Examiner's figures have been adopted in the following paragraphs, except where otherwise stated.

COLLECTIONS.

69. All arrears for years previous to 1850-81 were cleared off in 1855-86, and the opening balance of 1886-87 included therefore only outstandings from 1880-81 up to the end of 1885-86, which amounted to Rs. 3,98,321. According to Collector's statements further demands for previous years, amounting to Rs. 68,609, were made during 1886-87, bringing up the total for recovery on account of irrigation effected in previous years to Rs. 4,66,930. Of this amount Rs. 3,46,381 was collected, and Rs. 33,708 remitted and written off as irrecoverable, leaving the balance of Rs. 86,391 outstanding at the end of 1886-87 on account of previous years against a balance of Rs. 1,55,000 as shown in round numbers in arrears in the previous year's report.

Assessments for irrigation of 1886-87 were made according to Collectors' returns to the amount of Rs. 6,21,156, of which Rs. 4,74,332 was collected and Rs. 1,657 remitted, leaving a balance for collection of Rs. 1,45,168.

The outstanding balance at the end of the year was thus Rs. 2,31,559 according to Collectors' statements against Rs. 2,31,582 as reported by Examiner. Of the above sum, Rs. 43,645 on account of assessment for rabi irrigation, though due, was not legally payable till after the close of the year.

ARREARS.

70. The outstandings at the end of 1886-87 are compared below with those of the previous year :—

	1886-87.	1885-86.

The following statement gives a comparison by districts of the result as shown in the previous paragraph of the operations of the year:—

The result of the year's operations shows a very decided improvement in the collections both of arrears and of the current demand in all districts, except in Patna in the case of arrears. Taking the total demand under both heads, the Commissioner writes:—“In Shahabad more than three-fourths, and in Gya “more than half of the total demand was adjusted during the year under report, “while the adjustment in Patna was less than half of the total demand—a result “which is far from satisfactory. In Patna the bad collections of the year under “report were, among other causes, mostly due to the apathy and incompetence “of the former circle officer, whose services were dispensed with in March last. “It is hoped that future reports will show better results. The balances at the “close of the year have been largely reduced in all districts, specially in Shahabad “as compared with the balances with which the year opened.”

The system of collection introduced during the previous year worked well, and on this point the Collector of Shahabad remarks:—“In the beginning “I feared that the enforcement of payment of rates in full according to each “receipt might retard collections, but happily my apprehensions have proved “groundless.” The most favourable results have again been obtained in the Shahabad district, where by far the greater portion of the work is carried out, the total demand for the year in that district being Rs. 8,70,871 against Rs. 2,17,213 for Patna and Gya combined.

The collections in all districts aggregated Rs. 8,26,461 against Rs. 9,78,323 in the previous year. The decrease is attributable to the seasonable nature of the rainfall, which was unfavourable to leasing, and also to the great reduction in arrears effected in the two previous years.

71. The remissions for the year amounted to comparatively a very small sum, the total amount remitted being—

					Rs.
By canal officers	13,279
„ civil „	22,085
Total	35 364

against Rs. 1,26,266 remitted in 1885-86. These figures are not, however, strictly comparable as explained below. Rupees 22,083 remitted by civil officers (Rs. 20,808 in the Shahabad district) is the amount of arrears written off as irrecoverable against Rs. 40,486 in 1885-86. The decrease is chiefly on

account of the large adjustments of arrears made in the previous two years. As

* Of these Rs. 6,090 were replaced by fresh khationies in the following amount:—

Rs. 541 Owing to five-year leases being granted.
 „ 5,548 Owing to an assessment in a five-year lease extending over four years having been revised and replaced by a new demand statement for Rs. 5,144.
 „ 6,090

regards remissions by canal officers the amount of Rs. 13,279, which appears in the accounts of the Examiner and Collection Department, does not take into account the sum of cancelled khationies, Rs. 85,780, which the corresponding figures for the previous year included. In the statement given by the Superintending Engineer the remissions plus the refunds are shown as Rs. 21,055; in addition to which khationies for the amount of Rs. 13,585* were cancelled, making a total of Rs. 34,640 against

Rs. 87,344 in 1885-86 and Rs. 53,966 in 1884-85.

The remissions by canal officers may be divided thus—

			Percentage of remission and refunds to gross demand.	
			1886-87.	1885-86.
Eastern Sone Division	0.68	11.8
Arrah Division	2.43	7.2
Buxar „	1.96	0.8

The result is very favourable, the proportion of remissions and refunds being insignificant.

REVENUE ESTABLISHMENTS.

72. The expenditure on the revenue establishments employed is shown below:—

	1886-87.		1885-86.	
	Amount.	Percentage on collections.	Amount.	Percentage on collections.
	Rs.		Rs.	
Permanent and temporary establishments, such as zilladars, ameens, &c. ...	53,914	6.52	56,110	5.73

Headmen's and putwaries' fees	61,718	7.47	60,345	6.17
Total	1,43,660	17.38	1,46,028	14.92

The charges for establishment during the year 1886-87, as compared with the previous year, show a reduction of Rs. 2,368. The actual realisations of the year were, however, less than those of the previous year by Rs. 1,51,862. Notwithstanding the large reduction in the amount of collections, there is a small increase in the amount paid on account of headmen's and putwaries' fees, and this appears to demand explanation.

The following statement shows the cost of the establishment employed on assessments during the year. The areas assessed, as shown in the statement, are the gross areas assessed in the year less the areas under five-year leases in force at the beginning of the year:—

DIVISION.	Area measured and assessed.	COST OF MEASURING CROP.		COST OF PREPARING DEMAND STATEMENTS.	
		Total.	Per acre.	Total.	Per acre.
	Acres.	Rs.	Pies.	Rs.	Pies.
Eastern Sone	25,789	1,397	9.65	634	4.72
Arrah	81,150	4,923	11.64	3,575	14.37
Buxar	26,041	1,741	12.83	745	5.49
Total 1886-87	132,980	7,961	11.49	4,954	7.15
Total 1885-86	159,294	7,869	9.48	5,944	7.16

The foregoing figures are approximate only, as the whole establishment was never exclusively employed on any special crop. Charges for one year's crop are disbursed in another, and there are other disturbing causes. The charge

per acre for measuring crop has again increased, it having been 5.91 pies per acre in 1884-85 on an average assessed of 255,255 acres. This appears to be due to the actual expenditure being, more or less, mainly either fixed or fluctuating with the total area, so that the charge per acre is almost entirely dependent on the area leased during the year, and varying inversely with it.

73. As regards the attendance of putwaries at measurements, the Superintending Engineer observes:—"Generally speaking there has been but little improvement, and in some cases the reverse in the percentage of measurements attended by putwaries. It is not easy to give a satisfactory explanation of the falling off, but it is probably partially due to the non-payment of fees in the case of five-year leases. The putwaries invariably receive notice of measurement, but their attendance is voluntary, and there are understood to be reasons against making it compulsory by legislation."

PUTWARIES.

74. The number of complaints pending at the beginning of the year and received during the year was 6,021, of which 5,420 were disposed of within the year. The corresponding number of complaints in 1885-86 were 13,589, so that the assessments would appear to have given rise to less objections than before. Four hundred and three miscellaneous petitions were received, of which 386 were disposed of. Thirteen cases were tried by Engineers vested with magisterial powers.

COMPLAINTS.

75. There is nothing to show how many of the above complaints were in connection with unauthorised or surreptitious irrigation, the remissions even not having been classified by the Superintending Engineer as was done last year. But undoubtedly some were under this head; and it is probable that, with the whole number so largely diminished, there was a decrease under this particular head also, and that this source of irritation, to which the late agitation was in some degree due, was the cause of less friction than formerly. In future detailed information regarding complaints, as has already been pointed out in the case of the Orissa and Midnapore Canals (paragraphs 18 and 41), ought to be given by the officers concerned in their reports.

UNAUTHORISED
IRRIGATION.

76. There was an increase in the number of certificates filed in the Patna district, 2,542, against 1,794 during the previous year. Of these 1,176 were enforced, realising Rs. 3,334-4. In Gya no certificates were filed. In Shahabad 8,826 cases were instituted against 14,145 for the previous year. There were also 8,089 cases pending from the previous year. Of these 10,223 were disposed of, realising Rs. 47,786, or 5.7 per cent. of the total collections. Six thousand six hundred and ninety-two cases remained pending at the close of the year. On this subject the Commissioner remarks:—

CERTIFICATE PRO-
CEDURE.

"The number of institutions has diminished considerably. They were generally on account of arrears of old standing which were suffered to accrue under the old system, and which it was found impossible to realise without coercive measures. The number, however, bears a very small proportion to the total number of rate-payers. The old arrears having now been nearly cleared off, there will be less necessity for recourse to coercive measures in future."

77. The Collector of Shahabad in his report remarks on the defects existing in the present system of assessments, preparation of khationies and disposal of complaints, giving an opinion that matters may be improved by the extension of the long-lease system. His remarks are worthy of consideration, but as in consequence of the numerous complaints that have been received, a Commission has been appointed by the Lieutenant-Governor to enquire into the whole question of the working of the system in vogue on the Sonc canals, His Honour being of opinion that the matter could not successfully be disposed of otherwise, and the investigations of the Commission are now being carried on, there is every reason to hope that the searching enquiry instituted will result in recommendations which, followed by a revision, if necessary, of the Act and the rules in force under the Act, will enable matters to be settled by the assessing and collecting officers with a much less degree of friction than is at present experienced. It may be observed, however, here that the stringent measures recently introduced to enforce payments of rates has placed matters on a considerably better footing, and that any procedure, which has for its object the early filing of complaints, the dealing with them quickly and finally (so far, at any rate, as the mere fact of irrigation or non-irrigation is concerned) and the prompt realisation of the demands certified as correct, will, in

MARKS.

the end, tend to make the cultivator appreciate both the benefits of irrigation and his own responsibilities in connection with it and enable the Government to collect its just dues.

1886-87	22,646	18,289	9,001	49,936

NOTE—The figures in these two statements do not agree, the reason being that the first statement is prepared from the Examiner's returns, while the second has to be based on returns obtained from the Superintending Engineer, and there are some unadjustable discrepancies between them.

A fair increase in the traffic is apparent on all canals.

TRAFFIC.

79. The following statement compares the traffic of the year 1886-87 with that of the four preceding years :—

	1886-87.	1885-86.	1884-85.	1883-84.	1882-83.
Number of miles open at the end of the year ... Miles	218½	218½	218½	218½	218½
Toll collections ... Rs.	49,665	41,712	37,335	48,032	39,304
Rate of toll per mile ... "	227	190	170	217	180
Boats, including empties ... No.	8,573	7,210	6,434	8,622	7,615
Measured tonnage of boats Tons	104,835	77,006	61,744	95,472	78,951
Estimated value of cargo ... Rs.	64,65,651	36,41,863	41,10,598	52,54,476	37,96,467

The increased value of goods carried is partly owing to the greater traffic and partly to specie carried for opium payments. The principal items of traffic are grain, oilseeds and timber, the down traffic being by far heavier than the up traffic. The most noticeable items on which there was an increase were grain, salt, building materials and miscellaneous. The cost of establishment employed on the collection of tolls and on locks was, according to Superintending Engineer, Rs. 13,379 against Rs. 13,644 in 1885-86. The charge is high, notwithstanding that the number of toll stations have been reduced, and is due to the great length of the canals and the small traffic.

80. There is a weekly steamer service maintained on the Patna canal, and a service twice a week on the Arrah and Buxar canals. These are in the hands of a contractor to whom three Government steamers are rented.

81. There are eight mills on the different canals, including a turbine on the Arrah canal at Nasrigunge. Three only of the small mills have afforded some return during the year. The total receipts under this head were Rs. 668

TRANSPORT SERVICE.

MILLS.

against an expenditure of Rs. 909. The excess expenditure is due chiefly to repairs to the turbine.

82. The miscellaneous receipts for the last five years are given in the following table:—

		1886-87.	1885-86.	1884-85.	1883-84.	1882-83.

Total		37,714	38,080	40,354	34,405	47,007

The falling off under "sale of water," the only item calling for remark, was due to a large payment being made in 1885-86 by the East Indian Railway Company on account of arrears of previous years for water supplied to the Dinapore Railway station.

83. PLANTATIONS.—The state of the plantations in each division at the close of the years 1885-86 and 1886-87 is shown in the statement following:—

The receipts for the year amount to Rs. 319 against Rs. 307 credited in the year previous. The expenditure was wholly charged to Revenue, and was as follows:—

	Rs.
Eastern Sone Division	675
Arrah Division	2,849
Buxar	1,665
Total	5,189

In the Arrah Division selected portions of the spoil banks were sown with babool seeds in the rains of 1886. and further extensions are now in hand. In all the divisions progress was made in planting out teak, sissoo, toon, and other valuable trees.

The figures given in paragraph 103 of last year's report were incorrect, those for wrong year's having been given. The correction should be as follows:—

	Rs.		Rs.

84. The receipts on revenue account and working expenses (direct charges) of the Sone canals for the year 1886-87 and the four preceding years are shown in the statement below :—

Net profit, exclusive of indirect charges	3,36,968	5,10,276	2,58,513	89,330	1,54,836

The decrease in the net revenue is due to the falling off in water-rates and increase in expenditure owing to heavy repairs to the weir.

85. The cost of repairs to head works was as follows :—

REPAIRS TO HEAD
WORKS.

	1886-87.	1885-86.	1884-85.
	Rs.	Rs.	Rs.

Other works	10,419	7,697	9,462
Total	78,989	42,605	39,384

The increased expenditure on the head works is almost entirely due to the rebuilding of the Baroon and centre river sluice piers.

86. The following statement prepared from the Superintending Engineer's returns shows the expenditure on canals and distributaries in the different executive divisions compared with that of the previous year :—

Total	1,05,885	1,32,648	60,139	38,008	58,260	65,522

The total cost of maintenance of canals in all divisions, exclusive of head-works and telegraph and telephone lines, was Rs. 2,24,290 against Rs. 2,34,784 for the year 1885-86. The figures do not quite agree with those given by the Examiner, but the discrepancy is small. The decrease of the cost in the Main Western canal is due to smaller expenditure on silt clearance owing to the lower average discharge of the canal during the flood months—1,461 cubic feet against 2,203 in 1885-86. This reason is also assigned for the lower expenditure in the Eastern Main canal. The increased expenditure in the Buxar Division is chiefly due to the postponement of as much as possible of the work in the previous year owing to want of funds. The average expenditure for the two years is slightly less than that actually incurred in 1884-85.

The expenditure per mile incurred on repairs to the canals and distributaries during the year 1886-87 and the two previous years is shown in the following statement:—

* The expenditure on the Western Main canal from miles 5 to 9 for the years 1881-85 and 1885-86 has been deducted from the Arrah Division, and added to the Buxar Division to which the miles have been transferred.

87. The quantity of silt removed by dredgers in the Eastern Main canal was 1,864,643 cubic feet at a cost Rs. 6,955, or Rs. 3-11-8 per 1,000 cubic feet, which does not include the cost of removal of the silt from the towpath. Of the silt dredged 1,325,757 cubic feet were deposited on the bank and 538,886 discharged into the river. The average rate in the previous year was Rs. 4-4-8 per 1,000 cubic feet. The low rate in the present year is chiefly due to the dredging having been confined to places where the silt deposit was heavy, and consequently full loads were always brought up by the buckets. The total quantity of silt dredged in the river was 3,100,682 cubic feet, the rate being Rs. 1-15-6 per 1,000 cubic feet, and in the Main Western canal 4,176,601 cubic feet at a rate of Rs. 3-8-11 for silt delivered in punts at the side of the canals. Inclusive of the cost of removing the silt, the rates were respectively in the river and canal Rs. 2,14-1 and Rs. 7-6-6. A large quantity of silt removed from the canal had to be carried over the spoil bank at a cost of Rs. 6 per 1,000 cubic feet. The Superintending Engineer remarks—“It is not possible, on the information available, to give, on the year's working the cost of silt clearance by the different classes of dredgers employed. This can best be determined by experiments extending over a limited time, which will be carried out.”

DREDGING.

Besides silt clearance by dredging a quantity of 1,105,522 was removed by hand from the Eastern Main canal at a rate of Rs. 4-6-4 for 1,000 cubic feet. In the Main Western canal a trifling amount only was thus removed at a total cost of Rs. 1,065. On the Arrah canal Rs. 1,370 was expended in dredging, and on silt clearance by hand Rs. 1,625. On the Buxar canal Rs. 51 was expended on silt clearance by hand.

88. The following statement shows the cost of weed-clearing during the year 1886-87 and the four preceding years:—

WEED-CLEARING.

	1886-87.	1885-86.	1884-85.	1883-84.	1882-83.
	Rs.	Rs.	Rs.	Rs.	Rs.

Arrah Division	2,218	2,491	3,976	5,918	6,627
Buxar do.	2, 65	77	270	29
Total	4,597	4,683	5,565	8,995	14,377

Of the total expenditure of Rs. 4,597, the cost of working the steam weed-rake was Rs. 1,719, and the balance of Rs. 2,878 was expended in clearing by hand. The weeds in the Buxar canal were found to be specially troublesome, and for the first time during the last five years, it was necessary to spend a large sum in removing them. In the Eastern Main canal the expenditure was less than usual.

CLOSURES.

89. The Main Eastern series of canals were closed for silt clearance from the 1st May to the 18th of June 1886, and the Main Western series from the 1st to the 10th of April.

FLOODS.

90. There was no high flood in the river Sone during the year. Owing to the heavy local rainfall there were high floods in all the minor streams. The Poonpoo river was in very high flood on the 8th and 9th of October 1886. The highest flood on record occurred in the Kao on the 7th October. The level of the water at the syphon aqueduct on the up stream side was R. L. 331.00, or one foot below that of the masonry towpath, and on the down stream side R. L. 328.00.

CALCUTTA AND EASTERN CANALS.

DESCRIPTION.

91. A DESCRIPTION of these canals was given in the Revenue Report for 1885-86. No works have since been added, and the length of the different channels remains the same.

The revenue administration of the canals formerly vested in the Board of Revenue, passed into the hands of the Public Works Department on the 1st April 1886, and the Revenue Report has been submitted by the Superintending Engineer. The management of the Calcutta canals and Tolly's nullah is at present in the hands of the Collector and Supervisor under the immediate orders of the Superintending Engineer. The charge of the works and of the Eastern canals and steamer route is in the hands of the Executive Engineer.

NOTE.—(a) Approximate expenditure prior to the year 1861-62 as supplied by the Board of Revenue, Lower Provinces.
(b) It was mentioned in the foot-note to this statement in last year's Report that the figures are not quite accurate, certain receipts under "Navigation" having been shown as "miscellaneous revenue;" the error has now been corrected by the transfer of Rs. 21,501 from the latter to the former head.

The above statement is exclusive of indirect charges.

There is no interest account, the whole expenditure having been defrayed from Provincial funds.

93. The following statement shows the financial results of these canals for the last ten years. The figures are for direct charges only. The average net revenue has exceeded five and a half per cent. on the capital expenditure :—

(a) Is Rs. 35,185 larger than it should be by reason of error of account.
(b) Is Rs. 35,185 smaller than it should be by reason of error of account.

The gross revenue of the year is not directly comparable with that of the two previous years for reasons given in the previous year's Revenue Report. The correct figures are Rs. 4,83,654 against Rs. 5,14,669 for the previous year. and Rs. 5,34,541 for 1884-85. The net revenue corresponding is Rs. 3,00,766 against Rs. 3,27,920 for 1885-86 and Rs. 2,56,349 for 1884-85.

The gross revenue, as explained in the preceding paragraph, is Rs. 4,83,654 against Rs. 5,14,669 for the previous year. The decrease is attributable to—

- (1) Abolition of return trip tolls.
- (2) Transfer of canal lands to the Civil Department.
- (3) Abolition of demurrage on dinghees.
- (4) At the Dhappa toll station, dulness of jute and rice trade.
- (5) At the Chitpore toll station, falling off in salt and coal.

95. The following statement shows the number of the different classes of boats entering the canals:—

* Includes 30,457 not classed.

There is a small increase apparent in the number of boats between 2,500 and 5,000 maunds and over that measurement, and also in the number of those up to 100 maunds over the figures of the previous year, but the total number is very steady.

96. The following statement shows the traffic in the Calcutta and Eastern canals during the year under review and the two previous years:—

The decrease in tollage is entirely in the Calcutta canals, and is attributable to reasons mentioned before. The number of boats, however, shows an increase, the reason of which is that in the previous year all boats plying outside locks used to take monthly tickets; but under new rules dating from

1st April 1886, such tickets are only given for small boats carrying perishable articles to the soorahs or small channels in connection with the canals. The number of monthly tickets issued was 1,090 against 1,300 in the previous year. The decrease in tollage is further accounted for by the general depression in the rice and jute trade, and in the amount of coal and salt carried, considerable quantities of these commodities now being forwarded by rail and up-country steamers.

97. The collections on account of steamers and flats using the Sunderbund route were Rs. 4,365 against Rs. 5,385 in the previous year, the number of vessels being 873 against 1,073. This decrease was due to the vessels of the Bengal Central Flotilla Company having been bought up by the India General Steam Navigation Company.

COLLECTIONS ON STEAMERS AND FLATS.

98. The number of missing tickets was still further reduced during the year under review, being 542 against 653 of the previous year, pointing to an improvement in the administration.

MISSING TICKETS.

99. The table below compares the entire cost of the revenue establishment under the Collector and Supervisor with the gross collections made by him :—

REVENUE ESTABLISHMENT.

				Gross collections made by Supervisor.	Cost of entire revenue establishment.	Percentage.
				Rs.	Rs.	
1886-87	4,81,048	42,714	8.84
1885-86	5,13,839	44,751	8.70
1884-85	5,33,694	47,280	8.85

An increase is apparent in the percentage of charge, which is due to a decrease in the traffic. The cost per boat measured shows a slight decrease, being 4.69 annas per boat against nearly 4.87 annas in the previous year, which is satisfactory. The cost of the establishment includes the pay and commission of the Collector and Supervisor.

100. The total expenditure under this head was Rs. 1,07,572, of which Rs. 5,092 was expended on "extensions and improvements" in the erection of girder bridges at Gurriah and Tolleygunge, and Rs. 1,02,480 was expended on actual repairs against Rs. 67,942 in the previous year.

MAINTENANCE.

Only such repairs as were indispensably necessary were carried out.

101. A small quantity of dredging was carried out chiefly in removing a shoal which had formed below the Dhappa lock. About 311,500 cubic feet of silt was excavated at a cost of Rs. 3,259, or at a rate including disposal of the silt of Rs. 10.46 per 1,000 cubic feet.

The expenditure under capital account has been entirely from Provincial Funds with the exception of Rs. 8,66,000 contributed from Imperial Protective Funds, of which Rs. 84,000 was received during the year. There is no interest account. The total expenditure has exceeded the estimate and a revised estimate will very shortly be submitted.

The revenue account of this canal was opened in 1885-86 when Range III, a length of 36 miles, was opened for traffic. The revenue collections were then Rs. 13,718, and maintenance and establishment charges amounted to Rs. 29,881 (the maintenance charges being enhanced by Rs. 20,088 on account of cyclone damages), and a deficit of Rs. 16,183 resulted. During the year under review, Ranges IVA and V were temporarily opened for traffic from 15th July to 31st December 1886, being a further total length of 55 miles. This caused a satisfactory increase in revenue receipts, which amounted to Rs. 29,488, but a deficit of Rs. 30,216 has resulted. The cause of this is the same as operated in the previous year, the bulk of the expenditure being chiefly for repairs to damages caused by the cyclone of 1885 and flood damages, probably nearly Rs. 40,000 of the maintenance charges were due to these. The increase in the revenue receipts is the more satisfactory when it is taken into account that the traffic was entirely local, and good results may be anticipated when through communication, which has already been established, is followed by the remodelling of the Hidgelee Tidal canal and the canal route to Cuttack is thoroughly established.

			Deficit	15,476	58,471
Total	27,903	1,76,847	Total	27,903	1,76,847

The expenditure of the year which is entirely under revenue account is in excess of that for the previous year, being Rs. 27,903 against Rs 22,751. The extra cost is stated to be on account of river protective works at the head, and heavy expenditure owing to the difficulty in keeping open the head of the Thakraha Sota which is the chief source of the supply for the canals and a new cut having eventually to be made. The revenue receipts are very short, being Rs. 11,072 against Rs. 41,143 in the previous year—when there was a net profit of Rs. 18,392—as against a deficit of Rs. 15,476 in the year under review. The collections on account of water-rates, and guarantee, Rs. 11,072, are about one-half of the yearly guarantee which is Rs. 21,750. The arrears which amounted at the commencement of the year to Rs. 22,035 were at the end of the year Rs. 32,712. The result, as remarked by the Commissioner, is not satisfactory, but no explanation is forthcoming of the reason for the guarantor's withholding payment. The Collector states that they have been called upon to pay in their dues without further delay, and the balance is in course of realization.

104. The rainfall for the year was excessive, being 60.96 inches, an average of ten stations against 39.27 inches for the previous year, and a yearly average up to 1885-86 inclusive for the area under the influence of the Sarun canals of 37½ inches (observations extending over periods of 3 to 17 years).

105. There was little demand for water for irrigation purposes, or even for indigo manufacture, on which last account the construction of the canals was primarily undertaken. The area irrigated during the year was 2,146 acres against the areas shown below as irrigated in former years:—

						Acres.
1881-82	666
1882-83	1,741
1883-84	21,122

NUDDEA RIVERS.

106. No capital or revenue accounts are kept for these works. The revenue administration is under the direction of the Board of Revenue and civil officers, but proposals have lately been made to transfer the management to the Public Works Department.

107. The following statement shows the revenue and expenditure on these rivers for the last seven years, including direct charges only:—

Year.	REVENUE.			Charges.	Net revenue.
	Tolls.	Miscellaneous.	Gross revenue.		
	Rs.	Rs.	Rs.	Rs.	Rs.
1880-81	2,31,957	676	2,32,633	1,21,846	1,10,787
1881-82	2,10,041	1,179	2,11,220	2,70,720	—59,500
1882-83	1,82,351	616	1,82,967	1,18,231	64,736
1883-84	2,00,008	1,926	2,02,934	1,22,376	80,458
1884-85	1,49,811	476	1,95,457	97,335	98,122
1885-86	1,83,382	399	1,83,781	77,663	1,06,118
1886-87	2,02,707	543	2,03,250	60,218	1,43,032

The results are undoubtedly satisfactory. The charges are less in the year under review than in 1885-86, and do not amount to one-half what they were in 1883-84. At the same time the gross revenue shows an increase, and is greater than in any of the preceding four years.

TRAFFIC.

108. The Administration Report submitted by the Commissioner of the Presidency Division, through the Board of Revenue, gives the following details of the traffic for the year as compared with that of the previous year. The details of former years have been taken from the previous year's revenue report:—

YEAR.	NUMBER OF BOATS.					NUMBER OF STEAMERS AND FLATS.		Number of rafts, &c.	Total number.	*Tonnage of boats by measurement.

* The figures for tonnage are taken from the monthly traffic returns.

The traffic shows a tendency to revive, and an increase in the number of boats of all classes is apparent and is more especially noticeable under the head of steamers and flats which is attributed to steamers passing to the upper provinces during the rains, and to a greater number of vessels passing through to Assam, Serajgunge and Naraingunge for oil-seeds and jute. In the Nuddea portion of the Bhagiruthi the increase in traffic is chiefly due to exports of wheat, rice and gram, which were produced in large quantities in the Burdwan and Moorshedabad districts. On the Jellinghee river the increase was chiefly due to the export of wheat and on the Matabhanga river chiefly to the imports of rice from the Eastern districts. The revival in the traffic and the improvement in the receipts is attributed to the favourable state of all the three rivers. The fact of the gross tonnage for the year being less than that for the previous year is accounted for by the introduction of the new system of measurement for empty boats the depth of which in calculating the maundage is now measured from the water-line instead of from the gunwale.

The total value of cargo carried is estimated at Rs. 3,57,12,518, against a value of Rs. 3,38,41,805 in the previous year.

109. The charges against revenue for the past seven years are detailed in the following statement:—

YEAR.	CHARGES IN PUBLIC WORKS DEPARTMENT.							CHARGES IN CIVIL DEPARTMENT.	GRAND TOTAL.
	Works.	Maintenance and repairs of works.	Working Government steamers.	Public items.	Establishment.	Tools and plant.	Total.	Charges for collection.	
1880-81	Rs.	Rs. 68,856	Rs. 1,522	Rs. 222	Rs. 34,759	Rs. 472	Rs. 1,00,841	Rs. 20,905	Rs. 1,21,746
1881-82	14,330	74,775	85	22,526	1,02,198	240,929	20,793	2,76,720
1882-83	5,853	54,743	138	1,278	14,181	24,490	99,502	18,766	1,18,267
1883-84	7,021	81,612	548	352	19,207	31,508	1,01,349	21,126	1,22,475
1884-85	29	87,572	925	2,376	13,976	11,720	76,545	20,780	97,325
1885-86	42,124	800	1,722	9,901	1,750	56,008	21,662	77,670
1886-87	26,227	1,206	1,404	6,025	1,400	37,585	22,638	59,223

The expenditure in the year 1881-82 was altogether abnormal on account of the heavy charge of Rs. 1,38,198 for tools and plant. This sum was on account of a dredger and set of barges which was charged against these rivers.

The decrease in charges incurred by the Public Works Department under maintenance is considerable, but no explanation is afforded under this head by the Superintending Engineer. The work carried out was of the usual character, the training works on the Bhagiruthi being for the purpose of maintaining navigation throughout the year, and on the other rivers for the purpose of maintaining a supply of drinking water for the villages on their banks.

110. The total cost of collection is slightly in excess of that of the previous year which is accounted for by the greater commission drawn by the Toll Collector owing to increased collections. The percentage of cost on the gross revenue is, however, less, being 11.1 against 11.8 in the previous year. The cost per boat measured has also fallen from 5.6 to 5.4 annas.

COLLECTION
CHARGES.

EDEN CANAL.

111. This work has been constructed entirely from Provincial funds, and there is no capital or revenue accounts. Its primary object is the supply of drinking water to the villages on the banks, and it is also the source of supply for the Burdwan water-works.

112. The expenditure for the year was as follows:—

EXPENDITURE.

	Rs.
Works	16,094
Maintenance	22,258
Establishment and tools and plant	10,072
Total	48,424

113. The revenue derived was Rs. 810.

114. All irrigation from the canal was prohibited under the orders of Government, as it was found that a guarantee could not be obtained for the extra cost of maintenance that would ensue from keeping up the supply of water. The question of regular irrigation from this canal is under consideration awaiting proposals for a workable scheme under which those benefited will defray the cost of additional works necessary to keep up the level of the water, and also the cost of the yearly maintenance.

IRRIGATION.

MADHUBAN CANAL.

115. This is a small provincial work for which no capital or revenue accounts are kept. No irrigation was carried out from it during the year on account of a breach in the weir.

IRRIGATION.

116. The expenditure for the year was as below:—

EXPENDITURE.

	Rs.
Works	4,380
Maintenance	1,263
Establishment	1,298
Total	6,941

GENERAL REMARKS.

117. The net income of the year 1886-87 from Major Irrigation works in Bengal amounted to Rs. 54,029 thus:—

NET INCOME.

	Rs.
Gross direct receipts	13,86,629
„ charges	13,32,600
Net revenue	54,029

The budget estimate for net revenue was Rs. 2,05,000, and the revised estimate was (—) Rs. 55,000, thus:—

	Budget.	Revised estimate.
	Rs.	Rs.
Direct receipts	13,30,000	13,30,000
„ charges	11,25,000	18,85,000
Net revenue	2,05,000	(—) 55,000

The net revenue of the year, though much below the budget estimate in consequence of heavy charges on account of repairs to the Mahanadi weir, was more favourable than anticipated in the revised estimate, owing to large collections of water-rates on the Sone Canals at the end of the year.

EARNINGS.

121. The following table shows the total of toll collections on the canals in Bengal distinguishing between canals solely for navigation and those for irriga-

tion and navigation with percentage of cost of establishment for collection and cost of measuring each boat:—

	TOLL COLLECTIONS.		PERCENTAGE OF CHARGES FOR COLLECTION TO AMOUNT COLLECTED.		COST OF MEASURING EACH BOAT.

GRAND TOTAL	9,94,662	9,74,413

* Do not include miscellaneous receipts.

In the above statement if Rs. 16,660 miscellaneous receipts included in toll collections of the year 1885-86 were omitted, the gross toll collections from both classes of canals would be Rs. 9,77,902 against Rs. 9,74,413 for the year under review. The toll collections under canals for navigation only would show an excess collection of about Rs. 10,000 over the figures for the previous year and for canals for irrigation and navigation a decrease of about Rs. 13,000 chiefly on account of the falling off in the receipts for the Midnapore canal. Where the percentage of cost of collection and the cost of measurement of each boat is greater than that for the previous year, the cause is owing to the decrease in the traffic. In the Orissa Coast canal the large increase is due to the increase in the number of toll stations, while still the traffic was undeveloped. In this canal and in the Calcutta and Eastern Canals the cost of establishment is not included, being shown under maintenance charges. In future the charges should be made under the proper head. In the case of the Calcutta Canals and Nuddea Rivers, the percentage is heavy on account of the pay and commission of the Collector and Supervisor in the former case, and the large pay and commission received by the Toll Collectors in the latter, the system of administration being different to that in other canals. On the whole the result for the year may be considered very favourable, taking into account the decrease in the traffic in the Orissa and Midnapore canals, which may be considered accidental, the causes being explained under the heads of those canals.

122. The date for the submission of Revenue Reports to the office of the Chief Engineer is the 15th September. The following statement shows the dates when the different reports were received:—

PUNCTUALITY REPORTS.

		In 1886.	In 1887.
Orissa Circle ...	Commissioner's report ...	18th October	21st September.
	Superintending Engineer's report ...	1st November	26th ditto.
South-Western Circle ...	Commissioner's report ...	14th September	8th ditto.
	Superintending Engineer's report ...	23rd ditto	26th October.
Sone Circle ...	Commissioner's report ...	17th ditto	15th September.
	Superintending Engineer's report ...		

The reports were very punctual with the exception of that of the Superintending Engineer, South-Western Circle. The Finance and Administrative Accounts of the year 1886-87 were not received from the Examiner until the 3rd September. A good deal of time has had again to be wasted in attempting to eliminate the discrepancies between the returns received through the Commissioners and from the Superintending Engineers and Examiner, though there is undoubtedly an improvement in this respect.

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park-street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 2.1° lower; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

CALCUTTA, the 6th March 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 2ND MARCH 1888.

The meteorological conditions which obtained over Bengal during the previous week were those which mark the gradual change from the north-east monsoon to the hot weather season. Similar conditions have obtained throughout the whole of the present week. Westerly and north-westerly winds have prevailed during a considerable portion of the week and over a large part of the province, but at the southern stations winds have been rather variable, and they shew a decided tendency to become southerly. The variations of pressure have been of the usual oscillatory character, though on the whole pressure has been decreasing. Temperature on the other hand has been almost steadily rising, and towards the end of the week some rather high maximum temperatures were reported. Humidity has remained fairly low at most stations, and the sky has been almost free from cloud or very lightly clouded over the whole province; while at no station has any rain been reported. The meteorological conditions for the week in fact again call for no particular remark, except that the hot wether conditions are rapidly establishing themselves.

Pressure—Generally fell on the 25th and was almost stationary on the following day; this was succeeded by a moderate fall lasting two days, and then by a slight rise lasting the same period; but on the 2nd pressure was again falling. Notwithstanding the decrease, the average pressure for the week has been decidedly above the normal, and taking into consideration only those stations from which observations have been received for many years, and which therefore yield reliable averages, the mean pressure for the province has been 0.053 inch in excess of the normal.

Temperature.—As has been already stated, temperature has risen almost steadily throughout the week, and thus, while the average mean temperature of the whole of the province in the previous week was 69.7°, in the present week it has risen to 72.9°, showing an increase of 3.2° in the week. The actual mean temperatures recorded during the week have, however, not been far removed from the normal, and for the whole province the mean temperature has been 0.2° lower than usual. The actual temperatures recorded and their variations from the normal are best seen in the table below, where the average maximum, minimum, and mean temperatures for the week at nine typical stations in the province are compared with the normal values for the same period. Generally speaking it will be seen that the maximum or day temperatures have been rather above the normal, while the minimum or night temperatures have been below it.

Table showing the excess or defect of the actual mean temperature from the normal for the week ending the 2nd March 1888.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph. The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

The following summary of results has been deduced from the annexed table exhibiting the vital statistics of the principal Municipalities in Bengal for the week ending 18th February 1888 :—

1. That births and deaths were registered in these Municipalities in the proportions per 1,000 of population of 21 and 23·2, respectively, as opposed to 18·4 and 21·9 per 1,000, respectively, in the preceding week ending 11th February, indicating an improvement in the registration of both.

2. That these events were recorded in the highest proportions by the following Municipalities :—

Births.			Deaths.		
		Ratio per mille.			Ratio per mille.
Bali	...	53·6	Bali	...	84·2
Darjiling	...	52·1	Suburbs of Calcutta	...	35·4

Midnapore	...	31·0	Serampore	...	29·4
Ranaghat	...	29·9	Beau'eah	...	28·9
Monghyr	...	29·8			

3. That in comparison with the results of the preceding week, there was a sensible reduction in the death-rate from fever, no variation in fatality from injury, the fatal results from the other diseases exhibiting only fractional differences, and small-pox presenting no death; *vide* subjoined table :—

						Ratio per mille during the weeks ending—	
						18th Feb. 1888.	11th Feb. 1888.
Cholera	2·7	1·8
Small-pox	·03
Fever	9·1	10·1
Bowel-complaints	4·3	3·6
Injury	·2	·2
Other causes	6·9	6·1

4. That, referring to the diseases mentioned above, eliminating small-pox, from which, as before stated, no death was reported to have occurred, bowel-complaints and injury, the casualties from which were nowhere noticeably large, cholera, fever, and the maladies coming under the head of "Other causes" caused the greatest loss of life in the following Municipalities :—

Cholera.			Fever.			Other causes.

CALCUTTA AND SUBURBAN MUNICIPALITIES AMALGAMATION BILL.

THE HON. SIR HENRY HARRISON presented the final Report of the Select Committee on the Bill to consolidate and amend the law relating to the municipal affairs of the Town and Suburbs of Calcutta. He said:—In presenting this report, I owe it to the Committee to state that they have devoted much care and time to the consideration of the many suggestions with which they have been favoured by the several Associations and other Public Bodies who reported on the Bill. We wished we could have presented this report at an earlier period, in order that the public might have had a longer time to consider it before it must be taken up again by the Council. But the time which we have taken to give adequate consideration to all the material points laid before us has been such that, though we have made every speed consistent with due care, we have not been able to complete our work at an earlier date. As regards the report itself and the Bill which accompanies it, I may perhaps be permitted to let them speak for themselves. It will suffice to say that the main alterations we have made are connected with the system of levying the rates with the water-supply, and above all with the building regulations. I may observe that the whole of these come, if not in the latter part of the Bill, at least towards the middle of it, and therefore if the Bill is taken into consideration, say three weeks from the present time, it should not be inferred that only three weeks are therefore allowed for the consideration of the most important changes in the Bill. The earlier chapters of the Bill have been very little altered indeed, and substantially these have been before the public for the whole space of a year. Consequently, before we reach in Council those portions of the Bill in which material changes have been made, a considerably longer period will have elapsed. With these remarks I ask the Council to accept the Report.

The HON. SIR HENRY HARRISON then moved that the Bill as further amended, with the final Report of the Select Committee thereon, be published in the *Calcutta Gazette*.

The HON. BABOO KALLY NATH MITTER moved that the words "for at least six weeks" be added to the motion.

The HON. THE PRESIDENT said:—The motion before the Council is to publish the Report of the Select Committee and the Amended Bill. No time is fixed. The Hon. Member can bring forward his proposal as a separate motion if he thinks fit.

The HON. SIR HENRY HARRISON's motion was put and agreed to.

The HON. BABOO KALLY NATH MITTER then moved that the Bill be published for at least six weeks. He said the changes which have been made in the Bill are so numerous and so important that it is absolutely necessary that the public should be afforded a reasonable time to consider them before the Bill is taken into consideration by the Council, and I think six weeks is a reasonable time to give for the purpose. Anything short of that would be too little. Not having been furnished with a copy of the Bill as altered by the Select Committee, it is impossible for me to point out the various and numerous changes made in the Bill. Besides, as far as I am concerned, the Bill has now been presented in a form which is far more objectionable than what it was when last reported upon. Many of the alterations which have been made are such that I am entirely opposed to them, and knowing, as has been hinted, that the people of Calcutta intend to hold a public meeting to consider the provisions of the Bill, I think it is better that they should be afforded an opportunity of submitting their representations, so that, before the Bill is taken into consideration by the Committee, we should have the views of the public put before us in an intelligent and proper manner.

The HON. MR. MACAULAY said:—I submit it is quite unnecessary to give such a long period for the consideration of this Report and Bill. The Select

consider and report upon the Bill in detail, yet the hon. member asks that one-half of that period may be given to enable the public to make up their minds on the Bill, and to submit their views in an intelligent and proper manner. I am far from underrating the value of intelligent public discussion; but I venture to think that opinions of any value can easily be laid before the Council within the period of three weeks for which, I understand, my hon. friend who is presiding proposes to adjourn the Council. I think that to give an interval of six weeks will be simply to suggest an increase of the delay which has already formed the subject of public criticism. We have nothing to gain by it, and it will only obstruct the course of legislation.

The Hon. Sir Henry Harrison said:—My own view of this matter, as the Member in charge of the Bill, is that, if we had an unlimited time at our disposal, I should be glad if the six weeks which have been asked for could be given; but the function of a reasonable person is to balance considerations on opposite sides. What we have to consider is what will be the effect of giving six weeks' time before commencing to consider the first section of the Bill in Council. Six weeks will bring us to the end of April. We have not only to consider what time we should give the public, but also what would be reserved for the Council. Suppose the legislative session to be carried on even into July, we shall deprive ourselves of a very considerable portion of the time before us if we postpone all action for six weeks. Now, as I mentioned in my former remarks, the parts of the Bill which come first are precisely those parts which have been before the public for a whole year. I do not think any change of any importance at all comes before section 100 of the Bill. On a reference to the report of the Committee, I find that the first of the important changes comes in section 99. I cannot call the sections relating to petroleum an important change, though it may be an important question: the proposal has been before the public for a very long time. We have therefore before us some weeks of important discussions regarding the constitution of the Town Council and various other matters which have been untouched by the Committee; and during the time we discuss these matters, the public will have an opportunity of expressing an opinion on the important alterations in the Bill. So that, looking from both points of view, the time left to the Council, as well the convenience of the public, I am bound to say I think we shall consult the convenience of both parties if we allow a period of three weeks before commencing to discuss the Bill in Council. I feel pretty confident that we shall hardly reach the new portions of the Bill under six weeks. For these reasons I think it will be a pity if we wait for a longer time than three weeks before we begin to consider the Bill in Council.

The Hon. Baboo Kally Nath Mitter said:—I find that the first section of the Bill which has undergone considerable change is section 37—the very first section which will come up for discussion. The duties of the Corporation are enumerated in that section, and those duties were numbered in the Bill as before amended from Nos. 1 to 5, but now clauses (a) to (k) have been added to those duties. This of itself may not be of much concern, but under the very next section a power of control has been given to the Local Government in reference to the performance by the Commissioners of any of the duties enumerated in section 37. I am not prepared at present to say whether there are any other important changes in the early sections of the Bill; but it seems to me that this is hastening unduly the consideration of the measure. The Hon. Mr. Macaulay has complained of the delay which has taken place in Select Committee, but who was responsible for such delay? [The Hon. Mr. Macaulay:—“My hon. friend is under a misapprehension. I made no complaint of delay, and I made no reference to any delay on the part of the Select Committee. I said that the Bill had already been for two years before the Council, and yet you want to give six weeks more for public critics to give their opinion upon it in what you describe as an intelligent and proper manner. I did not say that there had been any unnecessary delay, but I said that the delay which had taken place had been made the subject of public criticism.”] The delay had been brought about by the important changes which had been suggested by the Hon. Member in

were not responsible for the delay. I do not see why the public should not have a reasonable time to consider the important alterations made in the Bill which affect their interest.

The HON. THE PRESIDENT said:—Before putting the motion, I should like to say a few words on the subject. This Council would as a matter of course on all occasions regard public convenience; but the question is whether convenience in respect of other matters should not also be taken into consideration. The question is whether the proposal is a reasonable one. Now, when we come to consider the fact pointed out by the Hon. Mr. Macaulay that the task of preparing this report has taken three months, I apprehend the request to have six weeks time to consider the work which has been done by the Committee in three months seems relatively a long period of time. Nor can I believe the public to be altogether ignorant of the main provisions of the Bill. From my own experience I have found that when any important subjects are made public we have within a week in the public prints criticisms of every description. I cannot therefore help thinking six weeks an unreasonable time to ask, and I have no doubt that two or three weeks will be more than sufficient, especially when it is remembered, as observed by the Hon. Member in charge of the Bill, that many portions of it are taken from the old Bill with some amendments, but containing no new principle. All these portions of the Bill may be considered in Council while the public are discussing the effect of the radical changes which have been made, and there will be ample time for the public to submit all their representations to the Council. Bearing in mind that the Bill has been before the public for a long time, I am opposed to the extension of time for the publication of the Bill to six weeks.

The HON. BABOO KALLY NATH MITTER's motion was then put and negatived.

The Council was adjourned for three weeks.

The remaining 26 wells constructed during the year are distributed among the districts of Nuddea, Rungpore, Julpigoree, Patna, Gya, Mozufferpore, Chumparun, Purneah, and Cuttack.

Miscellaneous.—Rupees 3,840 were contributed. Mr. J. D. Beglar constructed a jheel at Chagdah at a cost of Rs. 3,000.

RESOLUTION.—Compared with the corresponding figures for the previous two years, there has been a large falling off in the contributions made for works of public utility during the year under review, but looking to the many wants which are constantly being brought to notice from all parts of the Province, it may be expected that the decrease is only temporary. To those who have contributed towards such works during 1886, the Lieutenant-Governor tenders his acknowledgements for their public spirit and liberality.

Letters of acknowledgment will be forwarded by Government to those who have constructed important works. The contributors of works costing Rs. 500 and under will, as usual, receive an acknowledgment from the Commissioner or the Magistrate of the Division.

ORDER.—Ordered that a copy of this Resolution, and of the statement, be forwarded to the Board of Revenue, Lower Provinces, and to all Commissioners of Divisions, to the Commissioner of Chota Nagpore, and to all Superintending Engineers of Public Works Circles in Bengal, for information.

Ordered also, that a copy of this Resolution, and of the statement, be forwarded to the Revenue and Judicial Departments of this Government for information.

Ordered also, that this Resolution and the statement be published in the Supplement to the *Calcutta Gazette* for general information.

By order of the Lieutenant-Governor of Bengal,

C. M. BROWNE, Col., R.E.,

Offg. Secretary to the Govt. of Bengal,

P. W. Dept.

CALCUTTA, the 13th March 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 9TH MARCH 1888.

At the beginning of the present week conditions were those which generally accompany the commencement of the hot season in Bengal. Westerly winds prevailed over a large part of the province, temperature and pressure were high, while humidity was low; skies were clear and rainfall was entirely absent. Wind directions gradually became more southerly at the southern stations during the earlier part of the week, bringing up moderate amounts of moisture; but still the general conditions remained unaltered up till the 7th, when a slight but distinct low pressure area was formed over West Bengal. On the 8th the feeble barometric depression was well marked over Bengal, and in the wind directions of Northern India, a general indraught was noticed towards the depression, while on the 9th there was a distinct tendency to a cyclonic circulation of winds over Bengal. The formation of this depression caused weather over South-West, East and North Bengal, and Orissa to become disturbed, and on the 9th, or in some cases on the last two days of the week, local showers became numerous, the showers being heaviest in South-West Bengal. With the exception therefore of the last two days of the week, when the slight disturbance commenced, the weather in Bengal has been of ordinary hot season character, and calls for no particular remark.

Pressure.—The variations of pressure during the earlier part of the week were very small; for the first two days a rise of two or three hundredths of an inch took place, which was followed by a slight fall on the 5th of almost equal amount. A feeble increase then took place on the 6th, and in some places on the 7th as well; but on the 8th a rapid fall of the barometer took place attending the development of the depression, which amounted at some stations to about a tenth of an inch. A further fall of about a twentieth of an inch also took place on the 9th, thus slightly intensifying the feeble depression. For the whole week, taking into consideration only those stations which have recorded observations for a series of years, and which therefore yield reliable averages, the mean pressure of the province is only 0·005 inch above the normal.

Temperature.—Has on the whole steadily risen throughout the week, and some decidedly high temperatures were recorded towards its close. The average mean temperature of the whole province for the week ending 2nd March was 72·9°, while the average mean temperature for the whole of Bengal for the present week has been 76·1°; there has therefore been an increase in the mean temperature equal to 3·2° during the week; the mean temperature of the province for this period has, however, been 1·2° in excess of the normal, but the excess is to a great extent confined to Chutia Nagpur, North Bengal and Behar, where in the last-named district the excess varies from 2° to 3°.

The actual temperatures recorded, and their variation from the normal, are best seen from the figures given in the table below, where the average maximum, minimum and mean temperatures for the week at nine typical stations in different districts of the province are compared with the normal values for the same period. The day or maximum temperatures at these stations show an excess of no less than 2·9°, while the minimum or night temperatures show an excess of only 0·9°.

Rainfall.—Was confined to the last day or two of the week, and then usually accompanied local storms. The average rainfall has, however, been small, and in South-West and East Bengal, where the largest amounts fell, it has only equalled 0·20 inch. In Orissa and North Bengal the falls have only equalled 0·07 inch. Elsewhere rainfall has been practically absent.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Friday, the 3th of March 1888:—

The extreme variation of temperature 32·5

The maximum temperature 94·6

The mean relative humidity 66%

The total fall of rain from 4th to 10th March 1888 0·61

The mean temperature and humidity are obtained by applying to the mean of the 10h, 16h, and minimum readings a correction dependent on the range, and derived from the hourly observations at the Surveyor-General's Office, Chowringhee, in past years.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h. 10h. 16h. and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 36, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

DURING the week ending 25th February 1888, births and deaths were registered in the principal Municipalities in Bengal at the rates, respectively, of 21·3 and 23·4 per 1,000 of population, as opposed to very nearly the same proportions, viz. 21 and 23·2 per 1,000, respectively, during the preceding week ending 18th February.

2. The following Municipalities returned the highest proportions of births and deaths :—

<i>Births.</i>		<i>Deaths.</i>	
	Ratio per mille.		Ratio per mille.
Comillah	88·5	Comillah	46·2
Utterpara	47·2	Suburbs of Calcutta	42·0

Narainganj	37·3	Gya	34·8
Durbhanga	34·6	Purneah	34·6
Gya	30·8		

3. In comparison with the results of the preceding week, there was a sensible reduction in the death-rate from bowel-complaints, no variation in fatality from fever, the fatal results from the other diseases exhibiting only fractional increases; *vide* subjoined table :—

						Ratio per mille during the weeks ending—

of the European in the Municipalities was recently taken, as the census of this section of the community, taken in February 1881, was not reliable owing to the European being at a minimum in that month. It was not necessary to re-census them. The ratios have consequently been calculated on the revised population under all heads in the above table, except "Age & Sex," not be employed as a basis of calculation owing to the results of the census under this head not having been revised.

PUBLIC WORKS DEPARTMENT,—BENGAL.

IRRIGATION BRANCH.

Statement showing heights over mean sea-level and low-water in the Rivers Ganges, Bhagiruthee, Jellinghee and Brahmapootra for the month of February 1888.

[illegible]

A. D. McARTHUR, Major, R.E.,
Under-Secretary to the Government of Bengal.

General remarks on the fluctuation of principal staples carried over the East Indian Railway during month ended 28th January 1888.

INCREASES.

Coal and coke.—There was an increase in the weight of upward traffic attended with a decrease in the earnings; the downward traffic showed increases both in weight and earnings. The increase in the upward traffic was due to despatches for Foreign Railways, and that in the downward despatches is attributable to the same cause as mentioned in the remarks for December last.

Jute, raw.—Due to despatches from the Eastern Bengal State Railway *via* the Jubilee Bridge.

Other grains.—*Gram and Pulses*—As in December, the increases in these staples were due to scarcity in the North-West Provinces.

Minerals.—This increase was principally in lime from Raneegunge, Jukehi and Kani.

Rice (husked and unhusked).—There was a decrease in the weight carried attended with an increase in the earnings; the former was due to decreased despatches to Howrah for export, and the latter to long lead traffic carried up-country.

Oil.—Due principally to despatches of kerosine oil from Howrah.

Seeds.—The increase was principally in linseed to Howrah for export.

Spices.—The increase was chiefly in chillies from Mokauch and Mokauch ghât to Howrah.

DECREASES.

Cotton.—Due to the traffic being diverted to Bombay owing to prices being higher there than in Calcutta.

Piece-goods, European.—This decrease was in long distance traffic from Howrah to stations in the North-West and the Punjab owing to the scarcity prevailing in those provinces.

Indigo.—Due to the dye having been carried earlier this season than last.

Turmeric.—This is a recurrence of the decrease shown in December last, and was entirely in the despatches from Howrah owing to a poor demand.

Gunny.—Due to a lull in the market after the heavy despatches in December last.

Other fibres, raw.—This was principally in hemp, for which the Calcutta market this year has been unfavourable.

Wheat.—Due to want of stocks.

Brass and copper. The decrease under this head is attributed to a rise in the price.

Opium.—Due to Government arrangements for despatch.

Railway material, Foreign.—Due to a decrease in the long distance despatches from Howrah.

Sugar, refined and unrefined.—The long distance traffic from stations in the Dinapore district was poor.

Oat.—The decrease was nominal.

Tobacco.—Due to ordinary fluctuation of trade; the decrease was principally in despatches from Patna ghât and the Tirhoot State Railway.

ALLEN MEARS, *Deputy Traffic Manager.*

EXTENSION OF THE REVENUE MONEY ORDER SYSTEM.

REVENUE DEPARTMENT—LAND REVENUE.

Calcutta, the 20th March 1888.

RESOLUTION.

READ—

- A memorial from Zemindars of the Chittagong district, received 28th March 1884, praying to be permitted to remit the Government revenue, cesses, &c., by postal money-orders.
- A letter dated 1st August 1886, from the Tihoor Landholders' Association, and a petition dated 6th March 1887, from a Zemindar of Sherepore in Tihoor, praying as above.
- A petition from Messrs. Bird and Company, dated the 15th December 1884, suggesting that a postal money-order may be treated as equivalent for money or Government securities under section 15 of Act XI of 1859.
- A letter No. 62, dated 23rd December 1887, from the Honorary Secretary to the East Bengal Landholders' Association, urging that the present maximum limit for revenue money-orders be raised to Rs. 100.

The Government of Bengal has from time to time received memorials from

pay their land revenue at district head-quarters, often situated at a great distance from their residences, and requesting permission to transmit such dues by postal money-orders. The Board of Revenue and Collectors, when first consulted as to the proposed arrangement, represented that the difficulties would be very considerable; but afterwards, on considering a complete scheme framed by the Postmaster-General, Bengal, for giving effect to the wishes of those concerned, they viewed the suggestion with greater favour. In October, 1886, the system of payment by postal money-orders was accordingly introduced experimentally in the Dacca and Burdwan Divisions for land revenue demands of less than fifty rupees a year, and, having proved successful within these local limits, it was extended in 1887 to all the districts of Lower Bengal. It is understood that the concession thus made has been generally appreciated, and the Lieutenant-Governor has now much pleasure in providing, at the suggestion of the Board of Revenue and the Postmaster-General, that from the first day of April it shall extend to all demands on account of land revenue, of whatever amount, and also to Zemindary Dāk, Road, and Public Works cesses. The rules upon the subject given below are published for general information.

2. Other public demands may be paid at the option of the payer by ordinary postal money-orders, provided that the particulars given in the accompanying letters are sufficient for the department concerned.

By order of the Lieutenant-Governor of Bengal,

P. NOLAN,

Secretary to the Government of Bengal.

RULES RELATING TO REVENUE MONEY ORDERS.

These rules are divided into five parts :—

PART I.—Form of Revenue Money Order.

PART II.—Issue of Revenue Money Orders.

PART III.—Payment of Revenue Money Orders.

Section A.—Payment from Disbursing Offices at the Head-quarters of districts.

Section B.—Procedure to be followed in the Collectorate.

PART IV.—Treatment of Revenue Money Orders not accepted by the Collector.

PART V.—Disposal of Acknowledgements.

PART I.

THE FORM OF REVENUE MONEY ORDERS.

1. The Revenue Money Order form is divided into four parts, viz.—

- (a) the Money Order,
- (b) lower portion of Money Order or the Receipt,
- (c) the Coupon or Challan,
- (d) the Acknowledgment.

2. Parts (a) and (b) require no description as they are exactly like the corresponding portions of the ordinary inland Money Order form. Parts (c) and (d) are considerably larger than the Coupon and Acknowledgement of an ordinary Money Order. Part (c) contains on one side all the particulars required by the Treasury and on the reverse instructions for remitters of Revenue Money Orders. Part (d) is on one side a duplicate of the Challan and is returned to the remitter as his receipt; on the reverse of this part are the remitter's name and address.

3. This form is to be used for remittances of land revenue, Road and Public Works Cess and zemindari dāk cess, and for no other purpose.

4. The forms of Revenue Money Order should be freely distributed among the revenue-paying classes, and no restrictions whatever should be placed in the way of zemindars obtaining these forms.

5. Every Postmaster, Sub-Postmaster and Branch Postmaster will be personally responsible that a sufficient supply of Revenue Money Orders is always available in his office. In cases of emergency, supplies may be obtained by telegraph direct from the Stock Department of the

PART II.

ISSUE OF REVENUE MONEY ORDERS.

6. Revenue Money Orders are issued from every Head, Sub and Branch Post Office under the rules which govern the issue of ordinary Indian Money Orders. The following paragraphs contain additional instructions which relate solely to the issue of Revenue Money Orders.

7. The Rules in the Postal Guide fixing the limit of value of a single ordinary Inland Money Order and the limit of the aggregate value of the money orders issued in one day by the same remitter to the same payee apply to Revenue Money Orders. The rule prohibiting the inclusion of pies (fractions of an anna) in the amount of a Money Order is not applicable to Revenue Money Orders, which may be for amounts including any fraction of an anna not less than one pie.

8. The Office of Issue will help the remitter in making the requisite entries, and, if necessary, will make entries for him in the form of a Revenue Money Order, but no fee or any other gratification whatsoever is to be demanded or accepted, either directly or indirectly, by any official of the Postal Department for this service. Disregard of this order will be punished by dismissal of the official in fault, who will, moreover, be liable to any further penalties provided by law.

9. The Office of Issue is responsible that no Revenue Money Order is issued of which the Coupon (Challan) is blank or is not completely filled up. The Post Office has no means of ascertaining the correctness of the information supplied by a remitter: all that it is necessary to see is that entries are made against every printed item in the Coupon (Challan), and that the Money Order is not for a larger sum than is allowed by the rules for ordinary Inland Money Orders. The spaces in the Acknowledgment and challan for the entry of interest and expences (khuracha) are intended to meet the requirements of remitters, who are in arrears as regards the payment of their cesses and have incurred liabilities for interests, process fees, or other costs of proceedings.

10. The letter "R" should be written before the number of every Revenue Money Order, and this mode of distinguishing Revenue Money Orders should be adopted wherever the number is entered.

11. The number assigned to a Revenue Money Order by the Head Office or Sub-office of Issue will also be entered at the top of the Coupon (Challan) acknowledgement by the Money Order Clerk of the Head Office or the Sub-Postmaster of the Sub-office of Issue as the case may be.

12. On the 5th of every month Head and Sub-offices will prepare a return (Form ⁴ R. M. O.) of all Revenue Money Orders issued during the last month, and forward the same to the Disbursing Postmaster who will compile a General District Return and submit it to the Head of the circle not later than the 15th of the month following that to which it relates. Branch Offices will not submit returns, as Revenue Money Orders issued from such offices will be included in the returns of the Account Offices to which they are attached. The district return submitted by the Disbursing Postmaster will be in Form ⁵ R. M. O.

PART III.

PAYMENT OF REVENUE MONEY ORDERS.

SECTION A.—*Procedure in the Disbursing Office.*

13. When the Revenue Money Orders are in all respects ready to be handed over to the Postman, a list in duplicate (Form ² R. M. O.) should be made out by the Money Order Clerk, and the entries in the money column of the list should be carefully totalled. The date of stamp of the office of payment should be impressed in the space provided for it on the Coupon (Challan) of each Money Order.

14. The Money Orders, both copies of the list, and a slip receipt (Form ³ R. M. O.) duly filled up, should then be made over to the Postman for delivery at the Collectorate, the Postman's receipt for the documents being taken in the usual manner in the Register of Money Orders received.

15. The Postman will deliver all the documents mentioned in paragraph 14 to the treasury officer (or other responsible official authorized by the Collector, in writing, to receive Revenue Money Orders and whose name has been communicated by the Collector to the Postmaster) and will take back to the Post Office the slip receipt duly signed by the officer receiving the Money Orders. The slip receipt will be kept by the Money Order Clerk under lock and key.

16. When the original list, duly signed by the treasury officer or other authorized officer, is received back, along with the refused Money Orders (if any), the Postmaster will give in exchange for the list a treasury voucher (Form AC—17) representing the value of the Money Orders accepted, as shown in the certificate at the foot of the list. The Money Order Clerk will report to the Postmaster if the original list (with any refused Money Orders) is not received back at latest on the day following that on which it was sent to the Collectorate.

17. The Postmaster should on no account give a treasury voucher, in payment of Revenue Money Orders, without receiving the original list with the certificate of acceptance written at

18. The Postmaster will be responsible always to have sufficient funds at his credit in the district treasury to meet Revenue Money Order demands, and it will be his duty, when giving a treasury voucher, to see that there are funds in the district treasury to meet it.

19. The original list and the slip receipt will be filed together by the Money Order Clerk. The refused Money Orders (if any) will be dealt with in accordance with the instructions laid down in Part IV of these rules.

20. On receipt of the Money Orders, together with the receipts and acknowledgments duly signed, the Money Order Clerk will examine and compare all the documents with the original list already in his possession, and with the duplicate presented to him along with these documents, and, if all are found correct, will sign the duplicate list and return it to the Collectorate official who brought back the documents to the Post Office.

21. The Money Order Clerk should be particularly careful to see that he receives from the Collectorate an acknowledgment for every Money Order accepted, and that every acknowledgment which he receives is in acknowledgment of the full amount of the Money Order to which it appertains.

22. The Money Orders received back from the Collectorate, with their receipts, will be entered in the Journal of Money Orders paid, and be disposed of in the usual manner. The acknowledgments will be returned to the remitters in the manner described in Part V of these rules.

23. The amount of the treasury voucher will be entered in the Post Office and Treasurer's cash day books and the cash account on the receipt side opposite the item "Drawn from District Treasury," and will be included in the sum entered on the disbursement side under the head "Amount of Money Orders paid." All these entries must be made on the same date. The amount will also appear in the Treasury account as money drawn from the District Treasury, and if the date of entry in the Treasury account differs from that of the entries mentioned above, the difference must be explained in the Treasury suspense account.

24. Before the duplicate list is finally returned to the Collectorate, the Money Order Clerk will carefully compare it with the original, and see that they are exactly alike, any remark recorded in the one list (either in the Collectorate, or by the Money Order Clerk, or the Postmaster) being copied in the other list.

25. It will be the duty of the Money Order Clerk to report to the Postmaster if the receipted Money Orders, with the acknowledgments and the duplicate list, are not returned to him on the day on which the Treasury voucher was sent to the Collectorate.

26. The Money Order Clerk will report to the Postmaster every case in which the Coupon (Onallan) of a Revenue Money Order received by him is blank or is imperfectly filled up. Whenever a Revenue Money Order is refused through any fault or omission on the part of the office of issue, the matter should be reported by the Postmaster to the Superintendent.

27. On the 5th of every month the Money Order clerk will prepare a return (Form R.M.O.) of all Revenue Money Orders received during the last month, and this return will be submitted by the Postmaster to the head of the circle along with the District Return of Revenue Money Orders issued.

SECTION B.—*Procedure to be followed in the Collectorate.*

28. On receipt of the Money Orders, with other documents, in the Collectorate, the treasury officer, or other responsible official authorised as above (see rule 15) to receive Revenue Money Orders, will carefully compare the entries in the list with the Money Orders, and, when satisfied of their correctness, will sign the slip receipt and hand it over to the postman who has brought the documents to the Collectorate, retaining the other papers for subsequent disposal.

29. The next business to be done in the Collectorate will be the careful examination of the Money Orders to see that the necessary particulars of remittance are given in each case and that the Money Orders can be accepted. This examination should be made by the Towji Navises of the Land Revenue and Cess offices and by the Certificate Department if a certificate has issued on account of Road and Public Works Cess. If the amounts due on account of any cess, interest and expenses are wrongly distributed by the remitter in the Money Order, the Cess Department will correct the distribution. It is not necessary at this stage that the Money Orders should be sent to or examined by the Magistrate's office even when they contain remittances of zemindari dāk cess. No Money Order should be refused provided that the remittance is one to which the system applies, and that the particulars required by the rules and form are given. The fact that the amount is remitted is less or more than is due is not a ground for refusal. If more than is due is remitted, the excess should be credited as a payment in advance; if less than is due is remitted, it should be treated as a payment on account. When a Money Order is refused, the ground of refusal must be endorsed on the Money Order.

30. The original list, together with the refused Money Orders (if any), must be returned to the Post Office, and a treasury voucher be obtained immediately on the certificate of acceptance being signed. The officer signing the certificate will be responsible that the check prescribed in paragraph 29 has been carried out, and that the original list, with the certificate

31. On receipt of the treasury voucher from the Post Office, the treasury officer will to the same day credit the amount thereof under the appropriate heads of account as remittances received by means of Money Orders from the persons concerned, and will charge the amount against the monthly letter of credit of the Postal Department as money paid to the Disbursing Postmaster.

32. After the amount of the treasury voucher has been credited and debited in the Treasury accounts, the acknowledgments will be signed by the Accountant.

33. The Money Orders will then be signed by the Treasury officer or other officer authorised as above to receive them, and that officer, after detaching the Coupons (Challans) from the Money Orders, will return the original orders, with the receipts, acknowledgments, and the duplicate list, to the Post Office and retain the Challans in the Collectorate. The Challans should then be sent to the Land Revenue, Road Cess and Zemindary Dāk offices in the order named so that the remittances may be entered in the departmental registers. The Challans should be initialled by a responsible officer of each department and then be returned to the Collectorate.

34. The original Money Orders, with their receipts and acknowledgments, must be returned by the Collectorate on the day on which the Treasury voucher is received. This period is on no account to be exceeded.

35. When the duplicate list, with the Postmaster's acknowledgment for the documents returned to him written thereon, is received back from the Post Office, it should be attached to the challans and filed in the Collectorate.

PART IV.

TREATMENT OF REVENUE MONEY ORDERS NOT ACCEPTED BY THE COLLECTORATE.

36. If the Collector or the officer to whom he delegates authority in this matter declines to accept a Money Order, because of the omission of necessary particulars in the Coupon (Challan) or other cause, the Money Order will be treated as refused and be disposed of in the usual manner.

PART V.

DISPOSAL OF ACKNOWLEDGMENTS.

37. The acknowledgments appertaining to Revenue Money Orders received from the Collectorate will be sorted separately for each Office of Issue and enclosed in envelopes (Form ⁶_{R. M. O.}) addressed to the Postmasters of those offices; the numbers of the Money Orders to which the acknowledgments appertain being detailed on the back of the envelopes.

38. These envelopes will be entered in detail in a special memorandum book (Form ⁷_{R. M. O.}) and be despatched as letters registered on Postal Service. The total number of acknowledgments closed in each envelope will be the registered number assigned to that envelope.

39. On arrival in the Office of Issue, the envelopes will be opened and the acknowledgments contained in each envelope compared with the entries on the back thereof. The acknowledgments will then be stamped with the Money Order Stamp and be sorted for distribution to Postmen. The numbers of all acknowledgments to be given to each Postman will be detailed separately in a special memorandum book (Form ⁸_{R. M. O.}) and the Postman's signature obtained against the entry. The acknowledgments will then be handed over to the Postmen. The envelopes will be retained for 12 months, sorted in daily and monthly bundles, and will be destroyed after the expiration of that period.

40. The Postmen will enter the acknowledgments in detail in their books and will obtain the remitter's signature or mark when delivering each acknowledgment.

41. Acknowledgments which cannot be delivered in consequence of the remitter not being found will be returned by the Postman to the Money Order Clerk, Sub-Postmaster or Branch Postmaster (as the case may be), who will sign for them in the Postman's Book.

42. Undelivered acknowledgments will be kept in the Office of Issue (if a Head Office) for a period of 12 months, and, if still unclaimed, will be destroyed.

43. In Sub-offices and Branch Offices undelivered acknowledgments will be retained for a period of three months, and, if still unclaimed, will be forwarded to the Head Office under a Postal Service Registered cover. Such acknowledgments will be kept in the Head Office for a further period of nine months, and, if then still on hand, will be destroyed.

44. Postmasters, Sub-Postmasters, and Branch Postmasters of the Offices of issue will be responsible that acknowledgments are delivered to remitters of Revenue Money Orders without any unnecessary delay and *free of charge*. Enquiries as to the punctual and free delivery of acknowledgments should be made from time to time from zemindars who may call at the Post Office to have Revenue Money Orders issued.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF FEBRUARY 1888.

THE normal meteorological conditions obtaining in the Province of Bengal during the month of February show clearly the commencement of the transition from the cold to the hot season, and the most important feature is undoubtedly the rapid increase of temperature, which usually commences this month, and which is continued during the following two or three months. The rapid increase in temperature is due to the rapidly increasing elevation of the sun, and this heating effect is much more pronounced over the land area than over the sea, so that the dry northerly winds at the southern stations commence to be replaced by moist southerly winds blowing from the sea. The normal conditions in Bengal during February are therefore comparatively simple. Temperature increases steadily, and winds are light, being usually west and north-west at the inland stations, though at the southern stations they alternate between north-west and south-west. The sky is clear and little or no rain falls; and humidity, except when the sea breezes are blowing, is low. These conditions are, however, liable to be disturbed by two or three causes; the first is due to the formation of barometric depressions over Northern and Central India, which drift eastwards and southwards giving heavily clouded skies, a moist atmosphere, and rain. The second class of disturbances is due to the interaction of the dry land winds and moist southerly winds, which sometimes produces the local storms known as nor'westers, and which are frequently accompanied by heavy rain. The third class of feeble disturbances are probably produced by ascensional air motion, and, with the rising of the moist winds, cloud is formed, and in some cases rain also occurs.

The whole of the rainfall in February is therefore brought about by these abnormal conditions, and it is generally irregularly distributed and small in amount, though larger than in January. The normal fall averages about an inch in South-West and East Bengal; it is somewhat smaller in amount in Orissa, where it averages about five-sixths of an inch; in Chutia Nagpur the fall averages about three quarters of an inch, and in North Bengal and Behar the fall equals about half an inch.

Meteorology of the month.—The chief features in the meteorology of February 1888 in Bengal have been—

1. Pressure has been in very slight excess of the normal over the greater part of the Province, the average excess, however, only equalling 0·009 inch. Some parts of East and Central Bengal have, however, shown pressures slightly below the normal.
2. Temperature has been decidedly above the normal in all districts, the excess being rather considerable in Orissa, North Bengal and South Behar, where it has ranged from 1° to 2°. The average excess over the whole Province has been 0·9°.
3. Humidity has been generally below the normal, the defect averaging about 5 per cent. over the whole Province.
4. Cloud proportion has been distinctly larger than usual, though the excess is not very considerable.
5. During the middle of the month two very feeble low-pressure areas drifted across Bengal in an easterly direction, giving a period of unsettled weather, which lasted in some districts from the 9th to the 15th or 17th, but which gave the most general disturbance on the 9th and 10th of the month.
6. Comparatively heavy rainfall has been received in Orissa; falls equal to about the normal amount have been received in East, South-West and North Bengal and in Chutia Nagpur, but in Behar rainfall has been almost absent.

At the commencement and during the first week of February, the meteorological conditions in Bengal call for no particular comment, except that the weather was of typical north-east monsoon character, temperature being exceedingly low and decidedly below the normal. On the 8th instant, however, pressure became rather low over parts of the Central Provinces and Orissa, and on the 9th a distinct low pressure area existed over Orissa, and this depression on the 10th was distinctly marked over Central and East Bengal, but it shortly afterwards disappeared. A second feeble area of low pressure was also formed over the Central Provinces, the North-West Provinces, and the western parts of the Province of Bengal on the 14th, but this did not concentrate into a definite depression. The combined effect of these two disturbances was to give unsettled weather with rain over Orissa from about the 9th to the 15th, over South-West Bengal from about the 9th to the 13th, and to East Bengal from the 10th to the 17th. The disturbed conditions scarcely reached North Behar at all, and in South Behar the disturbance was mainly confined to the Sonthal Pergunnahs district on the 9th and 10th, while in North Bengal and Chutia Nagpur weather was also slightly disturbed on the same two days. After the disappearance of these two disturbances, weather became of ordinary north-east monsoon character for the remainder of the month, and the only point noticeable was the steady rise of temperature and some remarkable oscillations of humidity, the cause of which is explained in the summary of the normal meteorology of the month.

Pressure.—The variations of pressure during the month have been rather considerable, but the mean pressure for this period has not been very far removed from the normal; and

the stations in Bengal show an excess pressure, but in East Bengal one or two show slight defects. In Assam pressure has been below the normal by 0·005 inch, the largest defect being at Dhubri, where it has equalled 0·016 inch.

Temperature.—The variations of temperature during the month have been large, and during the early part very low temperatures were recorded. For the whole month the mean temperature of the province has been 0·9° in excess of the normal.

The actual variations and oscillations of temperature for the month are best shown in the following table, where the average maximum, minimum, and mean temperatures at nine typical stations in the province are given, week by week, and compared with the normals for the same periods. Speaking broadly, it may be said that temperature was very largely (from 4° to 6°) below the normal at the commencement of the month, while for the remainder it has been rather above it, or almost normal.

In Assam the mean temperature has been almost absolutely normal, the variation being an excess of only 0·2°.

Rainfall.—Has averaged 1·66 inches at the stations in Orissa, which is nearly twice as large as the normal* amount; the fall in South-West Bengal has averaged 1·29 inches or about a quarter more than the normal; in Orissa the fall has averaged 1·10 inch or about the normal fall; and the same is the case in Chutia Nagpur, where the actual fall has averaged 0·73 inch. In North Bengal the fall has only equalled 0·42 inch, which is about four-fifths of the normal amount, while rainfall has been practically absent in Behar.

The rainfall in Bengal during February has been decidedly heavy in the following districts:—Cuttack, Balasore, South-West Midnapore and South 24-Pergunnahs, Midnapore, 24-Pergunnahs, Howrah, Hooghly, Chittagong, Dacca, Pubna, Rajshahye, and Singbhoom.

In Assam, Sibsagar has received 2·95 inches during the month, Silchar 1·17 inches, and Dhubri only 2·06 inch.

The following table gives the summary of the temperature and rainfall data of each of the seven Meteorological Divisions of the province for the month of February 1888:—

Calcutta, the 21st March 1888.

SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 16TH MARCH 1888.

The weather conditions during the past week have been more or less unsettled. The barometer was low and below its normal height at the commencement, and was also irregular in its movements. There was also a tendency to a slight but distinctly marked depression in North and Central Bengal. The barometric changes of the 10th brought it into greater prominence on the 11th, and a strong inrush of southerly winds set in over South Bengal into the area of low pressure. Thunderstorms occurred on the 10th and 11th in North and East Bengal and the eastern districts of South-West Bengal, and some very heavy showers fell, more especially in the Dacca, Rungpore and Julpigoree districts. A very rapid rise of the barometer occurred on the 12th, but it fell again rapidly on the 13th. Strong southerly winds continued to blow on the 12th and 13th notwithstanding the rapid barometric changes, and a second series of thunderstorms occurred on the 13th and 14th which were more general, and gave even a larger amount of rain than the first series. They extended over East and North Bengal, and nearly the whole of South-West Bengal and North Behar. The rainfall during this series of storms was especially heavy in the Dacca, Furreedpore, Nuddea, Jessore, Mymensingh, Julpigoree and Cooch Behar districts. The barometer moved irregularly but slightly during the remainder of the week, but the southerly winds fell off in strength on the 15th and 16th, and the weather became somewhat less unsettled. Local thunder-showers occurred, chiefly in East Bengal and the northern districts of North Bengal, but the amounts registered were generally small.

Pressure.—The general character of the variations of pressure has been stated in the previous paragraph. The most remarkable feature of the week was the rapid rise of pressure which followed the first series of thunderstorms on the 11th and 12th. It varied from one to two-tenths of an inch. It was followed by nearly as rapid a fall of pressure on the 14th, which immediately preceded the more violent thunderstorms, and the heaviest rainfall of the second series. A reference to the general table will show that the mean pressure variations for the week differed considerably for different parts of the province. Pressure was on the whole slightly above the average in East and North Bengal, which received by far the largest amount of rain, and below it in South-West Bengal, Orissa, Behar (except Purneah), and Chota Nagpur. The deficiency of pressure was actually greatest at Calcutta and Burdwan, where it was very nearly $0\frac{1}{2}$ ".

Temperature.—The temperature variations of the week depended mainly upon the occurrence and amount of the rainfall. Thus in East and North Bengal the mean temperature of the week was considerably below the normal, the deficiency averaging 3° in North Bengal and $2\frac{1}{2}^{\circ}$ in East Bengal. In the remainder of the province the temperature of the week was above the average, the excess being 3° in Chota Nagpur and 2° in South Behar and Orissa. Cuttack registered the highest day temperatures during the week, the maximum being $101\cdot9^{\circ}$ on the 16th.

The following table gives a comparative statement of the temperature data of the week at nine typical stations :—

Rainfall.—An unusually large amount of rain has fallen during the week, chiefly in connection with two extensive series of thunderstorms and nor'westers. The first series occurred on the 10th and 11th, and was almost entirely confined to East and North Bengal and the southern and eastern districts of South-West Bengal (including the 24-Per-gunnahs and Jessore). Rainfalls exceeding two inches were received at a large number of stations in the Dacca and Furreedpore districts on the 11th. Some local showers fell on the 12th, but were generally of little importance. The second series of thunderstorms commenced on the 13th and lasted until the end of the week, but were most general on the 13th

generally received. A few light local showers were also received in other districts, more especially in the Sonthal Pergunnahs. The rainfall of the 13th was very heavy in the Dacca, Furreedpore and Nuddea districts, where the majority of the stations received over two inches, and in the northern districts of North Bengal.

The following districts received an average rainfall for the week exceeding two inches:—Dacca 4·49 inches, Commillah 4·1 inches, Furreedpore 3·8 inches, Noakholly 3·88 inches, Darjeeling 2·77 inches, Rungpur 2·34 inches, Julpigoree 2·18 inches, and Nuddea 2·05 inches.

The rainfall of the week was very considerably in excess in the whole of Bengal and North Behar, and was below the average in Orissa, South Behar and Oota Nagpur. The following table gives a comparative statement showing the character of the rainfall of the week in each of the seven meteorological divisions of the province:—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph. The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

THE principal Municipalities in Bengal returned, during the week ending 3rd March 1888, the birth and death-rates of 19·3 and 21·7 per 1,000 of population, respectively, as opposed to 21·3 and 23·4 per 1,000 in the preceding week ending 25th February, indicating a retrogression in the registration of both births and deaths.

2. These events were returned in the highest proportions by the following Municipalities:—

Serampore	...	29·4	Gya	...	30·1
Narainganj	...	49·7	Puri	...	29·4

3. Referring to the specific diseases, there was a sensible abatement in the mortality from the maladies returned under the head of "Other Causes," while the fatal results from other diseases exhibited only fractional differences:—

4. The following Municipalities returned conspicuously high mortality from cholera and fever, and no Municipality exhibited any noticeably high suffering from the other diseases mentioned in the foregoing table, excepting Suburbs of Calcutta, where 10·8 per 1,000 of population died from the unspecified diseases coming under the head of "Other Causes":—

CONTINGENT EXPENDITURE.

FINANCIAL DEPARTMENT—FINANCE.

Calcutta, the 22nd March 1888.

RESOLUTION.

READ—

Resolution, dated the 20th August 1885.
Circular No. 5, dated the 17th October 1886.
Replies to the Circular.

The Resolution recorded by the Government of Bengal on the 20th August 1885 prescribes the system under which contingent expenditure is at present incurred in Bengal. The expenditure is divided into three classes, viz., *Special*, for which the previous sanction of Government or of some controlling officer is required; *Countersigned*, in which sanction is not required, but the bills have to be countersigned by the controlling officer; and *Contract*, in which a lump sum is placed at the disposal of the disbursing officer, who spends it at his discretion, subject only to the condition that his allotment is not exceeded. By these orders, however, certain items of expenditure, which are not really within the control of the disbursing officer, were included in the Contract allotment; and suggestions for an amendment of the system in this and other directions were made in Government Circular No. 5T—F, dated the 17th October 1886.

2. The reports received from the officers consulted show that there is a consensus of opinion in favour of the general proposals contained in the circular. The first object aimed at was the entire removal from the Contract allotment of those items which do not depend on the discretion of the con-

excess should bring him no blame. The second was to enlarge interest and responsibility by allowing the saving of lump grants and the utilization of savings on objects other than contingencies. As regards the first point, it was proposed to follow the Bombay system, and to allow such expenditure to proceed without audit, the order passing the amount being accepted as a voucher by the Accountant-General. This would, however, reduce to only a few items the expenditure classed under "Countersigned Contingencies," and the question was therefore raised whether it would not be expedient to abolish this class altogether. The whole subject was considered at the conference of Commissioners recently held at Calcutta, and it has been decided to abolish this class and to substitute a class to be called *Regular* contingencies, in which the charges as they arise will be incurred by the disbursing officer in accordance with the scales laid down by Government, without sanction of superior authority, and without reference to budget provision. The new class will contain the following items:—

- | | | |
|---|------------------------------|---|
| 1. Fees to pleaders in criminal cases. | 6. Escort charges. | 14. Municipal rates and taxes. |
| 2. Fees to pleaders in civil suits. | 7. Remuneration to copyists. | 15. Rewards for the destruction of venomous snakes. |
| 3. Diet and travelling allowance to witnesses. | 8. Section-writing. | 16. Rewards for the destruction of wild animals. |
| 4. House allowances. | 9. Process-serving charges. | 17. Compensation for land taken up for public purposes. |
| 5. Charges for remittance of treasure to other districts. | 10. Keep of elephants. | |
| | 11. Diet of insane persons. | |
| | 12. Boarding charges. | |
| | 13. Diet of patients, &c. | |

Charges on account of *Regular* Contingencies will be budgeted for in the ordinary manner, and the charges as they arise will be incurred by disbursing officers in accordance with fixed scales without sanction of superior authority and irrespective of budget provision.

3. This enables Government to provide for two classes only of fixed grants for contingencies—(1) *Special*, in which the controlling officer is allowed to sanction up to a certain amount, receiving a contract allowance up to that amount; (2) *Contract*, in which he sanctions all, receiving similarly a lump grant.

The following table shows the items to be placed under each head:—

Special Contingencies.	Contract Contingencies.
1. Purchase of boats.	1. Purchase of tents.
2. Ditto of elephants.	2. Purchase of books and publications.
3. Repairs to steamers and schooners.	3. Petty construction.
4. Cost of supplying provisions.	4. Country stationery.
5. Other items of large amount and unusual character.	5. Remittance of treasure within district.
	6. Hot and cold-weather charges.
	7. Printing at private presses (without grant).
	8. Tour charges.
	9. Treasury charges.

for land taken up for public purposes," "Municipal rates and taxes," "Rewards for the destruction of venomous snakes," and "Rewards for the destruction of wild animals," are classed under *Regular* Contingencies, as the expenditure on these items cannot be controlled. The headings "Petty construction" and "Purchase of tents" are classed under *Contract* Contingencies, and a new item, "Printing at private presses," has been included in this class. Subject to the sanction of the Government of India, "Section-writing" and "Purchase of books" will be included under *Regular* and *Contract* Contingencies respectively.

4. Under the class of *Special* Contingencies, a lump allotment will be made to each controlling officer to meet all expenditure for which the previous sanction of Government is not required. From this grant Commissioners of Divisions will have power to sanction expenditure up to Rs. 250, the Inspector-General of Police up to Rs. 1,000, and other controlling officers up to Rs. 100. The grants will be calculated on the basis of the expenditure of the past four years. The procedure in respect of *Contract* Contingencies will remain unchanged.

5. Commissioners of Divisions will have the disposal of the whole grants for their divisions on account of *Special* and *Contract* Contingencies, and will allot the grants annually at their discretion. Savings accruing in the grants will be re-granted at the close of the year, and may be spent on contingencies or on temporary establishments without reference to higher authority. This permission to spend savings on temporary establishments is, however, subject to the sanction of the Government of India. Savings may also be spent by Commissioners of Divisions, or under their authority, on grants to local bodies. As soon as possible after the close of each year, the Accountant-General will report to the controlling officers and to Government the savings effected in the grants.

6. The Accountant-General will be asked to issue specific instructions on all questions of detail. The allotment to be made to each officer will be fixed in communication with the Accountant-General, and will be based on the actuals of past years. When fixed, it will remain unaltered for three years, after which it will be subject to revision.

7. The orders contained in this Resolution will have effect from the beginning of the year 1888-89.

ORDER.—Ordered that copies of the Resolution be forwarded to the Board of Revenue, Commissioners of Divisions, District and Sessions Judges, Inspectors-General of Civil Hospitals, Police, and Registration, Sanitary Commissioner, Director of Public Instruction and Accountant-General.

Ordered also that copies of the Resolution be forwarded to all Departments of this Government, except the Public Works Department.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

DISCOVERY OF A PROCESS FOR MANUFACTURING PURE SULPHATE OF QUININE AT MUNGPÖO.

RESOLUTION.

Dated Calcutta, the 26th March 1888.

APPREHENSIONS of the extermination, in their native forests, of the Quinine-yielding *Cinchona* trees having reached an acute stage about thirty years ago, the Government of India decided to take effectual steps to introduce their cultivation into India. The collection of seed and seedlings in the wide tract of difficult country over which the best medicinal sorts are naturally scattered was no easy task. But it was successfully accomplished by Messrs. Markham, Pritchett, Spruce and Cross. Contemporaneously with these efforts on the part of the English Government, the Dutch authorities were at work on behalf of their Malayan Colonies, and by the year 1862 *Cinchona* cultivation had been successfully initiated in India and Malaya. The localities selected for the experiment of *Cinchona* growing in India were the Nilgiris and British Sikkim. And the excellence of this selection has been proved by the fact that the original nurseries in both localities have developed into large plantations which still remain in the hands of Government. From these two centres, seed and seedlings have been freely distributed to planters, and large tracts of land, especially in Southern India and Ceylon, have been covered with *Cinchona* trees by private enterprise.

2. The *Cinchona* trees thus introduced into India are practically of two sorts: (1) *Quinine* yielders and (2) *Mixed alkaloid* yielders. Of the *Quinine* yielders there are two kinds, viz., *Yellow* or *Calisaya* (including *Ledgeriana*) and *Crown* or *officinalis*, barks. Of the mixed alkaloid yielders there are also two kinds, viz., *red* or *succirubra*, which has been in cultivation from the beginning, and a kind which has come into prominence during the past few years, and which in Annual Reports has been referred to as *Hybrid* bark. Red bark contains a comparatively small proportion of Quinine with large proportions of Cinchonidine and Cinchonine. It had been chiefly used by druggists in the preparation of decoctions and tinctures, and had not been used by Quinine makers as a source of Quinine. This red-bark tree was, however, the kind which in the early days of the cultivation it was found most easy to propagate; and in all plantations, both public and private, it greatly preponderated over the other sorts.

3. The cultivation of *Cinchona* trees having been pushed beyond the region of experiment, the next problem that presented itself was the utilization of their bark. For the private grower, the most lucrative course up to the present time has been to sell the crude bark in London. The object of Government was not, however, to secure a financial success, but to provide the people of the country, at the lowest possible rate, with an efficient remedy for the most prevalent of all the diseases of the country. The first step for Government to take was therefore to discover whether it was really a fact that Quinine is the only alkaloid worth extracting separately from *Cinchona* bark, and whether Cinchonidine and Cinchonine might not each be an efficient febrifuge. It was true that Quinine alone had got into use as a febrifuge, and that it alone of the *Cinchona* alkaloids had found a place in the British Pharmacopoeia. On the other hand, tinctures, decoctions and various pharmaceutical preparations of red bark, into the constitution of which all three alkaloids must undoubtedly enter, had for many years borne the reputation of excellent remedies for fever. The presumption therefore appeared to be that the position claimed for Quinine as the only real febrifuge yielded by *Cinchona* bark would prove, on careful examination, to be untenable; and that the other two alkaloids would also be found

to have value as febrifuges. For the purpose of investigating this point, Commissions of medical officers of all three Presidencies were formed during the years 1866 to 1868. These Commissions were furnished with supplies of the three alkaloids, pure and unmixed, and after very extensive trials, their unanimous verdict was that Cinchonidine and Cinchonine are both excellent febrifuges, the former not much less efficient than Quinine itself.

4. Having thus established the value of Cinchonidine and Cinchonine, the next point to be settled was how best to utilize the large stocks of these alkaloids contained in the bark of the trees growing in the Government plantations. To do this, Messrs. Broughton and Wood, two professional chemists, were engaged in England and were located as Government Quinologists on the Nilgiri and Sikkim plantations respectively. Mr. Broughton (the Nilgiri Quinologist), as the result of his labours, invented a preparation of red bark which he called *Amorphous Quinine*, and which contained all the alkaloids of red bark in the form of a non-crystalline powder. Of this Amorphous Quinine no large amount was ever manufactured; and its preparation ceased when Mr. Broughton resigned the service of Government. Mr. Wood, who did not arrive at the Sikkim plantation until 1873, concluded, after much observation and experiment, that the best way of utilizing the red bark was to make from it the preparation now so well known as Cinchona Febrifuge. This, like Mr. Broughton's, is in the form of a powder, and contains the three chief alkaloids of red bark mixed in the proportions in which they naturally occur in the bark. Cinchona Febrifuge was then a perfectly new product, unknown to Pharmacy, and it was not clear how it might be accepted by the medical profession.

Mr. Wood therefore adopted for its manufacture on a small tentative scale a simple and inexpensive acid and alkali process, requiring only the rudest apparatus. He intended, should the product be favourably accepted by the medical profession, to replace this simple process by one more efficient, but more complicated, and involving the extensive use of spirit. During the first year of its manufacture (1874-75), only 48 pounds of this new drug were issued. At first, and chiefly owing to a misapprehension as to the proper dose in which it should be given, some prejudice existed against this drug. In 1875-76, however, 1,940 pounds of it were consumed, and its consumption so materially increased during succeeding years that, up to the present date, no less than 87,704 pounds have been issued from the factory. A preparation similar to, and avowedly an imitation of, Cinchona Febrifuge is now made and sold in London under the name of *Quinetum*, but until Cinchona Febrifuge had first been manufactured in India, no similar preparation existed. It is therefore a remedy for which the world at large is indebted to India. Cinchona Febrifuge has been used in India as a substitute for Quinine. It has been so used by Government in its own medical institutions, and it has been freely offered to the Indian public. Its sale has, however, been restricted to the limits of India. From the beginning, and until now, its price has uniformly been sixteen rupees eight annas per pound, and in this respect it has presented a contrast to Quinine, the price of which has fluctuated considerably, rising at one time as high as 16s. 6d. per ounce. According, however, to statistics prepared by an English pharmacologist, the average price of Quinine in London from 1875 to 1887 (the period during which Cinchona Febrifuge has been in use) has been 8s. 4½d. per ounce. The sterling value (calculated at this average rate) of 87,704 pounds of quinine would be £587,616, while this quantity of febrifuge has actually been delivered to the Indian consumer for the sum of Rs. 14,17,116. The actual saving to India has therefore been very great, and the capital account of the plantations (about eleven lakhs of rupees) has been covered several times.

5. The preponderance of red-bark trees in the Sikkim plantation, while he was attached to it, naturally induced Mr. Wood to give his attention first to the utilization of their bark. But he by no means neglected the Quinine barks. Of these barks only one,—*Calisaya* and its variety *Ledgeriana*,—really thrives in Sikkim, the Crown bark, or *Cinchona officinalis*, tree having proved a

comparative failure. Mr. Wood made many experiments in the manufacture of pure Sulphate of Quinine; but, up to the time of his retirement, for private reasons, from the service of Government in 1879, he had not succeeded in discovering an efficient process. Mr. Wood was of opinion that good Quinine barks could be grown in Sikkim, and that it might be possible to extract the Quinine from them on the plantation. Dr. King, the Superintendent of the Plantation, was very strongly of this opinion, and in 1875 he recommended that all further planting of red-bark trees should cease. This recommendation was not acted upon for some time. Full effect has, however, been given to it of recent years, and *succirubra* has been supplanted by *Calisaya* to the extent of about a million trees. The retirement of Mr. Wood did not put an end to the experiments on the manufacture of Quinine. Mr. Gammie, the Resident Manager, took the matter up with energy, and, encouraged and assisted by Dr. King, he carried on a long series of experiments on an acid and alkali process of manufacture by which he succeeded in producing excellent Quinine. He never, however, succeeded in recovering much more than half of the amount contained in the bark upon which he operated. The acid and alkali process had therefore to be abandoned as wasteful and inefficient. A process depending on the maceration of the bark in spirit was next tried; but, after much experiment, it was in turn abandoned. During a visit which he paid to Holland in 1884, Dr. King acquired some hints as to a process of extraction by means of oil. And now, benefiting by the advice of some chemical friends, Mr. Gammie has been able to perfect this process, with the result that the whole of the Quinine in yellow bark can be extracted in a form undistinguishable, either chemically or physically, from the best brands of European manufacture. This can be done so cheaply that, as long as the supply of bark is kept up, Quinine need never cost Government much above twenty-five rupees per pound. It is true that, at the present moment, Quinine is obtainable in the open market at rates not very different from this; but that is due to entirely exceptional causes. For some time back the Ceylon planters have been up-rooting their Cinchona trees, both to save them from disease, and to make way for tea planting which appears now to be becoming the principal industry of that Colony; and Cinchona bark has actually been sold in London below the cost of its production in Ceylon. Indeed, so far has the fall in price gone, that South American bark has been practically driven out of the market. This is a state of matters which cannot continue very long, and which is not likely to recur. In the ordinary course, therefore, Quinine might be expected soon to rise to what may be considered its normal price. The object of making public the process now discovered is to check this rise in the price of a drug of such general utility.

6. The cordial thanks of Government are due to Dr. King and his coadjutors—and especially to Mr. Gammie—for the patience, energy and resource displayed by them in their long search for the best method of utilizing these valuable medicinal barks. The Government has no desire to make a profit by the discovery, and the details are now produced in order that private growers of Cinchona may be enabled to take full advantage of the process, and that a permanent reduction in the price of Quinine may ensue.

By order of the Lieutenant-Governor of Bengal,

COLMAN MACAULAY,

Secretary to the Government of Bengal.

Method of extraction of the alkaloids from Cinchona Bark by cold oil as used at the Government Cinchona Factory in Sikkim.

In order that the oil may speedily and effectually act on the Cinchona bark, the latter is reduced to a very fine powder by means of Carter's Disintegrator; and to get the powder of a uniform fineness, it is passed through a scalper, which is a machine commonly used for sifting flour. The scalper is in the form of a box enclosing a sloping, six-sided, revolving,

chamber, covered with silk of 120 threads to the lineal inch. It is driven at the speed of about thirty revolutions to the minute. Any particles of the powder which may be too coarse to pass through the silk meshes drop out at the lower end of the revolving chamber and are again passed through the Disintegrator.

2. A hundred parts of the finely-powdered bark are then set aside to be mixed with 8 parts of commercial caustic soda, 500 parts of water, and 600 parts of mixture composed of one part of fusel oil to four parts kerosine oil. If the caustic soda be of inferior quality, a little slaked lime (about 5 parts) may be used in addition to the eight parts of caustic soda; or caustic soda may be altogether omitted, and 15 parts of slaked lime may be used instead of it. The caustic soda is dissolved in the water and mixed with the bark. Then the oil is added, and the whole is kept thoroughly intermixed in an agitating vessel. Should lime be used, it is mixed in fine powder with the dry bark before adding the water and oil.

3. The agitating vessels in use at Mungpoo are barrels with winged stirrers revolving in them vertically, and with taps on the sides for drawing off the fluids. The first stirring is carried on for four hours, and then the whole is allowed to rest quietly in order that the oil may separate out to the top of the watery fluid. When the oil, which has now taken up the greater part of the alkaloids, has cleared out, it is drawn off by a tap placed just above the junction of the two fluids. The oil is then transferred to another agitator, and is there thoroughly intermixed with acidulated water for five or ten minutes, the mixture being again allowed to rest for the separation of the oil. It will now be found (if sufficient acid has been used and the stirring has been thorough) that the alkaloids have been removed from the oil to the acidulated liquor. The oil is again transferred to the bark mixture, and is kept intermixed with it for two or three hours; the oil is again drawn off in the same way, washed as before in the same acidulated liquor; and this process is repeated a third or a fourth time or until it is found, by testing a small quantity of the oil, that the bark has been thoroughly exhausted of its alkaloids. Each stirring subsequent to the second, need not be continued for more than an hour. The quantity of acid required to take up the alkaloids from the oil will entirely depend on the quality of the bark operated on. If the bark contains 4 per cent. of alkaloids, about 2 lbs. of either sulphuric or muriatic acid mixed in twenty gallons of water should be sufficient, and so on in proportion.

4. The after-treatment of the acidulated water containing the alkaloids depends on the product desired, and on the kind of acid that has been used. Should sulphate of quinine be desired and sulphuric acid have been used, the liquor is filtered (if necessary), heated and made neutral by adding a very weak solution of either caustic soda or liquor ammonia. It is then allowed to cool, and as it cools the crystals form out. These crystals are afterwards separated from the mother liquor by draining through a cloth filter. After they have been thus obtained, the crystals are dried. They are next dissolved in about fifty times their weight of boiling water. The resulting liquor is filtered hot through a little animal charcoal. On cooling after filtration the crystals again form out, and they are separated as before from the mother liquor by filtration through a cloth. The crystalline mass obtained by filtration is then placed in small lumps on sheets of white blotting paper stretched on slabs of plaster of Paris. By this means they are practically dried. They are afterwards thoroughly dried by being laid on blotting paper in a room heated to about 10 degrees above the temperature of the open air.

5. If Cinchona febrifuge is wanted, the alkaloids are exhausted from the oil by muriatic acid, the solution being neutralized and filtered in the same way. On an excess of caustic soda solution being added, the alkaloids are precipitated. After standing some hours the whole bulk of liquor and precipitate is passed through cloth filters; and when the alkaline liquor has drained off, the precipitate is washed with a little plain water, dried, and powdered. The powder is Cinchona Febrifuge ready for use.

CUSTOM HOUSE REGULATIONS.

FINANCIAL DEPARTMENT—CUSTOMS.*Calcutta, the 27th March 1888.***RESOLUTION.**

SOME correspondence has lately passed between Government and the Chamber of Commerce regarding the existing Custom House Regulations. The points which, in the opinion of the Committee of the Chamber require attention, are—

- (1) The number of holidays.
- (2) The charges for overtime working.
- (3) The system of passes and the general routine of Custom House business.

The first two points are within the competence of the Local Government to determine. The third, however, can only be usefully discussed in connection with proposals for the amendment of the Imperial Act for the Regulation of Sea Customs (Act VIII of 1878). Before deciding whether any representation should be made to the Government of India on this subject, the Lieutenant-Governor considers it desirable that the question should be thoroughly investigated and reported upon by a Committee. The following Committee is accordingly appointed for this purpose :—

PRESIDENT :

1. Hon'ble Colman Macaulay, C.I.E., Secretary to the Government of Bengal.

MEMBERS :

2. Hon'ble Robert Steel.
3. E. D. Wylie, Esq.
4. J. Scobell Armstrong, Esq., Collector of Customs.

The Committee will be requested to consider the first and second points mentioned above as well as the third. They will also be invited to favour Government with their opinion on certain memorials which have been submitted by members of the Preventive Service.

By order of the Lieutenant-Governor of Bengal,

L. P. SHIRRES,

Under-Secy. to the Govt. of Bengal.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the crops in the different districts of Bengal, as reported to Government during the week ending the 24th March 1888.

BEHAR.			
PATNA DIVN.	26 Patna Mar. 24, '88	Nil	Weather—sultry with high west wind. <i>Rubbi</i> crops are still being harvested; fair outturn expected. <i>Masoor</i> and peas extensively damaged by insects in the Barh sub-division. Sugarcane pressing and opium collection almost completed.
	27 Gaya „ 24, '88	Nil	Weather—seasonable. Harvesting of <i>rubbi</i> and extraction of opium nearly finished. Sugarcane being irrigated.
	28 Shahabad „ 24, '88	Nil	Weather—hot with strong west wind. Harvesting of <i>rubbi</i> nearly over; threshing has commenced. Collection of opium almost completed; prospects very good, better than for many years past both as to quantity and quality.
	29 Durbhunga „ 24, '88	Nil	Weather—getting warm. <i>Rubbi</i> harvest in progress. <i>Moong</i> and early rice are being sown. Collection of opium still going on. Indigo has germinated in places. Price of common rice averages 21 seers per rupee.
	30 Mozufferpur „ 24, '88	Nil	Weather—warm; west wind. <i>Rubbi</i> harvest progressing; threshing commenced. Paddy, <i>moong</i> and <i>china</i> are being sown; earlier sowings have already germinated.
	31 Sarun „ 24, '88	Nil	Weather—getting hot gradually. Harvesting of <i>rubbi</i> crops progressing. Gathering of opium almost over in many places. Indigo sowings going on. Prospects of all standing crops good.
	32 Chumparun „ 24, '88	Nil	Weather—dry with high west wind. <i>Rubbi</i> crops are being reaped. Extraction of opium in full swing and approaching completion; produce good. Indigo sowings progressing.
BHAGULPORE DIVN.	33 Monghyr Mar. 24, '88	Nil	Weather—seasonable; strong north-westerly wind blowing at the time of report. <i>Rubbi</i> harvest in progress; outturn fair. Opium collection finished with good outturn.
	34 Bhagulpur „ 24, '88	Nil	Weather—seasonable. <i>Rubbi</i> harvest in progress. Rice and <i>moong</i> being sown in low lands in the north.
	35 Purneah „ 24, '88	Nil	Temperature rising; west wind prevails. In the Sudder sub-division wheat and oats are light crops, but in other sub-divisions they are good. Other cold-weather crops fair. Land is being prepared for <i>bhadoi</i> and jute.
	36 Maldah Chanchal „ 24, '88	Nil 0.05	Weather—days warm, mornings and evenings cool. Harvesting of <i>rubbi</i> crops continues. <i>Boro</i> paddy is being transplanted. Common rice is selling at 22 seers per rupee at English Bazar.
	37 Sonthal Perghs. Deoghur „ 24, '88	Nil 0.05	Weather—hot with strong west wind. Harvesting of wheat, barley, and linseed still going on; outturn below the average. Prospects of <i>mohua</i> crop good. Prices stationary.
ORISSA.			
ORISSA DIVN.	38 Cuttack Mar. 23, '88	2.13	Weather—fair. Threshing of <i>sarad</i> going on in some places and completed in others. <i>Dalua</i> is flowering and partly ripening. Price of rice stationary.
	39 Pooree Khoorda „ 22, '88	Nil 0.04	Weather—seasonable. Land is being ploughed for the ensuing <i>sarad</i> crop. <i>Rubbi</i> crop is being gathered. <i>Dalua</i> crop is being harvested. Mango suffers for want of rain. Common rice 24 seers 4 chittacks per rupee in the Sudder sub-division and 23 seers 8 chittacks in the Khoorda sub-division.
	40 Balasore „ 23, '88	0.50	Weather—days hot, but nights still cool. Rainfall beneficial to cultivation, but some damage to fruit and vegetables by hail in the Bhudruck sub-division.
CHOTA NAGPORE.			
<i>South-West Frontier Agency.</i>			
CHOTA NAGPORE DIVN.	41 Hazaribagh, Mar. 23, '88	Nil	Weather—seasonable; very warm. Stormy winds. Prospects of mango and <i>mohua</i> continue good. Gathering of opium almost completed. Condition of agricultural stock fair.
	42 Lohardugga „ 24, '88	Nil	Weather—getting warmer. Harvesting of <i>rubbi</i> crops continues. Prospect of <i>mohua</i> good.
	43 Singbhoom „ 23, '88	Nil	Weather—clear and getting very warm. <i>Rubbi</i> being harvested. Cotton coming into blossom. Sugarcane being planted. Mango and <i>mohua</i> promising.
	44 Manbhoom „ 24, '88	Nil	Weather—hot with strong west wind. Wheat, barley and oats are being harvested; outturn varies from 6 to 12 annas. <i>Mohua</i> is mostly doing well.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

CALCUTTA, the 27th March 1888.

**SUMMARY OF THE RAINFALL AND METEOROLOGICAL OBSERVATIONS
TAKEN IN BENGAL FOR THE WEEK ENDING FRIDAY, THE 23RD
MARCH 1888.**

THERE is little that calls for notice in the meteorology of the past week. The barometer was low at the commencement of the week, but was beginning to rise rapidly, and the showery, thundery weather of the previous week ceased on the 17th or 18th over the whole province. Thunder-storms occurred on the 17th in Orissa and the eastern and southern districts of East Bengal, and one or two local showers of little importance on the 18th. After that date the weather was fine throughout the week. The barometer rose until the 20th, when it was a tenth of an inch higher than on the 16th. On the 20th temperature commenced to increase rapidly in the interior, and the westerly winds down the Gangetic plain extended further and further eastwards into Bengal. These changes accompanied a rapid decrease of pressure during the remainder of the week, which varied in amount from $\cdot 12''$ to $\cdot 2''$. On the 23rd the sea winds at the head of the Bay began to increase in strength, and slightly decreased the temperature and increased the humidity in South Bengal. Hot dry weather with clear skies prevailed over nearly the whole of the province from the 18th to the end of the week.

Pressure.—The barometric changes of the past week formed a single oscillation of the kind that are due mainly to increasing heat and temperature in Northern India. The barometer rose about a tenth of an inch from the 16th to the 20th and fell a sixth of an inch on the average of the whole province between the 20th and 23rd. The mean pressure of the week varied little from the normal, and was slightly in excess in all districts except Central Bengal, and Central and South Behar, where there was a small deficiency (nowhere exceeding $\cdot 02''$).

Temperature.—The temperature changes of the week corresponded closely to the pressure changes. The mean daily temperature was steady or increased slowly during the first-half of the week, but afterwards increased much more rapidly. The increase was in many cases shown more largely in the night than in the day temperatures. The highest temperatures of the week were in the great majority of cases recorded on the 23rd. The hottest part of the province during the past week, as defined by maxima temperatures exceeding $101\frac{1}{2}^{\circ}$, included the stations of Cuttack, Midnapore, Burdwan, Bankoorah and Raniganj. The mean temperature of the week, both night and day, was in excess. The mean daily temperature was on the average 2° in excess in South-West Bengal, Chutia Nagpur and South Behar; $1\frac{1}{2}^{\circ}$ in Orissa, East and North Bengal, and was normal only in North Behar.

Rainfall.—The only important rainfall of the week occurred as local thunder-showers on the 17th and 18th in Orissa and the east and south-east districts of East Bengal. Orissa received an average of 0.34 inch (0.09 inch more than the average rainfall of the week) and East Bengal an average of .29 inch, almost exactly half the normal mean rainfall of the week.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province the week ending Friday the 23rd of March 1888 :—

MEMORANDUM.

THE birth and death returns of the principal Municipalities in Bengal, for the week ending 10th March 1888, exhibit the following results :—

1. That births were registered in the above Municipalities at the rates of 19 per 1,000 of population, as opposed to very nearly the same proportion, viz. 19·3 per 1,000 in the preceding week ending 3rd March, and deaths at 26·1 against 21·7 per 1,000, indicating a considerable improvement in their registration.

2. That the undermentioned Municipalities returned the highest proportions of births and deaths :—

<i>Births.</i>			<i>Deaths.</i>		
		Ratio per mille.			Ratio per mille.
Beauleah	...	49·9	Suburbs of Calcutta	...	54·8
Monghyr	...	31·6	Serampore	...	43·2
Durbhanga	...	29·9	Beauleah	...	84·2
			Durbhanga	...	31·5
			Puri	...	31·5
			Purneah	...	31·1
			Comillah	...	30·8

3. That the rates of mortality from the principal diseases, contrasted with the similar information for the preceding week, stood as follows :—

						Ratio per mille during the weeks ending—	
						10th March 1888.	3rd March 1888.
Cholera	5·1	3·6
Small-pox	1	1
Fever	10·3	8·7
Bowel-complaints	2·8	2·9
Injury	2	2
Other causes	7·6	0·2

indicating chiefly that the mortality from cholera, fever and the maladies classed under the head of "Other causes," had increased to a noticeable extent.

4. That of the abovementioned diseases, cholera, fever and "other causes" proved conspicuously fatal in the following Municipalities, the other diseases exhibiting no special local severity :—

<i>Cholera.</i>		<i>Fever.</i>		<i>Other causes.</i>	
	Ratio per mille.		Ratio per mille.		Ratio per mille.
